FOREWORD

Welcome to the Franklin County School District. The purpose of this handbook is to explain what is expected of each student. It is the responsibility of each student and his or her parents/guardians to read the handbook thoroughly in order to have an understanding of the policies and procedures of the schools within the district.

The goal of the Franklin County School District is to educate today's students for tomorrow's world. To accomplish our goal, we look forward to students, parents, families, and the community being a part of our school family. We firmly believe in educating the total student and setting high expectations in academic achievement, physical education, and character development. Parental Involvement is critical to the success of our schools. We encourage parents to discuss the handbook with their child(ren) so that students understand that certain standards must be met in academic achievement, discipline and grade level promotions. We ask that parents help us by conveying messages to their child(ren) about the importance of good study habits, attendance, and good citizenship. We thank you in advance for your help and support in the coming 2022-2023 school year.

ACADEMIC REQUIREMENTS AND PROMOTION POLICIES

The Franklin County School District is dedicated to the total and continuous development of each student. A student's progress is the responsibility of all stakeholders involved in the educational process: the student, his or her parents, and the school faculty and staff. The curriculum is based on the *Mississippi Curriculum Frameworks*, as developed by the Mississippi Department of Education. Parents are encouraged and expected to be actively involved in their child's education.

Students are required to attain the skill levels set forth in the Mississippi College and Career Ready Standards which was adopted and implemented in all Kindergarten through Second Grade Mississippi public schools during school year 2014-2015. All students who have an average below 80% in Language Arts, Reading, and/or Math, will be strongly advised to attend summer school. Additionally, as part of the promotion policy, the following standards apply:

- 1. Students scoring at the lowest two achievement levels in reading on the established state assessment for 3rd grade will not be promoted to 4th grade unless the student meets the good cause exemptions for promotion.**
- 2. In order for 3rd Grade students to be promoted to 4th Grade, students in 3rd Grade must know multiplication facts from the one family through the 10 family with 80% accuracy on a 100 problem fact test. Students practice weekly throughout the year. They will be given 5 minutes for the assessment which will be administered during the last nine weeks of the school year.**

Students should not arrive at school before 7:30 a.m. Students are expected to be in the classroom in their seat and ready for instruction when the tardy bell rings. Any student

not in his/her assigned area, seated and ready for instruction, is tardy.

Being on time for school is important. When students are late for class, they miss valuable instruction. The following are consequences for student tardiness: 1st and 2nd tardies—warning; 3rd tardy—referral to counselor; 4th tardy—parental contact; 5th tardy—office referral (parent is contacted, student may be placed in ISS, and school attendance officer is contacted).

ELEMENTARY CAMPUS

Students are considered tardy if they arrive after 8:00 a.m. and must be accompanied to the office by an adult and signed in.

MIDDLE /HIGH SCHOOL CAMPUS

Students who arrive after 7:57 a.m. must check in through the office. High school students will be considered tardy if a parent does not sign them in.

LOWER/UPPER ELEMENTARY CAR RIDERS

1. Parents bringing children to school should follow the small paw prints and unload in the lane closest to the Lower Elementary School Building.
2. Parents picking up students in the afternoon should follow the drive behind the playground, entering on the far side of the playground. Car riders will be dismissed with first load at 3:00 and will be lined up behind the Lower Elementary for pick up.

MIDDLE SCHOOL CAR RIDERS

Parents that bring their child to school must drop them off next to the Middle School building in the parent drop-off area (Students should not be dropped off in the circle area where the buses unload or in the parking lot). The office should be informed by a parent note anytime a student will be a car rider in the afternoon.

HIGH SCHOOL TRANSPORTATION

Parents bringing children to school will drop students off at the high school building stairs (behind the gym and cafeteria).

Students drivers must complete paperwork and purchase a decal to park on campus. Student vehicles on Franklin County School District Campus are subject to random searched.

PRESENCE ON CAMPUS AFTER HOURS

Students on campus after 3:30 p.m. or after the buses leave the campus must be under the supervision of a teacher, school administrator, coach or club sponsor. Anyone who loiters on campus OR is not under the supervision of school personnel is considered being in an unauthorized area which will result in disciplinary action and/or trespassing charges being filed. ATHLETICS - BAND - JROTC

To participate, a student must provide a certified copy of their birth certificate and be examined by a physician and declared physically fit. The Principal, Athletic Director, and coaching staff have the prerogative to establish criteria for participation relative to the student's conduct and lack of academic progress. Additional information about all extra-curricular activities is available upon request.

