

Learn, Lead, Serve

# Huron ISD Work-Based Learning Program

## Program Description:

The WBL Program is a special education program designed to provide students with opportunities to develop work skills. Students connect what they learn in the classroom by pairing it with un-paid training in real life work applications at local businesses. This helps create a smooth transition for the students into the workforce.

- for students in 10th grade to the age of 26
- students can be on track for a diploma or certificate of completion
- 1/2 day program ran in the PM
- located at the Huron Area Technical Center
- credit for the program is determined and awarded by the local school

## Program Highlights:

Work-based learning builds career readiness through a continuum of experiences designed to foster improved educational outcomes for students with disabilities.

Students will..

- learn pre-employment skills and participate in lessons including resume writing,
- participate in work-based learning activities in the classroom and at job sites in the community with the support of a job coach
- learn and develop the soft skills needed to gain and maintain employment including professionalism, attitude & interactions, communication, productivity, and good work habits
- the goal is to help students be ready for employment; however, the program does not guarantee employment

## Potential Work Tasks:

- Stock shelves
- Fill Coolers
- Empty Garbage
- Bus tables
- Wash dishes
- Janitorial work
- Roll silverware
- Shred papers
- Prepare documents for shredding
- Pull merchandise
- Run cash register
