**PHILOSOPHY**

The Marengo County Board of Education recognizes that no one philosophy of education can express the sentiments or beliefs of all teaching personnel. Generally, however, education is perceived as a process of growth and includes the mental, moral, emotional, physical, and spiritual aspects of the individual. Each child is seen as a unique person who possesses certain potentials, needs, aspirations, and interests. As each pupil is different, it is the purpose of education to provide him with different experiences in school which will enable him to achieve his maximum potential so that he may be a useful and productive member of society.

It is understood that though all children will not learn all things equally well, all should have an equal opportunity in the pursuit of education; thus, the Board will attempt to balance its program to provide for the varied interests and needs of the pupils of the schools.

The Board accepts the conclusion that the education of children is a comprehensive program which must be undertaken in cooperation with other institutions of society and will seek to establish and maintain strong ties with parents and community programs.

4. Does not meet the current criteria for selection.
5. Is no longer relevant to the needs and interests of the school community.

  - a. If the Superintendent or designee determines that informal resolution of the complaint should be attempted, the formal reconsideration process may be suspended for that purpose for up to thirty (30) school days. However, the challenged material may not be permanently removed from the library collection during the informal resolution process. If an informal resolution is not reached, the formal complaint will move forward.
  - b. If the complainant has not provided all the information required by the complaint form, the Superintendent or designee will provide the complainant with the opportunity to amend the form. If the complainant does not provide the information within ten (10) calendar days, the matter will be considered closed.
  - c. If the resource has been previously challenged within the last five (5) years, the complaint will be dismissed.
3. Formal Reconsideration Process: After the completion of any informal resolution process and a determination that the complainant has provided all the information required by the complaint form, the formal reconsideration process outlined below will begin.

- a. *Committee:* A Reconsideration Committee (Committee) will be appointed by the Superintendent or designee and will consist of a teacher, a principal, and a school librarian. Any other school-level employee or member of the Central Office staff who has expertise in curriculum, student development, or another area implicated by the request for reconsideration in question may be appointed to serve on the Committee. The Superintendent or designee should also identify who will serve as Chairperson of the Committee. The Superintendent or designee may serve on the Committee and/or as Chairperson if he or she determines that it is appropriate.
- b. *Information Provided to Committee:* The Superintendent or designee will work with school system staff to obtain copies of the challenged resource and will make a copy available to the Committee to review. The Superintendent or designee will also provide the Committee with any information or training he or she considers necessary for the Committee to make an informed decision and may convene a meeting with the Committee for that purpose. The information provided to the Committee may include the library's mission statement, if any; the pertinent selection policy and procedure; the completed reconsideration form; reviews of the resource being reconsidered; and any relevant legal parameters for review.
- c. *Meeting:* The Chairperson should strive to convene an initial reconsideration meeting within thirty (30) school days after the formal reconsideration process begins. The Chairperson is also authorized to convene any additional meetings he or she considers necessary for the Committee to reach a decision.

d. *Procedures for Determination by Committee:* The following standards and procedures govern the reconsideration process:

- (1) All Committee members should review the resource (read or view the entire work) before attending initial meeting.
- (2) The complainant, the school librarian, or both may be asked to make a verbal presentation about the resource under consideration.
- (3) The Committee may request that either the complainant, school librarian, or both answer questions in person or in writing regarding the resource.
- (4) The complainant may not participate in or observe the Committee's deliberations unless invited to do so by the Committee.
- (5) The Committee may seek outside expertise if necessary to help in its decision-making process.

When making its decision, the Committee's primary consideration should be whether the resource would qualify for inclusion in a school library collection under the school system's current selection policies and procedures.

The Committee will determine by majority vote whether to retain the challenged resource, move it to a different level or section, or remove it altogether. The Chairperson will present the Committee's written decision to the complainant and the Superintendent within five (5) school days after the decision is made.

4. Appeal: An appeal may be filed by either (1) a complainant whose request for removal has been denied; or (2) a student or student's parent or guardian who objects to the Committee's decision to remove material from the library at the student's assigned school.
- a. *Filing an Appeal*: An appeal must be in writing and delivered to the Superintendent within ten (10) calendar days of the date of the written decision from the Committee.
- b. *Transmittal of Record*. Upon receipt of a timely appeal, the Superintendent shall transmit to Board Members for their review a copy of the written appeal, the Committee's decision letter, and all statements, recommendations, documents, recordings, transcripts, or other written or tangible evidence filed, submitted, or considered at any stage of the reconsideration process.
- c. *Appeal Procedures*: The procedures for an appeal to the Board of Education will be as follows:
- (1) Not later than sixty (60) calendar days following receipt of the notice of appeal by the Superintendent, the appeal shall be placed on the Board meeting agenda for consideration. Upon consideration of the appeal and record, the Board may, by majority vote:
- (a) Affirm the decision of the Committee;
- (b) Reverse the Committee's decision; or
- (c) Defer final action until a Board hearing is held on the appeal.

