crown jewel 1973

The art of **awareness** is the art of learning to awaken to the eternal miracle of life with its limitless possibilities. And it is through this awareness that the students of LWHS stock and enrich their memories.

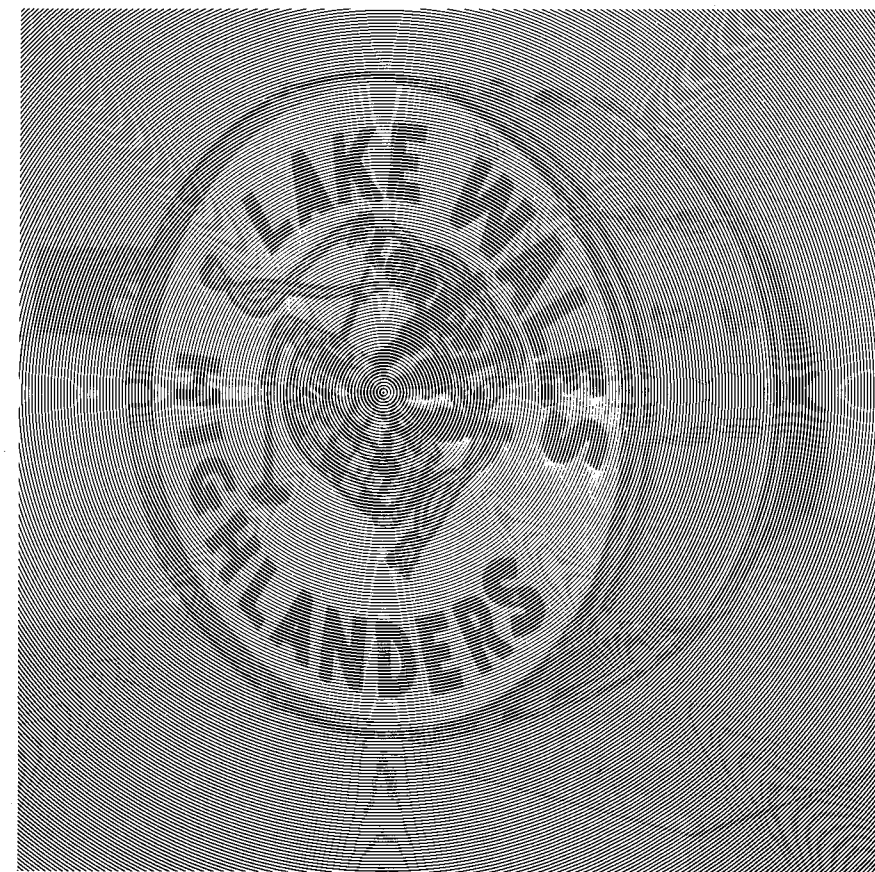

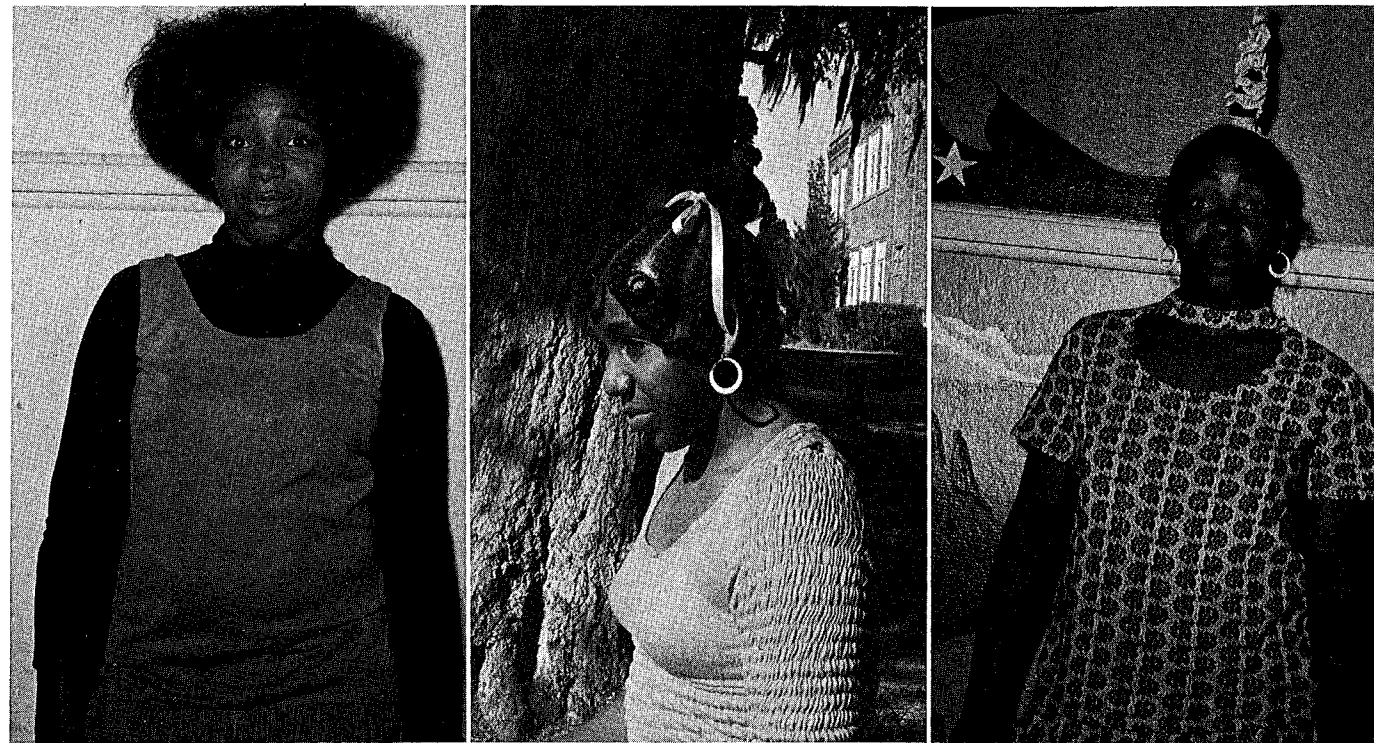

The **crown jewel 1973** hopes to add to your reservoir of experiences and memories. The Now People of LWHS are aware: aware of each other; of the blessing of talents; of the variety of ideas; of the sensitivity of feelings; of the pleasure of discovery; of the renewal of nature; of the essentials of a humane environment; and of the necessity of loyalty. The policy for 1973 is pride.

