Goals

The District's educational program will seek to provide an opportunity for each child to develop to his or her maximum potential. The objectives for the educational program are:

- To foster self-discovery, self-awareness, and self-discipline.
- To develop an awareness of and appreciation for cultural diversity.
- To stimulate intellectual curiosity and growth.
- To provide fundamental career concepts and skills.
- To help the student develop sensitivity to the needs and values of others and respect for individual and group differences.
- To help each student strive for excellence and instill a desire to reach the limit of his or her potential.
- To develop the fundamental skills which will provide a basis for lifelong learning.
- To be free of any sexual, cultural, ethnic, or religious bias.

The administrative staff is responsible for apprising the Board of the educational program's current and future status. The Superintendent should prepare an annual report that includes:

- A review and evaluation of the present curriculum;
- A projection of curriculum and resource needs;
- An evaluation of, and plan to eliminate, any sexual, cultural, ethnic, or religious bias that may be present in the curriculum or instructional materials and methods;
- A plan for new or revised instructional program implementations; and
- A review of present and future facility needs.

Student Instruction

The School District has adopted the protocols outlined in this policy to ensure the delivery of education services to students onsite at the school, offsite at other locations using available resources. The District administration or designated personnel are authorized to implement this policy.

As outlined in District Policy 2100, and except for students determined by the School District to be proficient using School District assessments, the adopted calendar has a minimum number of 720 aggregate instructional hours for students in kindergarten through third grade; 1,080 hours for students in fourth through eleventh grade and 1,050 hours for students in twelfth grade.

The School District may satisfy the aggregate number of hours through any combination of onsite, offsite, and online instruction. The District administration is directed to ensure that all students are offered access to the complete range of educational programs and services for the education program required by the accreditation standards adopted by the Montana Board of Public Education.

For the purposes of this policy and the School District's calculation of ANB and "aggregate hours of instruction" within the meaning of that term in Montana law, the term "instruction" shall be construed as being synonymous with and in support of the broader goals of "learning" and full development of educational potential as set forth in Article X, section 1 of the Montana Constitution. Instruction includes innovative teaching strategies that focus on student engagement for the purposes of developing a students' interests, passions, and strengths. The term instruction shall include any directed, distributive, collaborative and/or experiential learning activity provided, supervised, guided, facilitated, work based, or coordinated by the teacher of record in a given course that is done purposely to achieve content proficiency and facilitate the learning of, acquisition of knowledge, skills and abilities by, and to otherwise fulfill the full educational potential of each child.

Staff shall calculate the number of hours students have received instruction as defined in this policy through a combined calculation of services received onsite at the school or services provided or accessed at offsite or online instructional settings including, but not limited to, any combination of physical instructional packets, virtual or electronic based course meetings and assignments, self-directed or parent-assisted learning opportunities, and other educational efforts undertaken by the staff and students that can be given for grade or credit. Staff shall report completed hours of instruction as defined in this policy to the supervising teacher, building principal, or district administrator for final calculation.

In order to comply with the requirements of the calendar, District Policy and Section 20-1-301, MCA, the District shall implement the instructional schedules and methods identified in this policy.

### Offsite Instruction

The Board of Trustees authorizes offsite instruction of students in a manner that satisfies the aggregate number of instructional hours outlined in the School District's adopted or revised calendar for a school year. Offsite delivery methods shall include a complete range of educational services offered by the School District and shall comply with the requirements of applicable statutes. Students completing course work through an offsite instructional setting shall be treated in and have their hours of instruction calculated in the same manner as students attending an onsite institutional setting

#### Offsite instruction is available to students:

1. meeting the residency requirements for that district as provided in 1-1-215;
2. living in the district and eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or
3. attending school in the district under a mandatory attendance agreement as provided in 20-5-321;
4. attending school in the nearest district offering offsite instruction that agrees to enroll the student when the student's district of residence does not provide offsite instruction in an equivalent course in which the student is enrolled. A course is not equivalent if the course does not provide the same level of advantage on successful completion, including but not limited to dual credit, advanced placement, and career certification. Attendance under this provision is subject to approval of the Trustees.

The Board of Trustees authorizes the supervising teacher or district administrator to permit students to utilize an offsite or online instructional setting at when circumstances require.

### Proficiency-Based Learning

The Board of Trustees authorizes proficiency-based learning and ANB calculation in situations when a student demonstrates proficiency in a course area as determined by the Board of Trustees using District assessments consistent with District Policy 1005FE, or other measures approved by the Board of Trustees.

The Board of Trustees waives the minimum number of instructional hours for students who demonstrate proficiency in a course area using district assessments that include, but are not limited to, the course or class teacher's determination of proficiency as defined by the Board of Trustees. This determination shall be based on a review of the student's completed coursework, participation in course delivery, and other methods applicable to the specific course or class. The Board of Trustees authorizes the use of the proficiency determination process for students who have selected this method of delivery, students for whom the School District is unable to document satisfaction of the required minimum aggregate number of hours through the offsite or onsite methods outlined in this policy, or other students whom School District personnel determine satisfy the definition of proficient or meeting proficiency.

This provision is based in the declaration by the Montana Legislature that any regulation discriminating against a student who has participated in proficiency-based learning is inconsistent with the Montana Constitution.

School Year Calendar and Day

School Calendar

Subject to §§ 20-1-301 and 20-1-308, MCA, and any applicable collective bargaining agreement covering the employment of affected employees, the trustees of a school district shall set the number of hours in a school term, the length of the school day, and the number of school days in a school week. When proposing to adopt changes to a previously adopted school term, school week, or school day, the trustees shall: (a) negotiate the changes with the recognized collective bargaining unit representing the employees affected by the changes; (b) solicit input from the employees affected by the changes but not represented by a collective bargaining agreement; (c) and from the people who live within the boundaries of the School District.

Commemorative Holidays

Teachers and students will devote a portion of the day on each commemorative holiday designated in § 20-1-306, MCA, to study and honor the commemorated person or occasion. The Board may from time to time designate a regular school day as a commemorative holiday.

Saturday School

In emergencies, including during reasonable efforts of the trustees to make up aggregate hours of instruction lost during a declaration of emergency by the trustees under Section 20-9-806, MCA, pupil instruction may be conducted on a Saturday when it is approved by the trustees.

Pupil instruction may be held on a Saturday at the discretion of a school district for the purpose of providing additional pupil instruction, beyond the minimum aggregate hours of instruction required in Section 20-1-301, MCA provided student attendance is voluntary.

School Fiscal Year

At least the minimum number of aggregate hours must be conducted during each school fiscal year. The minimum aggregate hours required by grade are:

- a. A minimum of 360 aggregate hours for a kindergarten program;
- b. 720 hours for grades 1 through 3;
- c. 1,080 hours for grades 4 through 12; and
- d. 1,050 hours may be sufficient for graduating seniors.

The minimum aggregate hours, described above, are not required for any pupil demonstrating proficiency pursuant to § 20-9-311(4)(d), MCA.

In addition, seven (7) pupil instruction-related days may be scheduled for the following purposes:

1. Pre-school staff orientation for the purpose of organization of the school year;
2. Staff professional development programs (minimum of three (3) days);
3. Parent/teacher conferences; and
4. Post-school record and report (not to exceed one (1) day, or one-half (½) day at the end of each semester or quarter).

The Board of Trustees has established an advisory committee to develop, recommend, and evaluate the School District's yearly professional development plan. Each year the Board of Trustees shall adopt a professional development plan for the subsequent school year based on the recommendation of the advisory committee.

#### Extended School Year

In accordance with Section 20-1-301, MCA, and any applicable collective bargaining agreement covering the employment of affected employees, the Board of Trustees may establish a school calendar with an earlier start date and a later end date to ensure students receive the minimum number aggregate instructional hours. The purpose of an extended school year will be to maximize flexibility in the delivery of instruction and learning for each student in the School District. When setting an extended school year, the School District will collaborate with students, parents, employees and other community stakeholders. When proposing to adopt changes to a previously adopted school term the Board of Trustees will follow the procedures outlined in this policy.

Grade Organization

The District maintains instructional levels for grades kindergarten (K) through eighth (8<sup>th</sup>). The grouping and housing of instructional levels in school facilities will be according to plans developed by the Superintendent and approved by the Board.

Instructional programs will be coordinated between each grade and between levels of schools.

A student will be assigned to an instructional group or to a classroom which will best serve the needs of that individual while still considering the rights and needs of other students. Factors to be considered in classroom assignments are class size, peer relations, student/teacher relations, instructional style of individual teachers, and any other variables that will affect the performance of the student.

Criteria for grouping will be based on learning goals and objectives addressed and the student's ability to achieve those purposes.

Objectives

Continuous Progress Education

The Board acknowledges its responsibility to develop and implement a curriculum designed to provide for sequential intellectual and skill development necessary for students to progress on a continuous basis from elementary through secondary school.

The Superintendent is directed to develop instructional programs which will enable each student to learn at the student's best rate. The instructional program will strive to provide for:

1. Placement of a student at the student's functional level;
2. Learning materials and methods of instruction considered to be most appropriate to the student's learning style; and
3. Evaluation to determine if the desired student outcomes have been achieved.

Each year, the Superintendent will determine the degree to which such instructional programs are being developed and implemented. Accomplishment reports submitted annually will provide the Board with the necessary information to make future program improvement decisions.

