<p>(2) Who, by reason thereof, needs special education and related services.</p> <p>(c) <i>Definitions of disability</i> terms. The terms used in this definition of a child with a disability are defined as follows:</p> <p>(1)</p> <p>(i) <i>Autism</i> means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age three, that adversely affects a child's educational performance. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences.</p> <p>(ii) Autism does not apply if a child's educational performance is adversely affected primarily because the child has an emotional disturbance, as defined in paragraph (c)(4) of this section.</p> <p>(iii) A child who manifests the characteristics of autism after age three could be identified as having autism if the criteria in paragraph (c)(1)(i) of this section are satisfied.</p> <p>(2) <i>Deaf-blindness</i> means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.</p> <p>(3) <i>Deafness</i> means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, that adversely affects a child's educational performance.</p> <p>(4)</p> <p>(i) <i>Emotional disturbance</i> means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance:</p> <p>(A) An inability to learn that cannot be explained by intellectual, sensory, or health factors.</p> <p>(B) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.</p> <p>(C) Inappropriate types of behavior or feelings under normal circumstances.</p> <p>(D) A general pervasive mood of unhappiness or depression.</p>	<p>adversely affects the student's educational performance; or</p> <p>(D) has a documented medical diagnosis of a progressive medical condition that will result in concomitant hearing and visual losses that, without special education intervention, will adversely affect the student's educational performance.</p> <p>(3) Auditory impairment. A student with an auditory impairment is one who has been determined to meet the criteria for deafness as stated in 34 CFR, §300.8(c)(3), or for hearing impairment as stated in 34 CFR, §300.8(c)(5). The evaluation data reviewed by the multidisciplinary team in connection with the determination of a student's eligibility based on an auditory impairment must include an otological examination performed by an otolaryngologist or by a licensed medical doctor, with documentation that an otolaryngologist is not reasonably available, and an audiological evaluation performed by a licensed audiologist. The evaluation data must include a description of the implications of the hearing loss for the student's hearing in a variety of circumstances with or without recommended amplification.</p> <p>(4) Emotional disturbance. A student with an emotional disturbance is one who has been determined to meet the criteria for emotional disturbance as stated in 34 CFR, §300.8(c)(4). The written report of evaluation must include specific recommendations for behavioral supports and interventions.</p> <p>(5) Intellectual disability. A student with an intellectual disability is one who has been determined to meet the criteria for an intellectual disability as stated in 34 CFR, §300.8(c)(6). In meeting the criteria stated in 34 CFR, §300.8(c)(6), a student with an intellectual disability is one who:</p> <p>(A) has been determined to have significantly sub-average intellectual functioning as measured by a standardized, individually administered test of cognitive ability in which the overall test score is at least two standard deviations below the mean, when taking into consideration the standard error of measurement of the test; and</p> <p>(B) concurrently exhibits deficits in at least two of the following areas of adaptive behavior: communication, self-care, home living, social/interpersonal skills, use of community resources, self-direction, functional academic skills, work, leisure, health, and safety.</p> <p>(6) Multiple disabilities.</p> <p>(A) A student with multiple disabilities is one who has been determined to meet the criteria for multiple disabilities as stated in 34 CFR, §300.8(c)(7). <p>(E) A tendency to develop physical symptoms or fears associated with personal or school problems.</p> <p>(ii) Emotional disturbance includes schizophrenia. The term does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disturbance under paragraph (c)(4)(i) of this section.</p> <p>(5) Hearing impairment means an impairment in hearing, whether permanent or fluctuating, that adversely affects a child's educational performance but that is not included under the definition of deafness in this section.</p> <p>(6) Intellectual disability means significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, that adversely affects a child's educational performance. The term "intellectual disability" was formerly termed "mental retardation."</p> <p>(7) Multiple disabilities means concomitant impairments (such as intellectual disability-blindness or intellectual disability-orthopedic impairment), the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments. Multiple disabilities does not include deaf-blindness.</p> <p>(8) Orthopedic impairment means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by a congenital anomaly, impairments caused by disease (e.g., poliomyelitis, bone tuberculosis), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures).</p> <p>(9) Other health impairment means having limited strength, vitality, or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment, that—</p> <p>(i) Is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette syndrome; and</p> <p>(ii) Adversely affects a child's educational performance.</p> <p>(10) Specific learning disability—</p> <p>(i) General. Specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak,</p>	<p>meeting the criteria stated in 34 CFR, §300.8(c)(7), a student with multiple disabilities is one who has a combination of disabilities defined in this section and who meets all of the following conditions:</p> <p>(i) the student's disability is expected to continue indefinitely; and</p> <p>(ii) the disabilities severely impair performance in two or more of the following areas:</p> <p>(I) psychomotor skills;</p> <p>(II) self-care skills;</p> <p>(III) communication;</p> <p>(IV) social and emotional development; or</p> <p>(V) cognition.</p> <p>(B) Students who have more than one of the disabilities defined in this section but who do not meet the criteria in subparagraph (A) of this paragraph must not be classified or reported as having multiple disabilities.</p> <p>(7) Orthopedic impairment. A student with an orthopedic impairment is one who has been determined to meet the criteria for orthopedic impairment as stated in 34 CFR, §300.8(c)(8). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on an orthopedic impairment must include a licensed physician.</p> <p>(8) Other health impairment. A student with other health impairment is one who has been determined to meet the criteria for other health impairment due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette's Disorder as stated in 34 CFR, §300.8(c)(9). The multidisciplinary team that collects or reviews evaluation data in connection with the determination of a student's eligibility based on other health impairment must include a licensed physician, a physician assistant, or an advanced practice registered nurse with authority delegated under Texas Occupations Code, Chapter 157.</p> <p>(9) Specific learning disability.</p> <p>(A) Specific learning disability means a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, that may manifest itself in the imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and</p>

