THE PLATEAU • 2004

Student Life

A week full of James Bond, Austin Powers, Sporty Jets, G.I. Jets, and Greek togas ended with a Jet victory over the White County Warriors with a final score of 31-22. The Homecoming theme was 'Caution: Entering Jet Airway'. In keeping with the theme, "LINKED," each homecoming event was given a game to carry the concept of connected events and connected people in our school.

Whether it's traveling over the summer, hanging out on long weekend nights, or turning cars into a work of art, excitement was always key to all activities. Spending the summer in Australia, cruising Main Street, or putting new rims on the car were just a few of the activities that kept students busy and busy working to pay for these activities.

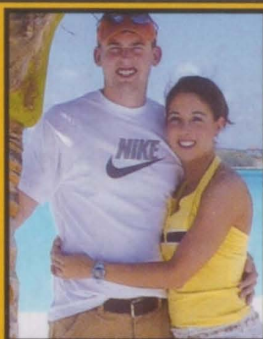

Community events like The Fair and Special Olympics elicited the participation of students within the community. Every year, The Fair came to town. From pageants to livestock, and, of course, the midway, appealing venues appealed for everyone. Students participated in Special Olympics. Some volunteered, others participated, but all had fun.

Monopolized Adventures

Senior Keely Martin comments, "The most exciting part about my trip was when the Grand Canyon exceeded my expectations by being larger than I had ever imagined."

Visiting St. Martins Island in the Caribbean over the summer was true Paradise. Jake and I had a great time snorkeling for shells, eating great food, and spending lots of money. This is something that I will never forget," **states** Senior Kasi Martin.

Junior Meri Woody exclaims, "Well Hurricane Bill put a damper on the whole thing, but we got our belly buttons pierced and it was fun..."

Sophomore Micah McShan, speaking about golf, states, "Well the fresh cut grass and the birds chirping is great. I love this game!"

Being a counselor was a great experience! I learned a lot about myself and really took an interest in the outdoors and helping kids! Plus, you've got to love camp songs!" **comments** Junior Melissa Robertson.

Freshman Margaret Wyatt says, "I was fine but my stepdad was too scared to go by himself; we went together."

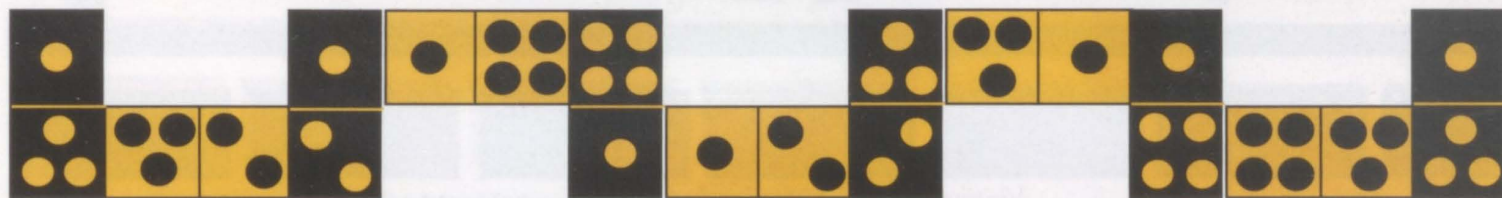

Junior Jillian Jones exclaims, "Golf camp was very tiring.. We went to the golf course and stayed until dark. I learned a lot not only about golf, but what it would be like to play in college. I came home exhausted, but it was worth it..."

Junior Johnny Krause exclaims, "My summer was great. I had a lot of fun at Jillian Jones and Elizabeth Woods surprise party and throwing Katie Brown into the water."

On motocross racing, **Junior Dylan Muehlberger says,** "We kept the tracks hot over the summer! Part of the rush is going as fast as you can and not crashing!"

Homecoming Parade

Were you ready to ride on the floats or ready to play dominoes? On September twenty-fifth, students rode through downtown Crossville on floats constructed by individual classes and clubs. Although line up was hard, it was a successful event. **Ms. LeeAnn Sherrill said,** "After a week of hard work, the parade was a well-deserved reward." **Senior Justin Beaty stated,** "Even though everyone worked so hard on their class floats, the best one was the junior float." However, little did he know that the juniors, sophomores, and freshmen were going down because the seniors won just as they always do! "The seniors have been around the longest so we obtain the most experience of what works," stated **senior Patrick Doss.**

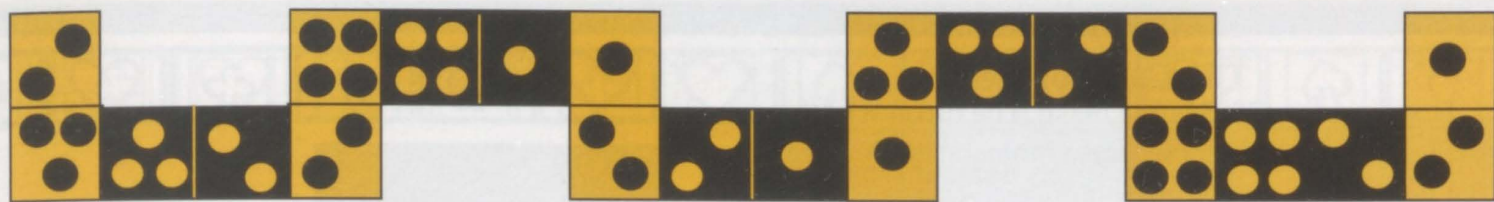

1. Senior J.R. Tinch asks, "Who would have thought how much fun you can have painting poles in the old Wal-mart with Emma and a Belgium exchange student?"

2. "Float construction was great fun. We used lots and lots of white stuff, pretty flowers, and we had the best float ever," states Senior Megan Long.

3. Emma Paquette says, "While I was painting for the homecoming parade, I got to wear this really cool nightgown; it's the new style to paint in."

Domino Effect, Floats Lead The Way

4.) **Senior Ashley Stafford** comments, "My favorite part was seeing Ryan Harlan in that sexy toga!"

5.) "Riding on the float and throwing candy at everyone was the best part about being in the parade," **replies Senior Harlan Cox.**

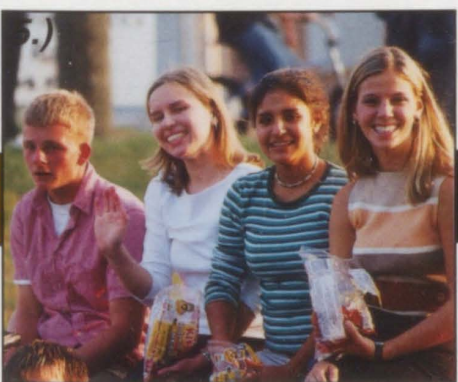

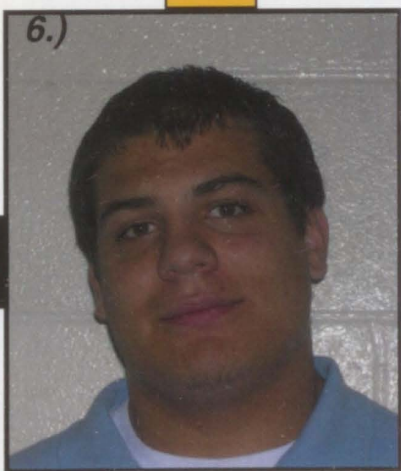

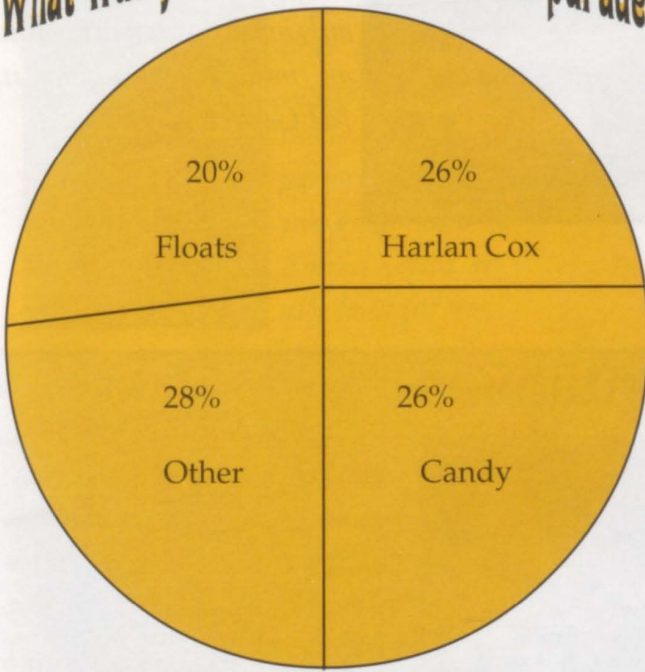

6.) **Senior John Olsen states,** "It was fun hanging out with your friends and throwing candy at people, especially Terry Barker!"

7.) "The homecoming parade was awesome. Who would have thought such a handsome guy like me would sit on a fire truck next to Rebecca?", **says Senior Eric Roseman.**

8.) "It was fun until I got caught speeding," **omments Junior Bryan Jones** pulling the tractor for the freshman float.

9.) "My senior year has been awesome so far especially being able to help my class and work with Jesse, Emma, and Anna. Homecoming was the best!" **states senior Monica Bertram.**

What was your favorite part of the parade?

Students found many ways to entertain themselves, and had a great time throughout the night. Many students traveled to Cookeville for a night of adventure to see a movie or visit with college friends. No matter what one's nightly activities included, excitement was sure to be involved.

