# Safety First

## Did you know that the school bus is one of the safest vehicles on the road?

Children are more at risk when approaching or leaving a school bus. It's important for all drivers, as well as parents and students, to understand school bus safety. Learn the school bus laws for Michigan and always follow them, as well as the flashing lights that school bus drivers use to alert you.

Yellow flashing lights indicate the bus is preparing to stop to load or unload children. You should slow down and prepare to stop your vehicle.

Red flashing lights and extended stop arms indicate the bus has stopped and children are getting on or off. **You must stop your car and wait until the red lights stop flashing, the extended stop-arm is withdrawn, and the bus begins moving, before you can start driving again.**
