CATEGORY = PRIORITY/REQUIRED

A. Purpose

The School is committed to providing students with a learning environment free from disruptions. Use of personal communication devices (cell phones, tablets, laptops, other communication devices, smartwatches, etc.) for nonacademic means often leads to disruptions in the learning environment for both individual students and the classroom.

For the purposes of this policy, a personal communication device is defined as any non-district provided internet/ cellular-capable device that can support voice or video calls, texts, emails, or instant messages. Personal communication devices include, but are not limited to: cellphones, tablets, laptops, and smartwatches. For ease of reference, devices provided by the school for instructional use shall be referred to as "school-owned" or school-provided" devices.

B. Restrictions

Student use of personal communication devices is strictly prohibited from 8:00am to 2:30pm (referred to as "the school day"). The school day includes transition between the morning and afternoon session.

Students participating in, field trips or other activities outside of the school day shall abide by the rules and consequences established for personal communication devices set by the administrator, center director, or teacher. However, in no event shall personal communication devices (or any other device with photographic or recording capabilities) be used in bathrooms or any other location where such use could violate another person's reasonable expectation of privacy.

While it is best practice that these devices are not brought to school, if these devices are brought to school, they shall be kept with the power turned off in a student's assigned area, backpack, or handbag. The School will not be responsible for loss, damage or theft of any electronic communication device brought to the school.
