

Help Us Build a New Wrestling Facility for Our Youth!

Wrestling teaches discipline, perseverance, and resilience—values that help shape young athletes into confident, capable individuals both on and off the mat. Our wrestling program is growing, and with that growth comes the need for a dedicated space that can support year-round training and development for youth through high school.

In collaboration with the Clatskanie School District, we are launching this campaign to raise funds for the construction of a new wrestling facility. This space will be a shared community asset, offering a safe, well-equipped environment for athletes to train, grow, and reach their full potential.

Your support will help make this vision a reality. Donations will go toward:

- A dedicated training space
- High-quality wrestling mats and equipment
- Strength and conditioning areas

By contributing to this effort, you're not only supporting a sport—you're investing in the future of our local youth and the values that wrestling instills.

Donate today and help us build something lasting for generations to come. Thank you for being part of our team!
