

## St. Joseph Catholic School Middle School Summer Math Program 2023

Dear Parents of Middle School Students,

The goal of the St. Joseph School Summer Math Program is to keep students practicing necessary math skills over the summer break. The emphasis is on steady practice to maintain the skills we learned during the school year - to prevent the "summer slide". The Summer Math Program is required and will be a First Quarter TEST grade for Math class.

The Summer Math Program will be the **IXL Summer Boost: Math**. Your child will receive a printed copy of the IXL Summer Boost: Math for his/her grade level. There are twenty days of review skills that need to be completed to a **MINIMUM Smart Score of 90** (100 would be even better 😊). Your child needs to document the date, time spent, and Smart Score for each of the twenty skills. The skills do not need to be completed in order and more than one skill may be completed per day.

IXL Summer Boost: Math

IXL Summer Math will be collected on Monday, August 14<sup>th</sup>.

Best wishes for a fun and relaxing summer!
