

November Integrated Programs Community Survey

Updated Guidance and Community Feedback (2025–2027):

Informed by feedback from the first cycle, the ODE released an updated Integrated Guidance for 2025–2027. This revised version further streamlines planning and implementation and includes a Community Engagement Toolkit to assist districts and schools in preparing applications and budgets by fostering meaningful community involvement.

As part of this initiative, we are launching a series of community surveys to gather input from families, students, educators, and other community members on key areas such as academic priorities, career readiness, equitable access to resources, and student well-being. This feedback will directly inform our Integrated Guidance application and budget, ensuring our programs align with the community's vision for student success.

The survey will be available online, with paper copies accessible at district offices for those who prefer them. We encourage everyone to participate and share their perspectives, as this input is essential to our efforts in advancing equity, building community engagement, strengthening systems, and providing a well-rounded education for all students.
