## Principal Appreciation Month

Celebrated every October, National Principals Month is an opportunity to celebrate and honor our incredible school principals for their visionary leadership and tireless pursuit of success for each student.

We are so grateful for our principals. They work long hours on behalf our students, faculty, staff and community. If you see them this month tell them thank you! Help us give them the "pat on the back" they deserve!

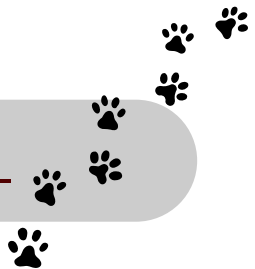

## ACS Spotlight!

Beginning in August of 2021, a Model for Continuous Improvement in Technology Integration was developed and implemented in Alexander City Schools. Through implementation of this model, several actions were taken to enhance teaching and learning processes and support learning outcomes for students. At the September Board Meeting the teachers who completed the Continuous Improvement in Tech Integration were recognized.