Specific learning disability does not include learning problems that are primarily the result of visual, hearing, or motor disabilities, of intellectual disability, of emotional disturbance, or of environmental, cultural, or economic disadvantage.</p> <p>(11) Speech or language impairment means a communication disorder, such as stuttering, impaired articulation, a language impairment, or a voice impairment, that adversely affects a child's educational performance.</p> <p>(12) Traumatic brain injury means an acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. Traumatic brain injury applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. Traumatic brain injury does not apply to brain injuries that are congenital or degenerative, or to brain injuries induced by birth trauma.</p> <p>(13) Visual impairment including blindness means an impairment in vision that, even with correction, adversely affects a child's educational performance. The term includes both partial sight and blindness.</p> <p>Last Amended: 82 FR 31912, July 11, 2017</p>	<p>developmental aphasia. Specific learning disability does not include learning problems that are primarily the result of visual, hearing, or motor disabilities; intellectual disability; emotional disturbance; or environmental, cultural, or economic disadvantage.</p> <p>(B) A student with a specific learning disability is one who:</p> <p>(i) (i) has been determined through a variety of assessment tools and strategies to meet the criteria for a specific learning disability as stated in 34 CFR, §300.8(c)(10), in accordance with the provisions in 34 CFR, §§300.307-300.311;</p> <p>(ii) when provided with learning experiences and instruction appropriate for the student's age or state-approved grade-level standards as indicated by performance on multiple measures such as in-class tests, grade average over time (e.g. six weeks or semester), norm- or criterion-referenced tests, and statewide assessments, does not achieve adequately for the student's age or to meet state-approved grade-level standards in one or more of the following areas:</p> <p>(I) oral expression;</p> <p>(II) listening comprehension;</p> <p>(III) written expression;</p> <p>(IV) basic reading skill;</p> <p>(V) reading fluency skills;</p> <p>(VI) reading comprehension;</p> <p>(VII) mathematics calculation; or</p> <p>(VIII) mathematics problem solving;</p> <p>(iii) meets one of the following criteria:</p> <p>(I) does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the areas identified in clause (ii)(I)-(VIII) of this subparagraph when using a process based on the student's response to scientific, research-based intervention; or</p> <p>(II) exhibits a pattern of strengths and weaknesses in performance, achievement, or both relative to age, state-approved grade-level standards, or intellectual development that is determined to be relevant to the identification of a specific learning disability, using appropriate</p>

A school district may contract for residential placement of a student when the student's admission, review, and dismissal (ARD) committee determines that a residential placement is necessary in order for the student to receive a free appropriate public education (FAPE).</p> <p>(1) A school district may contract for a residential placement of a student only with either public or private residential facilities which maintain current and valid licensure by the Texas Department of Aging and Disability Services, Texas Department of Family and Protective Services, or Department of State Health Services for the particular disabling condition and age of the student. A school district may contract for an out-of-state residential placement in accordance with the provisions of subsection (c)(3) of this section.</p> <p>(2) Subject to subsections (b) and (c) of this section, the district may contract with a residential facility to provide some or all of the special education services listed in the contracted student's individualized education program (IEP). Contracts for Services; Residential Placement.</b></p> <p>(a) A school district, shared services arrangement unit, or regional education service center may contract with a public or private facility, institution, or agency inside or outside of this state for the provision of services to students with disabilities. Each contract for residential placement must be approved by the commissioner. The commissioner may approve a residential placement contract only after at least a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content. The commissioner may approve either the whole or a part of a facility or program.</p> <p>(b) Except as provided by Subsection (c), costs of an approved contract for residential placement may be paid from a combination of federal, state, and local funds. The local share of the total contract cost for each student is that portion of the local tax effort that exceeds the district's local fund assignment under Section 48.256, divided by the average daily attendance in the district. If the contract involves a private facility, the state share of the total contract cost is that amount remaining after subtracting the local share. If the contract involves a public facility, the state share is that amount remaining after subtracting the local share from the portion of the contract that involves the costs of instructional and related services. For purposes of this subsection, "local tax effort" means the total amount of money generated by taxes imposed for debt service and maintenance and operation less any amounts paid into a tax increment fund under Chapter 311, Tax Code.</p> <p>(c) When a student, including one for whom the state is managing conservator, is placed primarily for care or treatment reasons in a private residential facility that operates its own private education program, none of the costs may be paid from public education funds. (2) The informed consent of the parent of the student with a disability for whom the ATD is being transferred must be obtained before the transfer of an ATD pursuant to TEC, §30.0015. The procedures employed by a school district in obtaining such informed consent shall be consistent with the procedures employed by the district to obtain parental consent under 34 Code of Federal Regulations (CFR), §300.300. If the student has the legal capacity to enter into a contract, the informed consent may be obtained from the student. Consistent with 34 CFR, §300.505(c), informed parental or adult student consent need not be obtained if the school district can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parent or the adult student has failed to respond. To meet the reasonable measures requirement, the school district must use procedures consistent with those described in 34 CFR, §300.322(d). (3) If the transfer is a sale, then the sale of the ATD shall be evidenced by a "Uniform Transfer Agreement" (UTA) which includes the following:</p>	<p><b>§ 30.0015. Transfer of Assistive Technology Devices.</b> (a) In this section: (1) "Assistive technology device" means any device, including equipment or a product system, that is used to increase, maintain, or improve functional capabilities of a student with a disability. (2) "Student with a disability" means a student who is eligible to participate in a school district's special education program under Section 29.003. (3) "Transfer" means the process by which a school district that has purchased an assistive technology device may sell, lease, or loan the device for the continuing use of a student with a disability changing the school of attendance in the district or leaving the district. (b) The agency by rule shall develop and annually disseminate standards for a school district's transfer of an assistive technology device to an entity listed in this subsection when a student with a disability using the device changes the school of attendance in the district or ceases to attend school in the district that purchased the device and the student's parents, or the student if the student has the legal capacity to enter into a contract, agrees to the transfer. The device may be transferred to: (1) the school or school district in which the student enrolls; (2) a state agency, including the Health and Human Services Commission, that provides services to the student following the student's graduation from high school; or (3) the student's parents, or the student if the student has the legal capacity to enter into a contract. Students who are deaf or hard of hearing may choose to use a variety of language modes and languages, including oral and manual-visual language. Students who are deaf may choose to communicate through the language of the deaf community, American Sign Language, or through any of a number of English-based manual-visual languages. Students who are hard of hearing may choose to use spoken and written English, including speech reading or lip reading, together with amplification instruments, such as hearing aids, cochlear implants, or assistive listening systems, to communicate with the hearing population. Students who are deaf or hard of hearing may choose to use a combination of oral or manual-visual language systems, including cued speech, manual signed systems, and American Sign Language, or may rely exclusively on the oral-aural language of their choice. Students who are deaf or hard of hearing also may use other technologies to enhance language learning.</p> <p>(b) The legislature recognizes that students who are deaf or hard of hearing should have the opportunity to develop proficiency in English, including oral or manual-visual methods of communication, and American Sign Language. Selecting mediators on an impartial basis includes permitting the parties involved in a dispute to agree on a mediator from the TEA's list of mediators. If the parties agree to a mediator, they must advise the TEA of the desired mediator. The TEA will provide the parties with written notice of the specific mediator assigned to conduct the mediation. The parties must not contact a mediator on the TEA's list of mediators until the TEA has provided the parties with the written notice of the mediator assignment.</p> <p>(g) If a mediator is also a hearing officer under §89.1170 of this title (relating to Impartial Hearing Officer), that individual may not serve as a mediator if he or she is the hearing officer in a pending due process hearing involving the same student who is the subject of the mediation process or was the hearing</p>