THE PLATEAU • 2004

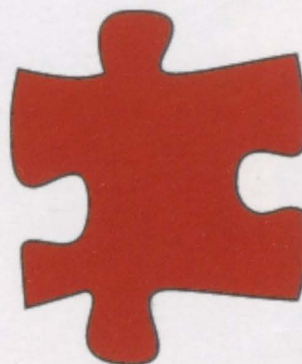

Sports

The crowd cheered as the cheerleaders danced and the players played their hardest.. Football, Soccer, Baseball, Track, Cross Country, Softball, Tennis, and Golf were all outdoor sports teams. These teams played in different weather conditions. They trained hard throughout the year and prepared for the season ahead. Fans played a major part in the sports scene. When the crowds cheered, the players knew they had the support of family and friends behind them.

Sports teams also played inside. Basketball, Volleyball, Wrestling, and Bowling were all indoor sports. Like the outdoor sports, these teams also trained all year in order to have successful seasons. Fans and family came to support these athletes during their seasons. These sports were winter and spring sports. As the cheerleaders cheered for the players, they played their hardest. Thanks go out to the athletes, coaches, fans, and supporters of our sports programs.

Cheerleaders were athletes who cheered both outdoors and indoors. They cheered in the cold, the rain, the snow, and the hot gymnasium. Weather did not keep these young ladies from supporting their teams or from entertaining the fans. They showed spirit and Jet Pride everywhere they went. However, the dance team was strictly an indoor organization. They danced during home basketball halftime as well as pep rallies, and participated in competitions including the Roane State Festival and UDA Dance Camp.

Shooting for Victory

The Lady Jets traveled to team camp this summer at Shelbyville and Tennessee Tech. They competed with the top teams in the state. The team was composed mainly of underclassmen who played well, usually coming just a few points short of **victory**. This was the preparation they needed for the season to come because they were scheduled to play the fifth most difficult schedule in the state.

Several teammates played in the Fall League for the first time this year. Coach Atkinson commented, "This was a great experience!" This young **team** was good for the Lady Jets.

Although the team faced many **struggles** that all teams face because of constant and time-consuming practice, the team began to function not just as a group of players but as a body of one. Jennifer Hood remarked, "The teams' hardwork paid off because we were able to be 2nd place in the region and continue to substate."

Coming Together

The guys did individual skill workouts and practiced 2-3 times a week for the preseason. According to Rodney Howard, it paid off. He stated, "This has been the best year because we are winning. The guys on the team are great, and since we are **winning**, Coach Buck has been nicer." Led by seniors Cody Christopher, Logan Smith, Bryce Jackman, Justin Bell, Rodney Howard, and John Wieland, and underclassmen Danny Cumby, Michael Patterson, and Travis Rice, the Jets ranked in the top 25 most of the season, reaching top 10 at one point. Coach Buck remarked, "There are three keys for having a winning season: defense, rebounding, and taking care of the ball, and our boys take great **pride** in that."

This season was different because of a very balanced scoring attack led by Rodney Howard who had an average of 15 points per game, and by Logan Smith with 14 points per game, closely followed by Danny Cumby and Cody Christopher with 13 points per game. When the season started at the end of October, the Jets gradually started to come **together** as a team. Travis Rice exclaimed, "I think we played our best game against Bradley because we all clicked and knew our places."

Basketball

The J.V. team was a group of young men from grades 9-11. J.V. Basketball was a great tool for players to develop their **skills** in basketball. The key to J.V. was getting better because it was important for each player to improve. If not, then he would get behind. Playing at the AAA level is **difficult** to do. Coach Neil Capps remarked, "As a coach I feel J.V. will prepare these guys for that endeavor. There are eighteen kids on this J.V. team. With this many kids it is important that each feel they have a great **attitude**, and I feel that we have that with this team. I am fortunate to be part of a great group of young men"

I am lucky to be able to work with a dozen of the most talented girls in the school. They are singers, actors, athletes, scholars, and of course, superior dancers! In fact, they are so busy with their other talents that it is sometimes hard to find a time to practice. The dedication of the team shines through-even when they must practice on Saturdays or at 5:30 in the morning! They have tried to keep their sights on the purpose of the team-to promote school spirit through dance. The team is proud of their ability to come together as a team. As visible representatives of the school, it is their job to be the best and most spirited members they can be. Academic Alliance

THE PLATEAU • 2004

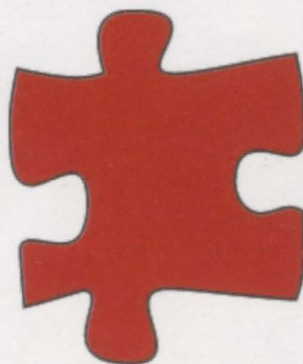

Academics

Academics provided the background and content for students going to college or to jobs directly from high school. Employers and college professors expect students to be proficient in English and Math with social skills necessary to work charismatically with other employees or students. The games used to emphasize academics were the card game of Bridge for languages, the rubic cube brain teaser for science, the childrens' game of shapes for math, and The Game of LIFE for Social Studies/History.

Visual Arts, Vocal Music, Guitar, and Orchestra offered creative choices for the talented student. The games used to tie the section together were Scrabble and Kaleidoscope to enhance the visual effects of art classes and the creative sounds from the talented musical efforts of vocal music, guitar, and orchestra. These talented students performed for community events throughout the year.

The technology/vocational classes had a wide range in career choices for the student who was interested in working immediately after high school. In keeping with the theme, Linked, and with the use of games to link sections, the game of Legos was chosen to emphasize the varied choices offered in the Vocational Department.

Junior Destin Allred explains, "After high school I plan to go to a design school and become a fashion designer so being in Visual Arts has definitely prepared me for that."

Senior Benjamin Daughtery shares, "My favorite aspect of Visual Arts is looking at Mrs. Armes' beautiful face."

Freshman Lindsey Moore states, "It is fun to explore the different perspectives of art."

Junior Josh Brewer explains, "I enjoy to look at the sky. It is what inspires me to make art. It has some sort of entrancing effect on me and the only thing I can do to retain it is to draw."

Junior Matt Walter exclaims, "My favorite project was when we made these hands out of plaster and latex gloves. It was great because we could mold them into anything we wanted. I was great!"

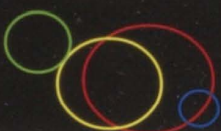

Senior Amber Dixon replies, "Visual Arts is a great way to broaden your imagination. Yes! Yes!"

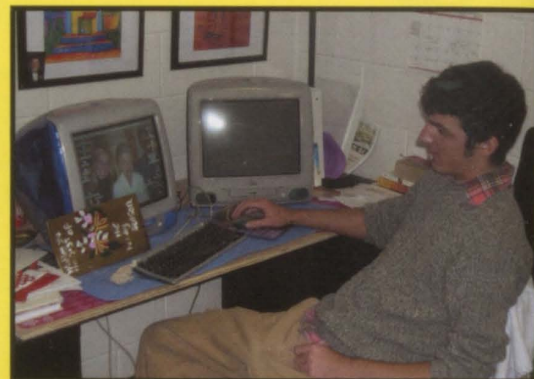

Junior Christopher Conner says, "I think that the projects in class force me to use my imagination. Mrs. Armes can give us some doozies for assignments!"

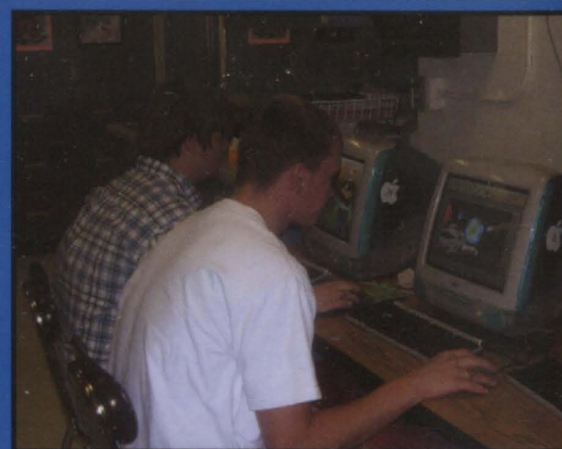

Freshman John Price states, "Computer art has no limit to what is possible. Use your imagination."

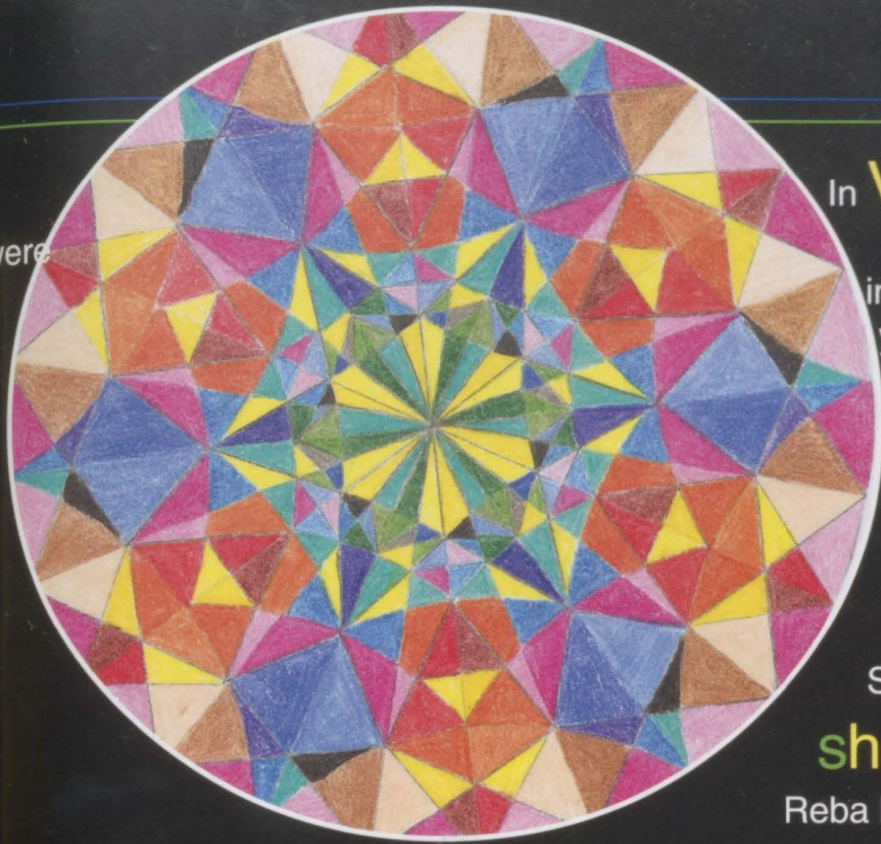

Sophomore Chelsea Mazzell shares, "The hand project was great, I got to get my hands dirty!"

