

Call Out for July 29, 2022

This is Richard Dennis, Superintendent of Elmore County Public Schools.

Summer is winding down and the excitement is building for the kick-off of the 2022-2023 School Year! As we prepare to start school I want to remind all parents to make sure they have registered their students on-line with each school, specifically, those 8th graders attending Redland Middle School which opens for the first time this year. We will continue to pursue many of the Health Safety Procedures that were implemented during the COVID Pandemic, however, several of the policies have been changed as we shift back to a regular routine. ECAP transportation and Blended Attendance Policies have been ended, so if this impacts your student, please, contact your student's administrator if you have questions.

Software requirements have created the need to update and strengthen student passwords- usernames will remain the same. Only student passwords will change to an 8 character password using a combination of capital letters and numbers. Students will be provided their passwords the first week of school by their teacher.

We are not changing anything with parent passwords because those are set by a parent. The schools will notify their parents when the portal is open. If a parent is having trouble logging in to the parent portal they must contact the school first for assistance.

All personnel return to work on August 1 as we prepare to open schools for students on August 8, so parents and students enjoy your last week of Summer and employees, we will see you Monday morning!

Every Student Empowered, Every Student Succeeds.

Richard Dennis