## Appendix A to Part 300—Excess Costs Calculation

Except as otherwise provided, amounts provided to an LEA under Part B of the Act may be used only to pay the excess costs of providing special education and related services to children with disabilities. Excess costs are those costs for the education of an elementary school or secondary school student with a disability that are in excess of the average annual per student expenditure in an LEA during the preceding school year for an elementary school or secondary school student, as may be appropriate. An LEA must spend at least the average annual per student expenditure on the education of an elementary school or secondary school child with a disability before funds under Part B of the Act are used to pay the excess costs of providing special education and related services.

Section 602(8) of the Act and §300.16 require the LEA to compute the minimum average amount separately for children with disabilities in its elementary schools and for children with disabilities in its secondary schools. LEAs may not compute the minimum average amount it must spend on the education of children with disabilities based on a combination of the enrollments in its elementary schools and secondary schools.

The following example shows how to compute the minimum average amount an LEA must spend for the education of each of its elementary school children with disabilities under section 602(3) of the Act before it may use funds under Part B of the Act.

- a. First the LEA must determine the total amount of its expenditures for elementary school students from all sources—local, State, and Federal (including Part B)—in the preceding school year. Only capital outlay and debt services are excluded.

*Example:* The following is an example of a computation for children with disabilities enrolled in an LEA's elementary schools. In this example, the LEA had an average elementary school enrollment for the preceding school year of 800 (including 100 children with disabilities). The LEA spent the following amounts last year for elementary school students (including its elementary school children with disabilities):

(1)	From State and local tax funds.	\$6,500,000
(2)	From Federal funds	600,000
	<b>Total expenditures</b>	<b>7,100,000</b>

Of this total, \$60,000 was for capital outlay and debt service relating to the education of elementary school students. This must be subtracted from total expenditures.

(1)	Total Expenditures	\$7,100,000
(2)	Less capital outlay and debt	- 60,000
	<b>Total expenditures for elementary students less capital layout and debt</b>	<b>\$7,040,000</b>

- b. Next, the LEA must subtract from the total expenditures amounts spent for:

- (1) IDEA, Part B allocation,
- (2) ESEA, Title I, Part A allocation,
- (3) ESEA, Title III, Parts A and B allocation,
- (4) State and local funds for children with disabilities, and
- (5) State or local funds for programs under ESEA, Title I, Part A, and Title III, Parts A and B.

These are funds that the LEA actually spent, not funds received last year but carried over for the current school year.

*Example:* The LEA spent the following amounts for elementary school students last year:

(1)	From funds under IDEA, Part B allocation	\$200,000
(2)	From funds under ESEA, Title I, Part A allocation	250,000
(3)	From funds under ESEA, Title III, Parts A and B allocation	50,000
(4)	From State funds and local funds for children with disabilities	500,000
(5)	From State and local funds for programs under ESEA, Title I, Part A, and Title III, Parts A and B	150,000
	<b>Total</b>	<b>1,150,000</b>
(1)	Total expenditures less capital layout and debt	7,040,000
(2)	Other deductions	-1,150,000
	<b>Total</b>	<b>\$5,890,000</b>

- c. Except as otherwise provided, the LEA next must determine the average annual per student expenditure for its elementary schools dividing the average number of students enrolled in the elementary schools of the agency during the preceding year (including its children with disabilities) into the amount computed under the above paragraph. The amount obtained through this computation is the minimum amount the LEA must spend (on the average) for the education of each of its elementary school children with disabilities. Funds under Part B of the Act may be used only for costs over and above this minimum.

(1)	Amount from Step b	\$5,890,000
(2)	Average number of students enrolled	800
(3)	<b>\$5,890,000/800 Average annual per student expenditure</b>	<b>\$7,362</b>

**Appendix A to Part 300—Excess Costs Calculation**

d. Except as otherwise provided, to determine the total minimum amount of funds the LEA must spend for the education of its elementary school children with disabilities in the LEA (not including capital outlay and debt service), the LEA must multiply the number of elementary school children with disabilities in the LEA times the average annual per student expenditure obtained in paragraph c above. Funds under Part B of the Act can only be used for excess costs over and above this minimum.

(1)	Number of children with disabilities in the LEA's elementary schools	100
(2)	Average annual per student expenditure	\$7,362
(3)	\$7,362 x 100	
	Total minimum amount of funds the LEA must spend for the education of children with disabilities enrolled in the LEA's elementary schools before using Part B funds.	\$736,200

## Appendix B to Part 300—Proportionate Share Calculation

Each LEA must expend, during the grant period, on the provision of special education and related services for the parentally-placed private school children with disabilities enrolled in private elementary schools and secondary schools located in the LEA an amount that is equal to—

- (1) A proportionate share of the LEA's subgrant under section 611(f) of the Act for children with disabilities aged 3 through 21. This is an amount that is the same proportion of the LEA's total subgrant under section 611(f) of the Act as the number of parentally-placed private school children with disabilities aged 3 through 21 enrolled in private elementary schools and secondary schools located in the LEA is to the total number of children with disabilities enrolled in public and private elementary schools and secondary schools located in the LEA aged 3 through 21; and
- (2) A proportionate share of the LEA's subgrant under section 619(g) of the Act for children with disabilities aged 3 through 5. This is an amount that is the same proportion of the LEA's total subgrant under section 619(g) of the Act as the total number of parentally-placed private school children with disabilities aged 3 through 5 enrolled in private elementary schools located in the LEA is to the total number of children with disabilities enrolled in public and private elementary schools located in the LEA aged 3 through 5.