- d. *Hearing Process:* If a hearing is requested by a majority of the Board, the hearing shall be set within thirty (30) school days. Written notice of the hearing date shall be provided to the original complainant and the person who filed the appeal.

The appropriate hearing procedures shall be determined by the Board. The hearing shall be open to the public unless the Board has the option to enter executive session and does so using the procedures dictated by the Open Meetings Act.

A final Board decision on the grievance shall be issued within ten (10) school days after the hearing ends. The Board shall give written notice of its final decision to the original complainant and the person who filed the appeal. The Board's decision will be final and the Superintendent will implement the decision.

5. Effect of Decision: A decision regarding whether to removal a challenged resource will stand for five (5) years before new requests for reconsideration of that item will be entertained.

**FIELD TRIPS AND EXCURSIONS**

The Marengo County Board of Education, recognizing that educational field trips and trips to various types of contests for instructional purposes help provide desirable learning experiences, shall delegate to the Superintendent the responsibility for development of administrative criteria governing field trips. Only those field trips, however, that grow out of the instructional program or are otherwise related to the program are to be permitted on school time. Other trips such as those involving band and athletic activities should be confined to non-school time, except where the school is engaged in an activity, competition, or contest that requires use of school time.

Teachers planning to conduct field trips or out-of-class learning experiences shall submit an application in writing to the principal for his approval. After principal approval, the request shall be submitted to the Superintendent. Before any trip or excursion is taken, written parental permission forms shall be secured for each pupil planning to participate in taking the trip. Students who have not submitted signed parental permission forms shall not be allowed to take the trip.

Before approval of any field trip is given, it shall be determined whether the trip is covered by the Board's liability insurance. No travel shall be authorized where coverage cannot be secured prior to the trip. In addition, private vehicles shall not be used for transporting children on field trips. Only buses belonging to the school system and driven by certified drivers shall be permitted.

The Board does not endorse the use of private vehicles to transport students to and/or from interscholastic activities. However, it recognizes the need for additional transportation at certain times; and the use of private vehicles may be utilized for the transportation of students to interscholastic activities provided that (1) students being thus transported provide the school with liability release forms signed by the students' parent/guardian, and (2) all such vehicles are driven by properly licensed adults. No student shall be allowed to attend any activities without submission of the liability release forms. Employees who are required to transport pupils to and from interscholastic activities will be covered under the Board's liability insurance policy.

## **SCHOOL VOLUNTEERS**

The Marengo County Board of Education recognizes that volunteers can make many valuable contributions to the schools and can be used as effective learning resources. Therefore, the Board endorses a Volunteer Program in the system, subject to suitable regulations and safeguards, including constant monitoring to assure proper management. These regulations shall be developed and promulgated by the Superintendent or staff in cooperation with the faculty of each school.

**FILE: IF**

## **GUIDANCE PROGRAM**

The Marengo County Board of Education authorizes a School System guidance program with the following goals and objectives:

1. To assist students in developing self-understanding and to help them accomplish a smooth transition socially, intellectually and emotionally into the adult world.
2. To help students make short and long-term decisions regarding educational and vocational opportunities.
3. To work directly with parents and the community in helping them understand students' abilities, behaviors, and problems.
4. To prepare a program for assessing attitude and behavior changes in students as they proceed through educational program.
5. To conduct follow-up studies of former students in order to assess the success of the guidance program.

## **GRADING SYSTEM**

### **PHILOSOPHY**

The Marengo County Board of Education recognizes that the purpose of a grade is to represent a clear and accurate indicator of what a student knows and is able to do. With grades, we document the progress of students and our teaching, we provide feedback to students and their parents, and we make instructional decisions regarding the students' learning.

In the opinion of the Marengo County Board of Education, grades should primarily represent student achievement, not merely be a composite of qualities such as effort, preparation, application, or attitude. The Board also recognizes, however, that those factors do influence the learning process and the judgment and decision of teachers in this regard shall be respected.

Each teacher is expected to determine the comparative value of individual grades on tests, papers, projects, and other learning/evaluating exercises within accepted standards. School grades should not be used as punishment for misbehavior.

School Grade System	High School (7 – 12)	Elementary (1 – 6)
A	90 – 100	90 – 100
B	80 – 89	80 – 89
C	70 – 79	70 – 79
D	60 – 69	60 – 69
F	Below 60	Below 60

The Marengo County Board of Education holds an unshakable belief in the ultimate success of our students and believes that failure should never be an option. On a 100-point scale, the interval between numerical and letter grades is typically ten (10) points, with the break points at 90, 80, 70, and so on. But when the grade of zero is applied to a 100-point scale, the interval between the D and F is not ten (10) points, but 59 points.

When students miss assignments or refuse to do the work, every effort will be made to assure that students are given the opportunity and support to complete the work. Zeros will be placed in the grade book during the course of the nine-week grading period and an explanation will be included to support the grade. After the interventions have been provided, zeros will be replaced with the grade earned to accurately report a student's level of mastery of content.

