

Career Explorations

Chris Crumley

Fall, 2021

During this semester-long course we, as a class, will discuss and elaborate on the topics listed below and why they should be important to you...way sooner than you think they will. Students will learn to take notes in a variety of ways and they will get to use those hand-written notes on the tests throughout the semester. Better note-taking will equal a better test score. No one should have less than an A in the class at the end of the semester.

Do not be late to the room, the Administration requires me to send all late students to the office. Multiple tardies have consequences, just so you know.

Tests are short answer and fill in the blank, rarely will you see any multiple-choice questions on my tests...that is why your notes should be the best they can be.