2120

Curriculum and Assessment

The Board is responsible for curriculum adoption and must approve all significant changes, including the adoption of new textbooks and new courses, before such changes are made. The Superintendent is responsible for making curriculum recommendations. The District shall ensure their curriculum is aligned to all content standards and the appropriate learning progression for each grade level.

A written sequential curriculum will be developed for each subject area. The curricula will address learner goals, content and program area performance standards, and District education goals and will be constructed to include such parts of education as content, skills, and thinking. The District shall review curricula at least every five (5) years or consistent with the state’s standards revision schedule, and modify, as needed, to meet educational goals of the continuous school improvement plan pursuant to ARM 10.55.601.

The staff and administration will suggest materials and resources, to include supplies, books, materials, and equipment necessary for development and implementation of the curriculum and assessment, which are consistent with goals of the education program.

The District shall maintain their programs consistent with the state’s schedule for revising standards.

The District shall assess the progress of all students toward achieving content standards and content-specific grade-level learning progressions in each program area. The District shall use assessment results, including state-level achievement information obtained by administration of assessments pursuant to ARM 10.56.101 to examine the educational program and measure its effectiveness. The District shall use appropriate multiple measures and methods, including state-level achievement information obtained by administration of assessments pursuant to the requirements of ARM 10.56.101, to assess student progress in achieving content standards and content-specific grade-level learning progressions in all program areas. The examination of program effectiveness using assessment results shall be supplemented with information about graduates and other student’s no longer in attendance.

Lesson Plan

To ensure proper planning and continuity of instruction, the Board requires that each teacher prepare lesson plans for daily instruction. To facilitate more effective instruction, lesson plans must be prepared in advance of actual class presentation and delivered to the Administrator before Monday morning each week. The format for the lesson plan will be specified by the Administrator and will be reviewed on a regular basis. The plan book must be readily available, when a substitute teacher is needed.

Program Evaluation and Diagnostic Tests

The Board strives for efficiency and effectiveness in all facets of its operations. To achieve this goal, the Board will set forth:

1. A clear statement of expectations and purposes for the District instructional program;
2. A provision for staff, resources, and support to achieve stated expectations and purposes; and
3. A plan for evaluating instructional programs and services to determine how well expectations and purposes are being met.

Parents who wish to examine any assessment materials may do so by contacting the Superintendent. Parental approval is necessary before administering an individual intelligence test or a diagnostic personality test. No tests or measurement devices which include questions about a student's or the student's family's personal beliefs and practices in family life, morality, and religion will be administered, unless the parent gives written permission for the student to take such test, questionnaire, or examination.

Student and Family Privacy Rights

Surveys — General

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District's educational objectives as identified in Board Policy. This applies to all surveys, regardless of whether the student answering the questions can be identified and regardless of who created the survey.

Surveys Created by a Third Party

Before the District administers or distributes a survey created by a third party to a student, the student's parent(s)/guardian(s) may inspect the survey upon request and within a reasonable time of their request.

This section applies to every survey: (1) that is created by a person or entity other than a District official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Surveys Requesting Personal Information

School officials and staff members shall not request, nor disclose, the identity of any student who completes ANY survey containing one (1) or more of the following items:

1. Political affiliations or beliefs of the student or the student's parent/guardian;
2. Mental or psychological problems of the student or the student's family;
3. Behavior or attitudes about sex;
4. Illegal, antisocial, self-incriminating, or demeaning behavior;
5. Critical appraisals of other individuals with whom students have close family relationships;
6. Legally recognized privileged or analogous relationships, such as those with lawyers, physicians, and ministers;
7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

The student's parent(s)/guardian(s) may:

1. Inspect the survey within a reasonable time of the request; and/or
2. Refuse to allow their child to participate in any survey requesting personal information. The school shall not penalize any student whose parent(s)/guardian(s) exercise this option.

### Instructional Material

A student's parent(s)/guardian(s) may, within a reasonable time of the request, inspect any instructional material used as part of their child's educational curriculum.

The term "instructional material," for purposes of this policy, means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

### Collection of Personal Information From Students for Marketing Prohibited

The term "personal information," for purposes of this section only, means individually identifiable information including:

1. a student's or parent's first and last name,
2. a home or other physical address (including street name and the name of the city or town),
3. telephone number, or
4. a Social Security identification number.

The District will not collect, disclose, or use student personal information for the purpose of marketing or selling that information or otherwise providing that information to others for that purpose.

The District, however, is not prohibited from collecting, disclosing, or using personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions such as the following:

1. College or other post-secondary education recruitment or military recruitment;
2. Book clubs, magazines, and programs providing access to low-cost literary products;
3. Curriculum and instructional materials used by elementary schools and secondary schools;
4. Tests and assessments to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
5. The sale by students of products or services to raise funds for school-related or education-related activities;
6. Student recognition programs.

### Notification of Rights and Procedures

The Superintendent or designee shall notify students' parents/guardians of:

1. This policy as well as its availability from the administration office upon request;

2. How to opt their child out of participation in activities as provided in this policy;
3. The approximate dates during the school year when a survey requesting personal information, as described above, is scheduled or expected to be scheduled;
4. How to request access to any survey or other material described in this policy.

This notification shall be given parents/guardians at least annually at the beginning of the school year and within a reasonable period after any substantive change in this policy.

The rights provided to parents/guardians in this policy transfer to the student, when the student turns eighteen (18) years of age or is an emancipated minor.

*NOTE: This policy must be adopted in consultation with parents. 20 U.S.C. § 1232h(c)(1). Therefore, MTSBA recommends that, at a minimum, Boards specifically note this on their meeting agendas and request public comment prior to adoption.*

Guidance and Counseling

The District recognizes that guidance and counseling are an important part of the total program of instruction and should be provided in accordance with state laws and regulations, District policies and procedures, and available staff and program support.

The general goal of this program is to help students achieve the greatest personal value from their educational opportunities. Such a program should:

1. Provide staff with meaningful information which can be utilized to improve educational services offered to individual students.
2. Provide students with planned opportunities to develop future career and educational plans.
3. Refer students with special needs to appropriate specialists and agencies.
4. Aid students in identifying options and making choices about their educational program.
5. Assist teachers and Administrators in meeting academic, social, and emotional needs of students.
6. Provide for a follow-up of students who further their education and/or move into the workforce.
7. Solicit feedback from students, staff, and parents, for purposes of program improvement.
8. Assist students in developing a sense of belonging and self-respect.
9. Have information available about nicotine addiction services and referrals to tobacco cessation programs to students and staff.
10. Serve as a reference for alternative discipline or restorative justice programs.

All staff will encourage students to explore and develop their individual interests in all areas including but not limited to career and technical programs, academic curricula, post-secondary opportunities, community or military service, and employment options without regard race, color, national origin, ancestry, sex, ethnicity, language barrier, religious belief, physical or mental handicap or disability, economic or social condition, actual or potential marital or parental status.

Suicide Awareness and Prevention

Professional Development

The District will provide professional development on youth suicide awareness and prevention to each employee of the district who work directly with any students enrolled in the School District. The training materials will be approved by the Office of Public Instruction (OPI).

The District will provide at least two (2) hours of youth suicide and prevention training. The District will provide, at a minimum, two (2) hours of youth suicide awareness and prevention training every five (5) years thereafter. All new employees who work directly with any student enrolled in the School District will be provided training the first year of employment.

Youth suicide and prevention training may include:

- A. In-person attendance at a live training;
- B. Videoconference;
- C. An individual program of study of designated materials;
- D. Self-review modules available online; and
- E. Any other method chosen by the local school board that is consistent with professional development standards.

Prevention and Response

The Board authorizes the Administration and appropriate District staff to develop procedures to address matters related to suicide prevention and response that:

- A. Promote collaboration with families and with community providers in all aspects of suicide prevention and response;
- B. Include high quality intervention services for students;
- C. Promote interagency cooperation that enables school personnel to identify and access appropriate community resources for use in times of crisis;
- D. Include reintegration of youth into a school following a crisis, hospitalization, or residential treatment;
- E. Provide for leadership, planning, and support for students and school personnel to ensure appropriate responses to attempted or completed suicides.

No cause of action may be brought for any loss or damage caused by any act or admission resulting from the implementation of the provisions of this policy or resulting from any training, or lack of training, related to this policy. Nothing in this policy shall be construed to impose a specific duty of care.

This policy will be reviewed by the Board of Trustees on a regular basis.

2151

Interscholastic Activities

The District recognizes the value of a program of interscholastic activities as an integral part of the total school experience. The program of interscholastic activities will include all activities relating to competitive sport or intellectual contests, games or events, or exhibitions involving individual students or teams of students of this District, when such events occur between schools outside this District.

All facilities and equipment utilized in the interscholastic activity program, whether or not the property of the District, will be inspected on a regular basis. Participants will be issued equipment which has been properly maintained and fitted.

An activity coach must be properly trained and qualified for an assignment as described in the coach's job description. A syllabus which outlines the skills, techniques, and safety measures associated with a coaching assignment will be distributed to each coach. All personnel coaching intramural or interscholastic activities will hold a current valid first aid certificate.