The Children First Act eligibility rule requires students in sixth grade or above to maintain a 2.0 (or C) grade point average on a 4.0 scale to participate in sports or extracurricular activities. The State Department of Education would monitor eligibility based on a semester grade reporting period. Students who do not have a grade point average of 2.0 or above will be ineligible for the next semester. Ineligibility will remain in effect until the student's grade point average in a succeeding semester is a 2.0 or higher on a 4.0 scale.

ELIGIBILITY RULES FOR ATHLETICS AND OTHER SCHOOL ACTIVITIES

1. Be a full-time student and conduct him or herself properly.
2. Meet age requirements
 - a) 7th graders must not have reached 14 years of age prior to Aug. 1
 - b) 8th graders must not have reached 15 years of age prior to Aug. 1
 - c) High School: Not reached 19 years of age prior to August 1.
3. Not participated in athletics for more than four consecutive years after the date of entering ninth grade.
4. In order to participate in a school related activity, students must be in attendance for 63% of the school day. Exceptions may be made if the student presents a doctor, dental, court or principal's excuse.
5. The following academic rules for students participating in activities adopted by the State Board and the High School Activities Association Handbook define what students are required in order to be eligible for participation. Students must meet the following minimum scholastic requirements at the end of the school year to be eligible for the succeeding semester:
 - a) The MHSAA eligibility rules require each student participating in MHSAA sanctioned competitions to make "satisfactory progress toward graduation." Each school district determines the requirements for "satisfactory progress toward graduation" through its graduation requirements. Each school district must interpret this according to its requirements. Additionally, according to Mississippi law, a student must maintain a grade point average of at least 2.0 or a C average. This will be measured at the conclusion of the first semester using the semester averages of all the courses the student is taking. Students who do not have a 2.0 or a C average for the first semester will be ineligible for the second semester. At the end of the school year, each student's grade point average for the year will be assessed. This assessment will reflect the average for the entire year using the final grades for each course. If the student does not have a grade point average of at least 2.0 or a C average, he/she will become ineligible for the fall semester.
 - b) Special education students will be academically eligible if they are making satisfactory progress according to the committees reviewing their Individual Education Plans (IEP).
 - c) Out of school One or More Semesters: if a pupil who is eligible for a given semester drops out of school for one or more semesters, he/she is then ineligible until he/she passes 5 subjects that count toward graduation with overall average 70. A pupil who is eligible for a given semester cannot drop

out of school during the semester or remain out of school for one or more semesters and then be eligible for the next semester he/she attends.

STANDARDS FOR ALL ATHLETIC AWARDS

The head coach of all Franklin County Schools athletic teams will establish requirements for earning an athletic award letter. These requirements will be discussed with the athlete prior to the start of the first scheduled contest. Any athlete who quits, resigns, or is dismissed from a team before the season has ended, forfeits all rights to earn a letter in that sport. Franklin County Schools do not purchase athletic jackets for student athletes. It will be determined by the head coach of each sport if a student athlete letters and the student athlete will be responsible for purchasing his or her own athletic jacket from a vendor chosen by Franklin County Schools. The jacket colors and letter will be chosen by Franklin County Schools.

ATTENDANCE POLICY

The Franklin County School District shall comply with the requirements of the "Mississippi Compulsory School Attendance Law" (Miss. Code § 37-13-91). Appropriate reports as required by law shall be provided to the Mississippi Department of Education's Office of Compulsory School Attendance Enforcement.

Regular school attendance is a vital aspect of developing and maintaining a successful educational experience. Regular attendance promotes a sense of responsibility, ensures educational continuity, and facilitates academic growth. Furthermore, daily attendance is important to both the school and the community in that it is the measure by which state funds are allocated to the schools.

For a student to be counted present at school, they must be at school for at least 63% of the school day.

MS Compulsory Attendance Law (Miss. Code § 37-13-91)

If a compulsory school-age child has not been enrolled in a school within fifteen (15) calendar days after the first day of the school year of which said child is eligible to attend or if a compulsory school-age child has accumulated five (5) unexcused absences during the school year, the principal or superintendent will report such absences to the school attendance officer.

