Excellence**

in the Youth of Franklin County

B R I D G E

teaches that when you do good , you feel good

After school and summer programming for ages 8-18

Every Monday and Tuesday 4-6 PM

Location: 900 South Shepherd St

Our program Bridge is an after- school program designed using a multi-faceted approach to working with the youth of Franklin County. At Bridge, we teach life skills, provide team building activities, social skills, emotional management, service learning projects, and much more. We use a curriculum called Positive Action which teaches that positive actions create a positive self- concept, causing you to think positively, and desire to do more positive actions. Bridge teaches that when you do good, you feel good.

Family Engagement

We at Bridge believe that parent involvement is critical for the success of the child and the family as a unit. We provide many opportunities for children and parents/guardians to connect and build relationship.

Family Night Done Right , Family Retreats, Quarterly Parent Workshops
