Dear Parent/Guardian:

In the next few weeks we will be doing dental screenings, dental sealants and/or fluoride varnish applications at East Glacier School. The dental screening will be a one-minute "smile check" using only a mouth mirror. The screening will be completed by a dentist, dental hygienist or dental assistant and no x-rays will be taken. We will also be placing dental sealants if needed and applying fluoride varnish. Your child will receive a toothbrush and we will send home a letter to let you know if we find any dental problems. This screening, however, does not take the place of regular dental check-ups by your family dentist.

***If you do not wish for your child to have this, please check the NO box below and return the form to your child's teacher tomorrow. If you want your child to have this done you do not need to return this form.***

If you have any questions about the dental screenings, please contact Blackfeet Dental Clinic at (406) 338-6180.

Sincerely,

Blackfeet Community Hospital Dental Staff
