#### SCHOOL BOARD OF GADSDEN COUNTY 2012-2013 STAFFING PLAN

#### **Procedures**

Staff allocations for personnel will be based on unweighted full-time-equivalent students. Necessary adjustments will be made as needed by the Superintendent to sufficiently comply with Article IX of the Florida Constitution and Section 1003.03 Florida Statutes (maximum class size). Recommendations of the Southern Association of Colleges and Schools (SACS) will be used as guidelines in these allocations.

The staffing formula for custodial and maintenance personnel is based on student population and the total square footage of the respective facility. Any change in individual school staff allocations (i.e., teacher for paraprofessional) must have prior approval of the Assistant Superintendent for Academic Services. Approval from the Superintendent is needed before a school may exceed its staff allocation.

Principals are allowed to use administrative, instructional and/or non-teaching instructional personnel under their authority in any capacity to maximize teaching and learning within the classroom; however, SACS and Class Size Reduction requirement must be met.

Principals are to staff exceptional, vocational, at-risk, and other special school needs, such as dual enrollment, within their staff allocations.

Every effort should be made to comply with this plan. Transfers of appropriate personnel will be made when a school is out of compliance due to enrollment fluctuations. In accordance with the Collective Bargaining agreements, personnel are employed to work in the District, and individual assignments are the right and responsibility of the Board.

#### 12 TERMS AND SPECIAL CONDITIONS

- This project and any amendments are subject to the procedures outlined in the Project Application and Amendment Procedures
  for Federal and State Programs (Green Book) and the General Assurances for Participation in Federal and State Programs.
- For federal cash advance projects, monthly expenditures must be submitted to the Comptroller's Office by the 20<sup>th</sup> of each month
  for the preceding month's disbursements utilizing the On-Line Disbursement Reporting System.
- FY 2011 roll forward funds must be satisfied in full by the end of FY 2012. To ensure all roll funds have been expended, the
  total amount of expenditures reported to the DOE 399 must be equal to or exceed the amount in roll forward funds authorized by
  the Comptroller.
- IDEA does not restrict the amount of funds a recipient may roll forward at the end of the project. However, it is recommended
  that recipients roll no more than 20% of their allocation each year to ensure that roll forward funds are satisfied in the subsequent
  year for which funds must be used.
- Recipients of IDEA entitlement funds are reminded that the practice of using IDEA funds for the employment of professional instructional personnel who already use general state funds for direct student contact through Florida Education Finance Program (FEFP), may contribute to the reduction of cost factors. Salaries for these personnel are not included in the district expenditure reports used to determine cost factors. Also note that the assurances contained in your application for funding states that these "funds are to be used only for the excess costs of providing special education and related services." We encourage you to reexamine your use of these federal funds for the purpose of employing professional instructional personnel.

Virginia.Sasser@fldoe.org

- This project and any amendments are subject to the procedures outlined in the Project Application and Amendment Procedures for Federal and State Programs (Green Book) and the General Assurances for Participation in Federal and State Programs.
- For federal cash advance projects, monthly expenditures must be submitted to the Comptroller's Office by the 20<sup>th</sup> of each month
  for the preceding month's disbursements utilizing the On-Line Disbursement Reporting System.
- FY 2011 roll forward funds must be satisfied in full by the end of FY 2012. To ensure all roll funds have been expended, the
  total amount of expenditures reported on the DOE 399 must be equal to or exceed the amount in roll forward funds authorized
  by the Comptroller.
- IDEA does not restrict the amount of funds a recipient may roll forward at the end of the project. However, it is recommended
  that recipients roll no more than 20% of their allocation each year to ensure that roll forward funds are satisfied in the subsequent
  year for which funds must be used.
- Recipients of IDEA entitlement funds are reminded that the practice of using IDEA funds for the employment of professional instructional personnel who already use general state funds for direct student contact through Florida Education Finance Program (FEFP), may contribute to the reduction of cost factors. Salaries for these personnel are not included in the district expenditure reports used to determine cost factors. Also note that the assurances contained in your application for funding states that these "funds are to be used only for the excess costs of providing special education and related services." We encourage you to reexamine your use of these federal funds for the purpose of employing professional instructional personnel.

Dear Superintendent James,

Wendy Spencer Chief Executive Officer Congratulations! On behalf of Governor Scott and the Governor's Commission on Volunteerism and Community Service (Volunteer Florida); we are pleased to extend a grant of \$328,049 to the School Board of Gadsden County for 34 AmeriCorps members for the Gadsden READS! AmeriCorps program. In addition to this program grant, \$134,370 will be awarded to the AmeriCorps members in college scholarships upon their successful graduation resulting in a total grant potential of \$462,419. Research shows that the majority of these scholarships are used to attend colleges in the communities where they serve.

This grant is a result of funding from the Corporation for National and Community Service (CNCS). Your contract is now fully executed. Enclosed is an original copy of the executed agreement with original signatures.

National Service programs continue to strengthen communities across Florida. As part of this movement, your work is invaluable and we look forward to another successful program year!