Senior Matt Davis states, "When I learned that the computer was flaming, I had to leave quickly."

Junior Destin Allred shared, "Visual Arts is a lot of **fun!** All of the work is worthwhile."

Hilton exclaimed, "I've won a few 1st places and a 2nd. Won some money. Felt **pretty good**. One picture I did had two rabbits that flew with wings from their hips...over a little girl's bed. That was the picture Ms. Armes lost." Both **teachers and students** agreed that Visual Arts was a successful class. Teacher Ms. Jane Armes stated, "Hopefully, an **appreciation** of all the medias that we have used in the art class was learned. The high school is so lucky that the budget allows the students to paint with acrylic paint on canvas, and all the other medias so we can compete with other high schools in **competitions**."

Senior Mitchell Sexton shares: "Listening to music helps me to bring out my creative imagination."

Sophomore Stevie Sweeny states, *"Spanish is a unique language which I am privileged to learn. I love Mrs. Dunaway!"*

If you had to choose another foreign language to take, which one would it be?

Students were **eager** to learn to read, write, and speak a foreign language as well as improving proficiency in English. Sophomore Nicole Harris stated, "English is a **great** subject, especially when you have Mr. Fields as a teacher. He makes English fun and **exciting**!"

English may or may not have been a challenge for students. Freshman Jesse Hardt exclaimed, "**English** is not as complicated in ninth grade as it is in eighth grade." On the contrary, Anna York said, "Dual English is **great**! We get to eat all the time. It is still hard and I think I'm failing."

Foreign Language taught students about the different customs, **values**, and cuisines of the French, Spanish and German cultures. Sophomore Sherry Greer shared, "Hopefully by the end of the semester, I will be able to **translate** Spanish into English for someone." Students planned to use their foreign language **skills** in future travel. Sophomore Ryan Gibson exclaimed, "I plan on going to **Germany** later on in life, and I hope to use the things that I have learned."

Junior Cheyanne Hardt shares, "Well, I'm not sure what my standard of English is, but I guess it matches the level of difficulty in my Honors English class."

Dual English Student Kristin Kammeyer says, "My English class is honestly more fun than my old one in Germany. We are watching a lot more movies and I really like my whole class."

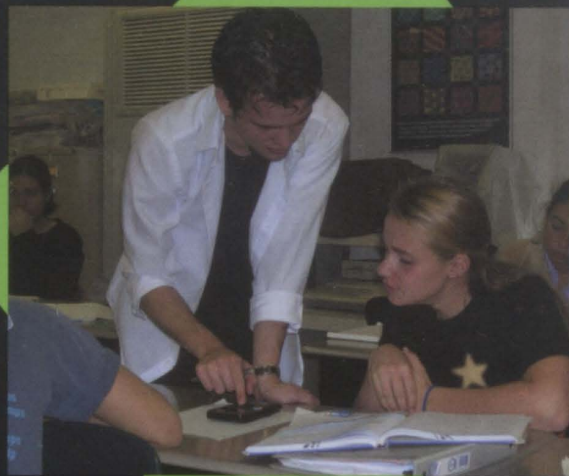

Sophomore Farrah Martin exclaims, "I've learned a lot in English this year. Mrs. Purcell has been a wonderful teacher."

Senior Lisa Roe shares, "Being in Mrs. Sherrill's English class has been interesting. I've learned a lot being in her class. She is awesome!"

Shape your world with Math

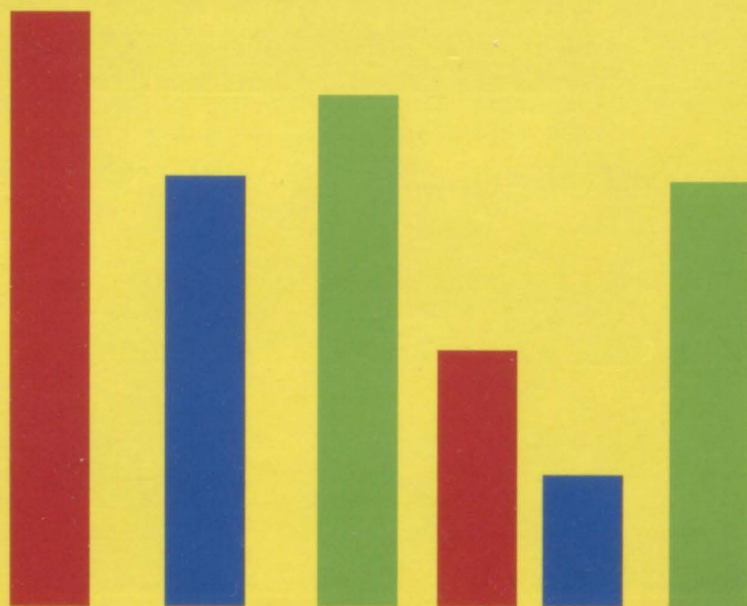

Junior Jill Knaebel exclaims, *"This boy is a brain and you'd think he'd be of some help but Trig is still really hard.!"*

Senior Chris Williams remarks, *"Mr. Hall is my mentor. He is definitely one of the greatest men alive."*

Algebra1 Algebra2 Geometry Trig Pre-cal Calculus

What has been the hardest math class you have taken?

What came to **mind** when math was mentioned? Did equations, graphs, square roots, and letters that represented numbers boggle the mind? Although sometimes confusing, math presented a **challenge** to us, students knew that it took effort to accomplish math **goals**. Senior Holly Dean said, "Math can be really tough, but if you work hard, you will always **succeed**."

Junior Nick Schumann stated, "Math doesn't usually come easy to me in such advanced classes but since I have Mrs. Buck, it comes very easy. She is a **great teacher**." Students believed that working hard was the key to succeeding in the future. Senior J.R Tinch commented, "I know I can **accomplish** great things in my future and math helps me achieve my goals."

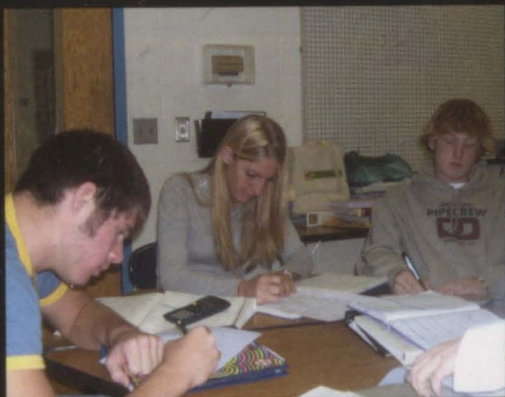

Senior Eric Shaver says, "I took Calculus 1 because you never know when you are going to need to take the derivative of the square root of a limit, and because I wanted to be in there with my friends."

Sophomore Katelyn Smith shares, "On a scale of 1-10, I would rate my Algebra 2 class as a seven because you really have to focus on equations and formulas, but working hard gets you good grades."

Junior Justin Smith remarks, "I believe that I can use the math skills I am learning in Math IV for any career."

Junior Sarah Bilbrey shares, "My head was smoked because of Trig, but with the help of Kyle and James, the smoke has cleared."

Freshman Ashley Campbell states, "I think Foundations prepares me for advanced math classes because my teacher always helps me. I learn so much in that class."

Let Science **Tease** Your Mind

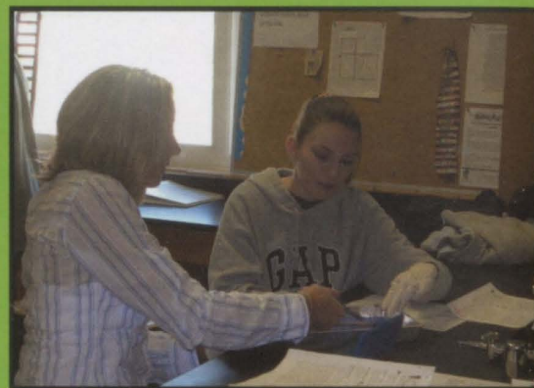

Junior Felicia Davidson shares, "Going on field trips in Ecology is awesome! We are getting out of the classroom and having fun!"