Consistent with section 612(a)(10)(A)(i) of the Act and §300.133 of these regulations, annual expenditures for parentally-placed private school children with disabilities are calculated based on the total number of children with disabilities enrolled in public and private elementary schools and secondary schools located in the LEA eligible to receive special education and related services under Part B, as compared with the total number of eligible parentally-placed private school children with disabilities enrolled in private elementary schools located in the LEA. This ratio is used to determine the proportion of the LEA's total Part B subgrants under section 611(f) of the Act for children aged 3 through 21, and under section 619(g) of the Act for children aged 3 through 5, that is to be expended on services for parentally-placed private school children with disabilities enrolled in private elementary schools and secondary schools located in the LEA.

The following is an example of how the proportionate share is calculated:

There are 300 eligible children with disabilities enrolled in the Flintstone School District and 20 eligible parentally-placed private school children with disabilities enrolled in private elementary schools and secondary schools located in the LEA for a total of 320 eligible public and private school children with disabilities (note: proportionate share for parentally-placed private school children is based on total children eligible, not children served). The number of eligible parentally-placed private school children with disabilities (20) divided by the total number of eligible public and private school children with disabilities (320) indicates that 6.25 percent of the LEA's subgrant must be spent for the group of eligible parentally-placed children with disabilities enrolled in private elementary schools and secondary schools located in the LEA. Flintstone School District receives \$152,500 in Federal flow through funds. Therefore, the LEA must spend \$9,531.25 on special education or related services to the group of parentally-placed private school children with disabilities enrolled in private elementary schools and secondary schools located in the LEA. (Note: The LEA must calculate the proportionate share of IDEA funds before earmarking funds for any early intervening activities in §300.226).

The following outlines the calculations for the example of how the proportionate share is calculated.

Proportionate Share Calculation for Parentally Placed Private School Children with Disabilities For Flintstone School District:		
Number of eligible children with disabilities in public schools in the LEA		300
Number of parentally-placed eligible children with disabilities in private elementary schools and secondary schools located in the LEA		20
Total number of eligible children		320
Federal Flow-Through funds to Flintstone School District		
Total allocation to Flintstone		\$152,500
Calculating Proportionate Share:		
Total allocation to Flintstone		152,500
Divided by total number of eligible children		320
Average allocation per eligible child		476.5625
Multiplied by the number of parentally placed children with disabilities		20
Amount to be expended for parentally-placed children with disabilities		9,531.25

## Appendix C to Part 300—National Instructional Materials Accessibility Standard (NIMAS)

Under sections 612(a)(23)(A) and 674(e)(4) of the Individuals with Disabilities Education Act, as amended by the Individuals with Disabilities Education Improvement Act of 2004, the Secretary of Education establishes the NIMAS. Under section 674(e)(4) of the Act, the NIMAS applies to print instructional materials published after July 19, 2006. The purpose of the NIMAS is to help increase the availability and timely delivery of print instructional materials in accessible formats to blind or other persons with print disabilities in elementary and secondary schools.

### Technical Specifications—The Baseline Element Set

The Baseline Element Set details the minimum requirement that must be delivered to fulfill the NIMAS. It is the responsibility of publishers to provide this NIMAS-conformant XML content file, a package file (OPF), a PDF-format copy of the title page (or whichever page(s) contain(s) ISBN and copyright information), and a full set of the content's images. All of the images included within a work must be provided in a folder and placeholders entered in the relevant XML document indicating their location (all images must be included). The preferred image type is SVG, next is either PNG or JPG format. Images should be rendered in the same size/proportion as their originals at 300 dpi. Images should be named with relative path filenames in XML files (example: `img id="staricon4" src="/images/U10C02/staricon4.jpg" alt="star icon"`).

NIMAS-conformant content must be valid to the NIMAS 1.1 [see ANSI/NISO Z39.86 2005 or subsequent revisions]. In addition, files are required to use the tags from the Baseline Element Set when such tags are appropriate. Publishers are encouraged to augment the required Baseline Element Set with tags from the Optional Element Set (elements not included in the Standard) as applicable. For the purposes of NIMAS, appropriate usage of elements, both baseline and optional, is defined by the DAISY Structure Guidelines. Files that do not follow these guidelines in the selection and application of tags are not conformant to this Standard. Both optional elements and appropriate structure guidelines may be located within Z39.86–2002 and Z39.86–2005 available from <http://www.daisy.org/z3986/>. Use of the most current standard is recommended.