If you have any questions, please contact your Program Consultant, Ericka Zdenek. Please feel free to let me know how I can help. Many thanks for engaging AmeriCorps members in your mission to serve Gadsden County!

Warmest regards,

Wendy Spencer

# MEMORANDUM OF AGREEMENT

# Between; Community Outpatient Program Services and Gadsden County School Board

- 1. <u>AUTHORITY</u>: Agreement and approval by the Gadsden County School Board with Community Outpatient Program Services.
- 2. <u>BACKGROUND</u>: There is an established need for Mental Health and Behavioral services identified in the Gadsden County communities and school system. After attending a Juvenile Justice Meeting, speaking with an independent contractor for Gadsden County School Board, and also meeting with the Superintendent, Reginald James, it was determined that Community Outpatient Program Services may be a viable option to help provide the identified services. Research has shown that providing services in a community setting such as school and homes can be more beneficial than the traditional in office counseling services.

# Evaluation Overview and Scope of Work

#### **Evaluation Design**

The evaluation plan for the 2011-2012 school year of the Gadsden County School Board's Title I Program is consistent with EDGAR 34 CFR Part 75 Section 200.25 which requires the Local Education Agency (LEA) to annually evaluate the Title I program. This plan is of experimental design with analysis of pre and post test to determine the district and each participating school's progress in achieving the objective in the district's approved application and schools' improvement plans; the effectiveness of the program in meeting the purposes of the program; and the effect of the program on participants being served by the program.

The evaluation will analyze the Title I program formatively to determine the extent the program is implemented according to the approved application and summatively, to determine if the program is achieving the desired effect and related to student achievement in reading, mathematics, science, and writing. In addition to student achievement, the evaluation will examine information related to parent involvement and teacher quality.

The evaluation will utilize best practices for procedural analysis and implement the plan which creates strategies with the greatest chance of being useful, feasible, ethical, and accurate.

Generally, four steps will be followed while conducting the program evaluation:

- 1. Data Collection
- 2. Data Analysis
- 3. Drawing Conclusion, Making Inferences and Generalizations
- 4. Developing Recommendations

## **Executive Summary**

Program Executive Summary:

34 AmeriCorps Gadsden Reads AmeriCorps members and 125 volunteers will provide one-on-one tutoring services to 250 students (K-6) performing below grade level in reading. Gadsden Reads will focus on CNCS Focus Area Education. The AmeriCorps members and volunteers will serve students in their classrooms at Chattahoochee, George Munroe, Greensboro, Gretna, Havana, Shanks, St. John, and Stewart Street during the school day and at designated community sites after school hours. The grant cycle begins on August 1, 2012 and ends on July 31, 2013. The expected outcomes of the project are as follows: 1) At mid-year, 75% of students will demonstrate an improvement in their attitude toward reading as measured by reading attitude surveys; and 2) At least 60% of students served will make progress towards reading at grade level as determined by the FAIR reading assessment scores. The CNCS amount of request is 323,681 will be matched with 324,603 by The School Board of Gadsden County.

## Rationale and Approach

Rationale and Approach (Program Design)

AmeriCorps Gadsden Reads is a mentoring-based reading program that has been funded by the Corporation for National and Community Service (CNCS) and the Gadsden County School Board since 1997. The purpose of the program is to raise reading scores of selected K-6th students to the appropriate grade level. AmeriCorps Gadsden Reads currently 287 students in 8 of the county's schools. For the 2012-2013 academic year, the Gadsden County School Board is seeking CNCS funding for 20 full-time, 6 half-time, and 4 quarter-time AmeriCorps members with stipends and an additional 4 quarter-time AmeriCorps members without stipends.

Compelling Community Need:

Gadsden County is a rural county with a history rooted in tobacco and tomato farming. It is located in northern Florida, approximately 25 miles from Tallahassee, the state capitol. According to the 2010

## **Narratives**

census, Gadsden's population is 46,389, of which 57% of the residents are African-American, 10% Hispanic, 33% White and 3% Other (http://quickfacts.census.gov/qfd/states/12/12039.html). The Department of Education reports that only 70% of Gadsden County adults have at least a high school diploma, compared to a state-wide average of 79%. Only 12%, compared to the state-wide average of 22%, have a college degree. Currently, the county's overall graduation rate is 53%, far behind the state average of 73% (http://www.aecf.org). Gadsden is ranked among the ten poorest counties in Florida, with 27.6% of its residents living below poverty level. Kids Count Data show that 79% of public students in Gadsden County are eligible to receive free or reduced lunch, compared to a state-wide average of only 45%. The number of families falling below the poverty line has drastically increased this past year. Two of Gadsden's largest employers, Quincy Farms and Imperial Nursery, have laid off 290 workers. Furthermore, state budget cuts and students reduction have forced the Gadsden County School Board to cut 20 teachers positions and 18 other school district employees will be laid off next school year. As bleak as the picture is in the county at large, it is even bleaker in the public school system. While the county is 36% white, the public schools are only 3.9% white. The county population is 56% black, the public schools are 78.7% black. The majority of this shift in demographics occurred during the troubled period of desegregation in the late 1970s and early 1980s. The large number of new private schools established in the county at that time instituted a tradition of resegregation that has persisted until the present.