The Board recognizes that certain risks are associated with participation in interscholastic activities. While the District will strive to prevent injuries and accidents to students, each parent or guardian will be required to sign an "assumption of risk" statement indicating that the parents assume all risks for injuries resulting from such participation. Each participant will be required to furnish evidence of physical fitness (physical form) prior to becoming a member of an athletic team. A participant will be free of injury and will have fully recovered from illness before participating in any event.

Coaches and/or trainers may not issue medicine of any type to students. This provision does not preclude the coach and/or trainer from using approved first aid items.

**EAST GLACIER PARK GRADE SCHOOL  
ATHLETICS INFORMED CONSENT AND INSURANCE VERIFICATION FORM**

Extracurricular activities may include physical contact and physical exertion. There is an inherent risk of injury in the activity. By signing this agreement, I acknowledge that the School District staff tries to prevent accidents. I agree to accept responsibility for my student's participation in the school activities. The activity is strictly voluntary.

I, the undersigned, hereby acknowledge and understand that, regardless of all feasible safety measures that may be taken by the School District, participation in this event entails certain inherent risks. I certify that my student is physically fit and medically able to participate or have noted an applicable physical or medical diagnosis at the bottom of this form. I further certify that my student will honor all instructions of district staff and failure to honor instructions may result on dismissal from the activity. I have been informed of these risks, understand them, and feel that the benefits of participation outweigh the risks involved. My signature below gives my child permission to participate in an East Glacier Park Grade School Activity.

I authorize qualified emergency medical professionals to examine and in the event of injury or serious illness, administer emergency care to my student. I understand every effort will be made to contact the family or contact person noted below to explain the nature of the problem prior to any involved treatment. In the event it becomes necessary for the district staff in charge to obtain emergency care for my student, I understand that neither the district employee in charge of the activity nor the School District assumes financial liability for expenses incurred because of an accident, injury, illness and/or unforeseen circumstances.

The School District DOES NOT provide medical insurance benefits for students who choose to participate in activities programs. Parents or guardians may request information from the School District regarding medical insurance for students. If parents or guardians have their own insurance coverage during the student's participation, that coverage information is provided below. Or parents may notify the School District that they do not have medical insurance:

\_\_\_\_ I have personal medical insurance to cover the student's participation:

INSURANCE (Company Name) \_\_\_\_\_  
Policy # \_\_\_\_\_

\_\_\_\_ I do not have personal medical insurance to cover the student's participation and understand that the School District does not provide medical insurance to cover the students. I understand I will be responsible for any medical costs associated with the student's participation.

Signature Required Regardless of Insurance Coverage:

Family Engagement

The East Glacier Park Grade School Board of Trustees believes that engaging parents/families in the education process is essential to improved academic success for students. The Board recognizes that a student's education is a responsibility shared by the district, parents, families and other members of the community during the entire time a student attends school. The Board believes that the district must create an environment that is conducive to learning and that strong, comprehensive parent/family involvement is an important component. Parent/Family involvement in education requires a cooperative effort with roles for the Office of Public Instruction (OPI), the District, parents/families and the community.

Parent/Family Involvement Goals and Plan

The Board of Trustees recognizes the importance of eliminating barriers that impede parent/family involvement, thereby facilitating an environment that encourages collaboration with parents, families and other members of the community. Therefore, the district will develop and implement a plan to facilitate parent/family involvement that shall include the following six (6) goals:

1. Promote families to actively participate in the life of the school and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class;
2. Promote families and school staff to engage in regular, two-way meaningful communication about student learning;
3. Promote families and school staff to continuously collaborate to support student learning and healthy development both at home and at school and have regular opportunities to strengthen their knowledge and skills to do so effectively;
4. Empower parents to be advocates for their own and other children, to ensure that students are treated equitably and have access to learning opportunities that will support their success;
5. Encourage families and school staff to be partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs; and
6. Encourage families and school staff to collaborate with members of the community to connect students, families, and staff to expand learning opportunities, community services, and civic participation.

**INSTRUCTION**

The District's plan for meeting these goals is to:

1. Provide activities that will educate parents regarding the intellectual and developmental needs of their children at all age levels. This will include promoting cooperation between the District and other agencies or school/community groups (such as parent-teacher groups, Head Start, etc.) to furnish learning opportunities and disseminate information regarding parenting skills and child/adolescent development.
2. Implement strategies to involve parents/families in the educational process, including:
  - Keeping parents/families informed of opportunities for involvement and encouraging participation in various programs.
  - Providing access to educational resources for parents/families to use together with their children.
  - Keeping parents/families informed of the objectives of district educational programs as well as of their child's participation and progress within these programs.
1. Enable families to participate in the education of their children through a variety of roles. For example, parents/family members should be given opportunities to provide input into district policies and volunteer time within the classrooms and school programs.
2. Provide professional development opportunities for teachers and staff to enhance their understanding of effective parent/family involvement strategies.
3. Perform regular evaluations of parent/family involvement at each school and at the district level.
4. Provide access, upon request, to any instructional material used as part of the educational curriculum.
5. If practical, provide information in a language understandable to parents.

Title I Parent Involvement

*NOTE: Schools receiving federal ESEA funds are required to have a parent involvement policy. This sample policy can be used as the basis for the joint development of a policy, as required by the federal legislation. This policy cannot be the District's policy without some parental involvement in its development at the local level.*

The District endorses the parent involvement goals of Title I and encourages the regular participation of parents (including parents of migrant students if applicable) of Title I eligible children in all aspects of the program. The education of children is viewed as a cooperative effort among the parents, school, and community. In this policy the word "parent" also includes guardians and other family members involved in supervising the child's schools.

Pursuant to federal law the District will develop jointly with, agree upon with, and distribute to parents of children participating in the Title I program a written parent involvement policy.

At the required annual meeting of Title I parents (including parents of migrant students if applicable), parents will have opportunities to participate in the design, development, operation, and evaluation of the program for the next school year. Proposed activities to fulfill the requirements necessary to address the requirements of parental-involvement goals shall be presented.

In addition to the required annual meeting, at least three (3) additional meetings shall be held at various times of the day and/or evening for parents of children (including parents of migrant children if applicable) participating in the Title I program. These meetings shall be used to provide parents with:

1. Information about programs provided under Title I;
2. A description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet;
3. Opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children; and
4. The opportunity to bring parent comments, if they are dissatisfied with the school's Title I program, to the District level.

Title I funding, if sufficient, may be used to facilitate parent attendance at meetings, through payment of transportation and childcare costs.

The parents of children (including parents of migrant children if applicable) identified to participate in Title I programs shall receive from the school Principal and Title I staff an explanation of the reasons supporting each child's selection for the program, a set of objectives to be addressed, and a description of the services to be provided. Opportunities will be provided for the parents to meet with the classroom and Title I teachers to discuss their child's progress. Parents will also receive guidance as to how they can assist at home in the education of their children.

Each school in the District receiving Title I funds shall develop jointly with parents of children served in the program a "School-Parent Compact" outlining the manner in which parents, school staff, and students share the responsibility for improved student academic achievement in meeting state standards. The "School-Parent Compact" shall:

1. Describe the school's responsibility to provide high quality curriculum and instruction in a supportive and effective learning environment enabling children in the Title I program to meet the state's academic achievement standards;
2. Indicate the ways in which each parent will be responsible for supporting their child's learning, such as monitoring attendance, homework completion, and television watching; volunteering in the classroom; and participating, as appropriate, in decisions related to their child's education and positive use of extracurricular time; and
3. Address the importance of parent-teacher communication on an ongoing basis with, at a minimum, parent-teacher conferences, frequent reports to parents, and reasonable access to staff.

*NOTE: Districts with more than one (1) school participating in a Title I program may wish to consider the establishment of a district-wide parent advisory council.*

Title I – Equivalency/Comparability

To assure that state and local services are provided in Title I schools at least equivalent to such services in non-Title I schools, these policies will be observed in the School District.

1. Salary Scales  
The District-wide salary scales will be applicable to all staff whether assigned to Title I or non-Title I schools.
2. Assignment of Teachers, Administrators, and Support Personnel  
Assignment of teachers, Administrators, and support personnel will be made in such a way to assure that the numbers of students per staff person in Title I schools shall be equivalent to the average number of students per staff person in relevant comparison schools (i.e., non-Title I or other Title I schools).
3. Curriculum Materials and Instructional Supplies  
Curriculum materials and instructional supplies will be provided to schools with the same grade spans on a per-pupil cost factor to assure that all children have access to the same level of state and local resources regardless of whether they attend a Title I or non-Title I school.

Title I Parent Involvement

In order to achieve the level of Title I parent involvement desired by District policy on this topic, these procedures guide the development of each school's annual plan designed to foster a cooperative effort among parents, school, and community.

Guidelines

Parent involvement activities developed at each school will include opportunities for:

Volunteering;

- Parent education;
- Home support for the child's education;
- Parent participation in school decision making.

The school system will provide opportunities for professional development and resources for staff and parents/community regarding effective parent involvement practices.

Roles and Responsibilities

Parents

It is the responsibility of the parent to:

- Actively communicate with school staff;
- Be aware of rules and regulations of school;
- Take an active role in the child's education by reinforcing at home the skills and knowledge the student has learned in school;
- Utilize opportunities for participation in school activities.

Staff

It is the responsibility of staff to:

- Develop and implement a school plan for parent involvement;
- Promote and encourage parent involvement activities;
- Effectively and actively communicate with all parents about skills, knowledge, and attributes students are learning in school and suggestions for reinforcement;
- Send information to parents of Title I children (including parents of migrant children if applicable) in a format and, to the extent practicable, in a language the parents can understand.