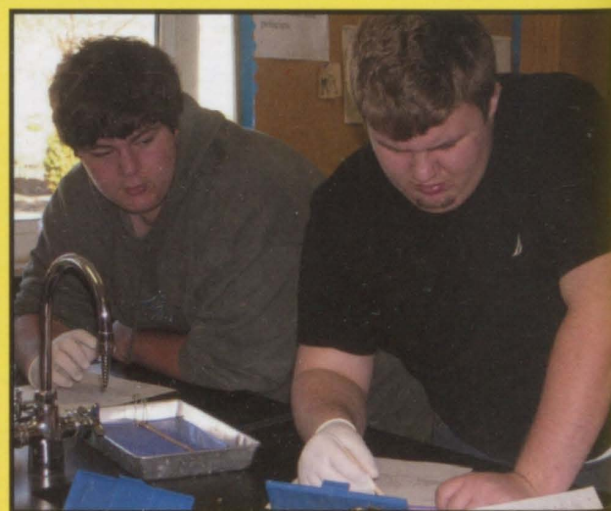

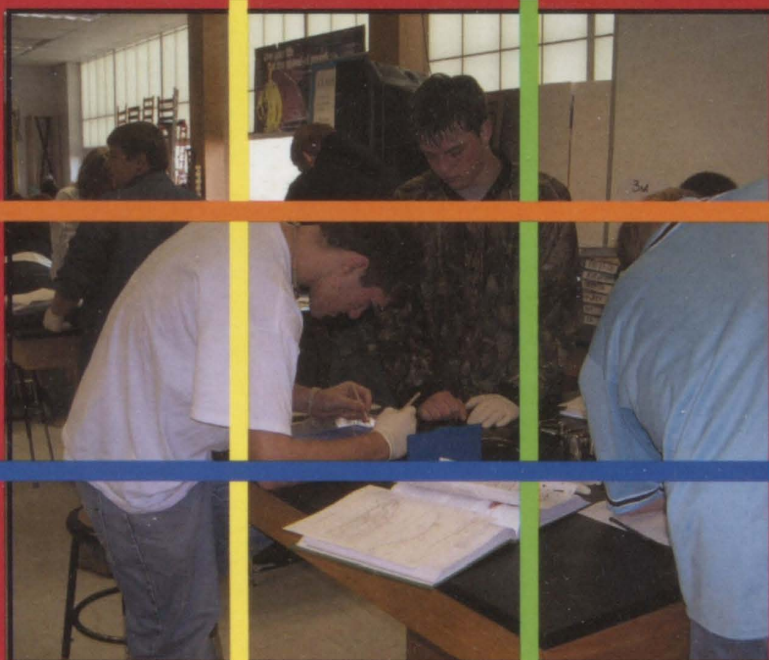

Sophomore Farrah Martin states, "I find the study of Biology interesting because Mrs. Ridge has been such a good teacher. I have learned a lot."

In Biology class, students got the chance to experience the **dissection** of different species like worms, frogs, rats and even cats. "It was the most interesting **hands-on-lab** that we did out of all my science classes," replied Sophomore Summer Niles. These hands-on-labs gave students a chance to get a **closer look** at the animals. "They broadened student's **horizons** and gave them a new perspective on the way **living things** work," stated Ms. Shaffer..

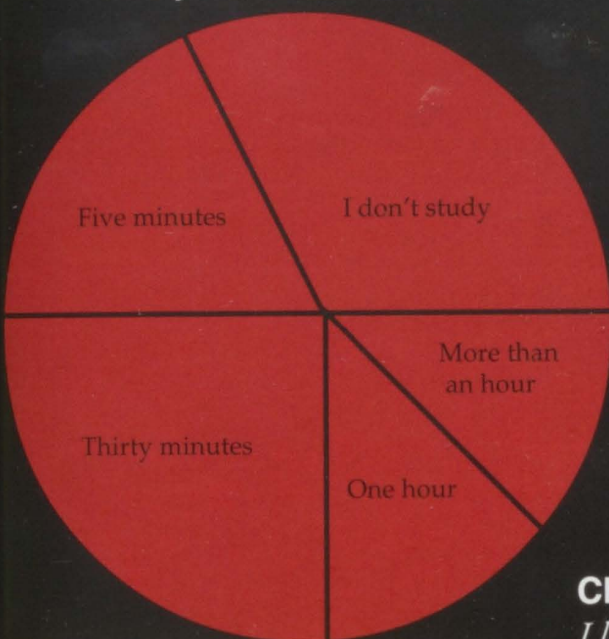

Sophomore Kayla Masingale states, "Biology is so much fun. Dissecting is awesome!"

**J u n i o r

plies, "I know
that I will be
using oxida-

of my life."

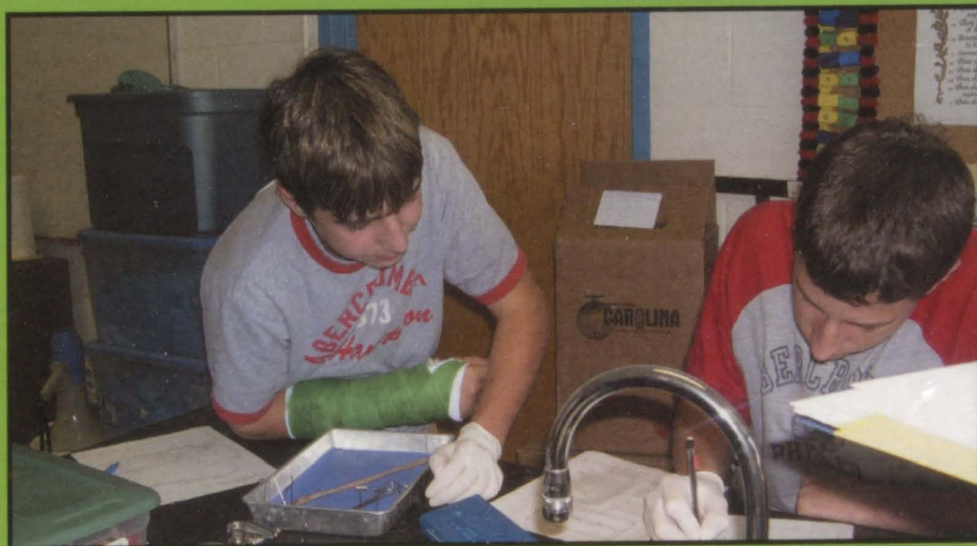

On average how long do you
study for a science test?

Junior Tyler Blaylock
comments, "Dissecting
the worm wasn't that bad if
it wouldn't have smelled so
gross."

Everyday, students were **challenged** with courses in science that ranged from Physical Science to Physics. The hands-on-labs and out-of-school activities helped the students **understand** science better. The students worked hard to reach their goals and objectives. The students did everything from dissecting frogs in Biology to mixing **chemicals** in Chemistry. Ms. Shaffer, ecology teacher, commented, "Each student has a different learning style. I varied the activities so I could teach **everybody** something they didn't know before, but field trips are my favorite way to expose the classes to **real world situations**." In the science department different choices were presented for **opportunities to learn**.

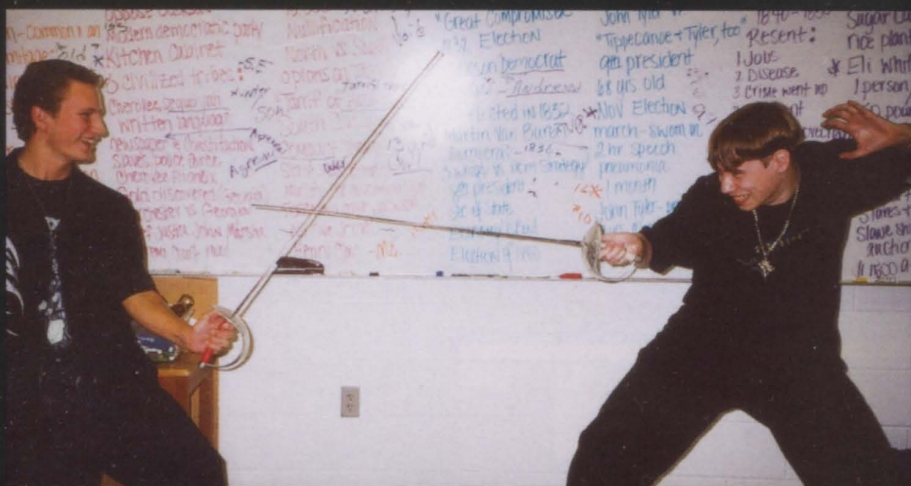

Chase Cahill states, "Dissecting the worm was pretty cool and gross. I learned a lot about the inside of the worm."

Social Studies through LIFE

Junior Kyle Koser shares, *"Mr. Davis makes history so much fun. Shooting the cannon was a blast, literally."*

Junior Josh Bryant remarks, *"This class is great! It's the only class I know of where I can play Captain Hook and not get into trouble."*

As everyday **LIFE** was interrupted, history was being created. The students knew the importance of not only creating history, but in studying the history of the past. Junior Greg Dannels said, "I love being able to learn about history by doing activities that really get people involved." The teachers agree that students **benefit** more from hands on experience as opposed to only reading out of a textbook. U.S. History teacher, J.C.. Davis stated, "The way I teach is a way for students to experience history using their senses and not just words from a book. This helps stimulate visual **learning** which I feel the students benefit greatly from."

Not only was history in the making, but government and economics were also being studied to help give students an insight into the world of politics. Senior Brandon Haney shared, "The skills I learn in government have **helped** me better understand our laws and the U.S. Government. I **believe** that it prepares me for life after high school." Government teacher Mr. Kemmer remarked, "No matter who you vote for, government always gets re-elected." "I guess you can sum all this up by saying that you can learn only so much in the offered social studies classes, but, in the end, you have to know that it's your will and **determination** that will make your own LIFE worthwhile and your history worthy enough for future generations to admire," replied Junior Andrea Wyatt.