While the state of Florida is celebrating increases in student performance on the Florida Competency
Achievement Tests (FCAT), Gadsden County continues to lag behind the rest of the state. In 2011, only
57% of Gadsden County third-graders scored at level three or higher on the FCAT (www.fldoe.org).
Currently, Gadsden has 3 (A) schools where AmeriCorps members serve. The Gadsden School District
has an overall grade of "C" on the FCAT, but some schools in the county have consistently received
scores of "D" or "F" because a significant number of students have tested at no higher than Level One
year after year. Currently, 11 of Gadsden's 13 schools are marked as "needing improvement" because

## **Narratives**

they have failed to make the Department of Education's Adequate Yearly Progress for six or more years.

AmeriCorps Gadsden Reads Helps to Meet District Reading Needs:

Dr. Joe Torgenson, the Director of Florida Center for Reading Research and one of the state's top experts on reading education, has shown that children of poverty generally achieve at lower levels than children of middle and upper classes. To address this harsh reality, Gadsden School Superintendent Reginald James has identified major goals for the school district's Strategic Plan. The majority of these goals directly are related to engaging the community and schools in a concerted effort to increase the reading ability of Gadsden County's Public Schools. These goals include (1) ensure the 70% or more students will demonstrate proficient reading level 1 with a score at or above level 3 or higher on the FCAT and (2) 85% or more parents and community members will be engaged in their child's academic success and school activities. (www, gcps.k12.fl.us). AmeriCorps Gadsden Reads is one of the primary resources used by the school board to achieve these goals. For fifteen years, AmeriCorps Gadsden Reads AmeriCorps members have been a vital to helping raise the reading scores of the students most in need. Our value to the school board is that we increase the capacity of local schools. Many have no paid classroom paraprofessionals at all to help children one-on-one in class. The past 3 years, AmeriCorps members and AmeriCorps VISTA have recruited 375 plus local volunteers who contributed 1875 plus hours of one-on-one tutoring to students reading below grade level.

Ways AmeriCorps Gadsden Members Are Particularly Well-Suited for their Service:

Most AmeriCorps Gadsden Reads members come from the same community in which they serve. Many of them are already college students and have a passion to become educators or work with children in other career areas. Children in Gadsden County are especially responsive to these AmeriCorps members because they consider them role models who have been successful the way the children themselves want to become successful. AmeriCorps members often know the families and friends of the children they tutor, so they can bring these experiences into the learning environment. The love that grows up between the AmeriCorps members and the children they tutor helps to bind everyone involved more

## **Narratives**

closely to the community. One member once told the director of AmeriCorps Gadsden Reads (Serving as an AmeriCorps member has given me a different meaning of what it means to give back to the community. The 30 plus students I have tutored during my 2 years have been so rewarding that money could not repay me for the gratification I have received seeing these student reading abilities improved from not being able to read, to now reading and making 100's on some assignments).

Description of Activities and Member Roles:

The Gadsden County School Board proposes that 34 AmeriCorps members be engaged to serve at least 250 of the most challenged students. The aim is to raise at least 60% of these students to grade level reading proficiency on the FCAT. Twenty AmeriCorps members will receive full-time stipends and will be assigned 11 or 12 students each. Six AmeriCorps members will receive half-time stipends and will be assigned 5 to 7 students each. The remaining eight AmeriCorps members will work quarter-time. Four of these will be dual-enrolled high school/college students who receive stipends. The other 4 will be work-study students who receive no stipend but will instead receive scholarship support from Tallahassee Community College (TCC). These 8 quarter-time AmeriCorps members will provide additional tutoring and volunteer recruitment services when needed.

The schools served, (Chattahoochee (C), George Monroe (C), Greensboro (A), Gretna, (A) Havana (C), Shanks (B), Stewart Street (A), and St. John C) are all in critical need of help. They have made some progress but they need AmeriCorps recourses to sustain their improvement. For instance, Chattahoochee and George Munroe both received a grade of "F" two years in a row. Last year, both schools improved to a "C," but they now face the threat of new budget cuts and fewer resources this year, which will make it difficult for them to assure continuity of progress.

All schools selected for AmeriCorps Gadsden Reads have failed to make Adequate Yearly Progress for 6 or more years. At the outset of the program year, a signed agreement is obtained from the principal of each selected school obligating the school to meet the standards of the program. In each school, the reading specialist trains AmeriCorps members and provides student testing data as the evidence base

# **Narratives**

for pre- and post-program evaluation. The classroom teachers supervise AmeriCorps members. Each AmeriCorps member is assigned to a regular classroom to tutor students individually and in small groups for the entire year. Full-time AmeriCorps members serve at their assigned site for the full school day. Half-time AmeriCorps members serve in their assigned schools during the afternoons. Quarter-time members serve in after-school programs.

Typical Day for a Member:

A typical school day for a member is as follows: AmeriCorps members report to their service site at 8:00 a.m., check in with their site supervisor, and begin their schedule of providing tutoring to students.