Community

Community members who volunteer in the schools have the responsibility to:

- Be aware of rules and regulations of the school;
- Utilize opportunities for participation in school activities.

Administration

It is the responsibility of the administration to:

- Facilitate and implement the Title I Parent Involvement Policy and Plan;
- Provide training and space for parent involvement activities;
- Provide resources to support successful parent involvement practices;
- Provide in-service education to staff regarding the value and use of contributions of parents and how to communicate and work with parents as equal partners;
- Send information to parents of Title I children (including parents of migrant children if applicable) in a format and, to the extent practicable, in a language the parents can understand.

Special Education

The District will provide a free appropriate public education and necessary related services to all children with disabilities residing within the District, as required under the Individuals with Disabilities Education Act (IDEA), provisions of Montana law, and the Americans with Disabilities Act.

For students eligible for services under IDEA, the District will follow procedures for identification, evaluation, placement, and delivery of service to children with disabilities, as provided in the current *Montana State Plan under Part B of IDEA*.

The District may maintain membership in one or more cooperative associations which may assist in fulfilling the District's obligations to its disabled students.

Special Education

Child Find

The District shall be responsible for the coordination and management of locating, identifying, and evaluating all disabled children ages zero (-0-) through twenty-one (21). Appropriate staff will design the District's Child Find plan in compliance with all state and federal requirements and with assistance from special education personnel who are delegated responsibility for implementing the plan.

The District's plan will contain procedures for identifying suspected disabled students in private schools as identified in 34 C.F.R. 530.130 and 530.131(f), students who are home schooled, homeless children, as well as public facilities located within the geographic boundaries of the District. These procedures shall include screening and development criteria for further assessment. The plan must include locating, identifying, and evaluating highly mobile children with disabilities and children who are suspected of being a child with a disability and in need of special education, even though the child is and has been advancing from grade to grade. The District's Child Find Plan must set forth the following:

1. Procedures used to annually inform the public of all child find activities, for children zero (0) through twenty-one (21);
2. Identity of the special education coordinator;
3. Procedures used for collecting, maintaining, and reporting data on child identification;
4. Procedures for Child Find Activities (including audiological, health, speech/language, and visual screening and review of data or records for students who have been or are being considered for retention, delayed admittance, long-term suspension or expulsion or waiver of learner outcomes) in each of the following age groups:
  - A. Infants and Toddlers (Birth through Age 2)  
Procedures for referral of infants and toddlers to the appropriate early intervention agency, or procedures for conducting child find.
  - B. Preschool (Ages 3 through 5)  
Part C Transition planning conferences; frequency and location of screenings; coordination with other agencies; follow-up procedures for referral and evaluation; and procedures for responding to individual referrals.
  - C. In-School (Ages 6 through 18)  
Referral procedures, including teacher assistance teams, parent referrals, and referrals from other sources; and follow-up procedures for referral and evaluation.
  - D. Post-School (Ages 19 through 21)  
Individuals who have not graduated from high school with a regular diploma and who were not previously identified. Describe coordination efforts with other agencies.
  - E. Private Schools (This includes home schools.)  
Child find procedures addressing the provisions of A.R.M. 10.16.3125(1); follow-up procedures for referral and evaluation.

F. Homeless Children

G. Dyslexia

The School District shall establish procedures to ensure that all resident children with disabilities, including specific learning disabilities resulting from dyslexia, are identified and evaluated for special education and related services as early as possible. The screening instrument must be administered to:

- i. a child in the first year that the child is admitted to a school of the district up to grade 2; and
- ii. a child who has not been previously screened by the district and who fails to meet grade-level reading benchmarks in any grade;

The screening instrument shall be administered by an individual with an understanding of, and training to identify, signs of dyslexia designed to assess developmentally appropriate phonological and phonemic awareness skills.

If a screening suggests that a child may have dyslexia or a medical professional diagnosis a child with dyslexia, the child's School District shall take steps to identify the specific needs of the child and implement best practice interventions to address those needs. This process may lead to consideration of the child's qualification as a child with a disability under this policy.

Procedures for Evaluation and Determination of Eligibility

Procedures for evaluation and determination of eligibility for special education and related services are conducted in accordance with the procedures and requirements of 34 C.F.R. 300.301– 300.311 and the following state administrative rules:

- 10.16.3320 – Referral;
- 10.60.103 – Identification of Children with Disabilities;
- 10.16.3321 – Comprehensive Educational Evaluation Process;

Procedural Safeguards and Parental Notification

The District implements the procedural safeguard procedures as identified in 34 C.F.R. 300.500 – 300.530.

A copy of the procedural safeguards available to the parents of a child with a disability must be given to the parents only one (1) time a school year, except that a copy also must be given to the parents:

- Upon initial referral or parent request for evaluation;
- Upon receipt of the first state complaint under 34 CFR 300.151 through 300.153 and upon receipt of the first due process complaint under 34 CFR 300.507 in a school year;
- In accordance with the discipline procedures in 34 CFR 300.530(h) (...on the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must provide the parents the procedural safeguards notice); and
- Upon request by a parent.

A public agency also may place a current copy of the procedural safeguard notice on its internet website, if a website exists. [34 CFR 300.504(a) and (b)] [20 U.S.C. 1415(d)(1)]

The referral for special education consideration may be initiated from any source, including school personnel. To initiate the process, an official referral form must be completed and signed by the person making the referral. The District shall accommodate a parent who cannot speak English and therefore cannot complete the District referral form. Recognizing that the referral form is a legal document, District personnel with knowledge of the referral shall bring the referral promptly to the attention of the Evaluation Team.

The District shall give written notice to the parent of its recommendation to evaluate or not to evaluate the student. The parent will be fully informed concerning the reasons for which the consent to evaluate is sought. Written parental consent will be obtained before conducting the initial evaluation or before reevaluating the student.

The recommendation to conduct an initial evaluation or reevaluation shall be presented to the parents in their native language or another mode of communication appropriate to the parent. An explanation of all the procedural safeguards shall be made available to the parents when their consent for evaluation is sought. These safeguards will include a statement of the parents' rights relative to granting the consent.

#### Evaluation of Eligibility

Evaluation of eligibility for special education services will be consistent with the requirements of 34 C.F.R. 300.301 through 300.311 regarding Procedures for Evaluation and Determination of Eligibility; and shall also comply with A.R.M. 10.16.3321.

#### Individualized Education Programs

The District develops, implements, reviews, and revises individualized education programs (IEP) in accordance with the requirements and procedures of 34 C.F.R. 300.320-300.328.

#### Independent Education Evaluations

The parents of a child with a disability have the right to obtain an independent educational evaluation of the child in accordance with law. Independent educational evaluation means an evaluation conducted by a qualified examiner who is not employed by the District at District expense.

If the parents request an independent educational evaluation, the District will provide information about where an independent educational evaluation may be obtained and the criteria applicable for independent educational evaluations. The District may also ask for the parent's reason why he or she objects to the public evaluation.

A parent is entitled to only one independent educational evaluation at public expense each time the public agency conducts an evaluation with which the parent disagrees.. If the parent obtains an independent educational evaluation at District expense or shares with the public agency an evaluation obtained at private expense, the results of the evaluation will be handled in accordance with law.

If an independent educational evaluation is at District expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria that the public agency uses when it initiates an evaluation.

#### Least Restrictive Environment

To the maximum extent appropriate, children with disabilities, including children in public or private institutions or other care facilities, are educated with children who are nondisabled, and special classes, separate schooling, or other removal of children with disabilities from the regular class occurs only if the nature or severity of the disability is such that education in regular classes, with the use of supplementary aids and services, cannot be achieved satisfactorily. Educational placement decisions are made in accordance with A.R.M. 10.16.3340 and the requirements of 34 C.F.R. 300.114 – 300.120, and a continuum of alternate placements is available as required in 34 C.F.R. 300.551.

#### Children in Private Schools/Out-of District Placement

Children with a disability placed in or referred to a private school or facility by the District, or other appropriate agency, shall receive special education and related services in accordance with the requirements and procedures of 34 C.F.R. 300.145 through 300.147 and A.R.M. 10.16.3122.

As set forth under 34 C.F.R. 300.137, children with a disability placed in or referred to a private school or facility by parents do not have an individual right to special education and related services at the District's expense. When services are provided to children with disabilities placed by parents in private schools, the services will be in accordance with the requirements and procedures of 34 C.F.R. 300.130 through 300.144, and 300.148.

#### Impartial Due Process Hearing

The District shall conduct the impartial hearing in compliance with the Montana Administrative Rules on matters pertaining to special education controversies.

#### Special Education Records and Confidentiality of Personally Identifiable Information

##### A. Confidentiality of Information

The District follows the provisions under the Family Educational Rights and Privacy Act and implements the procedures in 34 C.F.R. 300.610 – 300.627, § 20-1-213, MCA, and A.R.M. 10.16.3560.

##### B. Access Rights

Parents of disabled students and students eighteen (18) years or older, or their representative, may review any educational records which are designated as student records collected, maintained, and used by the District. Review shall normally occur within five (5) school days and in no case longer than forty-five (45) days. Parents shall have the right to an explanation or interpretation of information contained in the record. Non-custodial parents shall have the same right of access as custodial parents, unless there is a legally binding document specifically removing that right.

