## Property Custodian Responsibilities

The Principal/Site Administrator, as the Property Custodian, is responsible for all property assigned to his/her school or department. Each Property Custodian is responsible for maintaining accurate records and documentation for all property assigned to his/her custodianship. Each School in the Lake Wales Charter Schools System will conduct an annual audit of each location.

### Capitalization Rules:

Currently, the LWCS "capitalizes" software, equipment, computer-related equipment, and audio-visual materials costing in excess of \$749.99. This means any equipment costing \$750.00 (shipping included) or more is considered an "asset" and will be assigned an "Asset Number" for property record purposes. All items \$749.99 and under will also be inventoried.

Inventory is maintained by the use of "Asset Numbers" assigned to each item that is capitalized. These numbers will need to be printed at each location and are in the form of bar-coded labels. These labels are attached to the equipment, and LWCS will complete physical inventories annually to assure this is done correctly, and all equipment is accounted for properly.

Lake Wales Charter Schools property auditors will continue to come annually to inventory equipment purchased with LWCS funds.

## Tangible Property Acknowledgement

Pursuant to established LWCS policies and procedures set forth by The Florida Department of Financial Services rule 691.73 regarding the processing and safeguarding of tangible property, the following responsibilities relate to the principal and/or designated property custodian:

- We are required to maintain adequate records of property in our custody. This shall include the following information upon acquisition either with a purchase order or a donation:

Identification #

Description/Make Model/Serial Number/Year

Physical Location

Name of Custodian

Date Acquired

Acquired Cost

- Property records forms require the information above. Information recorded shall include the name and signature of the Property Custodian.
- Annual physical inventory must be conducted.
- LWCS procedures state that all tangible property meeting the \$750 asset threshold must have an identifying bar code label affixed. If the asset was purchased with Federal Grant funds, the appropriate colored label will be affixed to the item as well.
- All tangible assets (as well as, any non-inventory items less than \$750 that are of such nature that they are susceptible to being stolen or misplaced) must be marked as "LWCS" using a permanent marker.
- Ensure that the movement to/from your location of tangible property meeting the \$750 asset threshold is processed through the principal/designated property custodian on the appropriate Property Transfer forms.
- Tangible property deemed obsolete or no longer of use to your location and costing under \$5000.00 per unit may be discarded according to disposition policies and procedures with the exception of Title One property.
- For tangible property meeting the \$750 asset threshold, your location should have a system in place to monitor the movement of such property between rooms for accountability purposes; this includes updating the room location through the Destiny Asset Manager Program.
- For tangible property items donated to your location, the principal/designated property custodian needs to complete the necessary acceptance of donation form.

- Retain copies of documentation for your location's files; such documentation includes transfer forms, additions reports (printed from Destiny Asset Manager), donation forms, repair form, equipment use contract forms, and disposition forms. Copies of such documentation can be of use during the audit process to support the current status of an equipment item.
- Ensure return of property signed out on all 'Equipment Use Contract' forms. All property leaving the premises must have a signed 'Equipment Use Contract' form on file with the property custodian. This includes property signed out to employees over the summer and assigned to employees who will no longer be employed by the LWCS System.
- In no case shall LWCS property be converted to personal use.

**I acknowledge having read the above and understand these responsibilities in my efforts to properly process and safeguard tangible property belonging to the Lake Wales Charter Schools System.**

## Audit Preparation

In preparation for your annual audit, please ensure that your location's Property Custodian Assistant and Network Manager are available during the equipment audit. Please make sure that your staff is aware of this audit and that all equipment is on campus for viewing or that paperwork is on file with the Property Custodian.

- In order to locate your equipment quickly, update the room number or room name for property items using the Destiny Asset Manager program.
- Mark all equipment (including non-inventory technology equipment) as "LWCS" using a permanent marker.
- Prepare the necessary transfer/disposal forms for equipment items deemed surplus or obsolete and, if possible, arrange for disposal company to pick up the equipment prior to the audit. Keep records of all transferred/disposed items.
- Please ensure an Equipment Use Contract is completed and on file for all equipment that is assigned to staff. An Equipment Use Contract cannot be accepted for any new equipment. The equipment must be on site. **THIS FORM MUST BE COMPLETED FOR ALL EQUIPMENT LEAVING YOUR CAMPUS OVERNIGHT OR LONGER. A COPY MUST BE KEPT ON FILE WITH YOUR PROPERTY CUSTODIAN.**
- Please help expedite the completion of your audit by making sure barcode labels are placed on all equipment and are visible.
- Audits will be conducted by Principal/Designated Property Custodian within each school or from the LWCS system.

## Audit Acknowledgement

Pursuant to LWCS policies and procedures established by The Florida Administrative Code 691-73.006 an annual audit of tangible property is conducted at each school.

Any property item found during the conduct of the inventory which meets the tangible property requirements and not listed on the form shall be added to the forms. After appropriate investigations, it may be added to the inventory.

Upon completion of the inventory, the data listed on the forms shall be compared with the individual property records. Noted differences shall be investigated and corrected as appropriate or the item shall be relocated to the location and property custodian shown in the individual property record.

Items not located during the inventory process shall be reported to the LWCS Office. If the item is not located after investigation, the record will be so noted. All stolen items will be reported to law enforcement.

Items not accounted for are reported annually to the Superintendent.

The fiscal year \_\_\_\_ annual physical inventory of property at your location has been completed.

By signing below, you acknowledge you have read the information and reviewed the audit results with the auditor.

- You were notified of the date your annual audit was to be conducted.
- You were notified what preparations were required.
- Submit a LOST OR STOLEN form for all items that cannot be accounted for and are presumed lost or stolen; this includes situations where insufficient documentation exists to support the disposition of the property. Unaccounted for property will remain on file for two consecutive audits.
- Upon receipt of the audit result, I will complete the required response to the Superintendent regarding the annual equipment discrepancy report, including corrective action steps.

## Asset Bar-Code Labels

Once goods have been received, asset bar code labels will be generated.

The bar-code label needs to be attached to the property. If the asset was purchased with Federal Grant funds, please affix the appropriate colored label as well.

The LWCS is audited on asset marking annually. Compliance is extremely important.

### Florida State Rule 691-73.004

(1) Marking of Property - Each property item shall be permanently marked with the identification number assigned to that item to establish its identity and ownership by the governmental unit holding title to the item. The marking shall visually display the property identification number of the item and may include an electronic scanning code ("barcode") to facilitate electronic inventory procedures.

### Reporting Theft or Loss

If a site experiences a break-in, vandalism, theft or other form of malicious mischief resulting in the loss or damage of LWCS equipment, property or internal funds, a police report **MUST** be filed and an original LOST OR STOLEN form must be filled out (including police case identification numbers) and forwarded to Lake Wales Charter Office.

If a theft occurs while the property is off-premises, a police report must be filed. Upon returning to your work site, contact your supervisor to complete the LOST OR STOLEN form and send both forms to Lake Wales Charter Office.

All LOST OR STOLEN forms must be signed by the Principal.
