

Archdale Elementary School

Kindergarten had a busy October! The students experienced their first field trip to Whitaker Farms. They learned all about how pumpkins grow, got to plant some basil and pick their own pumpkin. They spent a week learning about Fire Prevention. They learned about stop, drop, and roll; how to exit a building in case of a fire; and ended the unit with a visit from the fire department. The best part of October was LetterLand Day. Kindergarteners dressed up as their favorite characters and had a LetterLand parade around the school.
