ROJECT is the entire work to be performed under the Service Agreement as specified in the accepted proposal, as well .
 ial work agreed to by both parties (which will be treated as an addendum to this Service Agreement), either orally or in

ASSETH:

e parties to these present, BWTS and Customer, for themselves and for their successors and assigns, each in the consid
 undertaking, premises, and agreements on the part of the other herein contained, do convent, undertake, promise, and a
 1) below.

2. of work-The Contract Documents:

shall provide those services specifically detailed in the accompanying Customer Proposal(s) _____, which is hereby incorporated by reference. The Contract Documents represent the entire and integrated agreement between the Parties and supersede all prior negotiations, representations, or agreements, either written or oral. Any proposal(s) entered into after the effective date of this Agreement shall be included in this Service Agreement as an addendum, effective as of the date signed by the Customer.

3. Commencement

BWTS shall not commence work until this Service Agreement is signed by the Customer and returned to BWTS. After this Agreement is signed by Customer and returned to BWTS, BWTS will commence work as soon as the weather, environmental conditions, and work-schedule/equipment availability permit. The customer understands and agrees that certain weather conditions and environmental conditions prohibit BWTS from safely and adequately performing the work described herein.

4. Special Provisions

BWTS will attempt to minimize any damage to property. The customer understands, however, that despite BWTS's best efforts, damage may result simply due to the nature of tree removal. If there is a problem that is unknown such as a void area under the ground or thin spots which cause a failure under the load of our equipment, BWTS is not responsible for this damage.

BWTS shall not be responsible for tree-stump removal unless such work is listed in the Customer Proposal agreed to by the Customer. Stump grindings stay on site unless also stated in the proposal.

Customer shall have all areas identified by BWTS cleared prior to BWTS's arrival on the day work commences. The customer understands and agrees that it is necessary to have the entire work area identified by BWTS to be clear for BWTS personnel to work in, including BWTS equipment. Customer understands and agrees that should BWTS personnel and/or equipment be unable to access any portion of the work area on the day work commences, BWTS is not required to perform work under this Agreement and Customer could be asked to pay a service fee of \$250.00.

Additional work or equipment required to complete the work, caused by previously unknown foreign material in the trunk, underground, or any other condition not apparent in estimating the work specified, shall be paid for by Customer on a time and materials basis. BWTS shall not be responsible for damages to underground sprinklers, drain lines, invisible fences or underground cables unless the system(s) are adequately and accurately mapped by the authorizing party and a copy is presented to BWTS at the time the work is performed.

BWTS will attempt to minimize all disturbances to the Customer's lawn and surfaces. It is normal to have some dents in the lawn from tree work as a result of falling wood. This is especially true during removals or wet conditions. It is also normal to have some damage to turf grass from cleanup activities. If Customer finds this unacceptable, we can take measures to mitigate damage as possible. This will add labor costs to the job and must be specified in the Customer Proposal or it will be billed to the customer.

BWTS offers tarping as a service as part of an emergency job. However, Customer understands and agrees that BWTS offers tarping simply as a courtesy and BWTS accepts no responsibility for any further damage to Customer's home. Customers are advised to get a roofer as soon as possible.

Customer shall be responsible for obtaining prior permission from Customer's neighbors for BWTS personnel and equipment to access neighbors' property to perform work.

5. Cancellation

Customer agrees that notice of cancellation of this contract must be provided to BWTS at least 12 hours prior to the

ancement of work. Should the Customer fail to provide at least a 12-hour notice, the Customer could be liable to BWTS) cancellation fee at BWTS's discretion.

Indemnification

Customer agrees to indemnify BWTS from any and all damage occurring on any third-party's property as a result of BWTS performing work for Customer, including, but not limited to, damage occurring on adjoining jobs.

Terms of Payment

Customer agrees to pay the account in full within 30 days upon completion of the work. Failure to remit full payment within 30 days will result in a finance charge of 3% per month up to 18.99% per year. Alternate payment agreements may be made; however, all arrangements must be in writing.

