October 31, 2022

Dear Parent/Guardian,

Florida Statutes Section 1003.02 (1)(j) requires district school boards to notify the parent/guardian of a student earning an industry certification that articulates for postsecondary credits of estimated cost savings in terms of tuition and fees associated with post-secondary credits.

Students earning an industry certification with a state-wide articulation agreement will be eligible to receive the cost savings shown in the table on page 2 of this letter. In order to receive the associated cost savings and the established articulation credit, the student must be enrolled in the related Associate of Science Program of Articulation that is offered at a Florida postsecondary institution. Additionally, students earning a recognized industry certification may earn locally generated articulation credit within a postsecondary Career and Technical Education (CTE) pathway.

The opportunity to earn an industry certification is a voluntary process, offered at no cost to the student by Gadsden County Public Schools. Students are evaluated by an independent, third-party certifying agency using predetermined standards for knowledge, skills and competencies. The result is the award of a time-limited credential that is nationally recognized and applicable to an occupation.

Thank you for supporting our efforts to prepare your student for a meaningful career. If you have any questions, please do not hesitate to contact me at 850-875-8324.

Sincerely,

Thomas E. Saxton  
Director

#### MISSION STATEMENT

The mission of Gadsden Technical College is to recognize the worth and potential of each student. We are committed to providing opportunities for basic and advanced instruction in a conducive learning environment. The College encourages academic and technical curiosity, innovation and creativity by integrating applied academic skills in all occupational areas. We strive to instill the attitudes and skills necessary to produce motivated, self-sufficient individuals who are able to function effectively in our ever-changing, complex.
