Descriptions of high school courses available to JH students:

Algebra II - currently enrolled 9th graders who have completed Algebra I and Geometry. Note: taking Algebra I as an 8th grader does not count towards 3 math credits required in 9th-12th grade. By taking it as an 8th grader this allows the student to earn four math credits for the student's HS transcript (grades 9-12).

Geometry - currently enrolled 9th grade students who have already taken Algebra I

Spanish I - currently enrolled 9th graders

Note -Students may take only one high school credit course.

There is no charge for summer school. Meals for breakfast and lunch as well as transportation will be available.
