"Where Industry Meets Education: Nissan Comprehensive COE Model Launch"

Nissan is thrilled to unveil the **Nissan Centers of Excellence**, a groundbreaking initiative in education innovation and industry collaboration.

We proudly announce the selection of **Warren County High School, Franklin County High School, Grundy County High School, and Tullahoma High School** as the pioneering institutions for the Comprehensive Centers of Excellence (COE) model.

Our vision is to equip students with cutting-edge skills and practical knowledge in advanced manufacturing, aligning education with the dynamic needs of industry. Through this initiative, we aim to create a seamless pathway from classroom to career, ensuring our students are not just ready for the workplace, but ahead of the curve.

For Students: An opportunity to engage in high-quality, work-based learning experiences to gain hands-on experience in advanced manufacturing technologies taught by college faculty that are industry subject matter experts.

For Parents: An opportunity for your child to earn high school and college credits while gaining hands-on experience.

For the Community: A strengthened economic foundation, powered by a highly skilled workforce prepared to meet the challenges and opportunities of tomorrow's job market.

Program Highlights: The Nissan Centers of Excellence will provide cutting-edge equipment to provide an immersive learning environment with courses taught by college faculty who are industry professionals and bring real-world experience into the classroom.

Launch Details: The COE comprehensive model is scheduled to kick off at the beginning of the 2024 academic year. Stay tuned for more details on curriculum offerings, enrollment processes, and how you can be a part of this exciting journey!

School Counselors will help you with registering for the TCAT Dual Enrollment **Advanced Manufacturing Technician Program!**