lake wales: a river of talents with many tributaries

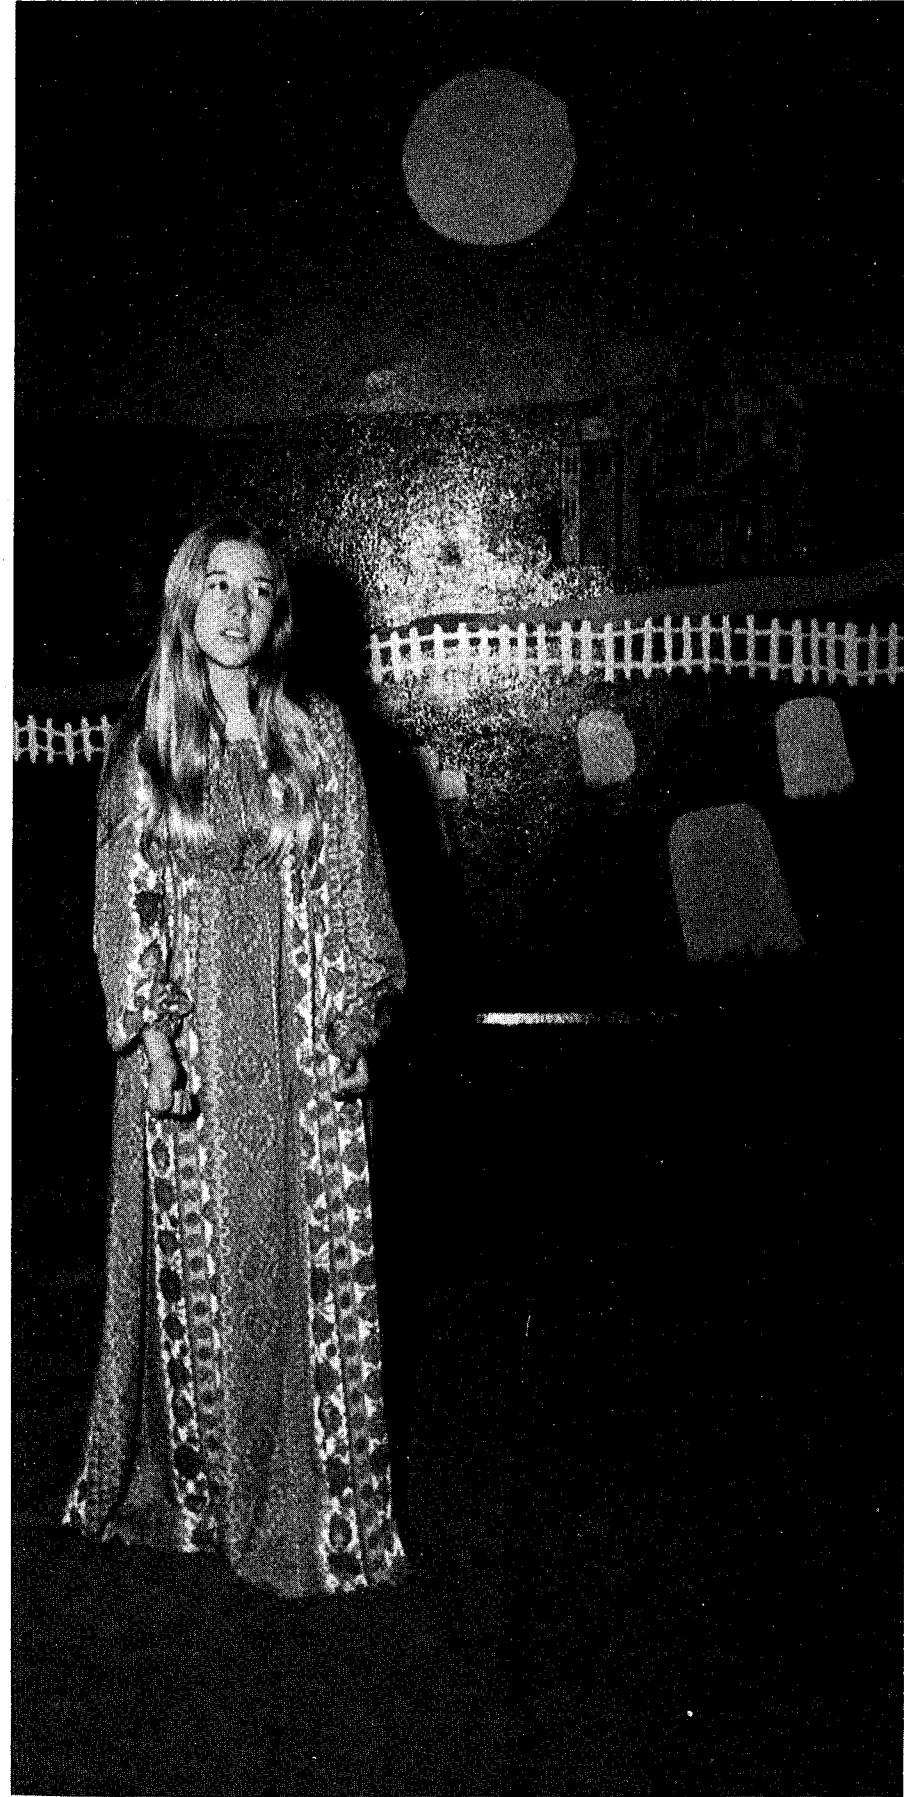

Awareness is searching for beauty everywhere — in a machine, a loyalty, an idea, even in an injury.

