

STUDENT SERVICES REPORT

Hello Summer

Twelve WIN Academy students graduated from the new ReCLAIM program provided by the Project Aware and Student Services teams on May 15th. Four middle school students and eight high school students participated in the nine week program. ReCLAIM was developed to assist students in the expansion of self awareness, while recognizing the consequences of their actions. The program focuses on supporting students to identify challenging behaviors and link those behaviors to emotions, actions, and consequences. Students participated in skills based learning centered around prosocial behavior integration. They evaluated the role of self in the planned change process to include the responsibility to self, others, and the community. The program was a huge success, and we congratulate the 12 students on their accomplishment!

BOWL-A-RAMA

MAY 6TH, 7TH & 8TH

The Bowl-A-Rama returned this year! A total of 507 students from around the county met at Gold Cup Bowling Center for three days for an extended Adapted P.E. lesson. Elementary & Middle schools were knocking down pins on May 6th & 7th. High schools were swinging for strikes on May 8th. A great time was had by all!

TEACHER SPOTLIGHT

This month our spotlight shines on Hillary Roebuck from Bonaire Primary School. This is her 15th year of teaching. She is currently completing her Specialist Degree in Elementary Education and the Dyslexia Endorsement. Mrs. Roebuck is a native of Peach County and currently resides in Perry with her husband and 3 children. When she has a little downtime from work and her children's busy schedule, she loves to read, sit on her back porch with her husband, and enjoy the peace and quiet of the back yard.

Growing up Hillary could always be found "playing school". In high school, she enjoyed being a teacher's aid, grading papers, creating bulletin boards, and working with kids. There was no doubt one day she would have a class of her own. Mrs. Roebuck does an excellent job differentiating instruction and creating a safe place where students can learn to be their best self. Her classroom is one where students are taught the skills necessary to grow academically, as well as socially and emotionally. We are fortunate to have Mrs. Roebuck on our team!

Happenings at LSSC

In partnership with Women of Equality, the Lindsey Student Support Center was honored to host a Community Baby Shower for expectant mothers in Houston County. The mothers-to-be were greeted by event organizers and presented with gift bags containing new baby supplies including diapers, wipes, formula samples, and clothing. Desserts and beverages were also served to the mothers and their guests. As part of the event, local organizations set up display tables with free child-care items, resources, and information. Whether it was their first or last baby, the mothers were pampered, supported, and most importantly, felt the love of their community.

The Lindsey Student Support Center had the honor of hosting twenty-two film students from Houston College and Career Academy. They used several spaces in the LSSC as locations and settings for their final film project. HCCA students directed, produced, and performed at the LSSC. With the completion of several new rooms, the LSSC is encouraging student groups to utilize these resources. Beta Clubs, Student Councils, FLCA Clubs, and more are invited to hold their gatherings in our Student Innovation Room which has been designed specifically as a safe and inviting space for students to come together in partnership and growth.

The Lindsey Student Support Center, in partnership with Life Space Crisis Intervention, offered a workshop titled Parenting The Challenging Child. Audience members included teachers and parents. The interactive workshop focused on building positive relationships, understanding stress and conflict, putting language to emotions, preventative skills building, and making positive outcomes from difficult circumstances. The Project Aware Team works closely with the LSCI Team and will continue to offer workshops similar to this one in the future. Workshop participants received textbooks and lessons to take with them.

The annual Sharks vs Guppies game was held at Houston County High School on May 14th and had an impressive turnout. The Houston County Sharks played against the Guppies, which included Dr. Scott, Executive Cabinet members, and important community leaders. The Guppies gave their best effort, showcasing incredible passes from Dr. Scott, Dr. Brown, and Dr. Thomas. Dr. Rogers and Dr. Rizer displayed a powerful defense although it proved insufficient against the 38-time State Champion Sharks. Noteworthy plays by Anthony Cuti and an interception by Champ Ryan contributed to the Shark's dominance. We extend our gratitude to all the community members and supporters who attended the game to cheer and show their support!

Waves Autism Center hosted a mini job fair at the Transition Academy for students to practice their interviewing skills with local business owners. Little Sweeties Cakery, Stevie B's Pizza, Acres and Oaks Kitchen, and Happy Hour were the local businesses who set up at the Transition Academy. Students participated in mock interviews with each business representative to generalize learned skills into hands-on application. The outcome was a huge success and opened future opportunities for our students to volunteer at each of these businesses. Acres and Oaks Kitchen offered a baking apprenticeship opportunity for interested students. Thank you Waves Autism Center, and thank you to each local partnership that made this event a huge success!

Hello Summer from the Transition Academy

Students at the Transition Academy worked extremely hard during the school year, both on their community job sites and in our Daily Living Center. The classes continued to expand their very successful casserole and dessert business. They started a T-shirt business and a tumbler cup business. This allowed them to learn how to budget and operate a small business while learning essential life skills. The students celebrated their success with a trip to Wild Adventures. The students, and school staff, enjoyed the attractions and roller coasters. Everyone had a fun and relaxing day celebrating the end of the school year!