AmeriCorps members serve in the school each day until 4:00 p.m. From 4:00 to 6:00 p.m., they are assigned to either an after-school program or a community-based literacy program. Fridays are reserved for team meetings to discuss upcoming events, program policy, member hours, and teambuilding.

Trainings outside of the pre-service orientation are conducted during Friday meeting sessions.

In-school activities:

Students nominated for the program are individually assessed by the school reading specialist using the Florida Assessments for Instruction in Reading (FAIR). The specialist evaluates test scores (FAIR and FCAT) and classroom teacher's recommendations to determine eligibility. Once accepted into the program, the student begins to receive one-on-one tutoring during and after school hours.

**Tutoring Methods:** 

AmeriCorps members follow the guidelines of the SRA Imagine It! reading program. Students receive individual tutoring for 30 minutes a day, 4 days a week. They also attend after-school programs whenever possible. SRA Imagine It! is an elementary basal reading program for grades K-6 developed by SRA/McGraw-Hill. The program is designed to systematically teach decoding; comprehension; inquiry and investigation; and writing in a logical progression. Part 1 of each unit, "Preparing to Read," focuses on phonemic awareness, sounds and letters, phonics, fluency, and word knowledge. Part 2, "Reading and Responding," emphasizes reading for understanding with literature, comprehension,

## **Narratives**

inquiry, and practical reading applications. Part 3, "Language Arts," focuses on communication skills such as spelling and vocabulary; writing process strategies; English language conventions such as grammar, speaking, and penmanship; and basic computer skills. The publishers of SRA Imagine It! have steadfastly structured its curriculum for nearly five decades on the strongest lessons research could offer. This program has been approved to address the "No Child Left Behind" requirements and has a successful track record in helping struggling readers.

Activities Beyond the School Day:

During after-school hours, AmeriCorps members are assigned to "21st Century After-School Programs," which is a key component of President Bush's "No Child Left Behind Act." This program helps students and their families continue to learn new skills and discover new abilities. AmeriCorps members serve selected students in small groups and offer homework help, educational games, computer-based learning activities, and the like.

This year, AmeriCorps Gadsden Reads is coordinating an after-school program at a local housing project, Gadsden Arms Apartments, where many of the selected students live. This government-subsidized housing community had previously been underserved because of the prevalence of drug trafficking and violence, but AmeriCorps Gadsden Reads has successfully implemented an after-school program that provides homework help and general tutoring assistance every Tuesday and Thursday close to students' homes. These services are also provided during the summer at the Summer Reading Camps run by the school districts.

#### Additional Activities:

AmeriCorps Gadsden Reads Members contribute freely to the community. For example, they engage in food drives to support Refuge House, and they join with other AmeriCorps members to do a national day of service in Gadsden County or Panama City, every year on Martin Luther King Day. This year we upgraded Shaw's Quarter Park, cleaned a disabled veteran yard, and built a ramp for two disabled students in the school district.

# **Narratives**

Throughout the year, AmeriCorps members engage in various events: Tenth Anniversary 9/11, Veteran Day, Memorial Day, Volunteer Appreciation, Parent EXPO night, picnics, and other community morale building activities to promote literacy and school involvement. AmeriCorps members love to turn out in their distinctive AmeriCorps t-shirts and take part enthusiastically in the festivities.

Documented Outputs and Outcomes in the Previous Grant Cycle (Past Impacts):

The accomplishments made during the previous grant year are as follows:

Section 1-Individualized Tutoring:

Primary Needs and Services (Output) AmeriCorps members and volunteers will serve at least

250 students who have been identified as Level One by teachers in local schools as measured by

a student database.

Primary Needs and Services (Intermediate Outcome) At mid-year, 75% of students will

demonstrate an improvement in their attitude toward reading as measured by reading attitude surveys.

## **Narratives**

Primary Needs and Services (End Outcome) At least 60% of students served will make progress towards reading at grade level as determined by the FAIR reading assessment scores.

Last year, 84% of 1-2 graders and 72% of 3rd graders, and 72% of third graders made the required progress. The Kindergartens (53%) we fell below 7% of achieving the required gains.

The district has relooked at the target gain for kindergartens and made a recommendation that AmeriCorps members will serve students with a probability score of 35 and above.

Much of this gain can be attributed to the time the AmeriCorps members spent one-on- one with their students. Another reason for this gain is the popular the "Basket of Books" Program. In this program, AmeriCorps members collect hundreds of donated books to distribute to students as prizes for reaching goals. Last year, students took home 700 free books, each one awarded for demonstrated progress in reading. AmeriCorps members also recruited volunteers in the community to assist with their reading and community service initiatives. In the past 3 years, we have recruited over 375 plus volunteers who served more than 1875 hours.

Section 2: Volunteer Recruitment

Strengthening Communities (Output) AmeriCorps members in partnership with faith-based Organizations and AmeriCorps Vista AmeriCorps members will recruit 125 volunteers who will Collectively serve 625 hours during the program year as measured by volunteer tracking logs and database.

Last year, AmeriCorps Gadsden Reads and Gadsden AmeriCorps VISTA recruited 128 volunteers who collectively served 643 hour. We exceeded this Performance by (3) volunteers and (18) hours.