The parent(s)/guardian(s) of a compulsory school-age student who has not been enrolled in school within eighteen (18) calendar days after the first day of the school year of the public school that the child is eligible to attend or parent(s)/guardian(s) of a compulsory age student who has accumulated twelve (12) unexcused absences during the school year are subject to prosecution.

Miss. Code § 37-15-33 - A student seeking to transfer from a non-accredited school, whether it is public, private, parochial, or a home-school program, shall be required to take a test to determine the level on which he/she is functioning.

It is very important that students are in school, all day, every day, to successfully learn our curriculum.

High School, Middle School and Elementary

1. Students are allowed two parent excuses per nine weeks. An excuse from the parent must be submitted to the office or the teacher for a parent excuse within

- 48 hours of the absence. Otherwise the absence will be unexcused.
- Excuses from the doctor, dentist, or court are excused. Doctor, dental, or court excuses should be turned in within three days of returning to school or the absence may be considered unexcused.
 - It is the student's responsibility to turn in excuses for an absence. Phone calls will not be accepted.
 - All excuses will be stamped and dated.
 - Days suspended out of school are considered as unexcused absences. The suspended student will be allowed to make up any work that is missed. The work must be made up within 5 days of returning to school and the maximum possible grade will be 80%. Suspension days are explained in detail under suspension guidelines later in this handbook.
 - Emergency excuses are left to the discretion of the principal.
 - In order to get credit for a Carnegie unit in a class, the student will have to make up the time and work for unexcused absences after the 12th unexcused absence. Students exceeding 6 unexcused absences in a ½ credit class will be required to make-up time for excessive absences.
 - The only absence that does not count against perfect attendance is an absence related to school activities.
 - It is the responsibility of the student to arrange with the teacher a time to make up missed work or tests for an excused absence. This work shall be made up within 5 days of returning to school.
 - In order for any student to participate in any extra-curricular or school sponsored activity, the student must be in attendance 63% of day on the day of the activity. Elementary students must be in attendance 63% of the day prior to the field trip or school sponsored activity. Exceptions may be made if the student has a doctor, dental, court, or principal's excuse.
 - High School and Middle School students must be present for 80% of the class to be counted present for that class.
 - Any Student who accumulates 5 unexcused absences, not including out of school suspensions, will be referred to the school attendance officer. Parents of students, who accumulate 12 unexcused absences, not counting out of school suspensions, may have charges filed against them for contributing to the neglect or delinquency of child. Miss. Code § 97-5-39
 - Any preschool student with 12 or more unexcused absences may be dismissed from the program.

High School Attendance Policy for Earning Carnegie Unit Credit

The Mississippi Public School Accountability Standards, 2009, Process Standards, Section 19-3, page 26, states that a school district must ensure that during the academic school year a minimum of 140 hours of instruction is provided for each Carnegie Unit of credit offered and 70 hours for each 1/2 Carnegie unit offered.

140 hours of instruction at Franklin County School is 168 days of instruction per class. 70 hours of instruction is 84 days of instruction per class.

A high school student should adhere to the following attendance policy to assist in the earning of credit or promotion to the next grade for students who are attempting to earn Carnegie units in grades 8-12.

- Must be present 84 days for a semester course. (Maximum 6 unexcused absences)

- Must be present 168 days for a full year course. (Maximum 12 unexcused absences)
- Upon excessive absences (unexcused) the principal or his/her designee will notify the parents of the school's concern and the student will be referred to the school's Teacher Support Team for interventions. (not counting out of school suspensions)
- Upon the 5th and 12th unexcused absence the principal or designee will notify the Franklin County Attendance Officer and parents. (not counting out of school suspensions)

Students who exceed this standard may not, pending appeal, receive a grade or Carnegie unit credit in the course. A notation of inadequate attendance (IA) will be recorded on the report card and on the transcript if the student is passing the course. Students will, pending appeal, be required to make up class time on an hour for hour basis in order to remove IA status.

If the student is failing the course, the actual failing grade will be posted on the report card and on the transcript.

Out of school suspension days are not included when counting the maximum number of unexcused absences that can be missed for each Carnegie Unit of credit.

If the principal determines that credit should be withheld based on attendance, the parent will be notified in writing. Parents have the right to appeal the decision using the General Grievance Procedure published in the Student Handbook.

High School Opportunities for Make-up Days

Summer school may be utilized to aid students in meeting the 168 day attendance requirement.