ACCESS teachers will post a first semester grade and a second semester grade along with an exam grade, if one is given. For the half-year course, use the ACCESS grade the teacher posts for the semester. For a full-year course, the school may use two options for determining the final grade:

1. Add both semester grades and divide by two. The average grade will be used for both semesters.
2. Use the semester grade that the ACCESS teacher posts.

At the elementary level, both parent conferences and grading period narrative reports are integral parts of the grading system.

For each scholastic year, a combination of parent conferences and narrative reports will be utilized.

If a parent has a legitimate reason for not attending a parent-teacher conference, a narrative report should be sent home. If a parent deliberately misses a scheduled conference with no legitimate reason, the teacher will consider his/her obligation to that parent completed.

Conferences and progress reports are intended for the benefit of the student. Therefore, in order to be as beneficial as possible, such parent-teacher conferences and related narrative progress reports shall provide as much detailed information as is necessary.

**FILE: IGAA**

## **FINAL EXAMINATIONS**

Final examinations may be used to evaluate student achievement when conducted in such a way that they effectively estimate the achievement of the goals and objectives on which learning activities have been based.

All students in grades 7-12 shall take a final examination for each course in which the student is enrolled. All final examinations will be administered according to a schedule recommended by the Superintendent.

No teacher shall schedule a final examination other than in accordance with the approved schedule for such examinations.

**FILE: IGAB**

## **REPORT CARDS**

It is the policy of the Marengo County Board of Education that reports concerning student progress shall be made to the parent or legal guardian of all students on a regularly scheduled basis. Individual schools shall make additional reports to the parent or legal guardian of a student when, in the opinion of the principal and professional staff members, the situation warrants such reports. Such situations may include but are not limited to outstanding academic achievement, outstanding citizenship, poor academic performance, and continuing inappropriate behavior.

**PARENT CONFERENCES**

The Marengo County Board of Education requires that at least once each year every classroom teacher attempt to schedule a conference with the parents and/or guardian of each student for which that teacher is responsible. The purposes of these parent-teacher conferences are to provide the teacher an opportunity to advise parents of the academic progress of each student and to discuss with the parents suggested strategies which the parents can implement in supporting the teacher's instructions.

Parent-teacher conferences should be coordinated with PTA meetings in order to afford parents an opportunity to meet with several teachers, if necessary.

Each teacher should develop written documentation of each parent conference and the objectives discussed during the conference. A copy of such documentation should be maintained for a minimum of three years within each school's office.

**FILE: IGB**

## **HOMEWORK**

The Marengo County Board of Education recognizes that homework should be meaningful and reasonable. It should not be a substitute for teaching but should provide reinforcement, practical application, and enrichment of what has been taught. Consideration should be given to the time involved in completing the assignment. No homework assignment should be made that does not directly support a clearly identified instructional objective.

The Board, however, encourages the use of reasonable homework assignments that both support instructional objectives and expand the scope of instruction limited by the constraints placed on classroom teaching.

Assignments should be commensurate with the resources available.

**FILE: IGC**

## **CLASS RANKINGS**

The Marengo County Board of Education maintains that high schools should keep accurate records concerning class ranking of each student. This is especially important for the twelfth graders since colleges and scholarship committees consider rankings in their acceptance process. Confidentiality of all records shall be respected as specified by law.

## **PROMOTION/RETENTION POLICY**

### **PURPOSE**

The Promotion/Retention Policy of the Marengo County School System has been developed to establish minimum learning goals that a student must master at each grade level.

### **STANDARDS OF PROMOTION**

The Marengo County Board of Education has vested interest in the education of all students. With this in mind, the Board has established a policy for the promotion and retention of students. To assure a minimum level of skill development, the following standards have been made policy for all students K – 12.

The student's achievement is evaluated by the teacher and the principal. In determining promotion or retention, the following information will be used:

- (1) Reading and math levels mastered.
- (2) Scantron scores.
- (3) Carnegie units earned at the high school level.
- (4) Attendance data.
- (5) Academic grades.
- (6) Teacher judgment.

(IGD) 1 of 4

If the minimum requirements are met, the student will be promoted.

Students failing to meet requirements in a particular grade will be referred to the Problem Solving Team (PST). If, following PST Intervention, it is determined that the student is still in need of assistance, a special education referral may be completed. Other alternative measures will be decided upon following consultation between principal, teacher, and parent. This evaluation along with the social, emotional, and physical development of the student will be given major consideration.

## **MINIMUM REQUIREMENTS FOR PROMOTION**

### **Kindergarten:**

The process of making decisions as to promotion and retention of kindergarten students should take into consideration a variety of factors including age, maturity, motor coordination, capacity for learning, and academic progress. Kindergarten students, at a minimum, must be able to recognize all of the alphabet letters and 70% or more mastery of the letter sounds and recognize, write, and sequence numbers 0 – 10. Attendance, teacher observation/judgment (see explanations), and standardized test data will be considered in conjunction with the above standards. The authority for determining promotion and retention rests entirely with the teacher(s) and principal.