### Technical Specifications—The Baseline Element Set

Element	Description
<b>a. Document-level tags</b>	
dtbook	The root element in the Digital Talking Book DTD. <dtbook> contains metadata in <head> and the contents itself in <book>.
head	Contains meta-information about the book but no actual content of the book itself, which is placed in <book>.
book	Surrounds the actual content of the document, which is divided into <frontmatter>, <bodymatter>, and <rearmatter>. <head>, which contains metadata, precedes <book>.
meta	Indicates metadata about the book. It is an empty element that may appear repeatedly only in <head>. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a>
<b>b. Structure and Hierarchy</b>	
frontmatter	Usually contains <doctitle> and <docauthor>, as well as preliminary material that is often enclosed in appropriate <level> or <level1> etc. Content may include a copyright notice, a foreword, an acknowledgements section, a table of contents, etc. <frontmatter> serves as a guide to the content and nature of a <book>.
bodymatter	Consists of the text proper of a book, as contrasted with preliminary material <frontmatter> or supplementary information in <rearmatter>.
rearmatter	Contains supplementary material such as appendices, glossaries, bibliographies, and indices. It follows the <bodymatter> of the book.
level1	The highest-level container of major divisions of a book. Used in <frontmatter>, <bodymatter>, and <rearmatter> to mark the largest divisions of the book (usually parts or chapters), inside which <level2> subdivisions (often sections) may nest. The class attribute identifies the actual name (e.g., part, chapter) of the structure it marks. Contrast with <level>.
level2	Contains subdivisions that nest within <level1> divisions. The class attribute identifies the actual name (e.g., subpart, chapter, subsection) of the structure it marks.
level3	Contains sub-subdivisions that nest within <level2> subdivisions (e.g., sub-subsections within subsections). The class attribute identifies the actual name (e.g., section, subpart, subsubsection) of the subordinate structure it marks.
level4	Contains further subdivisions that nest within <level3> subdivisions. The class attribute identifies the actual name of the subordinate structure it marks.
level5	Contains further subdivisions that nest within <level4> subdivisions. The class attribute identifies the actual name of the subordinate structure it marks.
level6	Contains further subdivisions that nest within <level5> subdivisions. The class attribute identifies the actual name of the subordinate structure it marks.
h1	Contains the text of the heading for a <level1> structure.
h2	Contains the text of the heading for a <level2> structure.
h3	Contains the text of the heading for a <level3> structure.
h4	Contains the text of the heading for a <level4> structure.
h5	Contains the text of the heading for a <level5> structure.
h6	Contains the text of the heading for a <level6> structure. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a>
<b>c. Block elements</b>	
author	Identifies the writer of a work other than this one. Contrast with <docauthor>, which identifies the author of this work. <author> typically occurs within <blockquote> and <cite>.
blockquote	Indicates a block of quoted content that is set off from the surrounding text by paragraph breaks. Compare with <q>, which marks short, inline quotations.

## Appendix C to Part 300—National Instructional Materials Accessibility Standard (NIMAS)

Element	Description
list	Contains some form of list, ordered or unordered. The list may have an intermixed heading <hd> (generally only one, possibly with <prodnote>), and an intermixture of list items <li> and <pagenum>. If bullets and outline enumerations are part of the print content, they are expected to prefix those list items in content, rather than be implicitly generated.
li	Marks each list item in a <list>. <li> content may be either inline or block and may include other nested lists. Alternatively it may contain a sequence of list item components, <lic>, that identify regularly occurring content, such as the heading and page number of each entry in a table of contents.
hd	Marks the text of a heading in a <list> or <sidebar>.
note	Marks a footnote, endnote, etc. Any local reference to <note id="yyy"> is by <noteref idref="#yyy">. [Attribute id]
p	Contains a paragraph, which may contain subsidiary <list> or <dl>.
sidebar	Contains information supplementary to the main text and/or narrative flow and is often boxed and printed apart from the main text block on a page. It may have a heading <hd>.
cite	Marks a reference (or citation) to another document.
dd	Marks a definition of the preceding term <dt> within a definition list <dl>. A definition without a preceding <dt> has no semantic interpretation, but is visually presented aligned with other <dd>.
dl	Contains a definition list, usually consisting of pairs of terms <dt> and definitions <dd>. Any definition can contain another definition list.
dt	Marks a term in a definition list <dl> for which a definition <dd> follows. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a>
<b>d. Inline Elements</b>	
em	Indicates emphasis. Usually <em> is rendered in italics. Compare with <strong>.
q	Contains a short, inline quotation. Compare with <blockquote>, which marks a longer quotation set off from the surrounding text.
strong	Marks stronger emphasis than <em>. Visually <strong> is usually rendered bold.
sub	Indicates a subscript character (printed below a character's normal baseline). Can be used recursively and/or intermixed with <sup>.
sup	Marks a superscript character (printed above a character's normal baseline). Can be used recursively and/or intermixed with <sub>.
br	Marks a forced line break.
line	Marks a single logical line of text. Often used in conjunction with <linenum> in documents with numbered lines. [Use only when line breaks must be preserved to capture meaning (e.g., poems, legal texts).]
linenum	Contains a line number, for example in legal text. [Use only when <line> is used, and only for lines numbered in print book.]
pagenum	Contains one page number as it appears from the print document, usually inserted at the point within the file immediately preceding the first item of content on a new page. [NB: Only valid when it includes an id attribute].
noteref	Marks one or more characters that reference a footnote or endnote <note>. Contrast with <annoref>. <noteref> and <note> are independently skippable. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a> .
<b>e. Tables</b>	
table	Contains cells of tabular data arranged in rows and columns. A <table> may have a <caption>. It may have descriptions of the columns in <col>s or groupings of several <col> in <colgroup>. A simple <table> may be made up of just rows <tr>. A long table crossing several pages of the print book should have separate <pagenum> values for each of the pages containing that <table> indicated on the page where it starts. Note the logical order of optional <thead>, optional <tfoot>, then one or more of either <tbody> or just rows <tr>. This order accommodates simple or large, complex tables. The <thead> and <tfoot> information usually helps identify content of the <tbody> rows. For a multiple-page print <table> the <thead> and <tfoot> are repeated on each page, but not redundantly tagged.
td	Indicates a table cell containing data.
tr	Marks one row of a <table> containing <th> or <td> cells. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a> .
<b>f. Images</b>	
imggroup	Provides a container for one or more <img> and associated <caption>(s) and <prodnote>(s). A <prodnote> may contain a description of the image. The content model allows: 1) multiple <img> if they share a caption, with the ids of each <img> in the <caption imgref="id1 id2 ...">, 2) multiple <caption> if several captions refer to a single <img id="xxx"> where each caption has the same <caption imgref="xxx">, 3) multiple <prodnote> if different versions are needed for different media (e.g., large print, braille, or print). If several <prodnote> refer to a single <img id="xxx">, each prodnote has the same <prodnote imgref="xxx">.
img	Points to the image to be rendered. An <img> may stand alone or be grouped using <imggroup>.
caption	Describes a <table> or <img>. If used with <table> it must follow immediately after the <table> start tag. If used with <imggroup> it is not so constrained. For the most current usage guidelines, please refer to <a href="http://www.daisy.org/z3986/">http://www.daisy.org/z3986/</a>

## Appendix C to Part 300—National Instructional Materials Accessibility Standard (NIMAS)

### 1. The Optional Elements and Guidelines for Use

Publishers are encouraged to apply markup beyond the baseline (required) elements. The complete DTBook Element Set reflects the tags necessary to create the six types of Digital Talking Books and Braille output. Because of the present necessity to subdivide the creation of alternate format materials into distinct phases, the Panel determined that baseline elements would be provided by publishers, and optional elements would be added to the NIMAS-conformant files by third party conversion entities. In both circumstances the protocols for tagging digital files should conform to the most current ANSI/NISO Z39.86 specification. Content converters are directed to the most current DAISY Structure Guidelines (<http://www.daisy.org/z3986/>) for guidance on their use.

