

SAU #68

LINCOLN-WOODSTOCK COOPERATIVE SCHOOL DISTRICT

February 21, 2025

Dear Parents and Guardians,

We are writing to let you know that Lin-Wood High School recently completed testing for lead in drinking water. This is part of an ongoing effort related to New Hampshire state law RSA 485:17-a, which requires school and child care facilities to test for lead in drinking water and to act when lead is found at levels at or above 5 parts per billion (ppb).

Lead is a toxic heavy metal that has a range of adverse health effects if inhaled or swallowed. Lead rarely occurs naturally in New Hampshire's drinking water sources (groundwater or surface water) and typically enters drinking water due to the wearing away of piping, faucets, fixtures and other plumbing materials.

Because lead is tasteless, odorless and colorless in drinking water, testing is the only way to learn whether lead is present. It is important to sample each faucet or water fountain that is used for drinking or food prep because test results can vary between locations.

During recent testing, we collected samples from six water outlets (e.g., drinking fountains, classroom faucets, kitchen sinks), with four classroom faucet outlet samples testing at or above 5 ppb, the level where action must be taken. ***Please note the outlets with adverse lead level results are only classroom faucets with water tempered for handwashing only.***

We have removed access to these outlets until the problem can be corrected. The table below shows a list of all the tested outlets, their locations, sample results and our planned remediation.

Outlet Number	Location	Sample Result (ppb)	Planned Remediation
1	High School Room 31	9.43	Do Not Drink/Hand Wash Only Signage
2	High School Room 32	6.82	Do Not Drink/Hand Wash Only Signage
4	High School Room 34	10.4	Do Not Drink/Hand Wash Only Signage
5	High School Room 35	5.44	Do Not Drink/Hand Wash Only Signage

All sample results and additional resources from the New Hampshire Department of Environmental Services (NHDES) can be viewed at gettheleadoutnh.org.

Sincerely,

Mary Steady, Ed.D.
Superintendent