The above requirements shall be implemented in the 1996-97 school year.

Summer school will be used for remediation only and will not be considered in promotion and retention. This requirement shall be implemented beginning with the 2008-2009 school year.

### **Grades 1 – 6:**

Students in grades one (1) through six (6) must successfully complete the grade level reader(s) of the adopted reading series and maintain a passing grade in Reading and Math as prescribed by the Alabama Course of Study to be promoted to the next grade. A passing report card grade shall be 60. Attendance, teacher observation/judgment (see explanations), and standardized test data will be considered in conjunction with the above standards.

Implementation of the above requirements shall begin in the 2023-2024 school year.

Summer school will be used for remediation only and will not be considered in promotion and retention. This requirement shall be implemented beginning with the 2008-2009 school year.

### **Grades 7 and 8:**

Students in grades seven (7) and eight (8) must have passing report card grades in the core academic subjects (Language Arts, Math, Science, and Social Studies). A passing report card grade shall be 60. Attendance, teacher observation/judgment (see explanations), and standardized test data will be considered in conjunction with the above standards.

The passing report card grade of 60 in the core academic subjects (Language Arts, Math, Science, and Social Studies) for grades 7 and 8 shall go into effect with the 1996-97 school year.

Students in grades 7 and 8 may attend summer school. Summer school can be used for promoting students that have failed two or less core academic subjects and successfully completed credit recovery for those subjects. This requirement shall be implemented beginning with the 2018-2019 school year.

### **Grades 9 – 12:**

See Policy IGE (Graduation Requirements).

### **EXITING THE TWELFTH GRADE**

See Policy IGE (Graduation Requirements).

### **EXPLANATIONS**

**Attendance** – “In order to receive credit, a pupil should have been in attendance a minimum of 155 days.” (State of Alabama Bulletin No. 13)

Therefore, an absence of more than twenty (20) days could have a detrimental effect on promotion (see attendance policy).

**Teacher observation/judgment** – Based upon the teacher’s professional observation and judgment of the following:

- A. Homework
- B. Class performance
- C. Teacher-made tests
- D. Other

**Report Card Grades** – The academic subjects of reading, language, mathematics, science, and social studies should indicate satisfactory class work and test performance.

## **GRADUATION REQUIREMENTS**

At the January, 2013. Alabama State Board of Education meeting, the Alabama High School Diploma (AHSD) was adopted. The focus for this diploma will be on coursework taken that necessitates a clearly articulated and individualized four-year high school plan built for each student. The plan will be based on the results of school coursework and the KUDER career assessment inventory. All students will be required to complete and annually update a four-year plan in the KUDER assessment program.

Beginning with the ninth grade class of 2013-2014, the Alabama High School Diploma will differ from past diplomas. Besides requiring 24 credits to graduate, the new diploma will remove the need for endorsements.

The Marengo County School System will not only offer the Alabama High School Diploma, but also the Alabama High School Diploma with Academic Distinction endorsement, the Advanced CTE Endorsement, and the CTE Endorsement.

The following diplomas shall be offered in the schools of the Marengo County School System and applicable requirements for each must be met prior to their issuance:

A. Alabama High School Diploma With One of the Following Endorsements:

1. Endorsements available:
  - a. Academic Distinction Endorsement
  - b. Advanced Career Technical Endorsement
  - c. Career Technical Endorsement
2. Attendance within the high school and the entire year immediately preceding the date of graduation (exception: bona fide change of residence or other equally valid circumstance). In the event of a twelfth grade transfer student who wishes to become a candidate for graduation, the school receiving the student should require approval in writing of the transfer and the student's candidacy for graduation from the principal of the school from which the student was withdrawn. This letter should be filed with the transcript.

**CREDIT RECOVERY**

Credit recovery will be implemented in the fall of 2009. Credit recovery will provide course-specific, skill-based opportunities for students who have not mastered a specific part of a course. This will allow students to demonstrate competency on that segment of the course and receive course credit.

A. Grades and Credit

1. A maximum grade of 70 may be awarded in a Credit Recovery course.
2. Grade forgiveness will be used, whereby the original failing grade is replaced by the Credit Recovery grade for computing grade-point averages.
3. A maximum of ten (10) credits may be earned by a student in a school year which includes subsequent summer-school terms.
4. A student's failing grade should **never** be removed from the permanent record.

## **NO PASS/NO PLAY POLICY**

The Marengo County Board of Education recognizes the value of all extracurricular activities as they relate to the total education of students. The Marengo County Board of Education also recognizes and supports high academic standards and the necessity of developing a framework to annually assess each student involved in extracurricular activities and his/her progress toward graduating from high school on schedule with his/her class. This Board of Education also recognizes that the Class of 2000 and subsequent classes will be required by State Board of Education resolution and the Alabama Administrative Code to earn a minimum of 24 credits in Grades 9 - 12, with four (4) credits each in science, mathematics, social studies, and English.