Since the publication of the original National File Format report from which the NIMAS technical specifications were derived, ANSI/NISO Z39.86–2002 was updated and is now ANSI/NISO Z39.86–2005. It may be best to avoid using the following optional elements which are no longer included in ANSI/NISO Z39.86–2005: style, notice, hr, and levelhd.

Also, the following new elements were introduced by ANSI/NISO Z39.86–2005 and should be considered optional elements for the NIMAS: bridgehead, byline, covertitle, dateline, epigraph, linegroup, and poem. Please refer to ANSI/NISO Z39.86–2005 for additional information regarding these elements. To access the ANSI/NISO Z39.86–2005 specification, go to <http://www.daisy.org/z3986/>.

### 2. Package File

A package file describes a publication. It identifies all other files in the publication and provides descriptive and access information about them. A publication must include a package file conforming to the NIMAS. The package file is based on the Open eBook Publication Structure 1.2 package file specification (For most recent detail please see <http://www.openebook.org/oebps/oebps1.2/download/oeb12-xhtml.htm#sec2>). A NIMAS package file must be a valid XML OeBPS 1.2 package file instance and must meet the following additional standards:

The NIMAS Package File must include the following Dublin Core (dc:) metadata:

dc:Title.  
dc:Creator (if applicable).  
dc:Publisher.  
dc>Date (Date of NIMAS-compliant file creation—yyyy-mm-dd).  
dc:Format (=“NIMAS 1.0”).  
dc:Identifier (a unique identifier for the NIMAS-compliant digital publication, e.g., print ISBN + “-NIMAS”—exact format to be determined).  
dc:Language (one instance, or multiple in the case of a foreign language textbook, etc.).  
dc:Rights (details to be determined).  
dc:Source (ISBN of print version of textbook).

And the following x-metadata items:

nimas-SourceEdition (the edition of the print textbook).  
nimas-SourceDate (date of publication of the print textbook).

The following metadata were proposed also as a means of facilitating recordkeeping, storage and file retrieval:

dc:Subject (Language Arts, Social Studies, etc.).  
nimas-grade (specific grade level of the print textbook, e.g.; Grade 6).  
nimas-gradeRange (specific grade range of the print textbook, e.g.; Grades 4–5).

An additional suggestion references the use of:

dc:audience:educationLevel (for the grade and gradeRange identifiers, noting that Dublin Core recommends using educationLevel with an appropriate controlled vocabulary for context, and recommends the U.S. Department of Education’s Level of Education vocabulary online at <http://www.ed.gov/admin/reference/index.jsp>. Using educationLevel obviates the need for a separate field for gradeRange since dc elements can repeat more than once. A book used in more than one grade would therefore have two elements, one with value “Grade 4” and another with value “Grade 5.”

A final determination as to which of these specific metadata elements to use needs to be clarified in practice. The package manifest must list all provided files (text, images, etc.).

(Note: For purposes of continuity and to minimize errors in transformation and processing, the NIMAS-compliant digital text should be provided as a single document.)

### 3. Modular Extensions

The most current DAISY/NISO standard, formally the *ANSI/NISO Z39.86, Specifications for the Digital Talking Book* defines a comprehensive system for creating Digital Talking Books. A part of this standard is DTBook, an XML vocabulary that provides a core set of elements needed to produce most types of books. However, DTBook is not intended to be an exhaustive vocabulary for all types of books.

Guidelines for the correct approach to extend the DAISY/NISO standard have been established. Mathematics, video support, testing, workbooks, music, dictionaries, chemistry, and searching are some of the extensions that have been discussed. Visit <http://www.daisy.org/z3986/> to learn more about modular extensions.

## Appendix D to Part 300—Maintenance of Effort and Early Intervening Services

LEAs that seek to reduce their local maintenance of effort in accordance with §300.205(d) and use some of their Part B funds for early intervening services under § 300.226 must do so with caution because the local maintenance of effort reduction provision and the authority to use Part B funds for early intervening services are interconnected. The decisions that an LEA makes about the amount of funds that it uses for one purpose affect the amount that it may use for the other. Below are examples that illustrate how §§ 300.205(d) and 300.226(a) affect one another.

*Example 1:* In this example, the amount that is 15 percent of the LEA's total grant (see §300.226(a)), which is the maximum amount that the LEA may use for early intervening services (EIS), is greater than the amount that may be used for local maintenance of effort (MOE) reduction (50 percent of the increase in the LEA's grant from the prior year's grant) (see §300.205(a)).

Prior Year's Allocation	\$900,000
Current Year's Allocation	1,000,000
Increase	100,000
Maximum Available for MOE Reduction	50,000
Maximum Available for EIS	150,000

If the LEA chooses to set aside \$150,000 for EIS, it may not reduce its MOE (MOE maximum \$50,000 less \$150,000 for EIS means \$0 can be used for MOE).

If the LEA chooses to set aside \$100,000 for EIS, it may not reduce its MOE (MOE maximum \$50,000 less \$100,000 for EIS means \$0 can be used for MOE).

If the LEA chooses to set aside \$50,000 for EIS, it may not reduce its MOE (MOE maximum \$50,000 less \$50,000 for EIS means \$0 can be used for MOE).

If the LEA chooses to set aside \$30,000 for EIS, it may reduce its MOE by \$20,000 (MOE maximum \$50,000 less \$30,000 for EIS means \$20,000 can be used for MOE).