CHILD FIND

The FCSD participates in an on-going statewide effort to identify, locate and evaluate children ages birth through twenty-one, who are physically, mentally, communicatively, and/or emotionally disabled. Early identification of children in need of special educational experiences is very important. The information gathered from contacts with parents and other agencies will be used to help determine present and future needs as progress is made toward the goal of providing a free appropriate public education to all children with disabilities.

The Director of Special Services works with the Department of Human Services, Department of Health, Department of Mental Health, local education agencies, ministers, physicians, and other individuals to locate and identify children who are in need of special services. For additional information, please contact Shelia Dillon, Director of Special Services, Franklin County School District, P.O. Box 666, 340 Edison Street South Meadville, MS 39653, 601-384-2133.

CODE OF CONDUCT

The purpose of the discipline policy is to clearly define those things that cause problems within the school environment and to make sure that all students understand what is expected and the consequences of violation of these expectations. It is the goal of this school district to provide a safe school environment and one that is conducive to learning. Any students who choose to prevent these two goals will be dealt with accordingly.

1. A parent, guardian or custodian of a compulsory-school-age child enrolled in the Franklin County School District shall be responsible financially for his or her minor child's destructive acts against school property or persons. STUDENT BEHAVIOR

Students are allowed to socialize before school, during morning break, at lunch and after school. It is recognized that interacting with other students is normal and a part of the school experience. **All students should understand that the degree of freedom of interaction that exists in this school is unique as compared to other school districts.** Because of this, each student should demonstrate responsible behavior during these times. Responsible behavior means that all school rules should be followed during these times. If too many students demonstrate irresponsible behavior, it is possible that all students might lose this freedom of interaction. Consequently, we encourage all students to demonstrate proper behavior during these times and to encourage your classmates to do so as well. We do recognize that students have certain rights with regards to free speech, but these rights are governed by certain limits in a school setting. Also, student publications are subject to review and editing by the school administration. (Miss. Code § 37-11-53)

Classroom Discipline

The following is a list of rules that applies to all classrooms. Additional rules may be added by each classroom teacher:

- Respect school and personal property and the rights of others
- Be prepared for class (pen/pencil, paper, book/workbook, etc.)
- Be engaged and make an effort to participate in class

Teachers will use discipline forms to record classroom offenses. Each teacher will implement his/her own consequences/procedures for the first four classroom offenses. After the fourth offense the teacher will attempt to make contact with the parent or guardian. Upon occurrence of the fifth offense, the student's discipline card will be referred to the office. A classroom offense referral form will be considered as a Category One offense. Students who consistently and flagrantly violate classroom procedures may be written up as a Category Two offender. Each discipline referral will be handled at the principal's discretion.

Smart Watches

Franklin County School District does not wish to ban smart watches and other similar devices worn by students. However, in certain classroom situations, the teacher may require the student to leave his/her watch with the teacher during class. The device will be returned to the student by the end of the school day. Failure to follow such a request will result in a Category Two offense.

Past experience has shown that arguments, confrontations, fights, etc. usually do not occur without reason. It is our philosophy that there are windows of opportunity that exist to avoid these negative behaviors. Students who do nothing to avoid arguments, confrontations, fights, etc. when the opportunity exists will face school disciplinary punishment and possibly criminal charges. It is the responsibility of all students to inform the principal and/or teacher(s)/school personnel of any situation in which another student is harassing or confronting them with some type or negative behavior.

Bullying or harassing behavior is any pattern of gestures or written, electronic or verbal communications, or any physical act or any threatening communication, or any act reasonably perceived as being motivated by any actual or perceived differentiating characteristic, that takes place on school property, at any school- sponsored function or on a school bus, and that: (a) Places a student or school employee in actual and reasonable fear of harm to his or her person or damage to his or her property; or (b) Creates or is certain to create a hostile environment by substantially interfering with or

impairing a student's educational performance, opportunities or benefits. For purposes of this section, "hostile environment" means that the victim subjectively views the conduct as bullying or harassing behavior and the conduct is objectively severe or pervasive enough that a reasonable person would agree that is bullying or harassing behavior.

No student or school employee shall be subjected to bullying or harassing behavior by school employees or students. No person shall engage in any act of reprisal or retaliation against a victim, witness or a person with reliable information about an act of bullying or harassing behavior. A school employee who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior shall report the incident to the appropriate school official. A student or volunteer who has witnessed or has reliable information that a student or school employee has been subject to any act of bullying or harassing behavior should report the incident to the appropriate school official.