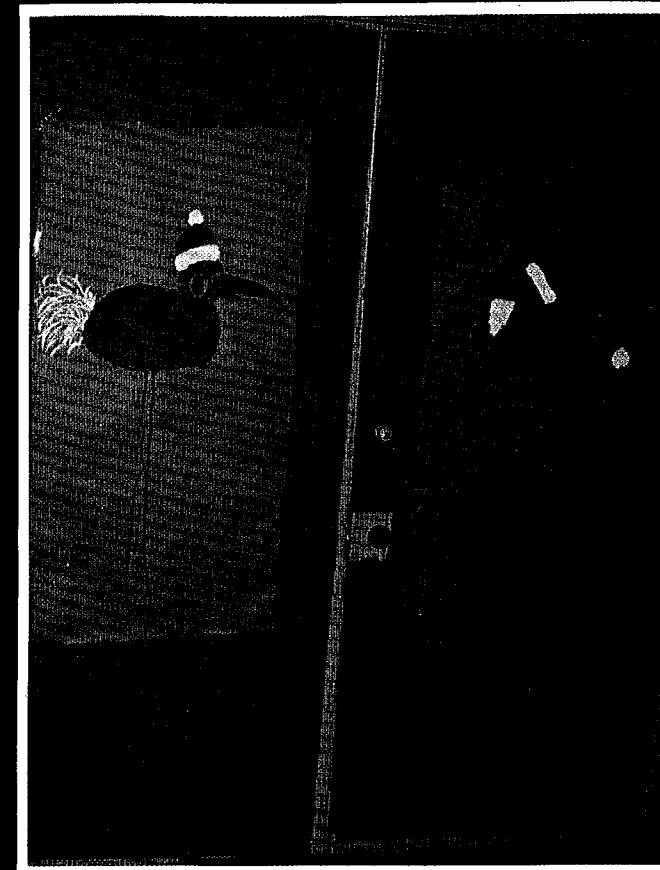

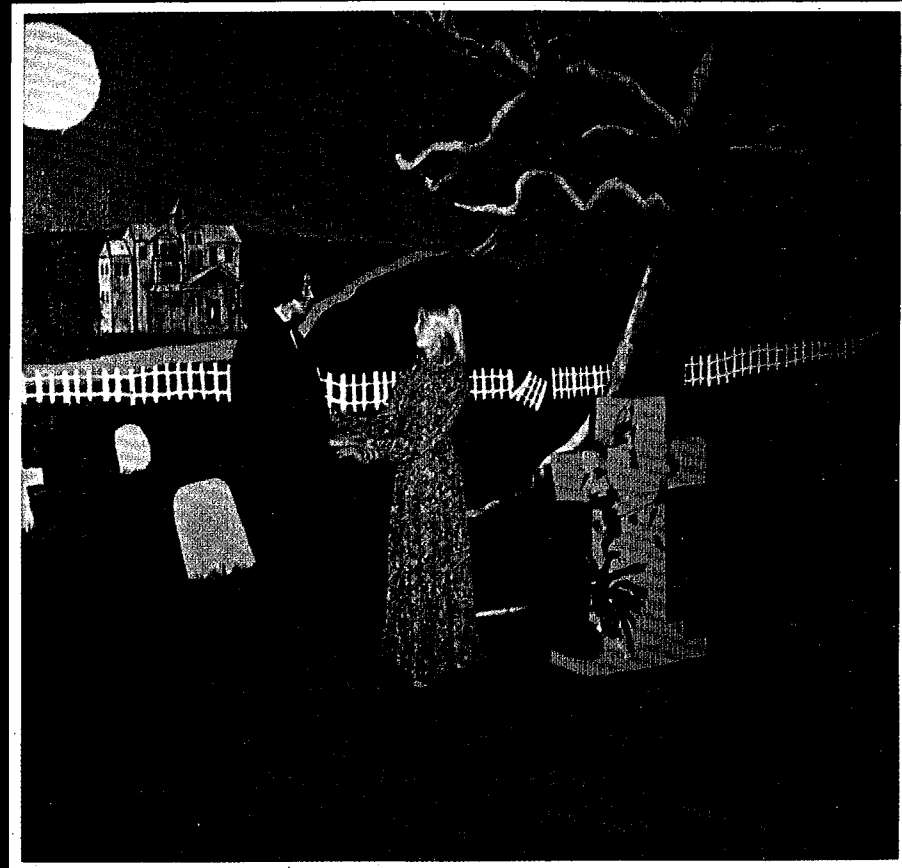

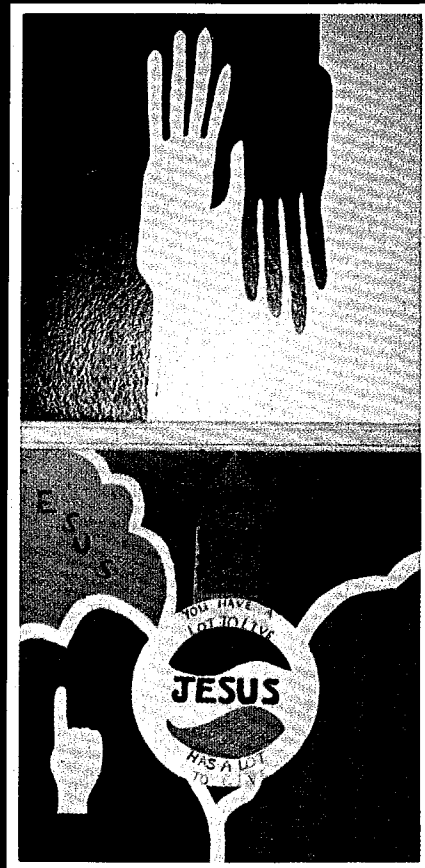

awareness is creativity of mind or body

*involved youth show
a diversity of ideas*

*awareness is indentifying
with others hopes, fears*
