

February, 2023

Welcome and thank you for visiting the proposed NEW Colebrook Academy and North Point Career and Technical Education Center Building Project web page. We will keep this section up to date with the latest renderings, information, and historical data. The proposed school contains four pillars:

- Meets student academic, career and technical education needs
- Creates a safe environment
- Ensures the new building is sustainable
- Invests in the future of our students and community

I am pleased to announce that the School District of Colebrook has been awarded state building aid! The amount of this aid is 60% of the total cost or \$9.85 million. The remaining 40% of the cost will be borrowed through a bond and paid back over a 15 year period.

Our Public Hearing for the School Bond will be held on Tuesday, February 7 at 6:00 pm. Please attend to learn more about the Phase II project.

Our work to date outlined in the links below. Visit this site often as we will post regular updates of interest to our community.

Remember, to vote MARCH 7, 2023!

Sincerely,

Dr. Debra Taylor

Superintendent

School Administrative Unit # 7
