

Spiritual Life

Upper School

At Master's Academy, the spiritual development of our Upper School students is intentionally woven into every aspect of campus life. Our goal is to cultivate hearts that love the Lord, minds that are grounded in biblical truth, and lives that reflect the character of Christ. We begin by building authentic relationships. Our faculty and staff are committed to walking alongside students, modeling a vibrant, personal faith. Daily Bible classes, weekly chapel services, and focused times of prayer provide consistent opportunities for spiritual growth and reflection. We believe these rhythms create a foundation for students to wrestle with truth, ask hard questions, and deepen their walk with God in a safe and supportive environment.

Beyond the classroom, we nurture spiritual leadership and service through intentional programs like the Student Leadership Institute and service opportunities that invite students to live out their faith in practical ways. From mentoring relationships and peer accountability to worship services and a high school retreat, our strategy is both structured and relational. We're not simply teaching students about God; we are discipling them to impact the world for Christ. Everything we do in Upper School points back to this mission: to see students spiritually formed, academically equipped, and sent out as confident, Christ-centered leaders.