Junior Heath Nichols says, "Many moons ago, Mrs. Akins came to me in a dream to beacon me into her class. Ever since then, I've known its my destiny to take honors U.S. History."

Junior Kayla Keck shares, "I love US History because we get to dress up all the time. It makes learning really fun."

Scrabble Vocal Music, Guitar,

Senior Nick Shrum states, "I wanted to learn to play the guitar so I could make millions and buy Bentleys."

Senior Emilee Warner states, "Since they don't offer banjo classes, I settled for guitar."

Senior Shawn Davidson states, "I am inspired to play guitar because I want to show wannabes how to really play music. I want to give something artists have given me back to other artists. Music means so much to me."

Vocal music was an experience most students will never forget. Each semester students **worked** toward themed concerts that impacted many lives. Last fall, the classes presented a program entitled "Levels of Love" that **helped** the community focus on areas that all of us can be involved in such as cancer research, child abuse awareness, homelessness, teacher appreciation, and . Over 1,000 people attended and 1,250 pounds of canned food items were collected. Students who performed got a feeling like they had **accomplished** something great. Like vocal music, guitar was offered to all students as an elective that met the performing arts requirements for most universities. In this class, students were taught the **skills** needed to play guitar through the practice of chords, tablature and music notation. The class also presented a Christmas concert in December which gave the students an appreciation for the necessary practice routine to prepare for public performance.

Vocal music teacher, Ms. Kathy Price comments, "It is an incredible feeling to watch and listen to 200 students singing their hearts out. They affected so many people's lives."

Guitar teacher, Mr. Tinnel states, "It is both rewarding and frustrating to teach so many students. Not all students have the same attitude to learn."

Activities of **Beginning Strings** included a preparation for beginning Orchestra and learning the fundamentals of string playing. Field trips to Nashville, Knoxville, and Chattanooga for orchestra enriched the student's feelings and attitudes toward their music and also gave them a few great experiences that would help them in the future

Beginning Orchestra played at competitions, nursing homes, and for some school functions. "The class played music by Dvorak, Grieg, Beethoven, and Mozart that really emphasized exposure to the classical literature that broadened their perspective on what great music really is," said Instructor Rebecca Bull.

Advanced Orchestra prepared students for music outside of the school setting. Students were prepared to major in violin, viola, or cello as a major in college. Concerts were given at community gatherings with concerts at The Depot, The Cumberland County Playhouse, and The Palace Theater. Junior Andrea Wyatt replied, "Performing is energizing and uplifting when we are good. We understand then why we must practice."

Walking down the technology wings, the aroma of baked cookies filled the air, the soft pecking of keyboards could be heard, pictures were being developed, and piles of sawdust had accumulated on the floor. Sophomore Amber Mullinx stated, "Family and Consumer Science helped me alot because I didn't know how to cook and now I can, slightly." Students were getting hands-on experiences to help them prepare for everyday life in the future. Tiffany Dearmon commented, [I like Family and Consumer] "because you get to learn where your money goes." Keyboarding helped students develop skills to better prepare them for technology used in the work place after high school. Passing by shop class, one could see eager young students measuring, sawing, and nailing pieces of wood together to make trusses and cabinets for the spec house.

In short, whether students were measuring flour, to bake a cake, measuring lengths of paragraphs for a keyboarding test, or measuring lengths of wood for a shop project, technology classes taught students the skills to help put the building blocks of life together for a successful future. Mrs. McDonald exclaimed, "All students need to take classes on V-Wing. The teachers are great, hardworking, and caring-especially Brenda McDonald!"

Senior Michael Newcome states, "Mr. Freeman is the best teacher ever. He makes this class fun."

FTA

Teaching Through Learning

The members of Future Teachers of America were students that remained

involved in the community. The mem

bers were interested in the teaching pro

fession. The club gave the members the

chance to job shadow, go to conventions,

participate in Read Across America,

assist with 8th grade night, as well as

have some fun with fundraisers. They

recognize the teachers and staff during

American Education week and on

We were your **elected** group of students with one **voice** and the **driving** force that works hard with **the administration** to serve the student body. We were **crazy** enough to meet Wednesday and Friday at 7:00 a.m. **,so you** could enjoy upcoming events for the school year. THE PLATEAU • 2004

Division

We came. We saw. We conquered. Our four years passed by quickly. We entered the doors as insecure and naive freshman in 2000. Overtime we acquired the skills that we would need to make major decisions in the future. The Class of 2004 anticipated the sweet rewards of being seniors, and the delicious possibilities of entering the world as functioning adults who had earned respect and admiration from peers, teachers, and parents for a job well done. In that short time, we bonded. When the time came to graduate, we had every reason to be excited because we were about to embark on independent lives that we would choose.

The Class of 2006 had big burly guys and cute little chicks who were relieved to no longer be freshman and the Class of 2005 who had Operation Jet Pride entered a whole new world of scholarship hunts and career choices. The middle years of high school had to be dealt with by surviving the perils of relationships, driving without accidents, classes without friends, and lunch without soft drinks. Was it any wonder that we couldn't remember to do chores at home after all the stress at school?

The Class of 2007 lived in the fantasy world of British intelligence and pretended to be James Bond, Agent 007. That theme meshed with the use of the game, Connect-a-Dot, was used to link the student section and Guess Who was used to link the faculty section to the rest of the book. Fantasy, imagination, and intelligence would be the tickets for surviving not only the freshmen years, but the next three years as well.

Savanah Renee DeRossett

Valedictorian

I strongly believed that one could achieve anything one wanted if one worked hard. I made becoming the Valedictorian a goal when I was in the sixth grade. Hard work and dedication, along with the support of my family and friends, helped me achieve my goal. I think everyone has the ability to achieve goals with the right mind set.

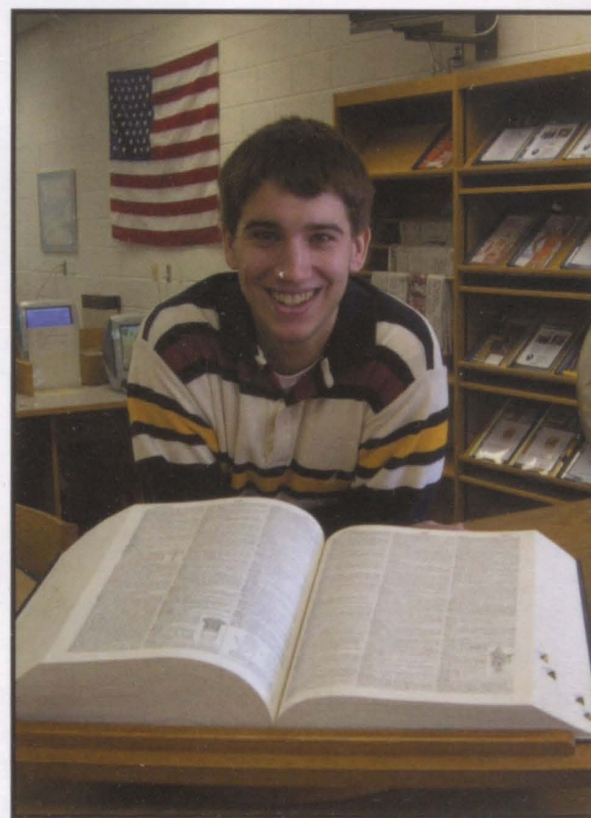

I am very honored to be the Valedictorian of the Class of 2004. I would like to thank everyone who has touched my life in some shape, form, or fashion over the years. I thank God for the blessings he has given me throughout my life through my experiences and for the people I have had the honor to know.

Never lose the drive for what you want out of life. I want to wish everyone the best of luck in life, and I truly hope that all of your aspirations come true. Thanks everyone! Good luck in all that you do.

Salutatorian

I am grateful to be able to be able to represent the class of 2004 as their Salutatorian. The last four years have been an experience that I will never forget. My philosophy has always been to do the best that I can. Grades were not as important as knowing that I had tried my best. There are many people who helped me through the years. My family, caring teachers, friends, and fellow classmates contributed to my success and I could not have accomplished my goals without them.

Academics were not the only important part of my education. I also learned my life lessons from sports. I would like to thank my coaches and fellow teammates for their guidance and support. The same work ethic applied in academics and sports; work hard and great things can happen.

Playing With Fire

Jake DeRossett

Outside the plain, white walls of high school, Jake DeRossett performed many extraordinary services. Jake was a volunteer fireman for two years for the Central District in Crossville. Following in the footsteps of his father and brother, Jake answered calls whenever he was available. After he signed up at the city fire hall, he attended three months of "rookie school" where he learned truck driving and how to use his gear. Jake was ready to be a volunteer. He had different duties and responsibilities to fulfill when volunteering. "It depends on the call," he said, as to what he had to do. Although he did not get any benefits or rewards, Jake said, "I enjoyed the work I did."

"Coming to America"

From Germany to America

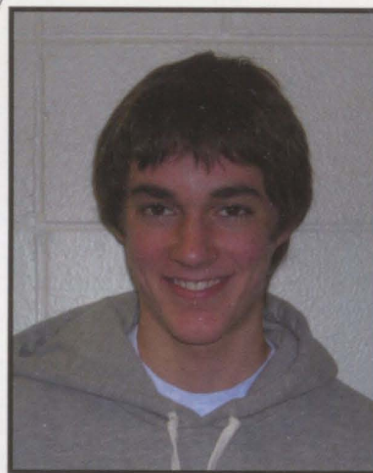

If students thought that staying away from home for the weekend was hard, then imagine how Kristin Kammeyer and Christoph Grober felt. Kristin and Christoph left their friends and families in Germany in early August 2003. Kristin and Christoph traveled at least 4,678 miles on their flight to America.

