

NEHAUNSEY MIDDLE SCHOOL

415 Swedesboro Road, Gibbstown, NJ 08027

Dear Parent/Guardian:

Nehaunsey's Gifted and Talented Program is currently looking to welcome new members for the 2022-2023 school year. We are offering three all-inclusive options for students to be challenged in ways appropriate to their abilities while inside or outside the traditional classroom; an elective class that meets daily in lieu of their current elective, pull-out enrichment sessions, and an after school club where they can explore areas of interest. Students can utilize one or all of the options offered. While participating in the program, students can work to obtain an honors distinction in the subject area of their choosing, work on an independent study in a field that interests them, or participate in rotating educational sessions designed to enhance learning and allow students to not only collaborate with each other but also compete in friendly events or contests that focus on Math, Science, ELA, Social Studies, Technology and/or the Arts.

If you feel that your child will be interested in Gifted and Talented Education Program, please fill out the form attached and return to the main office.

Sincerely,

Lauren Ernst and Miranda Couglan
