

## Safari Montage

- Safari Montage is a new resource provided by the SC Department of Education to help provide standards-based interactive resources to help close achievement gaps that may have resulted from the COVID-19 crisis.
- Safari Montage is considered a LOR (Learning Objective Repository). Basically, it includes videos and lesson resources with subject, grade-level, and standard correlations. It even allows a place for you to upload your teacher created video tutorials and YouTube links. You may create playlists to share with students via Schoology and/or students may log in to Safari Montage. It's a good place to find resources and organize your resources.
- You will login to Safari Montage with your school email credentials: <https://fsd5-sc.cloud.safarimontage.com/>. There is also a link under the "Information for Staff" on the district webpage.
- To get started
  1. Login with school email credentials at <https://fsd5-sc.cloud.safarimontage.com/>
  2. Choose "Using SAFARI Montage"
  3. View the "Safari Montage Basics" Video Tutorials