The Marengo County Board of Education prescribes the following regulations for eligibility by students in this school system to participate in all extracurricular activities:

1. Students entering Grades 10 - 12 must, for the immediately preceding school year, have a passing grade and earn the appropriate number of credits in each of six (6) subjects that total six (6) Carnegie units of credit, including four (4) credits from the four (4) core subjects composed of English, science, social studies, and mathematics.
2. Physical education may count as only one (1) unit per year.

3. No more than two (2) Carnegie units may be made up during summer school. If a unit(s) or subject(s) is repeated in summer school, the higher numerical grade for the unit(s) or subject(s) may be used to compute the composite grade average.
4. Eligibility shall be determined on the first day of the school year and shall remain in effect for one (1) complete school year. A student may not become eligible after school begins (after the first day of school). Bona fide transfers may be dealt with according to rules of the Alabama High School Athletic Association for sports and rules to be developed by this Board of Education as they pertain to other extracurricular activities.
5. Each eligible student must have a minimum composite numerical average of 70 on the six (6) Carnegie units from the preceding year, including summer school. Summer school work passed may substitute for regular schoolwork failed in computing the 70 average.
6. Each eligible student involved in athletics must meet the definition of a regular student as defined by the Alabama High School Athletic Association.
7. Any student who earns more than four (4) credits in the core curriculum in any given year or who accumulates a total in excess of the required four (4) per year may be exempt from earning the four (4) core courses in the succeeding year as long as that student remains on track for graduation with his/her class.

Students entering Grades 8 and 9 must, for the immediately preceding school year, have a passing grade in five (5) subjects with a composite numerical average of 70 with all other rules applying the same as to students in Grades 9 - 12.

Students promoted to the seventh grade for the first time are eligible.

For purposes of definition, athletic events are defined as those recognized and sanctioned by the Alabama High School Athletic Association. Other extracurricular activities are defined as those that are sanctioned by a public school which are not related to a student's academic requirements or success in a course(s). Regular curricular activities are defined as those that are required for satisfactory course completion. School sponsors are required to submit a request for each curricular activity that occurs outside the regular school day and/or school to the principal, superintendent, and the local Board of Education for approval. Each request for full participation by all students regardless of academic standing in a curricular activity shall be granted if the principal, superintendent, and the local Board of Education approve it as an extension of a course(s) requirement(s) and it is a sanctioned event by a state/national subject matter association. Student participation in extracurricular activities through math, science, band, choral music, and other courses offered by the school at events such as athletic events (pre-game, game, halftime, or other breaks), club conventions, Christmas parades, amusement park trips and competitions, trips by tour companies, performances at various meetings, etc., are extracurricular, and students academically ineligible under this policy shall not be allowed to participate.

This policy is effective for all students in Grades 8 - 12 beginning with the 1999-2000 school year with their eligibility determined by grades earned during the 1998-99 school year and 1999 summer school. The local Board of Education shall implement this policy as a minimum for all students in Grades 7 - 12 under its control. Each local Board of Education shall notify the State Superintendent of Education within 30 days of receipt of notice of adoption of this rule by the State Board of Education that it is in effect in all applicable schools within its jurisdiction.

**CRITERIA FOR VALEDICTORIAN AND SALUTATORIAN**

**PROCEDURES FOR CALCULATING CLASS RANK AND GRADE POINT AVERAGE**

Beginning with the 2020-2021 school year (first-time ninth graders of 2017-2018), class rank will be determined using a numerical grade point average (GPA) from the first term of ninth grade through the third term of twelfth grade. If a credit-bearing core course is taken in the eighth grade, this will also be included in the calculations. The only subjects included in the GPA will be the core curriculum courses plus Foreign Language, if taken. All English Language Arts, Math, Social Studies/History, Science, and Foreign Language courses attempted will be included in GPA calculations. All Advanced Placement (AP) and Dual Enrollment courses will be weighted by adding five (5) points to each semester grade earned in these courses. The average will be calculated to the fourth decimal place and will not be rounded.

Where letter grades are present on a student’s transcript from a previously attended school, the letters will be converted to a numerical form using the following grade conversion:

A+ = 99	B+ = 89	C+ = 79	D+ = 69	F = 59
A = 95	B = 85	C = 75	D = 65	
A- = 90	B- = 80	C- = 70	D- = 60	

## **CRITERIA FOR DETERMINING VALEDICTORIAN AND SALUTATORIAN**

Beginning with the graduating class of 2021, the following criteria are established by the Marengo County Board of Education for determining students eligible for valedictorian and salutatorian:

1. The student must be pursuing the Alabama High School Diploma with Academic Distinction Endorsement or the highest available diploma endorsement (see diploma options in FILE: IGE) and meet all requirements to obtain the diploma.
2. Using the Marengo County GPA calculation procedures, the student with the highest numerical GPA will be named valedictorian. The student with the second highest GPA will be named salutatorian. In the case of a tie (GPA carried out to the fourth decimal place with no rounding), co-valedictorians or co-salutatorians will be named.
3. To be a candidate for valedictorian or salutatorian, the student must be enrolled at the graduating school for one full academic year prior to graduation.