C. List of Types and Locations of Information.

A list of the records maintained on disabled students shall be available in the District office. Disabled student records shall be located in the East Glacier Park Grade School SPED Office, where they are available for review by authorized District personnel, parents, and adult students. Special education teachers will maintain an IEP file in their classrooms. These records will be maintained under the direct supervision of the teacher and will be located in a locked file cabinet. A record-of-access sheet in each special education file will specify the District personnel who have a legitimate interest in viewing these records.

D. Safeguards

The District will identify in writing the employees who have access to personally identifiable information, and provide training on an annual basis to those staff members.

E. Destruction of Information

The District will inform parents five (5) years after the termination of special education services that personally identifiable information is no longer needed for program purposes. Medicaid reimbursement records must be retained for a period of at least six years and three months from the date on which the service was rendered or until any dispute or litigation concerning the services is resolved, whichever is later. The parent will be advised that such information may be important to establish eligibility for certain adult benefits. At the parent's request, the record information shall either be destroyed or made available to the parent or to the student if eighteen (18) years or older. Reasonable effort shall be made to provide the parent with notification sixty (60) days prior to taking any action on destruction of records. Unless consent has been received from the parent to destroy the record, confidential information will be retained for five (5) years beyond legal school age.

Privacy rights shall be transferred from the parent to an adult student at the time the student attains eighteen (18) years of age, unless some form of legal guardianship has been designated due to the severity of the disabling condition.

Discipline

Students with disabilities may be suspended from school the same as students without disabilities for the same infractions or violations for up to ten (10) consecutive school days. Students with disabilities may be suspended for additional periods of not longer than ten (10) consecutive school days for separate, unrelated incidents, so long as such removals do not constitute a change in the student's educational placement. However, for any additional days of removal over and above ten (10) school days in the same school year, the District will provide educational services to a disabled student, which will be determined in consultation with at least one (1) of the child's teachers, determining the location in which services will be provided. The District will implement the disciplinary procedures in accord with the requirements of CFR 300.530-300.537.

Section 504 of the Rehabilitation Act of 1973 (“Section 504”)

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. For those students who need or are believed to need special instruction and/or related services under Section 504 of the Rehabilitation Act of 1973, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include: notice, an opportunity for the student’s parent or legal guardian to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent or legal guardian, and a review procedure.

Section 504 of the Rehabilitation Act of 1973 (“Section 504”)

- 1) Impartial Due Process Hearing. If the parent or legal guardian of a student who qualifies under Section 504 for special instruction or related services disagrees with a decision of the District with respect to: (1) the identification of the child as qualifying for Section 504; (2) the District’s evaluation of the child; and/or (3) the educational placement of the child, the parents of the student are entitled to certain procedural safeguards. The student shall remain in his/her current placement until the matter has been resolved through the process set forth herein.
  - A. The District shall provide written notice to the parent or legal guardian of a Section 504 student, prior to initiating an evaluation of the child and/or determining the appropriate educational placement of the child, including special instruction and/or related services;
  - B. Upon request, the parent or legal guardian of the student shall be allowed to examine all relevant records relating to the child’s education and the District’s identification, evaluation, and/or placement decision;
  - C. The parent or legal guardian of the student may make a request in writing for an impartial due process hearing. The written request for an impartial due hearing shall identify with specificity the areas in which the parent or legal guardian is in disagreement with the District;
  - D. Upon receipt of a written request for an impartial due process hearing, a copy of the written request shall be forwarded to all interested parties within three (3) business days;
  - E. Within ten (10) days of receipt of a written request for an impartial due process hearing, the District shall select and appoint an impartial hearing officer who has no professional or personal interest in the matter. In that regard, the District may select a hearing officer from the list of special education hearing examiners available at the Office of Public Instruction, the County Superintendent, or any other person who would conduct the hearing in an impartial and fair manner
  - F. Once the District has selected an impartial hearing officer, the District shall provide the parent or legal guardian and all other interested parties with notice of the person selected;
  - G. Within five (5) days of the District’s selection of a hearing officer, a prehearing conference shall be scheduled to set a date and time for a hearing, identify the issues to be heard, and stipulate to undisputed facts to narrow the contested factual issues;
  - H. The hearing officer shall, in writing, notify all parties of the date, time, and location of the due process hearing;

- I. Anytime prior to the hearing, the parties may mutually agree to submit the matter to mediation. A mediator may be selected from the Office of Public Instruction's list of trained mediators;
  - J. At the hearing, the District and the parent or legal guardian may be represented by counsel;
  - K. The hearing shall be conducted in an informal but orderly manner. Either party may request that the hearing be recorded. Should either party request that the hearing be recorded, it shall be recorded using either appropriate equipment or a court reporter. The District shall be allowed to present its case first. Thereafter the parent or legal guardian shall be allowed to present its case. Witnesses may be called to testify, and documentary evidence may be admitted; however, witnesses will not be subject to cross-examination, and the Montana Rules of Evidence will not apply. The hearing officer shall make all decisions relating to the relevancy of all evidence intended to be presented by the parties. Once all evidence has been received, the hearing officer shall close the hearing. The hearing officer may request that both parties submit proposed findings of fact, conclusions, and decision;
  - L. Within twenty (20) days of the hearing, the hearing examiner should issue a written report of his/her decision to the parties;
  - M. Appeals may be taken as provided by law. The parent or legal guardian may contact the Office of Civil Rights, 912 2<sup>nd</sup> Avenue, Seattle, WA 98714-1099; (206) 220-7900.
- 2) Uniform Complaint Procedure. If a parent or legal guardian of the student alleges that the District and/or any employee of the District has engaged in discrimination or harassment of the student, the parent or legal guardian will be required to proceed through the District's Uniform Complaint Procedure.

Gifted Program

To the extent possible with available resources, all gifted and talented students will have the opportunity to participate in appropriate educational programs. “Gifted and talented students” are students of outstanding abilities, who are capable of high performance and who require differentiated educational programs beyond those normally offered in public schools, in order to fully achieve their potential contribution to self and society.

The District shall:

- Provide educational services to gifted and talented students that are commensurate to their needs, and foster a positive self-image.
- Comply with all federal and state laws and regulations regarding addressing gifted education.
- Provide structured support and assistance to teachers in identifying and meeting the diverse student needs of gifted and talented students, and shall provide a framework for considering a full range of alternatives for addressing student needs.

The Superintendent will establish procedures consistent with state guidelines for nominating, assessing, and selecting children of demonstrated achievement, or potential ability in terms of general intellectual ability and academic aptitude.

Distance, Online, and Technology-Delivered Learning

For purposes of this policy, “distance learning” is defined as: instruction in which students and teachers are separated by time and/or location with synchronous or asynchronous content, instruction, and communication between student and teacher (e.g., correspondence courses, online learning, videoconferencing, streaming video).

The District may receive and/or provide distance, online, and technology-delivered learning programs, provided the following requirements are met:

1. The distance, online, and technology-delivered learning programs and/or courses shall meet the learner expectations adopted by the District and be aligned with state content and performance standards;
2. The District shall provide a report to the Superintendent of Public Instruction, documenting how it is meeting the needs of students under the accreditation standards, who are taking a majority of courses during each grading period via distance, online, and/ or technology-delivered programs;
3. The District will provide qualified instructors and/or facilitators as described in ARM 10.55.907(3)(a)(b)(c);
4. The District will ensure that the distance, online, and technology-delivered learning facilitators receive in-service training on technology-delivered instruction as described in ARM 10.55.907(3)(d); and
5. The District will comply with all other standards as described in ARM 10.55.907(4)(5)(a- e).

The District will permit a student to enroll in an approved distance learning course, in order that such student may include a greater variety of learning experiences within the student’s educational program.

Credit for distance learning courses may be granted, provided the following requirements are met:

1. Prior permission has been granted by the Principal;
2. The program fits the education plan submitted by the regularly enrolled student;
3. The course does not replace a required course offered by the District;
4. The course is needed as credit retrieval and cannot fit into the student’s schedule; and
5. Credit is granted for schools and institutions approved by the District after evaluation for a particular course offering.

The District will not be obligated to pay for a student's distance learning courses. Any courses the District does not pay for will not be included in the ANB calculation in accordance with Policy 3121.

The minimum aggregate hours are not required for any pupil demonstrating proficiency pursuant to 20-9-311(4)(d), MCA.

School Emergencies and Closures

The Superintendent may order closure of schools in the event of extreme weather or other emergency, in compliance with established procedures for notifying parents, students, and staff.

The Board of Trustees is authorized to declare that a state of emergency exists within the community. A declaration issued by the Board of Trustees is distinct from any declaration in effect or previously issued by local, state or federal authorities. An emergency declaration issued by the Board of Trustees authorizes the School District to take extraordinary measures to protect students and staff while delivering education services in a manner authorized by law. The method and location of instruction and related educational services shall be implemented in a manner that serves the needs of students, their families, and staff and preserves the School District's full entitlement of funding

The trustees may order the emergency closure of schools for one (1) school day each year, without the need to reschedule the lost pupil instruction time when the closure is the result of an emergency. The 1-school-day closure under this subsection is not subject to the reduction in BASE aid pursuant to Section 20-9-805, MCA.