If the LEA chooses to set aside \$0 for EIS, it may reduce its MOE by \$50,000 (MOE maximum \$50,000 less \$0 for EIS means \$50,000 can be used for MOE).

*Example 2:* In this example, the amount that is 15 percent of the LEA's total grant (see §300.226(a)), which is the maximum amount that the LEA may use for EIS, is less than the amount that may be used for MOE reduction (50 percent of the increase in the LEA's grant from the prior year's grant) (see §300.205(a)).

Prior Year's Allocation	\$1,000,000
Current Year's Allocation	2,000,000
Increase	1,000,000
Maximum Available for MOE Reduction	500,000
Maximum Available for EIS	300,000

If the LEA chooses to use no funds for MOE, it may set aside \$300,000 for EIS (EIS maximum \$300,000 less \$0 means \$300,000 for EIS).

If the LEA chooses to use \$100,000 for MOE, it may set aside \$200,000 for EIS (EIS maximum \$300,000 less \$100,000 means \$200,000 for EIS).

If the LEA chooses to use \$150,000 for MOE, it may set aside \$150,000 for EIS (EIS maximum \$300,000 less \$150,000 means \$150,000 for EIS).

If the LEA chooses to use \$300,000 for MOE, it may not set aside anything for EIS (EIS maximum \$300,000 less \$300,000 means \$0 for EIS).

If the LEA chooses to use \$500,000 for MOE, it may not set aside anything for EIS (EIS maximum \$300,000 less \$500,000 means \$0 for EIS).

## Appendix E to Part 300—Local Educational Agency Maintenance of Effort Calculation Examples

The following tables provide examples of calculating LEA MOE. Figures are in \$10,000s. All references to a “fiscal year” in these tables refer to the fiscal year covering that school year, unless otherwise noted.

Tables 1 through 4 provide examples of how an LEA complies with the Subsequent Years rule. In Table 1, for example, an LEA spent \$1 million in Fiscal Year (FY) 2012-2013 on the education of children with disabilities. In the following year, the LEA was required to spend at least \$1 million but spent only \$900,000. In FY 2014-2015, therefore, the LEA was required to spend \$1 million, the amount it was required to spend in FY 2013-2014, not the \$900,000 it actually spent.

**Table 1—Example of Level of Effort Required To Meet MOE Compliance Standard in Year Following a Year in Which LEA Failed To Meet MOE Compliance Standard**

Fiscal year	Actual level of effort	Required level of effort	Notes
2012-2013	\$100	\$100	LEA met MOE.
2013-2014	90	100	LEA did not meet MOE.
2014-2015		100	Required level of effort is \$100 despite LEA's failure in 2013-2014.

Table 2 shows how to calculate the required amount of effort when there are consecutive fiscal years in which an LEA does not meet MOE.

**Table 2—Example of Level of Effort Required To Meet MOE Compliance Standard in Year Following Consecutive Years in Which LEA Failed To Meet MOE Compliance Standard**

Fiscal year	Actual level of effort	Required level of effort	Notes
2012-2013	\$100	\$100	LEA met MOE.
2013-2014	90	100	LEA did not meet MOE.
2014-2015	90	100	LEA did not meet MOE. Required level of effort is \$100 despite LEA's failure in 2013-2014.
2015-2016		100	Required level of effort is \$100 despite LEA's failure in 2013-2014 and 2014-2015.

Table 3 shows how to calculate the required level of effort in a fiscal year after the year in which an LEA spent more than the required amount on the education of children with disabilities. This LEA spent \$1.1 million in FY 2015-2016 though only \$1 million was required. The required level of effort in FY 2016-2017, therefore, is \$1.1 million.

**Table 3—Example of Level of Effort Required To Meet MOE Compliance Standard in Year Following Year in Which LEA Met MOE Compliance Standard**

Fiscal year	Actual level of effort	Required level of effort	Notes
2012-2013	\$100	\$100	LEA met MOE.
2013-2014	90	100	LEA did not meet MOE.
2014-2015	90	100	LEA did not meet MOE. Required level of effort is \$100 despite LEA's failure in 2013-2014.
2015-2016	110	100	LEA met MOE.
2016-2017		110	Required level of effort is \$110 because LEA expended \$110, and met MOE, in 2015-2016.

Table 4 shows the same calculation when, in an intervening fiscal year, 2016-2017, the LEA did not maintain effort.

**Table 4—Example of Level of Effort Required To Meet MOE Compliance Standard in Year Following Year in Which LEA Did Not Meet MOE Compliance Standard**

Fiscal year	Actual level of effort	Required level of effort	Notes
2012-2013	\$100	\$100	LEA met MOE.
2013-2014	90	100	LEA did not meet MOE.
2014-2015	90	100	LEA did not meet MOE. Required level of effort is \$100 despite LEA's failure in 2013-2014.
2015-2016	110	100	LEA met MOE.
2016-2017	100	110	LEA did not meet MOE. Required level of effort is \$110 because LEA expended \$110, and met MOE, in 2015-2016.
2017-2018		110	Required level of effort is \$110, despite LEA's failure in 2016-2017.

Table 5 provides an example of how an LEA may meet the compliance standard using alternate methods from year to year without using the exceptions or adjustment in §§300.204 and 300.205, and provides information on the following scenario. In FY 2015-2016, the LEA meets the compliance standard using all four methods. As a result, in order to demonstrate that it met the compliance standard using any one of the four methods in FY 2016-2017, the LEA must expend at least as much as it did in FY 2015-2016 using that same method. Because the LEA spent the same amount in FY 2016-2017 as it did in FY 2015-2016, calculated using a combination of State and local funds and a combination of State and local funds on a per capita basis, the LEA met the compliance standard using both of those methods in FY 2016-2017. However, the LEA did not meet the compliance standard in FY 2016-2017 using the other two methods—local funds only or local funds only on a per capita basis—because it did not spend at least the same amount in FY 2016-2017 as it did in FY 2015-2016 using the same methods.