Section 3: Other results (based on surveys)

2010-2011 Teacher's Survey: Teachers said the AmeriCorps members in the classroom have been very rewarding to teacher and students.

Surveys 2010-2011:

### **Narratives**

2010-2012 Community Partner Surveys: The end of year surveys indicated that AmeriCorps Gadsden Reads works well as a team makes a difference in the community.

2010-2011 Disability Surveys: The disability community feel (very much) that AmeriCorps Gadsden Reads is an effective model for "Getting things Done," with the disability populations.

Plans for Self-Assessment and Improvement:

The AmeriCorps Gadsden Reads staff will report quarterly results to Volunteer Florida via the Florida AmeriCorps progress report. The AmeriCorps Gadsden Reads Program Director, the District Reading Teacher, and the School Reading Specialist at each school, and other school and district officials, will participate in a mid-year planning meeting once mid-year scores are completed for each student. Analysis of the scores by a team of specialists will allow review of program progress and implementation of any changes needed for program improvement.

AmeriCorps Gadsden Reads staff is currently developing a community advisory group to focus mainly on sustainability and to help the program regularly assess and improve its services. The program will also receive an annual site visit from a Volunteer Florida program consultant who will evaluate progress and recommend any changes if necessary. All reports and program updates will be shared with school staff, AmeriCorps members, community partners, and the District Title I & Grants Coordinator through meetings and written reports. AmeriCorps Gadsden Reads will also conduct stakeholder satisfaction survey each year which will include teachers, parents, students, principals, and others (see surveys above for last results).

Member Experiences with Other National and Community Service Programs:

AmeriCorps Gadsden Reads has worked closely with other national service programs in the county. For example, AmeriCorps members served alongside Senior Corps volunteers at one school. The program has also forged a close partnership with Gadsden VISTA AmeriCorps members who recruit volunteers within the county and host community service projects. AmeriCorps Gadsden Reads will continue this practice in the coming grant cycle.

## **Narratives**

Member Experiences with Team Building:

AmeriCorps Gadsden Reads AmeriCorps members must give priority to service to the community. Monthly, to support and recognize AmeriCorps members for their service, team building events are held. The district recognizes volunteers twice annually and each school holds its own Volunteer Appreciation Week. The AmeriCorps members are included in these recognition events. During holiday breaks, the staff also supports AmeriCorps members in organizing their own teambuilding activities. Some teambuilding events have been led by skilled professionals like counselors or a local college professor.

Weekly team meetings can also include thoughtful reflection. AmeriCorps members can read their journals aloud, share the success of a particular student, or just listen. The meetings are often the focus of rich dialogue about the community. Some meetings have special themes like Team Member of the Month and Citizenship Day. AmeriCorps members also receive leadership and college success training. All teambuilding activities are intended to build life-time volunteerism and help each member achieve personal goals in life. A member satisfaction survey is completed each year. The approval rating is always very high. Members say that teambuilding is one of the most inspiring parts of their service. (

The Four Major Elements:

- The Need: Students who are reading below grade level in Gadsden County need extra support and one-on-one assistance in their classrooms.
- 2. The Intervention that will be carried out: AmeriCorps members will tutor these students using the SRA Imagine It! reading program guided by a reading specialist.
- 3. Ways AmeriCorps members are particularly well suited.

AmeriCorps members come from the community. They are trusted by the students and develop deeps bonds which create an environment conducive to learning.

 Anticipated Outcomes: Selected students will improve their reading ability as measured by the FAIR results.

## **Narratives**

Anticipated Outcome: Selected students will improve their reading ability as measure by the FAIR results.

Member Recruitment and Selection:

The AmeriCorps Gadsden Reads staff work together to identify and recruit the most qualified AmeriCorps members. To help ensure a diverse corps, we advertise AmeriCorps openings are advertised in a variety of venues: newspaper ads, Workforce Development Center, the CNCS National Recruiting System, radio ads, and recruitment announcements in many local community stores. The most powerful vehicle for recruitment in this small rural area is still word of mouth. Most of our AmeriCorps members find out about us by hearing about the experiences of other AmeriCorps members in the community. The program staff also hosts recruitment parties in which potential AmeriCorps members attend and network with staff and former AmeriCorps members. During these events, AmeriCorps Gadsden Reads accomplishments and expectations.

Member applications are scored on clarity, experience with children, educational levels, and previous work history. All candidates are required to have some history of volunteerism. Applicants must also submit a one-page essay explaining why they want to serve in this program. The essays are reviewed on the basis of grammar, sentence structure, and content; the writer is expected to demonstrate a sincere willingness to serve and a sense of responsibility to the community. A follow-up interview process involves the whole staff and includes a face-to-face interview. The final step of the process is reference and background checks.