Students who experience bullying, harassment, or any type of threatening behavior should take the following steps to defend themselves against these acts:

- Follow school rules and procedures and make the effort to avoid confrontations
- Report all acts of bullying, harassment, or threatening behavior to a school official
- Walk away from the student who is threatening or harassing you
- Notify and move to the nearest teacher or principal in the event of an impending confrontation

7. Vandalism
8. Any attempt to physically harm or assault another student

Students involved in Category Four offenses may be given alternative placement for the remainder of the school year or for as long as deemed appropriate if allowed to return to school after suspension.

Category Five Offenses

1. Possession, transfer, and/or use of a weapon
2. Possession, use and/or transfer of controlled substances as defined by the

- Mississippi State Law, and not prescribed by a physician
3. Any form of threat to the safety and welfare of the school district.

Miss. Code § 37-11-18 gives the principal or superintendent the authority to expel students for these offenses.

Miss. Code § 37-11-18 states: "Any student of any school who possesses any controlled substance in violation of the Uniformed Controlled Substances Law, a knife, hand-gun, other firearm or any other instrument considered to be dangerous and capable of causing bodily harm or who commits a violent act on educational property as defined in Miss. Code § 97-37-17, shall be subject to automatic expulsion for a calendar year by the superintendent or principal of the school in which the student is enrolled; provided, however, that the superintendent of the school shall be authorized to modify the period of time for such expulsion on a case by case basis. Such expulsion shall take effect immediately subject to the constitutional rights of due process, which shall include the student's right to appeal to the local school board."

Expulsion

A student who has been expelled may, at the discretion of the Principal, be required to seek treatment, evaluation or counseling prior to being admitted back to school.

Search of Students

A student's person and/or personal effects may be searched whenever a school authority has reasonable suspicion to believe that the student is in possession of illegal or unauthorized materials. Random searches of groups of students may be conducted at the discretion of administration. Students will be asked to remove outer clothing layers, empty pockets, backpacks, etc.

If a pat-down search of a student's person is conducted, it will be conducted in private by a school official of the same sex with an adult witness present. As a part of this pat-down search, students will be asked to empty pockets, backpacks, etc.

It will be an extremely rare situation that requires a more intrusive search of student's person than a pat down. Only if extreme emergency conditions exist, and only upon prior approval by the central office, shall a more intrusive search be conducted. If such a search is necessary, it will be conducted in private by a school official of the same sex, and adult witness of the same sex, the student's parent(s), and law enforcement.

Unclassified Offenses

It is not possible to list every offense that can be classified as a violation of our discipline policy. The school administration reserves the right to add any other offenses that may reasonably fall into the five categories of violations. All offenses listed apply to student behavior on school buses and during school related activities. Offenses that occur on the bus may result in consequences that include a combination of out of school suspension, alternative school placement, and suspension off of the bus.

Senior Offenses

Seniors who commit an offense so near the end of school that the student cannot complete the disciplinary consequences – at the sole discretion of the Franklin County High School Principal - may not be allowed to participate in graduation exercises.

GENERAL GRIEVANCE PROCEDURE

We do recognize that students and parents may disagree with decisions that are made relative to discipline matters or other school-related concerns. All students and their parents have the right to be given due process in order to express their complaints and grievances. A grievance procedure is in place to offer an orderly process to resolve the complaints and grievances of the student. To file a grievance or complaint parents or guardians should do the following:

1. The parent or guardian should contact the school office in order to set up a conference with the person who made the decision in question, within ten (10) days of the decision.
2. If the matter remains unresolved, the student or the parent or guardian may bring that matter before the principal, within ten (10) days.
3. If the matter still remains unresolved, it may be brought to the superintendent for his/her consideration, within ten (10) days.
4. Complaints that remain unresolved following any action of the superintendent may be referred in writing to the board of education, within ten (10) days.

Parents/guardians and students should understand that an effort will be made to resolve all grievances and complaints at the lowest possible level. School officials will listen to concerns; if profanity is used by parents or guardians or if out of control behavior is demonstrated by the parents or guardians, the school will not hesitate to consider legal action. (1972 Education Amendments, Title IX; CFR Part 86; 1964 Civil Rights Act, Title VI; 1973 Rehabilitation Act, Section 504; 45 CFR Part 84.)

