

## ***Suicide Prevention School Personnel Training***

### **Introduction:**

This training was developed by the Alabama State Department of Education Suicide Prevention Advisory Committee in 2021 and revised in 2022. This training is to provide basic knowledge on suicide, the three levels of engagement and to support the Local Education Agency's policy on suicide prevention. The training is interactive and requires your full attention. Please make sure your volume is turned on as this is a 4-part video-led training with questions. The training will take approximately 40 minutes.

**Training Format:** *Please note that the file numbers noted correspond with the files sent.*

**Slides** – All video slides have transitions and/or animations. In the notes section below each slide is a script. The script will be read during the presentation to create video segments.

**Question Worksheets**– Each question should appear one at a time with the answer options. If the individual selects the wrong answer, the correct answer will be shared. If the individual selects the correct answer, they should hear or see something indicating they are correct. Once all individuals have seen the correct answer, the additional fact for that question/answer should appear. Then to the next question and so forth.

### **Conclusion:**

Thank you for participating in this training session and remember to review your LEA's suicide prevention policy and procedures. We know that there is no price in an individual's life and that it only takes one person to notice and intervene to save a life!