In the event of a declared emergency, the School District shall avail itself of all flexibilities allowed by law, rule, or regulation and shall be otherwise governed by the school finance laws and rules of the state of Montana. The School District shall comply with auditing requirements and reserves the authority to assert its rights to manage school district funds or seek state and federal funds in a manner consistent with the full flexibility available under all applicable laws.

If a declaration of emergency is declared by the Board of Trustees, it may later adopt a resolution that a reasonable effort has been made to reschedule the pupil-instruction time lost because of the unforeseen emergency. If the trustees adopt the resolution, the pupil-instruction time lost during the closure need not be rescheduled to meet the minimum requirement for aggregate hours that a school district must conduct during the school year in order to be entitled to full BASE aid. At least 75% of the pupil-instruction time lost due to the unforeseen emergency must have been made up before the trustees can declare that a reasonable effort has been made.

For the purposes of this and related policies, "reasonable effort" means the rescheduling or extension of the school district's instructional calendar to make up at least 75% of the hours of pupil instruction lost due to an unforeseen emergency through any combination of the following as outlined in accordance with Policies 2050 and 2100:

- A. extending the school year beyond the last scheduled day;
- B. the use of scheduled vacation days in the district's adopted school calendar
- C. the conduct of pupil instruction on Saturdays;
- D. extending instructional hours during the school day.

School Closure

*Note: this is an optional procedure that should be customized to meet a districts' specific needs, structure, and operations. These changes reflect updates to the MTBSA model document.*

All students, parents, and school employees should assume that school will be in session and buses running as scheduled, unless there is official notification from the Superintendent to the contrary. Such notice will be given via public media.

In the event extremely cold temperatures, wind chill factors, snow, wind, community disaster, public health emergency, or other circumstances require a modification of the normal routine, the Superintendent will make the modification decision prior to 6:00 a.m. and contact the public radio stations for broadcast to the community and will initiate the emergency fan-out communication procedure to all administrators.

The provisions of this procedure may be terminated, amended, or adjusted, by the Board of Trustees in the event of circumstances requiring extended school closure due to a declaration of emergency.

Work Schedules and Responsibilities for School Closures

Superintendent

The Superintendent or Board of Trustees has authority to close schools. The Superintendent will be on duty throughout any existing or potential emergency situation, day or night. All orders of doubtful origin should be confirmed with the Superintendent.

Central Administrative Personnel

Central administrative personnel will be expected to report for duty on their assigned shifts in the event of any school closure, insofar as is safely possible, unless otherwise directed by the Superintendent or designee. Additional hours may be required, especially of the maintenance supervisor, business manager, and personnel director, depending on the nature of the emergency.

Building-Level Administrators, Non-Teaching "Exempt" Personnel, and Key Support Staff

All building-level Administrators and non-teaching "exempt" personnel will report for duty per their normal shifts or as otherwise directed each day during the school closure, together with the head custodian and at least one (1) secretary, insofar as is safely possible. The building Administrator will ascertain that the building has been adequately secured and that any child who mistakenly reports to school is properly and safely cared for and returned home per District policy. The Administrator and this minimal support staff shall notify other staff and/or other support employees of the situation and will respond to telephone questions. Staff will be advised of the schedule for the day by his or her immediate supervisor.

2221P  
page 2 of 2

12-Month Classified Employees

In the event of school closure, 12-month classified personnel may report for duty or not report for duty, as directed by their immediate supervisor. Building secretaries and secretaries to key central administrative personnel who are required to be on duty are expected to report for duty. If a 12-month classified employee is unable to or does not report for duty, the employee will complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

#### 10- and 11-Month Classified Employees

Ten- and 11-month employees may report for duty or not report for duty as directed by their immediate supervisor. If such employees do not report for duty, they will complete a District leave request form to declare the day as personal leave, vacation, or leave without pay.

#### Aides, Food Service Workers, and Other 9¼-Month Classified Employees

These employees work only those days school is in session and are not expected to work when school is not in session. If school has been closed, 9¼-month employees should not report for duty unless otherwise directed by their immediate supervisor. 9¼-month employees will complete a leave request form to declare the day as personal leave, vacation, or leave without pay.

#### Teachers (Teachers, Librarians, Psychologists, Counselors)

If schools are closed for weather or other emergency conditions, teachers are not expected to report for duty unless directed otherwise. Teachers do not need to submit an absence form. In cases of school closures, it is customary for the days to be made up at another time; thus teachers will typically still fulfill their contract days.

Library Materials

School library and classroom library books are primarily for use by District students and staff. Library books may be checked out by either students or staff. Individuals who check out books are responsible for the care and timely return of those materials. The building Principal may assess fines for damaged or unreturned books.

District residents and parents or guardians of non-resident students attending the District may be allowed use of library books, at the discretion of the building Principal. However, such access shall not interfere with regular school use of those books. Use of library books outside of the District is prohibited except for inter-library loan agreements with other libraries.

Any individual may challenge the selection of materials for the library/media center. The Uniform Complaint Procedure will be utilized to determine if challenged material is properly located in the library.

Selection of Library Materials

The District has a library in the school, with the primary objective of implementing and supporting the educational program in the schools. It is the objective of this library to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

The provision of a wide variety of library materials at all reading levels supports the District's basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

In support of these objectives, the Board reaffirms the principles of intellectual freedom inherent in the First Amendment of the Constitution of the United States and guided by the principles set forth in the American Library Association's Library Bill of Rights and its interpretation for school libraries.

Although the Superintendent is responsible for selection of library materials, ultimate responsibility rests with the Board.

The Board, acting through the Superintendent, thereby delegates authority for selection of library materials to the Principal in each of the schools. The Principal further delegates that authority to the librarian in the school.

**(NOTE: BY STATUTE, THE SUPERINTENDENT, or a principal if there is no district superintendent, HAS AUTHORITY AND IS RESPONSIBLE FOR SELECTION OF LIBRARY MATERIALS, SUBJECT TO BOARD APPROVAL. THE SUPERINTENDENT AND BOARD MAY NOT WANT TO DELEGATE THIS RESPONSIBILITY.)**

Selection of Library Materials

Selection of library materials is a professional task conducted by library staff. In selecting library materials, the librarian will evaluate the existing collection; assess curricula needs; examine materials; and consult reputable, professionally prepared selection aids.

Weeding

When materials no longer meet criteria for selection, they will be weeded. Weeding is a necessary aspect of selection, since every library will contain works which may have answered a need at the time of acquisition, but which, with the passage of time, have become obsolete, dated, unappealing, or worn out.

Discarded materials will be clearly stamped:

“WITHDRAWAL FROM EAST GLACIER PARK PUBLIC SCHOOL LIBRARY”

Materials will be discarded in compliance with § 20-6-604, MCA. When the decision to sell or dispose of library materials is made, the Board will adopt a resolution to sell or otherwise dispose of the material because it is or is about to become abandoned, obsolete, undesirable, or unsuitable for the school purposes of the District. The Board will publish a notice of the resolution in the newspaper of general circulation in East Glacier Park, Montana. The resolution may not become effective for fourteen (14) days after notice is published.

Gifts

Gift materials may be accepted with the understanding they must meet criteria set for book selection.

2311

Instructional Materials

The Board is legally responsible to approve and to provide the necessary instructional materials used in the District. Textbooks and instructional materials should provide quality learning experiences for students and:

- Enrich and support the curriculum;
- Stimulate growth in knowledge, literary appreciation, aesthetic value, and ethical standards;
- Provide background information to enable students to make intelligent judgments;
- Present opposing sides of controversial issues;
- Be representative of the many religious, ethnic, and cultural groups and their contributions to our American heritage;
- Depict in an accurate and unbiased way the cultural diversity and pluralistic nature of American society.

Basic instructional course material in the fundamental skill areas of language arts, mathematics, science, and social studies should be reviewed at intervals not exceeding five (5) years, or consistent with the state's standards revision schedule that are consistent with the goals of the continuous school improvement plan. All instructional materials must be sequential and must be compatible with previous and future offerings.

Instructional materials may be made available for loan to students when the best interest of the District and student will be served by such a decision. Students will not be charged for normal wear. They will be charged replacement cost, however, as well as for excessive wear, unreasonable damage, or lost materials. The professional staff will maintain records necessary for the proper accounting of all instructional materials.

Selection, Adoption, and Removal of Textbooks and Instructional Materials

Curriculum committees will generally be responsible to recommend textbooks and major instructional materials purchases. Recommendations will be made to the Superintendent. The function of the committee is to ensure that materials are selected in conformance with stated criteria and established District goals and objectives. A curriculum committee may consist of only those members in a particular department. The same basic selection procedures should be followed as with District-wide committees.

Selection and Adoption

Textbooks shall be selected by a curriculum committee representing the various staff who will likely be using the text. In most, but not all, cases an Administrator will chair the committee. Each committee should develop, prior to selection, a set of selection criteria against which textbooks will be evaluated. The criteria should include the following, along with other appropriate criteria.

Textbooks shall:

- Be congruent with identified instructional objectives;
- Present more than one viewpoint on controversial issues;
- Present minorities realistically;
- Present non-stereotypic models;
- Facilitate the sharing of cultural differences;
- Be priced appropriately.

Removal

Textbooks may be removed when they no longer meet the criteria for initial selection, when they are worn out, or when they have been judged inappropriate through the Learning Materials Review Process.