Program Inclusion for Members with Disabilities:

AmeriCorps Gadsden Reads has always been very much involved in the inclusion of AmeriCorps members with disabilities. We will continue to make this a priority recruitment effort. The staff applauds CNCS for placing a priority on including persons with disabilities in AmeriCorps. Each year, we have recruited at least 2 persons with disabilities. All of Gadsden County schools are wheelchair

## **Narratives**

accessible, and our office (which is located at a school) is also wheelchair accessible. The program has a written partnership with the local Vocational Rehab to assist in providing inclusion training and in recruiting AmeriCorps members. We work closely with Volunteer Florida to provide reasonable accommodations to any member who has a disability. Last year, we recruited 4 AmeriCorps members with disabilities who completed their term of service. For this current year, we have 3 AmeriCorps members with disabilities.

Compliance with AmeriCorps Tutoring Standards:

To ensure compliance with CNCS Tutoring Standards, all AmeriCorps members, must complete SRA Imagine It! training and other school district tutor training. AmeriCorps members must demonstrate that they have adequate skills in reading and writing through the interview process and complete all skill development trainings. AmeriCorps members must have some background in serving children, and they must have at least a high school diploma. Many AmeriCorps members have some college experience as well.

Member Development, Training, and Supervision:

The AmeriCorps Gadsden Reads Member Training Plan has two major components: Pre-service training and Life after AmeriCorps training. AmeriCorps pre-service training includes school district and reading specialist training on tutoring and the SRA Imagine It! curriculum. During the first month, AmeriCorps members participate in an initial orientation that includes an overview of the history of AmeriCorps; a review of member contracts (including grievance procedures and prohibited activities); and a review of the guidelines for program attendance, expectations of schools, and teambuilding exercises. Throughout the year, AmeriCorps members are provided trainings on tutoring, teambuilding, conflict resolution, citizenship, CPR, diversity, conflict resolution, inclusion, and emergency management.

Life After AmeriCorps for Gadsden includes leadership training, college readiness courses, and goal setting. The AmeriCorps Member Training Timeline is as follows:

August: AmeriCorps Member Orientation (conducted by AmeriCorps Program Staff):

## **Narratives**

September-October: SRA Imagine It! Reading Strategies (conducted by Reading Specialists at AmeriCorps member assigned schools), Conflict Resolution. Diversity, Emergency Management, and CPR.

December: HIV Awareness

January -- March: Citizenship, Leadership College Success, Disability Awareness and

Sensitivity

April -- May: Resume Writing, Computer Training, Career Planning

Each member is provided the support, encouragement, and guidance they need for a successful year of service. On a daily basis, AmeriCorps members are supervised and guided by a principal, a reading specialist and classroom teachers at their assigned school site. The Gadsden Reads program staff work closely with their sites to ensure a productive service environment for all AmeriCorps members.

Adherence to AmeriCorps Provisions on Prohibited Activities:

School staff and AmeriCorps members are trained each year on the specific role expected of each member, the purpose of the program, and a clear description of all prohibited activities. AmeriCorps members are trained during their first week of orientation, and school staff is trained each year as a part of completing the partnership agreement process. The program director also conducts regular visits to each site. The demand for AmeriCorps members is great and the need is everywhere. Therefore, school staff is careful to follow all of the guidelines set forth by the program. They are aggressive in ensuring that the program stays at their school. AmeriCorps members are required to wear AmeriCorps service gear every day and carry their AmeriCorps Member Handbook that contains all program rules and

## **Narratives**

guidelines with them.

Volunteer Recruitment:

Volunteer Recruitment will continue to be a major focus of the AmeriCorps Gadsden Reads program. Our goal is for most of the local volunteers to commit to mentoring and tutoring a selected student for an entire year. The issue of consistency of volunteers is an ongoing problem. Often, great excitement and response is created by various volunteer initiatives, there is little follow-up and commitment, however, this is why it is so important that AmeriCorps Gadsden Reads continue joint efforts to let the community know that our students need them. Every effort is made to provide a structured opportunity for them to get and stay involved. Many volunteers commit to specific students only after having participated in a short-term volunteer project. AmeriCorps Gadsden Reads is one of very few programs in the county that has the capacity to organize a variety of meaning projects of that type. Our goal is to empower local organizations to continue service projects to meet the needs of the students and sustain a very important component of volunteerism that has benefited the county tremendously. Our priority is to coordinate efforts that will continue to engage more local citizens in long-term mentoring relationships with our students.

Reading Initiatives and Volunteerism within the Community:

AmeriCorps members recruit volunteers by attending parent reading nights, PTO meetings at all elementary schools, community outreach efforts with the local newspaper, and the school district's new faith-based initiatives. Volunteers can opt to commit to mentor/tutor a student for the year, help a teacher inside the classroom, or support a community service event. These volunteers serve alongside AmeriCorps members in classrooms. For some volunteers who want to mentor but cannot make the full time commitment, an AmeriCorps member will serve the student in partnership with the volunteer. If that community volunteer is available to serve a student, the AmeriCorps member is assigned to help other students. The AmeriCorps member then serves as a backup if the community volunteer does not show up. This allows an almost seamless system that provides the consistency so badly needed when

## **Narratives**

serving the county's most needy students.

