

SPRING PRE-K SCREENINGS FOR THE 2023-2024 SCHOOL YEAR IN JEFFERSON COUNTY SCHOOL DISTRICTS

REGIONAL OFFICE OF EDUCATION #13 PRESCHOOL FOR ALL

**MATT RENAUD, REGIONAL SUPERINTENDENT OF SCHOOLS
IS PLEASED TO ANNOUNCE FRANKLIN-JEFFERSON CO. SPECIAL EDUCATION AND
ROE #13 PFA ARE OFFERING SPRING SCREENINGS**

Is my child eligible for Pre-K? The PFA Program is designed for children ages 3-5 who are not age eligible for Kindergarten (ie turning 5 on or after September 1 of the school year).

Why Pre-K? Our desire is to help all students successfully make the first step to school. By participating in our PFA program, your child will be provided with a learning environment that is enriched with literacy and practical social experiences. We offer parents the opportunity to attend Family Involvement Activities with their child. This gives the parents time with other families in the classroom. These fun events are designed to share parenting tips and information on topics that are current and relevant to your child's health, safety, discipline and development.

Why is a Pre-K Screening so important? Screenings assess the development of your child based on their current age. The areas being screened are: Visual-Motor Adaptive Skills, Gross Motor, Language and Cognition, and Speech Articulation. This will give the screening team and teachers valuable information when determining placement for the program.

PLEASE CALL YOUR RESIDENT SCHOOL DISTRICT TO SCHEDULE A SCREENING APPOINTMENT!