Mississippi School Safety Act of 2001

The Mississippi Legislature passed an act entitled the “Mississippi School Safety Act of 2001.” This act included provisions to require school districts to take necessary steps to insure the safety of all students. In addition, the act provides specific parameters of student behavior.

Section 6 establishes definitions for “disruptive behavior” and “habitually disruptive” behavior. Disruptive behavior is defined as conduct that is so unruly, disruptive or abusive that it seriously interferes with a school teacher’s or administrator’s ability to communicate to students in the classroom, with student’s ability to learn, or with the operations of a school or school related activity, and which is not covered by other laws related to violence or possession of weapons or controlled substances on school property, school vehicles or school –related activities.

Habitually disruptive behavior refers to the action of a student who has caused disruption in a classroom, on school property or vehicles or at a school related activity on more than two (2) occasions during a school year and which was initiated by the student and required the attention of school personnel to deal with the disruption. No student shall be considered habitually disruptive before the development of a behavior modification plan. This plan will be formulated by the principal, alternative school personnel, teacher, and parent.

Any student who is thirteen (13) years of age or older that does not comply with the behavior modification plan shall be deemed habitually disruptive and subject to automatic expulsion on the occurrence of the third act of disruptive behavior during the school year. After the second act of disruptive behavior during a school year by a student younger than thirteen (13), a psychological evaluation shall be performed upon the child.

Section 7 provides that the teacher be given authority in the classroom. Subject to the approval of the principal, a teacher may remove a disruptive student from his/her classroom to the office of the principal or assistant principal. The principal or assistant principal shall determine the proper placement of the student. The student may not be returned to the classroom until a conference has been held with the parent/guardian and agreement is reached that no further disruption will be tolerated. Upon request from the teacher, the principal must provide justification if he does not approve of the teacher’s recommendation to remove the student from the classroom. (Miss. Code § 37-11-55)

Suspension/Expulsion Guidelines

1. Every effort will be made to keep students in school. However, it is sometimes necessary to suspend students out of school if they fail to follow the discipline policy.
2. The purpose of suspending students out of school is to let the student and

- parent or guardian know there has been behavior that is unacceptable.
3. Out of school suspension days are not included when counting the maximum number of unexcused absences that can be missed for each Carnegie Unit of credit. The suspended student will be allowed to make up any work that is missed. The work must be made up within 5 days of returning to school and the maximum possible grade will be 80%.
 4. If the suspension occurs during nine weeks tests, the student may be allowed to make up these tests since they are reflective of a greater portion of the year than a daily grade or chapter test. If the student is allowed to take the test, an incomplete will be given until certain conditions are fulfilled by the student as determined by the teacher and principal.
 5. Class assignments will not be sent home to students suspended from school.
 6. If the parent or guardian does not attend a required discipline conference, they are subject to being charged with a misdemeanor, which is subject to a fine not to exceed \$250.00. (Miss. Code § 37-11-53)
 7. While suspended, students cannot participate in or attend any extracurricular or school sponsored activities or come on campus. This loss of privilege begins at the moment of the notification of the suspension.
 8. Students can be recommended to the school board for expulsion by the principal or superintendent if a student is repeatedly suspended from school.

In-School Suspension (ISS)

In-school suspension will be used as discipline for certain minor offenses. The following is a list of some the major premises of the in-school suspension program:

1. Classroom teachers will furnish a written list of the class assignments for the student or work will be assigned by the in-school suspension instructor.
2. A zero will be recorded as a daily grade for work not done by the student while in ISS.
3. Students are expected to follow all rules governing in-school suspension.
4. Students who do not follow the rules of in-school suspension will be subject to out of school suspension and/or alternative school placement.
5. Students are expected to bring all books and materials to in-school suspension.
6. Students are expected to check with the classroom teacher upon their return to the classroom about any work or tests that may have been missed during their time in in-school suspension.
7. Students assigned to in-school suspension may participate in extracurricular activities at the end of the school day.
8. The fifth time a student commits an ISS offense; the student may be assigned three days to ISS.
9. The sixth time a student commits an ISS offense; the student may be assigned to alternative school for ten days.

