NORTHERN VALLEY CAREER AND PROFESSIONAL LEARNING CENTER (NVCPLC)

Room to learn. Room to grow.

At Northern Valley Central in Norwood, home of the Valley and Summit Programs, for students with special needs

More than a space. A gateway to a new era of education.

Now under construction. Our Northern Valley students deserve a dedicated space where they can learn career and life skills in a real-world setting before they graduate.

A home for professional learning

Two dedicated professional development spaces, a multi-use classroom, and a conference room, with seats for 25 per room, or 50 adult learners at a time. This allows us to expand our workshops beyond the current limit of 20 staff members in borrowed rooms in multiple buildings across Northern Valley.

Real jobs and real customers for our students

Students run a coffee shop and mini market, cook in the kitchen, and operate a wash-and-fold laundry service. They also set up rooms, prepare workshop materials, and staff the reception desk.

Help us furnish the Center

The building is funded. Your gift provides the furnishings, technology, and appliances that turn it into a modern working space for students and staff. Our goal is $200,000.
