Onaway Area Community Schools COVID-19 Dashboard

The Onaway Area Community School COVID-19 Dashboard provides our school families and school community members with transparency regarding all known school associated COVID-19 cases. This webpage will be updated frequently through coordination with the Health Department in order to provide public notice regarding new and cumulative COVID-19 case counts.

The School will notify parents of those students who attend the building(s) that are involved in contract tracing through our social media page, Notify Me, or possibly both. Any parent that that does not receive a notification will be referred to onawayschools.com to preview the COVID-19 Dashboard.

NOTE: Students and staff members that have been identified as close contacts of any school associated cases will be notified individually and directly by OACS staff or the Health Department.

District Building	Positive Cases (New Cases)	Probable Cases (New Cases)	Date Reported (New Cases)	Cumulative Cases Confirmed/Probable
Elementary	2		10-8-21	2
Middle School	4		10-8-21	4
High School	0		10-8-21	0

We remain appreciative of the collective effort that has allowed OACS to continue to offer education options to our families. We will continue to monitor the spread of COVID-19 in our schools and will make decisions regarding our education options based on the most recent information available. Through our experience since the start of the school year, we are confident that the better we do with our mitigation strategies, the more likely we will be able to keep schools open for face-to-face instruction.

We will continue to utilize Notify Me and our social media page to inform families of any situation that warrants an interruption or transition from our regularly scheduled instruction.

We recommend taking action to limit the spread of COVID-19 in our community. This includes:

- Staying home if you are sick.
- Wearing a facial covering to protect others.
- Observing general social distancing guidelines (maintaining a distance of 6 feet apart)
- Washing your hands often with soap and water for at least 20 seconds or using a hand sanitizer that contains at least 60% alcohol if soap and water are not readily available.
- Avoiding touching your eyes, nose, and mouth with unwashed hands.
- Covering coughs and sneezes using the inside of your elbow.
- Cleaning and disinfecting frequently touched surfaces daily

Thank you for your ongoing support and flexibility during this unprecedented school year.
