IMMEDIATE RELEASE

May 3, 2024

TWO KINGSTREE HIGH SCHOOL STUDENTS SET TO PARTICIPATE IN STEM SIGNING DAY AT THE STATE CAPITOL

High school seniors from across the state will be celebrated for their decision to pursue STEM (Science, Technology, Engineering, and Mathematics) education at technical programs, two- and four-year colleges and universities. Just like signing days for athletes, these honorees will sign a letter of intent to pursue their STEM goals at the annual STEM Signing Day.

Representing Williamsburg County School District for STEM Signing Day on May 8, 2024, at the S.C. State House will be Maurice McCrea and Elise Phillips of Kingstree High School, both will major in STEM majors while in college. The event will be filled with exciting activities for the students, including meeting and taking pictures with several distinguished individuals, such as Ellen Weaver, State Superintendent of Education, and officials from BMW Manufacturing, Nucor Steele, Ingevity, and Boeing. STEM education is critical to the success of our students and our community, and we are excited to support these students as they embark on their STEM journey.

STEM Signing Day is an important initiative that celebrates and encourages the pursuit of STEM education, which is vital to the future of the country's workforce and economic growth. We congratulate all the honorees and wish them success in their future STEM pursuits.
