

Southwest Georgia STEM Charter School

Policy S9: Acceptable Use of Technology

Adopted: September 17, 2020

Amended: July 25, 2024

Amended: June 17, 2025

Amended: March 24, 2026

Amended: July 16, 2026

I. Electronic Communication Device Defined

For the purposes of this Policy, the term 'electronic communication device' means any portable electronic device capable of transmitting, receiving, or accessing communications, data, or media. Such terms include, but are not limited to, smartphones, smartwatches, tablets, headphones, meta glasses and other devices with functionalities such as wireless communication, internet access, messaging, video recording, gaming, social media access, or data transmission.

II. Limited Use of Electronic Communication Devices Permitted

- A.** Students are only permitted to use electronic communication devices before school and the end of the school day. For the purposes of this policy, “school day” is defined as “bell to bell”.
- B.** Students are prohibited from using electronic communication devices during classroom instructional time or between class periods. All electronic communication devices shall be turned-off or placed on silent mode with no vibration alerts during classroom instructional time and between class periods.
- C.** Students are prohibited from using electronic communication devices in any way which, in the discretion of a school principal or his or her designee, poses a safety hazard or otherwise interferes with the educational mission of a school.
- D.** Students are prohibited from using an electronic communication device in connection with bullying, as defined by Board policy or state law. Such use of an electronic communication device may subject a student to disciplinary action as set forth in the District’s discipline policy.
- E.** Electronic communication devices are not permitted to be visible on a student’s person during instructional time or between class periods.
- F.** No student shall photograph, videotape, record or reproduce, via any audio or video means, another student or staff member while on school premises.
- G.** Southwest Georgia Stem Charter School shall not assume responsibility or liability for damage to, theft or loss of an electronic communication device.
- H.** Southwest Georgia Stem Charter School shall not assume responsibility for the unauthorized use of an electronic communication device.
- I.** Each administrator or their designee is authorized to provide for exceptions to this policy such as in the case of medical emergencies or other extenuating circumstances. Such exception shall be documented in writing and placed in the student’s file.
- J.** Any parent wishing to communicate with their child during the school day should contact the school directly. Emergency communications will be facilitate through official school

communication.

III. Acceptable Internet Usage.

It is the policy of Southwest Georgia STEM Charter School that employees and students should be furnished with educational opportunities and resources to have access to Internet-based instructional programs and administrative services. The primary purpose and mission of Southwest Georgia STEM Charter School is to prepare every student to thrive, adapt, and lead in an ever-changing world. Technology plays a role in this mission by providing quality programs, information and learning activities along with support and services to improve student learning and enhance instructional and administrative effectiveness. The instructional use of interactive computer and web-based technology will prepare students for the future. Technology includes computer hardware, software, local and wide area networks and access to the Internet. Due to the complex nature of these systems and the magnitude of information available via the Internet, Southwest Georgia STEM Charter School has adopted the procedures set forth below regarding acceptable use to ensure that the technology users share in the technology resources in an effective, efficient, ethical and lawful manner. Particular attention should be given to ensuring that students are not granted access to anything other than educational and instructional materials and resources.

Southwest Georgia STEM Charter School is committed to: (a) preventing user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications; (b) preventing unauthorized access and other unlawful online activity; (c) preventing unauthorized online disclosure, use, or dissemination of personal identification information of minors; and (d) complying with the Children's Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)]. Each user must follow the Southwest Georgia STEM Charter School **Internet Acceptable Use policy set forth below**. Students shall receive education about the following:

1. safety and security while using e-mail, chat rooms, social media, and other forms of direct electronic communications;
 2. the dangers inherent with the online disclosure of personally identifiable information;
 3. the consequences of unauthorized access (e.g., "hacking") cyberbullying and other unlawful or inappropriate activities by students online, and unauthorized disclosure, use, and
- A. All Internet users (and their parents if they are minors) are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying procedures.
 - B. Students and staff members are responsible for good behavior on the school's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply.
 - C. Students shall not access social media for personal use from the school's network or using school equipment. Students shall not use school technology or the school's internet

network to access, send, receive, view or download obscene materials, child pornography or material that is harmful to minors.

- D. Students who are found to have engaged in cyberbullying, as defined below, or to have sent or received obscene materials shall be subject to discipline, even if the behavior did not occur on campus or in transit to campus.
- E. Users who disregard this policy, policy S37 and its accompanying procedures may have their use privileges suspended or revoked, and disciplinary action taken against them pursuant to the School's Discipline Policy.
- F. Any individual who has reason to believe that the School's Acceptable Use Policy is being violated should submit a written complaint detailing suspected violations to the school administration, who shall take appropriate action against any student, employee or guest found to have violated the terms of this policy.
- G. Any guest who violates the terms of this policy shall be prohibited from accessing or using school technology in the future.
- H. The School shall utilize the services of a third party data service to monitor student internet activity and to filter websites and internet applications. This service shall provide technology that inspects and analyzes unencrypted internet traffic for malware and that blocks or filters electronic access to obscene materials, child pornography, or material that is harmful to minors.
- I. The School shall share any information it receives about the potential risk of internet usage by students with parents. Any parent who has input or suggestions on ways the school can improve enforcement of the acceptable use policy should attend a board meeting and offer comments during the public comment time or may submit suggestions to the school administration via email.
- J. The School Leader shall review discipline referrals for violations of this policy and/or cyberbullying at least annually and shall determine if the technology services utilized to prevent cyberbullying should be modified to better prevent harm to students.
- K. Southwest Georgia STEM Charter School shall not apply this policy in a way that would constitute discrimination against individuals with disabilities and shall modify this process as necessary to ensure that students with disabilities are provided appropriate supports to access their educational curriculum.

IV. Definitions

- A. Child pornography means any visual depiction, including any live performance, photograph, film, video, picture, or computer or computer generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct, as such term is defined in Code Section 16-12-100, when:

- a. The production of the visual depiction involves a minor engaging in sexually explicit conduct;
 - b. The visual depiction is of a minor engaging in sexually explicit conduct; or