## **TESTING PROGRAM**

The Marengo County Board of Education maintains that the testing program in the School System shall consist of:

- (1) Standardized tests for achievement and academic aptitude.
- (2) Minimal competency tests.
- (3) Individual psychological tests.
- (4) Individual and group screening tests.
- (5) Teacher-made tests.

Confidentiality of test results will be assured and information will be released only in compliance with the Education Amendment of 1974 (P.L. 93-380) known as the Buckley Amendment.

All schools shall cooperate with the State Department of Education in scheduling and administering standardized tests for achievement and academic aptitude. Additional tests may be administered as local needs arise.

Individual psychological tests (WISC-R, Stanford-Binet, etc.) may be administered by a duly certified person whose name appears on the state Register or by a certified Psychometrist. No student shall be given an individual psychological test unless his needs have been evaluated and he has been approved for testing by the school, with approval by his parents.

Individual and group screening tests (WRAT, Key Math, etc.) may be administered to gain additional information about a child's abilities and needs in accordance with State requirements.

All teachers shall be permitted to devise their own tests as:

- (1) Pre-tests - to discern student abilities, knowledge, and/or skills before a unit of study is begun.
- (2) Post-tests - to discern amount of gain in abilities, knowledge, and/or skills following the conclusion of a study.

Based upon the collective results of the previously identified instruments of assessment any student with identifiable deficiencies shall have developed for him an individualized program of remedial instruction.

**FILE: IHA**

**USE AND DISSEMINATION OF TEST RESULTS**

Results of student evaluations conducted within the Marengo County School System shall be used solely for the purposes of measuring student performance and competency and for structuring the curriculum to improve the effectiveness of the teaching effort. All test results shall be treated with confidentiality.

Test scores for the System in total or in large groups of students may be made public. In no event shall employees of the Marengo County Board of Education make public the test scores of any individual student.

**FILE: II**

**EVALUATION OF INSTRUCTIONAL PROGRAM**

The Marengo County Board of Education requires systematic and comprehensive evaluations of the instructional programs and all related areas. Continuous assessments shall be conducted within each school as well as on a system-wide basis. Individual schools, as well as the School System, shall delineate goals, specific needs for improvement and plans for organizing the resources of the school and the community in actively seeking solutions.

**FILE: IJA**

## **TEACHING METHODS**

The Marengo County Board of Education strongly encourages teachers to use a variety of teaching methods and materials in their classrooms which are consistent with sound principles of learning and with an understanding of the child and his needs. Adequate provisions should be made for the student to do independent research study as well as for him to engage in small and large group activities and experiences.

All teaching methods used should be designed to cause all students to perform at the highest level individually possible.

**CONTROVERSIAL ISSUES**

## **INFORMATION RISK MANAGEMENT PRACTICES**

### **Appendix B**

The analysis involved in Marengo County Schools Risk Management Practices examines the types of threats – internal or external, natural or manmade, electronic and non-electronic – that affect the ability to manage and protect the information resource. The analysis also documents any existing vulnerabilities found within each entity, which potentially exposes the information resource to the threats. Finally, the analysis includes an evaluation of the information assets and the technology associated with its collection, storage, dissemination, and protection.

From the combination of threats, vulnerabilities, and asset values, an estimate of the risks to the confidentiality, integrity and availability of the information is determined and addressed based on recommendations by the Data Governance Committee. ## **VIRUS, MALWARE, SPYWARE, PHISHING AND SPAM PROTECTION**

### **Appendix F**

#### **VIRUS, MALWARE, AND SPYWARE PROTECTION**

Marengo County desktops, laptops, and file servers run Anti-Virus software.

#### **INTERNET FILTERING**

Student learning using online content and social collaboration continues to increase. Marengo County Schools views Internet filtering as a way to balance safety with learning (letting good content, resources, and connections in while blocking the bad). To balance educational Internet resource and app use with student safety and network security, the Internet traffic from all devices that authenticate to the network is routed through the District's content filter using the user's network credentials. This process sets the filtering level appropriately based on the role of the user, such as, student, staff or guest, and more specifically for students, the grade level of the child. All sites that are known for malicious software, phishing, spyware, etc. are blocked. Requests for blocking or unblocking may be submitted to the District Technology Coordinator, or his/her assigned designee. It is the responsibility of the requesting party to properly vet the site to ensure that is instructional sound, is in line with curriculum or behavioral standards, and is age appropriate.

