### Class news

We've had a busy and exciting week in 3rd grade! In writing, students will begin drafting their opinion essays. They've enjoyed sharing their ideas and learning how to back up their opinions with strong reasons and examples. In math, we've continued practicing multiplication and building fluency with different strategies. The Topic 1 math test has been graded and entered into PowerSchool. Since this was our first online test, you can view your child's test questions and responses by logging into Savvas through Clever.

In both reading and science, we've begun a unit on weather. Students are exploring different types of weather, learning about the tools meteorologists use, and reading informational texts that support their understanding of how weather impacts our daily lives. It's been a great opportunity to connect literacy and science in meaningful ways.

Please be sure to pay close attention to upcoming dates—our Parent Picnic, Picture Day, and Special Snack Day are all coming up soon. As always, thank you for your continued support at home. Feel free to reach out if you have any questions. Have a great weekend!

### What we're learning

- **Math:** Topic 2: Multiplication Facts
- **Reading:** Unit 2 Lesson 1
  - Phonics: Long E Patterns
  - Word Analysis: Contractions
  - Grammar: Possessive Nouns