Another source of community volunteers is local faith-based organizations. The Superintendent has issued a call to action for all faith-based leaders in the Gadsden Community. AmeriCorps Gadsden Reads has been involved in the first few meetings to urge faith-based organizations to help build our schools. Several faith-based organizations have adopted a particular school of their own. Volunteer service hours are tracked by the District Volunteer Coordinator, who compiles a district wide report and shares with the Program Director. The Program Director utilizes the district-wide lists to track and report on the number of community volunteers and the hours served by those recruited in particular by the AmeriCorps members and Gadsden VISTA AmeriCorps members.

## **Organizational Capability**

**Organizational Capacity** 

Gadsden County School District consists of 8 elementary, 2 middle, 2 high schools and 1 alternative school. The School Board has a fiscal management office that successfully manages state, federal, and local revenue of \$64 million each year and is audited annually by the state. The Gadsden County School District was audited by Volunteer Florida March 2012.

The Gadsden County School Board has a sound track record in managing federal dollars and programs. AmeriCorps Gadsden Reads is directed by Ms. Bea Hopkins who was born and raised in Gadsden County. She has a Bachelor's Degree in elementary education and has served as the Program Director consecutively for eleven years. She was previously the program coordinator for four years before taking over the program as director. She has been serving AmeriCorps Gadsden Reads since 1997.

In addition, the School District's Superintendent of Finance serves as supervisor of the AmeriCorps Program Director and also provides the fiscal oversight for the grant. The school board of Gadsden County approves the annual grant application and provides general oversight of the county's strategic plan. As stated earlier, the AmeriCorps program is an integral part of the school board's strategic plan to increase student academic performance and engage the community in long-term support of local

schools.

Organizational Background and staffing:

AmeriCorps Gadsden Reads has been tutoring children in Gadsden County School for a total of 15 years. It originally began in only one school and now has expanded its services to a total of 8 schools in the county. Its mission is to increase reading gains in selected students in Gadsden County while developing a team of volunteers who can sustain the activities once AmeriCorps Gadsden Reads funding has ended. Since its inception AmeriCorps Gadsden Reads has consistently met its performance goals for every year that it has served Gadsden County. Furthermore, it has demonstrated compliance with all conditions and terms required by CNCS and Volunteer Florida. AmeriCorps Gadsden Reads represents only a small percentage of the overall Gadsden County School budget of \$64 million (approximately .5%).

All funding decisions for Gadsden County Schools are made by the Gadsden County School Board and supervised by the county Superintendent. The School Board of Gadsden County has provided all or most of the cash match funding every year and provides oversight of the program. Ms. Bea Hopkins, the AmeriCorps Gadsden program director, is the primary contact person and Ms. Bonnie Wood, the District Assistant Superintendent of Finance, is the secondary contact person.

Securing cash match dollars: The Gadsden County School Board has always successfully provided the match (both in-kind and non-federal) for the program. The last three years, the Gadsden County School

In-Kind Match and Community Stakeholder Support: The AmeriCorps Gadsden Reads program has a list of community partners that provide support to the program. There are no major corporations in Gadsden County, but there are a few businesses that work with our organization. These partnerships have remained consistent in the amount of their in-kind donations. AmeriCorps Gadsden Reads will work to increase in-kind contributions over the next three years of the program.

The following is a list of community partners of AmeriCorps Gadsden Reads and their contributions: 21st Century after School Program: For the past seven years, 21st CC has provided supervision and

Sustainability Plan:

The potential for sustainability is evident in the school board institutionalization of tutoring services.

Because AmeriCorps Gadsden proved the effectiveness of trained community volunteers and helped to bring about the improvement of Chattahoochee and George Munroe Elementary from grades of "F" to "C," school principals placed AmeriCorps Gadsden Reads in their school improvement plans.

AmeriCorps Gadsden Read's current action plan for sustainability involves nurturing existing partnerships and continuing to work jointly with the District's Volunteer Coordinator to recruit and manage community volunteers.

Our goal at the end of three years is to have 375 community volunteers who will serve 1875 hours as a mentors and reading tutors to selected students for an entire year. AmeriCorps Gadsden Reads has a sustainability team comprised of the District Volunteer Coordinator, the District Title I & Grants Coordinator, Director of Gadsden VISTA, and volunteers from various organizations such as: MAD (Making A Difference), GARC (Gadsden Association of Retardation Center), VFW (Veteran of Foreign Wars) Post 84, and FSU Early Head Start.

Compliance of School with AmeriCorps Rules and Regulations:

One of our primary responsibilities is to ensure that AmeriCorps members deliver quality service in a properly structured school environment that meets state and federal policies governing AmeriCorps.

Once the schools are selected, the AmeriCorps program director meets with school staff to ensure they understand and agree to adhere to AmeriCorps Provisions, including member prohibited activities, through a signed partnership agreement.

The Gadsden Reads program director and the site coordinator make both scheduled and surprise visits to school sites at least monthly to determine that schools are complying with AmeriCorps agreements.

## **Narratives**

School sites are made aware through meetings and signed agreements that violation of AmeriCorps provisions will result in AmeriCorps members being placed at other schools and tutoring services for their students discontinued.