Alternative Placement (Middle/High School)

There are two types of alternative placement that may be an option for those students who cannot adapt to the regular educational setting. Students may be assigned to a long-term placement which lasts from a nine weeks to the remainder of the school

year. Short-term placement will last for a minimum of ten days for the first offense, fifteen days for the second offense and twenty days for the third offense. Short-term placements for less than 10 days are possible for IDEA (Individuals with Disabilities Education Improvement Act) students. **Students placed in alternative school for disciplinary reasons, cannot attend, participate in any extra-curricular activities, or be on campus after hours.**

The parent/guardian must come to the alternative school office (located in the old cafeteria behind the auditorium) to be orientated and to sign placement forms. Should the parent/guardian fail to come and sign the forms after proper notification, it will be assumed by school authorities that their consent for placement is by remission. Participation in all training programs of the alternative school will be administered to the student in the absence or neglect of the parent/guardian to sign the proper placement forms.

All students will participate in a behavior modification program and instructional maintenance (completion of all assignments sent by the regular teacher). While assigned to the Alternative School, students cannot interact with other students during the day.

High school long-term placement curriculum will be designed to allow students to receive credits that will lead to fulfilling the requirements for graduation through the regular route or through the General Education Development route. The long-term teacher along with Individualized Instructional Plan committee will be responsible for obtaining the assignments from the student's other teachers. In order to keep the students from having idle time, teachers will be encouraged to assign MORE WORK than is being assigned in the classrooms and the long-term teacher will have discretion of supplementing any assignments.

In accordance with existing legal precedent, the Franklin County School District reserves the right to place any student who has been arrested by law enforcement in alternative school until such time as a determination can be made as to the gravity of the offense and its effect on the school setting.

CONFERENCES

Report Card conferences are held three times per school year. Only parents or legal guardians may pick up report cards. Any parents/legal guardians who do not come for a designated conference within a reasonable amount of time may be reported to Youth Court officials. Any parent or guardian wishing to set up a parent/teacher conference should call the office of the respective school.

COURTESIES

The national anthem as well as the national flag represents the struggle and success of the United States as a nation; they are symbols of the people, their land and their institutions. When we show respect during the playing of the "Star Spangled Banner" and presentation of the flag we are showing respect for the nation. To ensure the proper courtesies are observed during the playing of the national anthem, the following protocol should be followed:

Outdoors

When outdoors and the national anthem is played, everyone present should

rise, stand at attention, face the flag (if the flag is not visible, face the music) and place the right hand over the heart. A male removes his hat and holds it in his right hand over his heart. Women do not remove their hats; they place their right hand over their heart.

- **Indoors**

When indoors and the national anthem is played, stand, face the flag and take the place of attention. If the flag is not visible, take the position of attention and face the music or the front.

- **Respect for the U.S. Flag**

Because of what the flag symbolizes—justice, unity, and pride in your country—it should be honored with respect and dignity.

When you are outdoors and the flag passes (as in a parade), stand at attention with your right hand over your heart. If you are wearing a hat, hold it in your right hand and over your heart. When the colors pass indoors, stand at attention until the colors are six steps past.

No deliveries or drop-offs of any kind will be accepted during these times.

ASBESTOS REINSPECTION NOTICE:

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Act (AHERA), in the summer of 1989 we performed inspections of each of our school buildings for asbestos containing materials (ACM). The inspection reports and asbestos management plans have been on file in each school's administrative office since that time.

The EPA requires us to perform re-inspection of the asbestos materials every three years.

During the months of July and August 2022, accredited asbestos inspectors will perform our three year re-inspections. An accredited asbestos management planner will review the results and recommend any actions we should take to safely manage all asbestos materials in our school buildings.

All asbestos materials in the schools are in good condition and we will continue to manage them in place, as recommended by the accredited management planner.

The asbestos management plans and all inspections are on file at the schools administrative office. Everyone is welcome to view these at any time during normal school hours (M-F, 8:00 a.m.-3:30 p.m.). The Asbestos Program Managers, Brad Mullins and Terry Oglesby, are available to answer any questions you may have concerning the asbestos in our schools. Call 601-384-5889

FAMILY RIGHTS AND PRIVACY ACT

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's

education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.

- Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest
 - Other schools to which a student is transferring;
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student;
 - Organizations conducting certain studies for or on behalf of the school;
 - Accrediting organizations;
 - To comply with a judicial order or lawfully issued subpoena;
 - Appropriate officials in cases of health and safety emergencies; and
 - State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA.