They were not able to choose specifically where they would spend the year, so Crossville was a surprise. Depending on the organization used, a student may never know exactly where he/she

Kristin Kammeyer

were going. "My organization, said Christoph, "let me choose Southeast, North, etc." Although they did not know they would come to Crossville, they both

Christoph Grober

enjoyed their stay. "It's really cool," said Kristin. Why exactly would someone want to leave their home for a year, to study abroad? "I wanted to meet new people and see a new

country," was Kristin's reason. Christoph said, "I wanted to run away from home." Kristin and Christoph were here until the end of the school year. They enjoyed their classes as well as their teachers. As for future plans, Christoph planned a career in engineering, and Kristin wanted to be a biologist.

College Answers

Walter Yehl applied to eight colleges by the end of his first semester as a senior and was accepted to three. One of his most desirable colleges was Rose-Hulman Institute of Technology in Terre Haute, Indiana. Walter planned to major in engineering, so this affected his decision. While choosing which colleges to apply to, Walter said, "The college should be well-known and have good engineering programs."

After just a very short time, the Class of 2004 said good-bye to everything we had known for the past four years; taking only a moment to reflect on the past, because we were excited about the future.

We began this adventure when we walked into the lobby for the first time in the Fall of 2000. Our first football homecoming was complete with Hawaiian shirts and grass skirts. During our sophomore year we rocked to the 50's, and, as juniors, we were movie stars, but, to end it all, we had one big toga party! Of course, it was only tradition that the seniors would take first place in the float and lobby decorations.

Over the years we conformed to a dress code with collared shirts, only to see our favorite T-shirts come back. We won games, matches, races, talent shows, and beauty contests. Our exceptionally diverse class remained friends through it all.

We would like to leave the underclassmen a piece of advice. "Make the best of the four years because they pass only too quickly." To the faculty that stuck with us, "Thank you for the friendship and guidance that you have given us. You gave us the knowledge and strength needed to make decisions in the future."

Although our paths divided in May, we will forever remember our Class of 2004, and the friendships that we made.

The Class of 2005 devoted much of their time to planning ahead for their senior year. The juniors worked hard to raise money for the class. One fundraising event that was organized was the Sweetheart Pageant. It was a success once again! Also, the first Ring Ceremony was held for the Class of 2005. It was at this Ceremony that the Juniors received their class rings and made a promise to graduate.

Modeling

I first started modeling when I was about three years old. It was then that I decided modeling was something I would like to make my career one day. Since then I have added acting and designing to my list of possible careers. Hopefully through modeling, other doors in the industry will be opened for me.

I started out doing small fashion shows for department stores when I was five. Then I moved up to doing Harry Lane commercials with my mom and sister.. After that, I modeled off and on for a while. When I was 14, I signed with Wings Modeling Management in Cincinnati, Ohio. They are my current agency. I have modeled in Elder Beerman catalogs and have met with NEXT modeling management and Ford models in New York, and I was one of the top 15 finalists in the NEXT/Wings Fresh Face Competition, and I hope to sign with NEXT in the near future.

Rock Climbing

It seems like just yesterday I had my hair fixed, nails done, a full coat of makeup on, and I was wearing all the latest fashions. Now, you may ask what this has to do with climbing, but since I started climbing I have viewed life in a completely different way. Now, material things don't seem to matter as much as they did before I started climbing.

I first started to climb in 2003 at the Crossville Housing Authority Building (yes, we do have an indoor climbing wall in Crossville). Once I started, I was addicted. Soon after I had been on the indoor wall, I was ready to try climbing on "real rock". Real rock is very different from the wall. The wall is color-coded to make climbing easy to an extent, but real rock has no coloring at all. It is just a mountain with a few nooks where you might be able to put your foot or hand.

The environment is the best thing ever. There is no greater feeling than being 100ft. in the air, hearing birds chirp, the river flowing; it's just you and nature. Once I started climbing outside, I fell in love with the outdoors. I actually liked being dirty and not having to worry about what I looked like. Soon we started traveling three to six hours just to get to a good crag or climbing area. Then we would have to hike three miles up a mountain in the rain or at night with all of our camping gear, food, water, and plenty of other things that we didn't really need.

It really isn't possible to tell anyone in words how rewarding it is to hike up a mountain and then climb 200ft. to the very top and to look back at all you overcame. It's probably one of the most rewarding things I have ever done.

Climbing has made me look at life in a completely different way. I have found a bond between nature and myself that is so awesome. I have also gained so many powerful friendships. Climbers have a unique quality that makes them all seem like family. They all have a respect for nature and themselves and they welcome everyone into their "family" right away.

I think it is safe to say that climbing is like an addiction; being on a mountain is a natural high to me. I'll sum it up this way, "Climbing is the altar upon which I sacrifice any and all my virtues, my pride, my self-esteem, my time, and my life."

BEST FRIENDS

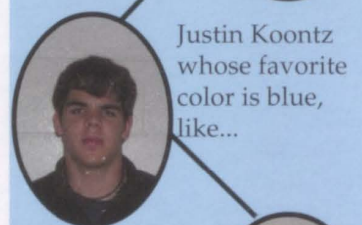

Brianna Limberg and Ashley Keck have been best friends for five years. They had their ups and downs as well as their different interests. They made it through the little spats and arguments and still were able to maintain a wonderful friendship. There was a special bond between Brianna and Ashley. They were there for one another through celebrating achievements to sitting at the hospital telling each other it will be ok. The girls said, "The secret to a good friendship is allowing each other space, having different friends, and different interest, without getting mad or jealous of one another." No matter what comes later in life, the girls plan to grow old being best friends.

I started riding horses by myself when I was about five years old and started showing horses when I was eight. I won my first equitation championship when I was eleven years old on a Spotted Saddle Horse at the 1999 SSHBEA Fall show. I began showing walking seat equitation in 2001 and leased a flat shod horse named, "Ebony's Shinning Pride," where I won the Flat Shod International Equitation 17 & Under Championship, and the Tennessee Walking Horse National Celebration 12-14 Equitation Championship. In 2002, I purchased "Reggie" and won the 2002 Tennessee Walking Horse National Celebration 12-14 Equitation Championship and the 2002 & 2003 WHOA International Equitation World Grand Champion. I also won the SSHBEA 12-17 Equitation Championship in 2003 on our spotted mare, Alen's Pure Honey", and coached the SSHBEA 11& Under Champion on her, "Angel's Golddigger". I am currently involved with several horse related youth organizations, and I give riding lessons. In the future, I plan to be a riding instructor and possibly a show ring photographer.

Faculty

We had over one-hundred employees. With the help of teachers, custodians, cafeteria staff, and administration, we had an enjoyable year. We had a few new additions to the CCHS family. One of which was Maranda Boston, who taught World History and Government. The faculty encountered new student faces. In this section, we encourage you to play our Guess Who game. We have selected one inspiring teacher to be our Guess Who person.

GUESS WHO?

Community Connection

THE PLATEAU • 2004

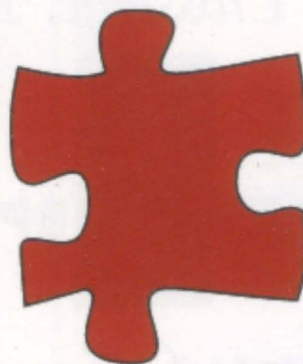

The community played a major role in supporting students. Many local businesses throughout the area became loyal patrons to this publication. From twenty dollars to three hundred dollars, the community generously offered their help and support.

The time came to break out the embarrassing photos to show to the student body! Personal ads were sent in to honor and congratulate special seniors. Families and friends have shown their support by sending messages to recognize their senior's achievements

Thanks to local business support in the Upper Cumberland area, year-book prices were greatly reduced because businesses purchased ads. By purchasing advertisements, they helped make a more cost-efficient publication for the student body. Due to technological advances, the yearbook was able to be an all color publication. Now business could go one step further with advertisements by adding color. Because businesses purchased ads and helped reduce the price of this publication, the yearbook remained affordable.

"Success: To laugh often and much, to win the respect of intelligent people and the affection of children, to earn the appreciation of honest critics and endure the betrayal of false friends, to appreciate beauty, to find the best in others, to leave the world a bit better, whether by a healthy child, a garden patch, or a redeemed social condition; to know even one life has breathed easier because you have lived. Irvin, A. Mathews, G. Owens, J. Routh, A. San Nicholas, N. Taylor, C. Temple, W. Yehl, Ka. DeVore, Ky. DeVore, W. Stanfill, S. Bilbrey, M. Davis, K. Green, B. Mini, H. Nichols. Both Semesters: T. "Good Morning CCHS! This is your morning news brought to you by the 2003-2004 Multimedia Class." Sound familiar? The Multimedia class broadcast news about clubs, lunch menus, food drives, and scholarship information. They worked tirelessly to create an award winning news cast to put the students and faculty in the know.

Everyone had a job that they needed to perfect in order to make the anchors look as good as possible and to make sure they didn't have to do more than one take on a simple scene. The cameramen, the anchors, the sound crew, and the editors all worked together to make sure that everyone had the idea. Senior Richard Saunders stated, "Behind the scenes the crew works as a professional team. We are all friends and we work well together."

Connecting you to the world.