Plans for Technical Assistance:

AmeriCorps Gadsden Reads relies on the expertise of teachers and school reading specialists to help implement and improve an individualized tutoring strategy. The AmeriCorps Program Director also works closely with and seeks advice regularly from two other programs, AmeriCorps Polk Reads and AmeriCorps Duval Reads. Volunteer Florida, the state's service commission, supports programs through a program consultant who provides regular monitoring and technical assistance to the program in all areas.

The AmeriCorps Program Director also attends all Program Director Trainings hosted by Volunteer Florida.

Member Enrollment and Retention:

Our goal each year is to fill all available AmeriCorps positions and retain every AmeriCorps member for the full service year. Last year, AmeriCorps Gadsden had 100% recruitment and 86% retention. For the past three years, AmeriCorps Gadsden Reads has had at least 80% of its AmeriCorps members exit with a full or partial educational award. The key impediments to retention occur when AmeriCorps members relocate or take employment prior to completing their year-long service commitment, so we strive recruit only those AmeriCorps members who demonstrate through the application process that they are committed to the full year. This year, we have filled all slots and retain at least 90% or more of the members. AmeriCorps Gadsden Reads has consistently demonstrated positive feedback form members when they complete their exit survey at the end of their term in exit surveys to strengthen the program for the following year (see Outputs and Outcomes Section above for past survey results).

Cost Effectiveness and Budget Adequacy:

Despite the financial difficulties of the school board this year, AmeriCorps Gadsden Reads will still be

## **Narratives**

able to provide service for a full school year (including after-school) of for less than \$1,000 per child. Some studies show the average cost for tutoring services ranged from \$10.00 per hour for a college student to over \$100.00 an hour for a large teaching company like Sylvan.

The children that we serve cannot afford either. Thus, our services are invaluable to students who would otherwise receive no additional support. With this funding much is accomplished. Our major impact is that students are continuing to improve their abilities in reading. Due to the economic hardship currently faced by the district, AmeriCorps Gadsden Reads will be one of few programs supported by school district funds that can help supplement a student's classroom learning.

The AmeriCorps program director works collaboratively with all the federal programs to ensure that service opportunities are maximized. The director meets quarterly with other federal directors, nonpublic schools and parents to share opportunities, inform participants, and plan for future services. Member background checks are provided by the school board.

**Evaluation Plan:** 

AmeriCorps Gadsden Reads will continue to participate in the statewide evaluation program. \$1000 will be allocated in the budget for this effort. As part of this evaluation, online surveys will be filled out twice per year and AmeriCorps Gadsden Reads will assure participation by its community partners.

DEPARTMENT OF PUBLIC WORKS

CHARLES T. CHAPMAN Director

Mr. Wayne Sheppard Gadsden County School Board 35 Martin Luther King Jr Blvd Quincy, Florida 32351

RE: Inter-Local Agreement for Debris Removal with Gadsden County

Dear Mr. Sheppard:

In the Regular Business Meeting of the Gadsden County Board of County Commissioners on January 17, 2012; the subject inter-local agreement was approved to be distributed to our Gadsden County municipalities and School District. This agreement with the municipalities and the school district for debris management services requires that the county will:

- Be responsible for planning and administering the debris recovery and removal operation in the aftermath of a severe weather event.
- During these events, the incorporated areas are covered as part of the debris recovery
  efforts, such as the City of Chattahoochee, Town of Greensboro, City of Gretna, Town of
  Havana, City of Midway, and City of Quincy; as well as the School District.
- Provided that several thousands of dollars may be expended by the County to collect, monitor, and dispose of debris in these areas, this inter-local agreement provides the County a mechanism by which to recuperate its expenses that are not reimbursable by the Federal Emergency Management Agency or the State of Florida Division of Emergency Management.

This agreement includes a cancellation for convenience clause as well as an automatic annual renewal clause. Also, included is the indemnification of both parties for services rendered under this agreement. The inter-local agreement packet contains a compact disk that contains the Federal Emergency Management Agency Cost Codes referenced as Attachment A.

Should you have any questions regarding this agreement, please feel free to contact me.

Sincerely,

Charles Chapman

Director

Re-roofing Project – Buildings 2,4,5 and 7 Re:

Carter Parramore Academy

Dear Mr. Shepard:

We have reviewed the bid packages received May 3, 2012 for roofing construction of the above referenced project. Four bids were received and all packages appear to be in order. The bid package requested base bid and additive alternates. See attached bid tabulation. Jenkins Roofing, Inc. Is the apparent low bidder based only on the base bid amount of \$155,096.00., while Commercial Roofing, LLC Is the overall apparent low bidder when base bid and add alternates are combined. Your funding appears to allow accepting of both additive alternates with the base bid of the overall apparent low bidder, Commercial Roofing, LLC with a total overall bid of \$213,060.00. Jenkins Roofing, Inc. had a total overall bid of \$237,725.00.

Commercial Roofing, LLC bid package is in order and complete and therefore we recommend acceptance of their base bid and additive alternate #1 and #2 for the project.

The bid is officially good for twenty calendar days from the bid date or until May 23, 2012. Please respond with the Board's intent in this matter. Unless you object. I will notify all of the bidders of my office's recommendation today.

If you have any questions, please contact me.

Sincerely,

Joel Sampson