#### **PHISHING AND SPAM PROTECTION**

Email is filtered for viruses, phishing, spam, and spoofing.

## **SECURITY PATCHES**

Windows security patches and other Windows patches are scheduled to “auto-download” and “schedule install.” Servers are scheduled to “auto-download” and are automatically updated.

**PHYSICAL AND SECURITY CONTROLS**  
**Appendix G**

The following physical and security controls shall be adhered to:

- A. Network systems shall be installed in an access-controlled area. The area in and around the computer facility shall afford protection against fire, water damage, and other environmental hazards such as power outages and extreme temperature situations.
- B. Monitor and maintain data centers' temperature and humidity levels. The American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) recommends an inlet temperature range of 68 to 77 degrees and relative humidity of 40% to 55%.
- C. File servers and/or storage containing PII, Confidential, and/or Internal Information shall be installed in a secure area to prevent theft, destruction, or access by unauthorized individuals.
- D. Computers and other systems shall be secured against use by unauthorized individuals. It is the responsibility of the user to not leave these devices logged in, unattended, and open to unauthorized use.
- E. Ensure network systems and network equipment are properly secured to prevent unauthorized physical access and data is properly safeguarded to protect from loss. A record shall be maintained of all personnel who have authorized access.
- F. Maintain a log of all visitors granted entry into secured areas or areas containing sensitive or confidential data (e.g., data storage facilities). Record the visitor's name, organization, and the name of the person granting access. Retain visitor logs for no less than 6 months. Ensure visitors are escorted by a person with authorized access to the secured area.

- G. Monitor and control the delivery and removal of all asset-tagged and/or data-storing technological equipment or systems. Maintain a record of all such items entering or exiting their assigned location using the district approved technology inventory program.
- H. Ensure that technological equipment or systems being removed for transfer to another organization or being designated as surplus property is appropriately sanitized in accordance with applicable policies and procedures.

***\*See also Appendix I (Purchasing and Disposal Procedures).***

**PASSWORD CONTROL STANDARDS**  
**Appendix H**

The Marengo County Schools Data Governance and Use Policy requires the use of strictly controlled passwords for network access and for access to secure sites and information. In addition, all users are assigned to Microsoft security groups that are managed through Microsoft Group Policies. The security groups include separate groups at each school for Administration, Teachers, Employees, and Students.

**PASSWORD STANDARDS**

- A. Users are responsible for complying with the following password standards for network access or access to secure information:
1. Passwords shall never be shared with another person.
  2. Every password shall, where possible, be changed every 90 days, if not more frequently.
  3. Passwords shall, where possible, have a minimum length of eight (8) characters.
  4. When possible, for secure sites and/or software applications, user created passwords should adhere to the same criteria as required for network access.
  5. Passwords shall never be saved when prompted by any application with the exception of central single sign-on (SSO) systems as approved by the Technology Department. This feature shall be disabled in all applicable systems.
  6. Passwords shall not be programmed into a PC or recorded anywhere that someone may find and use them.

7. When creating a password for secure information or sites, it is important not to use passwords that are easily guessed due to their association with the user (i.e. children's names, pets' names, birthdays, etc.). A combination of alpha and numeric characters is more difficult to guess.
- B. Where possible, system software should enforce the following password standards:
1. Passwords routed over a network shall be encrypted.
  2. Passwords shall be entered in a non-display field.
  3. System software shall enforce the changing of passwords and the minimum length.
  4. System software shall disable the user password when more than five consecutive invalid passwords are given. Lockout time shall be set at a minimum of 30 minutes.
  5. System software should maintain a history of previous passwords and prevent their being easily guessed due to their association with the user. A combination of alpha and numeric characters is more difficult to guess.

**PURCHASING AND DISPOSAL PROCEDURES**  
**Appendix I**

This procedure is intended to provide for the proper purchasing and disposal of technological devices only. Any computer, laptop, mobile device, printing and/or scanning device, network appliance/equipment, AV equipment, server, internal or external storage, communication device or any other current or future electronic or technological device may be referred to as systems in this document. For further clarification of the term technological systems contact the Marengo County Schools' District Technology Coordinator.

All involved systems and information are assets of Marengo County Schools and are expected to be protected from misuse, unauthorized manipulation, and destruction. These protection measures may be physical and/or software based.

**PURCHASING GUIDELINES**

All systems that will be used in conjunction with Marengo County Schools' technology resources or purchased, regardless of funding, shall be purchased from a list approved by the District Technology Coordinator. Systems not on the list must be approved by the District Technology Coordinator. Failure to have the purchase approved may result in lack of technical support, request for removal from premises, or denied access to other technology resources.