Copyright

The District recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for unauthorized copying or use of audio, visual, digital, or printed materials and computer software, unless the copying or use conforms to the “fair use” doctrine.

Under the “fair use” doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship, or research.

Under the fair use doctrine, each of the following four standards must be met in order to use the copyrighted document:

- Purpose and Character of the Use – The use must be for such purposes as teaching or scholarship.
- Nature of the Copyrighted Work – The type of work to be copied.
- Amount and Substantiality of the Portion Used – Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed.
- Effect of the Use Upon the Potential Market for or value of the Copyrighted Work – If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

While the District encourages its staff to enrich learning programs by making proper use of supplementary materials, it is the responsibility of staff to abide by District copying procedures and obey requirements of law. Under no circumstances will it be necessary for staff to violate copyright requirements in order to properly perform their duties. The District cannot be responsible for any violations of the copyright law by its staff.

The display of dramatic performances, musical works, motion pictures or television programming to students may only occur for educational purposes under the following standards:

- During onsite instruction
- When viewed in a classroom or designated place of instruction
- With a lawfully made copy or via an authorized account
- As a regular part of instruction and directly related to the curriculum

Employees should contact the administration with inquiries about accessing lawful copies of materials or accounts to access materials available via online platforms to ensure compliance with copyright laws

Any staff member who is uncertain as to whether reproducing or using copyrighted material complies with District procedures or is permissible under the law should consult the Superintendent. The Superintendent will assist staff in obtaining proper authorization to copy or use protected materials, when such authorization is required.

Field Trips, Excursions, and Outdoor Education

The Board recognizes that field trips, when used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the schools. Such trips can supplement and enrich classroom procedures by providing learning experiences in an environment beyond the classroom. The Board also recognizes that field trips may result in lost learning opportunities in missed classes. Therefore, the Board endorses the use of field trips, when educational objectives achieved by the trip outweigh any lost in-class learning opportunities.

Field trips that will take students out of state must be approved in advance by the Board; building Principals may approve all other field trips.

Building Principals will develop procedures with respect to field trips, excursions, and outdoor education.

Staff members may not solicit students during instructional time for any privately arranged field trip or excursion without Board permission.

The presence of a person with a currently valid first aid card is required during school-sponsored activities, including field trips, athletic, and other off-campus events.

Contests for Students

Contests may be made available to students by outside organizations through the schools, subject to certain limitations. The Administrator shall determine that the contest is not in conflict with nor will it diminish the primary educational aims of the schools and that it meets the needs and interests of students.

The schools shall confine their participation to those national contests which are currently placed on the approved list published annually by the Committee on National Contests and activities of the National Association of Secondary School Principals.

A state or local contest in which students participate shall be:

1. One that supplements and does not interfere with the regular school program.
2. One that is beneficial to youth in education, civic, social, or ethical development.
3. One that makes it possible for individual students to work out contributions by their own efforts and does not invite dishonest collaboration.
4. One whose subject is not commercial, controversial, sectarian, or concerned with propaganda. It must emphasize high moral standards, good citizenship, and intellectual competence.
5. One from which no contestant shall be excluded because of race, color, creed, sex, or payment of entry fee.
6. One which does not place an undue burden on students, teachers, or the school nor require frequent or lengthy absence of participants from the school.
7. One sponsored by an organization engaged in a creditable or acceptable enterprise, regardless of kind or amount of prizes offered. The contest or activity must not be used as a "front" for advertising a company name or product.

Contests will not be allowed unless they further the educational goals of the District.

Controversial Issues and Academic Freedom

The District will offer courses of study which will afford learning experiences appropriate to levels of student understanding. The instructional program respects the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

Teachers will guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize various points of view, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

The Board encourages and supports the concept of academic freedom, recognizing it as a necessary condition to aid in maintaining an environment conducive to learning and to the free exchange of ideas and information.

In a study or discussion of controversial issues or materials, however, the Board directs teaching staff to take into account the following criteria:

1. Relative maturity of students;
2. District philosophy of education;
3. Community standards, morals, and values;
4. Necessity for a balanced presentation; and
5. Necessity to seek administrative counsel and guidance in such matters.

Religion and Religious Activities

In keeping with the United States and Montana Constitutions and judicial decisions, the District may not support any religion or endorse religious activity. At the same time, the District may not prohibit private religious expression by students. This policy provides direction to students and staff members about the application of these principles to student religious activity at school.

Student Prayer and Discussion

Students may pray individually or in groups and may discuss their religious views with other students, as long as they are not disruptive or coercive. The right to engage in voluntary prayer does not include the right to have a captive audience listen, to harass other students, or to force them to participate. Students may pray silently in the classroom, except when they are expected to be involved in classroom instruction or activities.

Staff Members

Staff members are representatives of the District and must “navigate the narrow channel between impairing intellectual inquiry and propagating a religious creed.” They may not encourage, discourage, persuade, dissuade, sponsor, participate in, or discriminate against a religious activity or an activity because of its religious content. They must remain officially neutral toward religious expression.

Graduation Ceremonies

Graduation is an important event for students and their families. In order to assure the appropriateness and dignity of the occasion, the District sponsors and pays for graduation ceremonies and retains ultimate control over their structure and content.

District officials may not invite or permit members of the clergy to give prayers at graduation. Furthermore, District officials may not organize or agree to requests for prayer by other persons at graduation, including requests by students to open or deliver a prayer at graduation. The District may not prefer the beliefs of some students over the beliefs of others, coerce dissenters or nonbelievers, or communicate any endorsement of religion.

Assemblies, Extracurricular and Athletic Events

District officials may not invite or permit members of the clergy, staff members, or outsiders to give prayers at school-sponsored assemblies and extracurricular or athletic events. District officials also may not organize or agree to student requests for prayer at assemblies and other school-sponsored events. Furthermore, prayer may not be broadcast over the school public address system, even if the prayer is nonsectarian, nonproselytizing, and initiated by students.

### Student Religious Expression and Assignments

Students may express their individual religious beliefs in reports, tests, homework, and projects. Staff members should judge their work by ordinary academic standards, including substance, relevance, appearance, composition, and grammar. Student religious expression should neither be favored nor penalized.

### Religion in the Curriculum

Staff members may teach students about religion in history, art, music, literature, and other subjects in which religious influence has been and continues to be felt. However, staff members may not teach religion or advocate religious doctrine or practice. The prohibition against teaching religion extends to curricular decisions which promote religion or religious beliefs.

School programs, performances, and celebrations must serve an educational purpose. The inclusion of religious music, symbols, art, or writings is permitted, if the religious content has a historical or independent educational purpose which contributes to the objectives of the approved curriculum. School programs, performances, and celebrations cannot promote, encourage, discourage, persuade, dissuade, or discriminate against a religion or religious activity and cannot be oriented to religion or a religious holiday.

### Student Religious Groups

Students may gather as non-curricular groups to discuss or promote religion in accordance with District Policy 3233.

### Distribution of Religious Literature

Students may distribute religious literature to their classmates, subject to the same constitutionally acceptable restrictions the District imposes on distribution of other non-school literature. Outsiders may not distribute religious or other literature to students on school property, consistent with and pursuant to the District policy on solicitations (Policy 4321).

### Religious Holidays

Staff members may teach objectively about religious holidays and about religious symbols, music, art, literature, and drama which accompany the holidays. They may celebrate the historical aspects of the holidays but may not observe them as religious events.

Participation in Eighth Grade Promotion Exercises

Statement of Policy

A student's right to participate in the promotion exercise is an honor. As such, participation in this exercise is reserved for those members who have completed all state and local requirements for promotion before the date of the ceremony.

Organization and Content of Commencement Exercises

The School District will permit students to honor their American Indian heritage through the display of culturally significant tribal regalia at commencement ceremonies. Any item that promotes drug use, weapon use, threats of violence, sexual harassment, bullying, or other intimidation, or violates another district policy, state, or federal law may not be worn during graduation.

The school Administrators will review presentations and specific content, and may advise participants about appropriate language for the audience and occasion. Students selected to participate may choose to deliver an address, poem, reading, song, musical presentation, or any other pronouncement of their choosing.

The printed program for a commencement exercise will include the following paragraphs:

*Any presentation by participants of graduation exercises is the private expression of an individual participant and does not necessarily reflect any official position of the District, its Board, administration, or employees, nor does it necessarily indicate the views of any other graduates. The Board recognizes that at graduation time and throughout the course of the educational process, there will be instances when religious values, religious practices, and religious persons will have some interaction with the public schools and students.*

*The Board, while not endorsing any religion, recognizes the rights of individuals to have the freedom to express their individual political, social, or religious views.*

Credit Transfer and Assessment for Placement

Grades 1-8

Requests from parents of students in non-accredited, nonpublic schools for placement in the District school system will be evaluated by an assessment-for-placement team. That team will include:

1. A school principal;
2. One (1) teacher of the grade in which the student is being considered for enrollment; and
3. One (1) counselor (grades 6-8 only) (OPTIONAL).

The assessment-for-placement team will cause the District-adopted norm-referenced test and/or the end-of-the-year subject-matter test to be administered and scored. The assessment-for- placement team will take into account the following in its recommendation for grade placement:

1. Documentation that the non-accredited, nonpublic school has provided a comparable number of hours as the child would have attended in a public or private school;
2. That the child followed a similar curriculum as would have been provided in an accredited public or private school;
3. That the result of the end-of-the-year test indicates the student has mastered most prerequisite skills; and
4. That the child achieved an NCE score of forty (40) or above on the Standard Achievement Test.