Junior Kyle DeVore states, *"My favorite part of Multimedia is being able to follow in Corey's, Roy's, and Derric's footsteps and making films that change the world for the better."*

Senior Jimmie Jeffries remarks, *"My favorite part of Multimedia was getting to fill out the little cards asking me my favorite part of Multimedia."*

Senior Christoph Grober exclaims, *"My superior German intellect could propose millions of fascinating thoughts concerning the challenge of Multimedia, but I doubt you are able to understand them."*

Junior Rebekah Smith states, *"As an anchor on the announcements, I can brighten up everyone's day by letting them see my face every morning."*

Sophomore Katrina DeVore says, *"The best part about Multimedia is learning new things and meeting new people everyday. I can't wait for next year!"*

Senior Mike Roney says, *"Working for Mrs. Dunigan is GREAT! Everyone should be so privileged as to be subjected to that beautiful, lovely lady."*

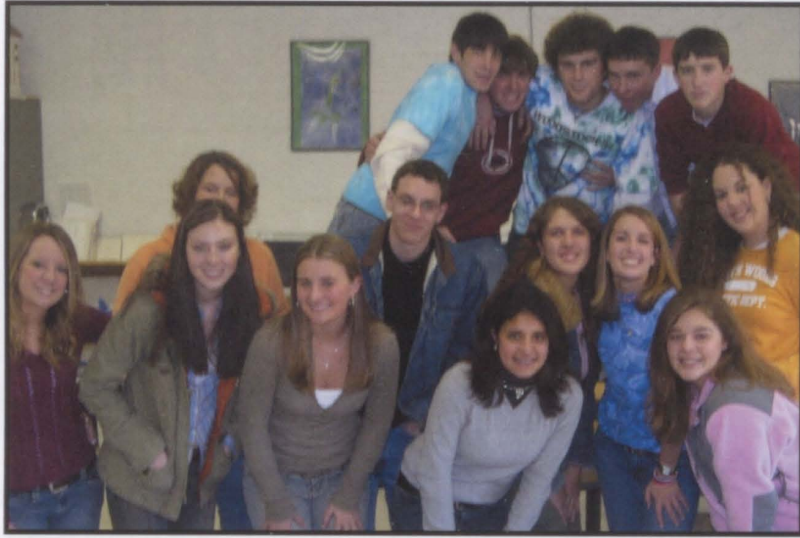

Junior Trent Davis replies, *"I run the computer and played the music. I also trained many of the new students."*

Sophomore Katie Brown states, *"My job is to make sure that the sound is working and correct the titlemaker each day. I really like all the new things that you have to learn."*

Yearbook

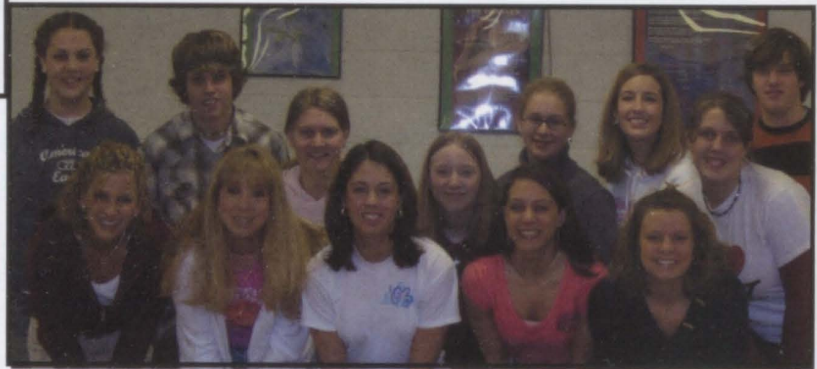

First Semester: K. Adkins, F. Baehner, M. Bertram, S. Bilbrey, M. Brady, J. Calligan, T. Crabtree, L. Cross, H. Dean, J. Eberhart, L. Fitzgerald, C. Foster, B. Haney, S. Hassler, J. Hyder, A. Keck, B. Kennedy, R. Lintin, J. Mayberry, G. McDuffee, N. Ogle, L. Pennington, B. Phillips, W. Sidwell, C. Stone, J.R. Tinch, A. Tolliver, A. Vinson, A. Whittaker, C. Whittenburg, A. Allred, D. Allred, T. Barker, R. Barnwell, J. Bell, A. Boring, R.G. Cravens, D. Darling, H. Eldridge, T. Fitzgerald, J. Gibson, A. Hale, K. Harrelson, B. Hickman, K. Hinkle, B. Jackman, B. Kilby, K. Martin, S. Perrigan, D. Roysden, N. Shrum, L. Smith, K. Ward.

Before the construction of the Yearbook began, much thought was put into the main theme and ideas for the book. After all, the first all color book was to be published by these classes. Yearbook Camp was where the advisor, editors, and section leaders brainstormed to find the theme, LINKED. The team was looking for a theme to ensure the maximum number of exposures for each student. Of course student participation would be required.

The First Semester Yearbook classes worked hard to meet the first three deadlines of the Yearbook: student life, sports, academics, and people sections. The Second Semester class worked on the supplement and the index.

Long hours worked after school, missed lunches, and the persistent patience of the yearbook staff were elements that made the yearbook possible. Senior Leah VanWinkle remarked, "When working in yearbook, don't make lunch plans. I learned quickly to bring a snack to school. Staying after school was necessary to complete the book. That wasn't always fun, but hey, you have got to do it for the school!"

Second Semester: R. Day, Ka. Martin, Ke. Martin, J. Yates, B. Patton, C. Suber, L. Vanwinkle, J. Cooper, A. Wyatt, K. Keck, Bustamonte, K. Kammeyer

Both Semesters: A. Gilliam, M. Bowen, R. M. Chastain, C. Brown.

Senior Mariah Bowen comments, "Yearbook Camp was great!. Andrea and I brutally fought for the front seat every morning. We learned a lot of cool stuff, and Diana's pink shorts weren't too distracting. In the end, it was all Ashley's idea, and dinner was awesome thanks to Ms. Wyatt!"

Senior Brandie Phillips says, "The best part of being in Yearbook is going out and talking to students."

Linked to Memories Made

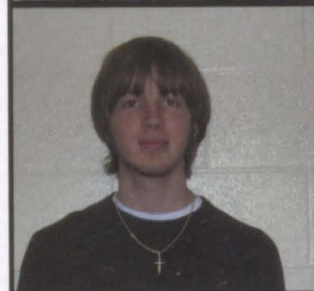

Co-Editor, Senior Ashley Gilliam says, *"Being an editor is a lot of hard work, but after all of the DEADLINES are met and all of the PROOFS are corrected and the finished book arrives, the hard work is worth it."*

Co-Editor, Senior Mariah Bowen states, *"Being an Editor comes with a lot of responsibility, but it's cool. I feel like a Yearbook princess! My psychiatrist told me if I work hard, the dreams of yearbooks falling on me will stop."*

Junior Andrea Wyatt exclaims, *"Yearbook is very stressful and takes a lot of dedication and hard work. Not only do I get to work with a great staff; I get to work with my mom too! Oh what fun!"*

Senior R.G. Cravens replies, *"The best part about being in Yearbook is being able to work on something that is important to the entire school."*

Junior Diana Darling states, *"Yearbook is like an out of body experience. All of the deadlines and stress, Wow! That is all OK because I was in there with a lot of my friends...!!"*

Senior Melissa Chastain says, *"My favorite part about working on the Yearbook is complaining about the computers that keep corrupting my pages."*

Senior J.R. Tinch remarks, *"My favorite part of Yearbook is going to Wal-Mart and being the leader of a doughnut smuggling operation."*

Junior Rebecca Cooper states, *"A Yearbook is like a giant cookie, it won't be good without its sweetness, its crunchiness, or its nuttiness. An of course, I will never forget the way Mariah and Andrea yell at each other."*

Junior Britney Kennedy replies, *"My favorite part of working on the Yearbook was getting to redo the Academic section four times! Don't you just love computers."*

Senior Anna Boring replies, *"The best part about Yearbook is being able to put together your final memories of high school and knowing all the hard work paid off."*

Junior Kayla Keck exclaims, *"The most fun thing about Yearbook is getting to design new pages and listen to Mrs. Wyatt try to come up with titles."*

Senior Michelle Brady says, *"My favorite part of being on the staff is getting to work on the Senior Directory. It was hard work but I am glad that I got to be part of the Yearbook making."*

The Freshman class showed great school spirit by helping the Yearbook Staff conduct surveys for the theme Linked. As a consequence, the Freshman filled up quickly with Links. To include all the Freshman we added four extra pages to make sure everyone got in the Yearbook. Jigna Patel says, "I'm glad that I got to help the yearbook staff by completing the survey to help with the theme, "linked."

Principal Paul Hodge

Mr. Paul Hodge added "quiet dignity" to the school environment in his ten year tenure as principal. His love for education was easily seen by everyone who came into contact with him through the everyday dedication he showed to the students. Students and faculty, alike, could see Mr. Hodge stopping to pick up paper from the halls or could see him wielding a mop when an accident occurred. During his tenure he has been the epitome of a caring, professional educator. We have been proud to call him our principal, and we would like to wish him a happy life during retirement. For these reasons, the yearbook staff was honored to dedicate the Forty-First Edition of *The Plateau* to him.

Vice Principal Hollis Bolin

Mr. Hollis Bolin reassured both faculty and staff that safety and discipline were top issues for him during his twenty-seven consecutive years in our school. After beginning his career here in 1971, he left C.C.H.S. to teach in Georgia until his return to C.C.H.S. in 1977. Even though he has been a respected man who knew when to be serious, he also knew how to have fun with students and faculty. He has worked nonstop to keep our school safe and to teach responsibility to the students. The yearbook staff took great pride in dedicating the Forty-First Edition of *The Plateau* to him, and would like to extend best wishes to him in his retirement.