Enforceability

Customer agrees that any provision of this Service Agreement or any word, phrase, clause, sentence or other provision thereof, should be unenforceable or invalid for any reason, such provision or portion thereof shall be modified or deleted in such a manner as to make such Service Agreement as modified legal and enforceable to the fullest extent permitted under applicable laws.

Governing Law

This Service Agreement and these General Terms and Conditions shall be governed by and construed in accordance with the laws of the State of Tennessee and the federal laws of the United States of America. The parties hereto consent to submit to the jurisdiction of the courts of the State of Tennessee for any actions, suits or proceedings arising out of or relating to each Service Agreement.

Force Majeure

Customer hereby agrees that the party hereto shall be deemed in default of this Agreement to the extent that performance of its obligations (other than a requirement of payment) or attempts to cure any breach are delayed or prevented by reason of any act of God, fire, natural disaster, civil disturbance, terrorism, acts or omissions of suppliers and other third parties, act of government, strikes, unavailability of utilities, facilities, telecommunications services or supplies or any other cause beyond the reasonable control of such party ("Force Majeure Event").

Attorney's Fees

Customer agrees that any suit or action is instituted under or in relation to this Agreement, including without limitation to enforce any provision in this Agreement, should BWTS prevail in such dispute, BWTS shall be entitled to recover from customer all fees, costs and expenses of enforcing any right of such prevailing party under or with respect to this Agreement, including without limitation reasonable fees and expenses of attorneys and accountants, which shall include, without limitation, all fees, costs and expenses.

Online Reviews

Customer agrees that, prior to making, writing, or otherwise posting or publishing any negative and/or disparaging reviews and comments regarding BWTS in relation to this Agreement, Customer will first provide written notice to BWTS, via certified mail, at least 10 days prior to posting, of the issue(s) Customer is dissatisfied with that would be the subject of Customer's online post. Customer agrees to provide BWTS with at least ten (10) days in which Customer's dissatisfaction can be addressed by BWTS.

Customer posting such negative or disparaging content online.

Insurance Tree Removal and Stump Removal

Customer acknowledges that emergency tree removal services performed by Big Woody's Tree Service, LLC are typically associated with storm or hazard-related events and are often submitted as part of a homeowner's insurance claim. Customer further understands that insurance companies do not cover stump removal under such claims—regardless of the size, condition, or hazard level of the stump.

Stump grinding or stump removal is not included in the scope of any insurance-related tree removal service provided by Big Woody's Tree Service, LLC unless explicitly stated in the written estimate or work order.

If a customer wishes to have one or more stumps removed or ground down, they must request this service separately, and an additional fee will apply. Pricing for stump removal is based on size, location, accessibility, and equipment required. No stump removal work will be performed unless authorized in writing by the Customer and agreed upon by Big Woody's Tree Service, LLC.

Metal Damage Clause - Railroad Property Operations

Big Woody's Tree Service, LLC shall not be held liable for mechanical damage, equipment failure, downtime, or repair costs associated with metallic foreign objects encountered during vegetation removal, land clearing, or grinding operations conducted on or adjacent to railroad property.

The inherent risk posed by legacy infrastructure, buried or obscured railroad components (including but not limited to rail ties, plates, anchors, clips, fasteners, bolts, tie hardware, and other embedded metallic debris) may be present in, under, or adjacent to track systems, ballast, or surface-level material. These objects may not be visible during pre-operational inspections or may be detected only through standard site preparation.

Specifically:

Damage sustained to Big Woody's owned equipment, including but not limited to the Alhach Diamant 2000 grinder, due to contact with such hidden or embedded metal shall be the sole responsibility of the contracting entity or property owner.

Costs of repair, replacement parts, labor, and downtime caused by such incidents shall be fully reimbursable to Big Woody's Tree Service, LLC upon submission of supporting documentation.

Big Woody's Tree Service will take all reasonable steps to mitigate the risk of such damage through visual inspection and field testing; however, liability for metal-based obstruction damage is explicitly excluded unless a written pre-clearance and metal detection process has been contractually requested and provided.

This document shall be deemed incorporated into any agreement involving work on railroad-controlled property, rights-of-way, or easements.

Contact Big Woody's Tree Service
for all areas unless otherwise specified in writing.