The Franklin County School District designates its School Resource Officer as a school official with limited access to education records. This designation is based upon the legitimate educational interest of the School Resource Officer in the education records, which includes promoting school safety and protecting the physical security of students enrolled in the Franklin County School District. Therefore, the written consent of a parent or guardian of a student for disclosure of personally identifiable information is not required.

Franklin County School District Parent and Family Engagement Plan School Year 2022-2023

In support of strengthening student academic achievement, **Franklin County School District**

receives Title I, Part A funds and therefore must jointly develop with, agree on with, and distribute to parents and family members of participating children a written parent and family engagement policy that contains information required by Section 1116(a)(2) of the Every Student Succeeds Act (ESSA). The policy establishes the LEA's expectations and objectives for meaningful parent and family engagement and describes how the LEA will implement a number of specific parent and family engagement activities.

The *Franklin County School District* agrees to implement the following requirements as outlined by Section 1116:

- The school district will put into operation programs, activities, and procedures for the engagement of parents and family members in all of its schools with Title I, Part A programs. These programs, activities, and procedures will be planned and operated with meaningful consultation with parents and family members of participating children.
- The school district will work with its schools to ensure that the required school-level parent and family engagement policies meet the requirements of Section 1116(b) of the ESSA, and each include as a component a school-parent compact consistent with federal law.
- In carrying out the Title I, Part A parent and family engagement requirements to the extent practicable, the school district and its schools will provide full opportunities for the participation of parents with limited English proficiency, limited literacy, disabilities, of migratory children, who are economically disadvantaged, or are of any racial or ethnic minority background, including providing information and school reports required under Section 1111 of the ESSA in an understandable and uniform format including alternative formats upon request and, to the extent practicable, in a language parents understand.
- If the LEA plan for Title I, Part A, developed under Section 1112 of the ESSA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the state Department of Education.
- The school district will be governed by the following definition of parental involvement/family engagement and expects that its Title I schools will carry out programs, activities, and procedures in accordance with this definition in Section 8101 of the ESSA:

Family engagement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring:

- (A) Parents play an integral role in assisting their child's learning

- (B) Parents are encouraged to be actively involved in their child’s education at school
- (C) Parents are full partners in their child’s education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child
- (D) Other activities are carried out, such as those described in Section 1116 of the ESSA.

JOINTLY DEVELOPED

The **Franklin County School District** will involve parents and family members in jointly developing its LEA plan(s) under Section 1112, and the development of support and improvement plans under paragraphs (1) and (2) of Section 1111(d) of the ESSA.

TECHNICAL ASSISTANCE

The **Franklin County School District** will provide the coordination, technical assistance, and other support necessary to assist and build capacity of all Title I, Part A schools in planning and implementing effective parent and family engagement activities to improve student academic achievement and school performance, which may include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education.

ANNUAL EVALUATION

The **Franklin County School District** will take actions to conduct, with the meaningful engagement of parents and family members, an annual evaluation of the content and effectiveness of this parent and family engagement policy in improving the academic quality of its Title I, Part A schools. The evaluation will include identifying barriers to greater participation by parents in activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The evaluation will also include identifying the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers and strategies to support successful school and family interactions. The school district will use the findings of the evaluation about its parent and family engagement policy to design evidence-based strategies for more effective parental engagement, and to revise, if necessary, its parent and family engagement policies.

RESERVATION OF FUNDS

The **Franklin County School District** will involve the parents and family members of children served in Title I, Part A schools in decisions about how the 1 percent of Title I, Part A funds reserved for parent and family engagement is spent and will ensure that not less than 90 percent of the 1 percent reserved goes directly to Title I schools in school years when the school district receives a Title I allocation of greater than \$500,000. The Franklin County School District’s Title I allocation is less than \$500,000 for the 2021-2022 school year.

The Title IX Coordinator is the person authorized by the school district to coordinate the District's Title IX compliance program. Any person may report sex discrimination, including sex harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination), in person, by mail, by telephone, or e-mail, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Any District employee who knows or learns information concerning conduct related to sexual harassment or allegations of sexual harassment should immediately notify the Title IX Coordinator.

Reports may be made at any time (including during non-business hours) by using the Title IX Coordinator's telephone number or email address, or by mail to the Title IX Coordinator's office address, listed above. Inquiries about the application of Title IX to the District may be directed to the District's Title IX Coordinator or to the Assistant Secretary of Education at the United States Department of Education, or both.