LINKED

The advisor and editors brainstormed for weeks for a theme that would be a viable, workable theme for the 2004 yearbook. *LINKED* was the theme chosen for its wide range of possibilities. *LINKED* showed the unity and cohesiveness of the student body. The yearbook staff worked hard to connect the students in the school by having *EACH* student complete an extensive survey at the beginning of the year. The responses to these surveys were used to *link* students by interests or by characteristics that they had in common. This idea brought the students together as a body. Games were used to represent each idea in a section. On the cover, student pictures were placed inside puzzle pieces which were spread apart on the back but came together to form the concept of one big picture on the front to symbolize the “*oneness*” of the student body, administration, faculty, and staff.

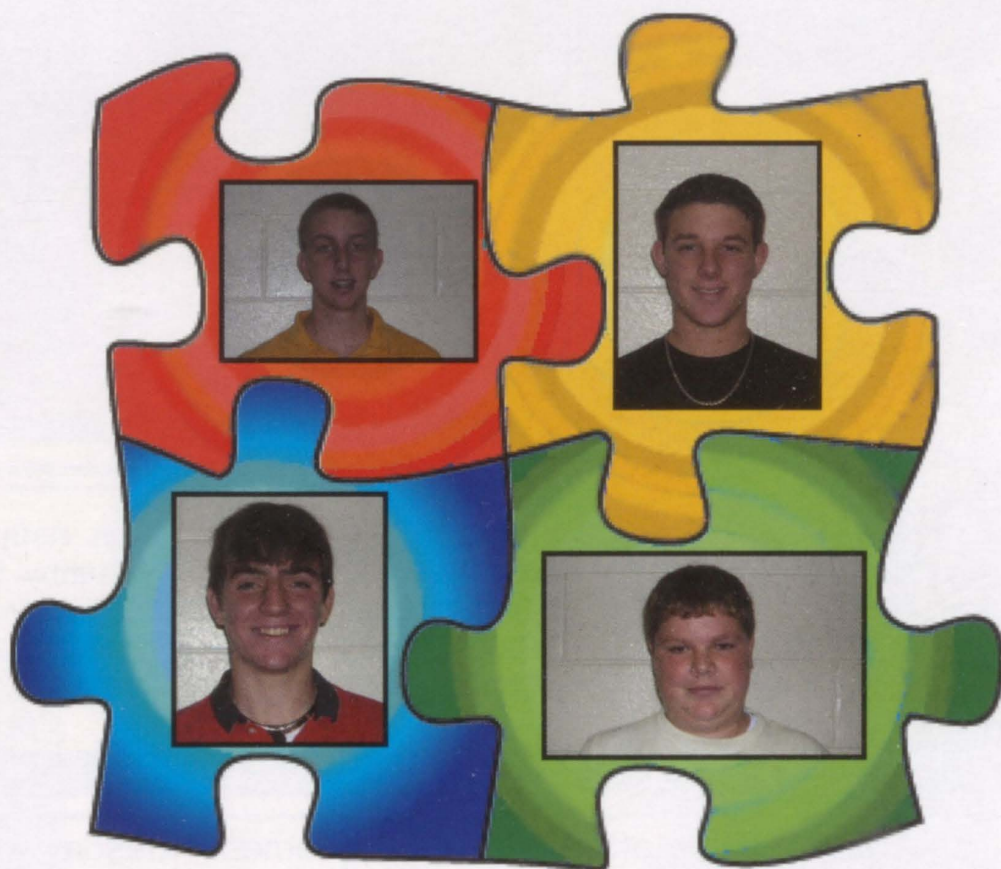

THE PLATEAU • 2004

Colophon

The theme of *The Plateau*, Volume 41 was “Linked” with the concept theme of unity. These books were printed by Josten’s Printing and Publishing Company in Clarksville, Tennessee. Each book consisted of 248 pages. The cover was T-292 Light Blue background, with a Royal Blue border. Puzzle pieces were used with students’ faces placed in them. The front and back endsheets were yellow. In the back, this year’s graduating seniors’ names formed the date 04. The typestyles were Dancing Comfort, Kindle, First Home, Stylebrand, Palatino, Helvetica, Olive Oil, Numbscull, and A Garamond Italic. *The Plateau* 2004 was produced by a staff of 80 students along with advisor, Ms. Branda Wyatt and editors Ashley Gilliam and Mariah Bowen. Special thanks goes to the CCHS faculty, advertisers, Donna Eberhardt (consultant), contributing photographers, Southern School Photography, and Art Sanderson’s photography classes as well as Josten’s Representatives, Harold and Jason McGehee and plant consultant Anissa Coleman. The cover artist was John Doubler.

Track and Field

The season began in February with many challenges. With a new head coach, the team had some **adjustments** to make. According to Crystle Sturgil, "Track season was a lot different this year. Coach Rock is gone, and we need him back."

Preseason practices consisted of improving strength, **stamina**, and mental mind set. Practices were extremely strenuous and **grueling**. Allison Authier commented, "As a returning runner, I felt that preseason practices helped me to improve a lot." Long sprints, short breaths, and sore muscles were the thoughts on these athletes minds, but tons of **water** got them through the sprints, shortness of breath, and sore muscles.

The teams that the athletes were scheduled to compete against were **tough**. The Jets and Lady Jets didn't let it get to them, though. Their season ended with a record of 20-4, while the Lady Jets **finished** the season with a 16-8 record. At the end of the season, Coach Ray Meyers remarked, "The Jets and Lady Jets had some outstanding performances and have potential for improvement and continued **success**. I was proud of all of our athletes."

Homerun for the Jets

The Lady Jets began working out four days a week in November, like girls all over the state do. Their second place finish in state last year set the expectations for this season even higher. Senior Crystal Dunbar said, "We all go on the field with **determination** to play our best." Working out was the preparation they needed to start the season.

Practices started in the middle of February, but the Lady Jets were on the field for three and a half hours a day. Senior Savannah Filley stated, "Working out all year is hard work, but we know in the end it will make us **successful** as a team." Even when the weather kept the players off the field, they found a way to practice inside.

Their hard work was recorded. The regular season ended with a record of 30-5 which sent the girls to district with 8-0. The Lady Jets had five members named to **All-District** team: Lindsey Brown, Savannah Filley, Christa Findley, Jill Knaebel, and Jillian Jones.

Next year's team will have to work hard to replace this year's five graduating seniors. Junior Jill Knaebel commented, "We will miss our seniors this year, they have been a great **asset** to the team."

Association of the Best

The Intramural Basketball season started with sign ups in the gym. Senior Ross Temple stated, "I chose to play intramurals just for **fun** and talk trash to the coaches."

A total of six teams were formed with different ages and skills. Coach Matt Miller stated, "It was a fun time, everyone involved made my job a lot easier."

The teams **practiced** without coaches to get ready for their games which were played on Saturdays and Monday's. Jason Atkinson, along with other teachers, made up the coach's team. Atkinson stated, "It is always a **blast** playing basketball against the high school boys. They think just because we are old, slow, fat, and can't jump that we can't play ball. It is always a great time."

During the tournaments the teams started to dwindle. Certain skills were required to play basketball. Senior Kyle Armstrong stated, "Basically what you need here is some hard work and **dedication** along with your basic dribbling, defense, offense and shooting skills."

Intramurals was a chance for the student body to become **involved** without feeling obligated to form a team. Coach Mark Wattenburger stated, "I think anytime kids are involved in something positive, it gives them less chance to get into trouble."

Pretty Pretty Princess

The sweetheart pageant was held at Grace Community Center on February 21, at 4 o'clock. Due to a snow day the original date of February 7th pushed the date two weeks later. Freshman Tori Smith stated, "I was really disappointed, but that gave me more time to get ready." Thirty-seven beautiful young ladies competed for the title, but, in the end only one could win. Fifteen girls were selected to answer a group of written questions. Director, Tammy Frady let the parents participate by writing a special note to their daughter showing that she was beautiful inside and out. Senior Kasi Martin remarked, "The letters from our parents were really sweet! Everyone was crying. Thank you mom and dad for making me feel special! I love you both!" Pink Tulips were the flowers of choice because they symbolized the beauty and sweetness of each contestant. Senior Casie Foster remarked, "In my opinion the flowers were beautiful. It looked like a fairy tale's magical kingdom." After the judges tallied the score, four winners were selected. Senior Lindsay Hill was crowned the 2004 queen, followed by her court. The ladies were asked to vote for Miss Congeniality. Tessa Burgess was selected as the representative because she showed compassion, poise, and grace.

1st Runner Up

"I feel that Susan B. Anthony was the most influential person in history because of her dedication and energy to the Women's Rights Movement. Thanks to her, women are treated as equals," comments senior Melissa O'Neal.

Queen

Senior Lindsay Hill remarks, "Being Crowned the 2004 CCHS Sweetheart was truly an honor. I had a blast with the girls and it was just an amazing experience I will never forget."

2nd Runner Up

Junior Jana Robbins states, "I was very surprised to even get in the top 15, let alone place. I just wanted to have fun and support the junior class, so I was very proud of the results."

3rd Runner Up

Senior Anna York says, "I have become more comfortable on stage and closer to my friends. My four years in the pageant have been great!"

Director

Sponsor Mrs. Frady replies, "My job was to gain funds for the class of 2005's prom. My purpose was to encourage each participant to feel good...about being beautiful from the inside out. I could have not done it without the help of all the junior sponsors! It was worth it all!"

Miss Congeniality

"I was very shocked to receive the Miss Congeniality award because I think it is such an honor to be voted for. I never thought that I would ever get it!" says Junior Tessa Burgess.
