Snake puts Power 88 off the air

As many of you may know by now, we have been forced to broadcast from our smaller backup transmitter. This means not only a substantial loss to our coverage area but also a weaker signal in the area that we are still able to cover.

As strange as it may sound, our larger main transmitter was completely taken out by a serpent. Yes, a serpent. A snake somehow found its way into our transmitter building and into the transmitter cabinet before finding its demise.

Unfortunately, it also caused the complete demise of our transmitter. For over five weeks now, we have had engineers and Harris/Gates technicians attempting to repair our damaged transmitter but have had little to no success. We have replaced the main tube, a number of other components and practically the entire wiring system. But, it is still out of service.

So given the situation and the age of the transmitter, our only other logical option is to replace the damaged transmitter with a newer solid-state transmitter.

This is where you come in. As our supporters, donors, underwriters and prayer warriors, we could definitely use you now. We would ask that you prayerfully consider making a special donation towards this project. Not as your normal contribution but one as God lays on your heart to help us during this time of need. This is a costly endeavor but it is one that we are forced to make.

So, even if it is not within your means to contribute at this time, we do ask that

you please continue to keep us in your thoughts and prayers. We also ask that you bear with us as we continue to work through this project during the coming weeks.

Cost of new transmitter for ERP to reach 100,000 watts \$81,721.00

The quote for the new transmitter is shown [HERE](#)

Once the transmitter can be purchased, we expect to be back at full power of 100,000 watts in about 90 days.

[Banks Flagging Purchases](#)

When I first mentioned that banks were urged to flag purchases of Bibles and religious material, I think most of my friends and listeners thought I was making this up. I wish I were. For anyone still skeptical, you merely need to read a few articles or tweets to see what is now being investigated.

Highlights from Letters to Power

Dear WBHY, you will never know how much your station has blessed me and my family this past year. I have learned so much from the programs that is helping me with my teenage son. Keep trusting the Lord in all that you're doing. It touched my heart to hear how you have received the money, little by little from faithful Christians.