**ALABAMA COMPETITIVE BID LAWS**

All electronic equipment is subject to Alabama competitive bid laws. Generally for technological devices and services, Marengo County Schools purchase from the Alabama Joint Purchasing Agreement (ALJP):

[https://connect.alsde.edu/sites/eia/aljp/SitePages/ALJP%20\(Alabama%20K-12%20\(IT\)%20Joint%20Purchasing\)Home.aspx](https://connect.alsde.edu/sites/eia/aljp/SitePages/ALJP%20(Alabama%20K-12%20(IT)%20Joint%20Purchasing)Home.aspx). In the event that a desired product is not

included in the agreement, Marengo County Schools bids the item or items using the district's competitive bid process. All technological systems, services, etc. over \$15,000 purchased with public funds are subject to Alabama's competitive bid laws. See the Marengo County Board of Education's Purchasing Policy.

### **INVENTORY**

All technological devices or systems are inventoried in accordance with the Marengo County Schools' Finance Department's policies. It is the responsibility of the local school Technology Contact to inventory technological systems used in the local school and manage said inventory. The district technology staff is responsible for ensuring that any network equipment, file servers, or district systems, etc. are inventoried.

### **DISPOSAL GUIDELINES**

Equipment shall be considered for disposal for the following reasons:

- A. End of useful life.
- B. Lack of continued need.
- C. Obsolescence.
- D. Wear, damage, or deterioration
- E. Excessive cost of maintenance or repair.

The local school principal, District Technology Coordinator, and the Chief School Financial Officer shall approve school disposals by discard or donation. Written documentation in the form of a spreadsheet including but not limited to the following shall be provided to the Business Office prior to the next Board of Education meeting:

- A. Fixed asset tag number.
- B. Location.
- C. Description.
- D. Serial number.
- E. Original cost and account code if available.

### **METHODS OF DISPOSAL**

Once equipment has been designated and approved for disposal, it shall be handled according to the Marengo County Schools' Purchasing Policy.

A. Transfer/Redistribution:

If the equipment has not reached the end of its estimated life, an effort shall be made to redistribute the equipment to locations where it can be of use, first within an individual school or office, and then within the district. Service requests may be entered to have the equipment moved, reinstalled and, in the case of computers, laptops, or companion devices, have it wiped and reimaged or configured.

B. Discard

All electronic equipment in the Marengo County Schools district shall be discarded in a manner consistent with applicable environmental regulations. Electronic equipment may contain hazardous materials such as mercury, lead, and hexavalent chromium. In addition, systems may contain Personally Identifiable Information (PII), Confidential, or Internal Information. Systems shall be wiped clean of this information prior to leaving the school district.

A district-approved vendor shall be contracted for the disposal of all technological systems/equipment. The vendor shall provide written documentation verifying the method used for disposal and a certificate stating that no data of any kind can be retrieved from the hard drive or any other component capable of storing data.

Under no circumstances should any technological systems/equipment be placed in the trash. Doing so may make Marengo County Schools and/or the employee who disposed of the equipment liable for violating environmental regulations or laws.

C. Donation

All donations and/or sales shall be approved by the Marengo County Board of Education. If the equipment is in good working order, but no longer meets the requirements of the site where it is located, and cannot be put into use in another part of a school or system, it may be donated upon the written request of the receiving public school system's Superintendent or non-profit organization's director.

It shall be made clear to any school or organization receiving donated equipment that Marengo County Board of Education is not agreeing to and is not required to support or repair any donated equipment. It is donated AS IS.

Marengo County Board of Education staff should make every effort before offering donated equipment, to make sure that it is in good condition and can be re-used. Microsoft licenses or any other software licenses are not transferred outside the Marengo County School system.

Donations are prohibited to individuals outside of the school system or to current faculty, staff, or students of Marengo County Schools without Marengo County Board of Education approval.

## **REQUIRED DOCUMENTATION AND PROCEDURES**

- A. For purchases, transfers and redistributions, donations, and disposal of technology-related equipment, it is the responsibility of the appropriate school staff member to create/update the inventory and to note the transfer or disposal information. When discarding equipment, the fixed asset tag is removed from the equipment and turned in with other documentation to the local school bookkeeper.
- B. When equipment is donated, documentation shall be on-file with the business office prior to the donation. Equipment is donated in order of request.
- C. Any equipment donated shall be completely wiped of all data. This step will not only ensure that no confidential information is released, but also will ensure that no software licensing violations will inadvertently occur. For non-sensitive machines, all hard drives shall be fully wiped using a wiping program approved by the district technology office, followed by a manual scan of the drive to verify that zeros were written.
- D. Any re-usable hardware that is not essential to the function of the equipment that can be used as spare parts shall be removed: special adapter cards, memory, hard drives, zip drives, CD drives, etc.
- E. A district-approved vendor SHALL handle all disposals that are not redistributions, transfers, or donations. Equipment shall be stored in a central location prior to pick-up. Summary forms shall be turned into district technology office and approved by the Finance Director prior to the scheduled “pick up” day. Mice, keyboards, and other small peripherals may be boxed together and shall not be listed on summary forms.
