Richard E. Dennis, Superintendent
Jason M. Mann, CSFO

March 8, 2024

All Elmore County facilities have been inspected by an EPA-approved asbestos inspector. We maintain a management plan in the school office and maintenance building as required under the AHERA regulations. The plan is available for anyone to review.

Most of our asbestos containing materials are in the form of floor tiles and are non-friable material. Although we do have some friable material, (able to crumble with hand pressure), suspect asbestos in our facilities, these materials are well maintained and are not accessible to our students. The law requires that we make this notice annually to all employees, students, and staff.

We are glad to provide a safe and healthy atmosphere for our staff and students.

Elmore County Board of Education

Every student empowered. Every student succeeds.
