---

Dear Families,

Our ISATs are nearly complete! Students were assessed in the areas of math and ELA. Sixth grade students are doing an amazing job of staying focused and giving the state testing everything they have. I have told them that the effort they continue to put forth is everything I hoped for.

This year's "Shark Tank" challenge was incredible! Each group/ student worked so hard and rose to the challenge. Thank you to everyone that was able to join us remotely or in person.

With a month of school to go we have lots of fun and challenging activities and projects to look forward to completing. Country reports and presentations are coming up in two weeks and sixth grade will help facilitate field day. We continue to work on new skills in math, science, public speaking, and reading.

It has been a joy to work with your children this year. We have learned so much together. Thank you for sharing them with me.

~Crystal Tibbals

### **Madd Hatter's Tea Party:**

In place of a book project for the month of May, students have the opportunity to attend a special tea party event in place of doing a project. Students may dress as any book character and spend the time visiting with classmates about their favorite books and characters from their reading adventures this year. The event is scheduled for the afternoon of May 20<sup>th</sup>. All students **MUST** finish their monthly book assignment to attend. There will be tea and hot chocolate served as well as fruits, veggies, cheese and crackers served. I supply all the goodies.