**Appendix E to Part 300—Local Educational Agency Maintenance of Effort Calculation Examples**

**Table 5—Example of How an LEA May Meet the Compliance Standard Using Alternate Methods From Year to Year**

Fiscal year	Local funds only	Combination of State and local funds	Local funds only on a per capita basis	Combination of State and local funds on a per capita basis	Child count
2015-2016	*\$500	*\$950	*\$50	*\$95	10
2016-2017	400	*950	40	*95	10
2017-2018	*500	900	*50	90	10

\*LEA met compliance standard using this method.

Table 6 provides an example of how an LEA may meet the compliance standard using alternate methods from year to year in years in which the LEA used the exceptions or adjustment in §§300.204 and 300.205, including using the per capita methods.

**Table 6—Example of How an LEA May Meet the Compliance Standard Using Alternate Methods From Year to Year and Using Exceptions or Adjustment Under §§300.204 and 300.205**

	Therefore, the LEA was required to spend at least \$430 in local funds only. (\$450 from 2017-2018 – \$20 allowable reduction per an exception and the adjustment under §§300.204 and 300.205)		\$20/10 children with disabilities in the comparison year (2017-2018) = \$2 per capita allowable reduction per an exception and the adjustment under §§300.204 and 300.205  \$45 local funds only on a per capita basis (from 2017-2018) – \$2 allowable reduction per an exception and the adjustment under §§300.204 and 300.205 = \$43 local funds only on a per capita basis required to meet MOE. Actual level of effort is \$405/9 (the current year child count)	\$111.11 and \$111.11 > \$100), the LEA met MOE	

\*LEA met MOE using this method.

**Note:** When calculating any exception(s) and/or adjustment on a per capita basis for the purpose of determining the required level of effort, the LEA must use the child count from the comparison year, and not the child count of the year in which the LEA took the exception(s) and/or adjustment. When determining the actual level of effort on a per capita basis, the LEA must use the child count for the current year. For example, in 2018-2019, the LEA uses a child count of 9, not the child count of 10 in the comparison year, to determine the actual level of effort.

Tables 7 and 8 demonstrate how an LEA could meet the eligibility standard over a period of years using different methods from year to year. These tables assume that the LEA did not take any of the exceptions or adjustment in §§300.204 and 300.205. Numbers are in \$10,000s budgeted and spent for the education of children with disabilities.

How much must the LEA budget for 2016-2017 to meet the eligibility standard in 2016-2017?	500	1,000	50	100		When the LEA submits a budget for 2016-2017, the most recent fiscal year for which the LEA has information is 2014-2015. It is not necessary for the LEA to consider information on expenditures for a fiscal year prior to 2014-2015 because the LEA maintained effort in 2014-2015. Therefore, the Subsequent Years rule in §300.203(c) is not applicable.

for 2017-2018 to meet the eligibility standard in 2017-2018?						information on expenditures for a fiscal year prior to 2015-2016 because the LEA maintained effort in 2015-2016 using those methods.
						However, if the LEA seeks to use local funds only, or local funds only on a per capita basis, to meet the eligibility standard, the LEA must use information on expenditures for a fiscal year prior to 2015-2016 because the LEA did not maintain effort in 2015-2016 using either of those methods, per the Subsequent Years rule. That is, the LEA must determine what it should have spent in 2015-2016 using either of those methods, and that is the amount that the LEA must budget in 2017-2018.

Table 9 provides an example of how an LEA may consider the exceptions and adjustment in §§300.204 and 300.205 when budgeting for the expenditures for the education of children with disabilities.

**Table 9—Example of How an LEA May Meet the Eligibility Standard Using Exceptions and Adjustment in §§300.204 and 300.205, 2016-2017**

Fiscal year	Local funds only	Combination of State and local funds	Local funds only on a per capita basis	Combination of State and local funds on a per capita basis	Child count	Notes
Actual 2014-2015 expenditures	*\$500	*\$1,000	*\$50	*\$100	10	The LEA met the compliance standard using all 4 methods.*
Exceptions and adjustment taken in 2015-2016	-50	-50	-5	-5		LEA uses the child count number from the comparison year (2014-2015).
Exceptions and adjustment the LEA reasonably expects to take in 2016-2017	-25	-25	-2.50	-2.50		LEA uses the child count number from the comparison year (2014-2015).
How much must the LEA budget to meet the eligibility standard in 2016-2017?	425	925	42.50	92.50		When the LEA submits a budget for 2016-2017, the most recent fiscal year for which the LEA has information is 2014-2015. However, if the LEA has information on exceptions and adjustment taken in 2015-2016, the LEA may use that information when budgeting for 2016-2017. The LEA may also use information that it has on any exceptions and adjustment it reasonably expects to take in 2016-2017 when budgeting for that year.

Table 10 provides examples both of how to calculate the amount by which an LEA failed to maintain its level of expenditures and of the amount of non-Federal funds that an SEA must return to the Department on account of that failure.

## Appendix E to Part 300—Local Educational Agency Maintenance of Effort Calculation Examples

Table 10—Example of How To Calculate the Amount of an LEA's Failure to Meet the Compliance Standard in 2016-2017 and the Amount That an SEA Must Return to the Department

Fiscal year	Local funds only	Combination of State and local funds	Local funds only on a per capita basis	Combination of State and local funds on a per capita basis	Child count	Amount of IDEA Part B subgrant
2015-2016	*\$500	*\$950	\$50*	\$95*		Not relevant.
2016-2017	400	750	40	75	10	\$50
Amount by which an LEA failed to maintain its level of expenditures in 2016-2017	100	200	100 (the amount of the failure equals the amount of the per capita shortfall (\$10) times the number of children with disabilities in 2016-2017 (10))	200 (the amount of the failure equals the amount of the per capita shortfall (\$20) times the number of children with disabilities in 2016-2017 (10))		

The SEA determines that the amount of the LEA's failure is \$100 using the calculation method that results in the lowest amount of a failure. The SEA's liability is the lesser of the four calculated shortfalls and the amount of the LEA's Part B subgrant in the fiscal year in which the LEA failed to meet the compliance standard. In this case, the SEA must return \$50 to the Department because the LEA's IDEA Part B subgrant was \$50, and that is the lower amount.
