EDUCATIONAL TOOLS

EVERYONE SAY HI, MS. MOCK

Hi! I am Jen Mock, a founding member of PASCs and our instructional coordinator. I started out working at Premier Learning Center in September 2002 and have been with the Premier family ever since. As instructional coordinator, I help to ensure that PASCs is following our educational mission and vision as set forth by our main founder, Mrs. Darlene M. Smith. My daily focus is our curriculum and instruction, or the teaching that is happening here at PASCs. Every month, I will give you a few tips and tricks or educational resources that you can use at home to help with your child's learning.

This month, I am sharing some of the websites that we use at PASCs as educational resources. A few of them have paid subscriptions that can be used at home as well.

- 🐾 [Epic--online library for kids](#)
- 🐾 [Prodigy--math and English games](#)
- 🐾 [ABCya--website with educational interactive games](#)

Please remember, you don't have to have a computer to enhance your child's learning at home. Simple flash cards with basic reading words and math facts that can be purchased at the dollar store will help with basic skills at home as well.

EDUCATIONAL TOOLS

EVERYONE SAY HI, MS. POOLE

Hello parents and students! My name is Jasmine Poole, Dean of Students here at Premier Arts and Science Charter School. My role here is to encourage our students to be their best selves while continuing their education. I am here to help guide and explore the best options and resources our students and parents need to excel in school and in life. My short term goal that I would like PASCs to achieve while under my supervision during the 2022-2023 school year would be getting to know every student and parent, and ensuring them that we are here to serve them! My long term goal that I would like PASCs to achieve while under my supervision during the 2022-2023 school year would be bridging the gap between our parents and the many resources, services, and opportunities for parent involvement we provide.

Below I've provided some of those resources that I believe can help our students and parents during their educational journey.

- 🐾 <https://teamcarebh.com/>
- 🐾 <https://capbigs.org/>
- 🐾 <https://www.parenttoparent.org/>

I am very excited to be a part of this family, and look forward to getting to know all my special students as well as their parents.

The PREMIERIAN NEWS

BRIDGING THE GAP ONE PARENT AT A TIME

One of the most difficult decisions a parent or guardian has to make is deciding what school their child should receive their early education and even more importantly, why? Studies show that children who are in third grade and younger are significant years when considering how a child develops his or her social and academic skills, and let's face it social and academic skills are life. When it comes time for young scholars to achieve just that; support, partnership, leadership, and patience are a few keywords that every school should have posted on their "word walls" because those words are constant reminders of how genuine relationships are formed so that the parent and teacher can not only support each other but such words also gives each child equal opportunities to achieve goal that they allow their young minds to set.

During the 2022-2023 SY, Premier Arts and Science Charter School (PASCS) will show its commitment to every household and classroom so those "word walls" can be attained for every student without exception. This year our administration will continue to use a back-to-basics approach by implementing initiatives such as the Parent Teacher Association and Title I Meetings. These two specific initiatives will give parents, guardians and PASCS staff the possibilities to collaborate by launching think-tank sessions that will empower both the classroom and the household. This will give parents and guardians the chance to introduce fun activities that will help add on to the positive climate that PASCS has to offer. Sharing spaces where parents, guardians, and PASCS staff are developing systems for their children to be successful gives every young Premierian the ability to see but even more importantly the ability to understand what consistency and expectations looks like from the most influential adults that they have in their young lives.

PASCS looks forward to working with our parents and guardians in an innovative, organic and organized way. If you are a parent or guardian who has a passion for young scholars learning in a safe environment then please visit pascs.net or stop by 500 N. 17th Street to complete a Parent Volunteer form.

As a parent and guardian your hardest decision so far has been the best decision when it comes to your child's education and Premier Arts and Science Charter School's administration looks forward to working with you during the 2022-2023 school year.