Parents of students in home schools are encouraged to maintain a log documenting dates of instruction, content of instruction, amount of time spent on that instruction, scores on tests, and grades in all activities.

The District is not obligated to provide instructional materials for other public or private schools.

If a parent or guardian is not in agreement with the placement of the child, he/she may request a hearing before the Board.

Grading and Progress Reports

The Board believes cooperation of school and home is a vital ingredient in the growth and education of students and recognizes its responsibility to keep parents informed of student welfare and progress in school.

The issuance of grades and progress reports on a regular basis serves as a basis for continuous evaluation of student performance and for determining changes that should be made to effect improvement. These reports will be designed to provide information helpful to the students, teachers, counselors, and parents.

The Board directs the Superintendent to establish a system of reporting student progress and will require all staff to comply with such a system as part of their teaching responsibility. Staff and parents will be involved.

Promotion and Retention

Student placement, promotion, or retention will be determined after a careful evaluation of the advantages and disadvantages of alternatives.

All factors must be considered when an alteration to a student's normal progression through school is contemplated. Quantitative measures, such as age, physical size, ability, and level of academic achievement, shall be supplemented by a qualitative assessment of student motivation, self-image, and social adjustment.

It is the philosophy of the District that students thrive best when placed in or promoted to grade levels with other students of compatible age, physical, social, and emotional status. It is the District's philosophy to promote students who demonstrate effort within those compatibilities. It is equally the District's philosophy and practice to retain students who do not make a reasonable effort to meet grade-level expectations, as long as those expectations are commensurate with the individual student's ability and rate of learning.

Teaching staff and building Principals will make final decisions respecting promotion or retention.

Homework

Homework is a constructive tool in the teaching/learning process when geared to the needs and abilities of students. Purposeful assignments not only enhance student achievement, but also develop self-discipline and associated good working habits. As an extension of the classroom, homework must be planned and organized, must be viewed as purposeful to the students, and should be evaluated and returned to students in a timely manner.

Teachers may give homework to students to aid in the students' educational development. Homework should be an application or adaption of a classroom experience, and should not be assigned for disciplinary purposes.

Recognition of Native American Cultural Heritage

The District recognizes the distinct and unique cultural heritage of Native Americans and is committed in the District's educational goals to the preservation of such heritage.

In furtherance of the District's educational goals, the District is committed to:

- Working cooperatively with Montana Tribes in close proximity to the District, when providing instruction, when implementing educational goals or adopting rules relating to education of students in the District;
- Periodically reviewing its curriculum to ensure the inclusion of cultural heritage of Native Americans, which will include but not necessarily be limited to:
  - Considering methods by which to provide books and materials reflecting authentic historical and contemporary portrayals of Native Americans;
  - Taking into account individual and cultural diversity and differences among students;
- Providing necessary training for school personnel, with the objective of gaining an understanding and awareness of Native American culture, which will assist the District's staff in its relations with Native American students and parents.

The Board may require certified staff to satisfy the requirements for instruction in American Indian studies, set forth in § 20-1-503, MCA.

Limited English Proficiency Program

In accordance with the Board's philosophy to provide a quality educational program to all students, the District shall provide an appropriate planned instructional program for identified students whose dominant language is not English. The purpose of the program is to increase the English proficiency of eligible students, so they can attain academic success. Students who have limited English proficiency (LEP) will be identified, assessed, and provided appropriate services.

The Board shall adopt a program of educational services for each student whose dominant language is not English. The program shall include bilingual/bicultural or English as a second language instruction.

The Superintendent or his/her designee shall implement and supervise an LEP program which ensures appropriate LEP instruction and complies with applicable laws and regulations.

The Superintendent or his/her designee, in conjunction with appropriate stakeholders, shall develop and disseminate written procedures regarding the LEP program, including:

1. Program goals.
2. Student enrollment procedures.
3. Assessment procedures for program entrance, measurement of progress, and program exit.
4. Classroom accommodations.
5. Grading policies.
6. List of resources, including support agencies and interpreters.

The District shall establish procedures for identifying students whose language is not English. For students whose dominant language is not English, assessment of the student's English proficiency level must be completed to determine the need for English as a Second Language instruction.

Students whose dominant language is not English should be enrolled in the District, upon proof of residency and other legal requirements. Students shall have access to and be encouraged to participate in all academic and extracurricular activities of the District.

Students participating in LEP programs shall be required, with accommodations, to meet established academic standards and graduation requirements adopted by the Board.

The LEP program shall be designed to provide instruction which meets each student's individual needs based on the assessment of English proficiency in listening, speaking, reading, and writing. Adequate content-area support shall be provided while the student is learning English, to assure achievement of academic standards.

The LEP program shall be evaluated for effectiveness as required, based on the attainment of English proficiency, and shall be revised when necessary.

At the beginning of each school year, the District shall notify parents of students qualifying for LEP programs about the instructional program and parental options, as required by law. Parents will be regularly apprised of their student's progress. Whenever possible, communications with parents shall be in the language understood by the parents.

The District shall maintain an effective means of outreach to encourage parental involvement in the education of their children.

School Wellness

The East Glacier Park Grade School, School District #50 is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of the East Glacier Park Grade School, School District #50 that:

The development of the school wellness policy, at a minimum, will include:

1. *Community involvement*, including input from teachers of physical education and school health professionals, parents, students, school food service, the school Board, school Administrators, educators, and the public. Training of this team of people on the components of a healthy school nutrition environment is recommended.
2. *Goals for nutrition education, nutrition promotion, physical activity, and other school-based activities* that are designed to promote student wellness in a manner that the local education agency determines appropriate.
3. *Implementation, Periodic Assessment, and Public Updates, including* expanding the purpose of the team of collaborators beyond the development of a local wellness policy to also include the implementation of the local wellness policy with periodic review and updates, inform and update the public (including parents, students, and others in the community) about the content and implementation of the local wellness policies, and to measure periodically and make available to the public an assessment of the local wellness policy, including:
  - The extent to which schools are in compliance with the local wellness policy;
  - The extent to which the LEA's local wellness policy compares to model local school wellness policies; and
  - The progress made in attaining the goals of the local wellness policy.
4. *Nutrition guidelines* for all foods available on each school campus under the local education agency during the school day, with the objectives of promoting student health and nutrient-rich meals and snacks. This includes food and beverages sold in a la carte sales, vending machines, and student stores; and food and beverages used for classroom rewards and fundraising efforts.
5. *Guidelines for reimbursable school meals* to ensure that the District offers school meal programs with menus meeting the meal patterns and nutrition standards established by the U.S. Department of Agriculture.
6. *A plan for measuring implementation* of the local wellness policy, including designation of one or more persons within the school, as appropriate, charged with operational responsibility for ensuring that each school fulfills the District's local wellness policy.

The suggested guidelines for developing the wellness policy include:

Nutrition Education and Nutrition Promotion

All students K-8 shall receive nutrition education that teaches the knowledge and skills needed to adopt healthy eating behaviors and is aligned with *Montana Health Enhancement Standards*. Nutrition education shall be integrated into the curriculum. Nutrition information and education shall be offered throughout the school campus and based on the U.S. Dietary Guidelines for Americans. Staff who provides nutrition education shall have the appropriate training, such as in health enhancement or family and consumer sciences.

Health Enhancement and Physical Activity Opportunities

The District shall offer health enhancement opportunities that include the components of a quality health enhancement program taught by a K-8 certified health enhancement specialist, if permitted by staffing levels. Health enhancement shall equip students with the knowledge, skills, and values necessary for lifelong physical activity. Health enhancement instruction shall be aligned with *Montana Health Enhancement Standards*.

All K-8 students of the District shall have the opportunity to participate regularly in supervised, organized or unstructured, physical activities, to maintain physical fitness, and to understand the short- and long-term benefits of a physically active and healthy lifestyle.

Nutrition Standards

The District shall ensure that reimbursable school meals meet the program requirements and nutrition standards found in federal regulations. The District shall encourage students to make nutritious food choices through accessibility and marketing efforts of healthful foods.

The District shall monitor all food and beverages sold or served to students, including those available outside the federally regulated child nutrition programs (i.e., a la carte, vending, student stores, classroom rewards, fundraising efforts). The District shall consider nutrient density and portion size before permitting food and beverages to be sold or served to students. The Administrator shall continually evaluate vending policies and contracts. Vending contracts that do not meet the intent and purpose of this policy shall be modified accordingly or not renewed.

Other School-Based Activities Designed to Promote Student Wellness

The District may implement other appropriate programs that help create a school environment that conveys consistent wellness messages and is conducive to healthy eating and physical activity, such as staff wellness programs, non-food reward system and fundraising efforts.

Maintaining Student Wellness

The Administrator shall develop and implement administrative rules consistent with this policy. Input from teachers, parents/guardians, students, school food service program, the school Board, school Administrators, and the public shall be considered before implementing such rules. A sustained effort is necessary to implement and enforce this policy. The Administrator shall measure how well this policy is being implemented, managed, and enforced. The Administrator shall report to the Board, as requested, on the District's programs and efforts to meet the purpose and intent of this policy.
