School District of Gadsden County

Instructional Personnel Evaluation System

Purpose

The purpose of this document is to provide the district with a template for its instructional personnel evaluation system that addresses the requirements of Section 1012.34, Florida Statutes (F.S.), and Rule 6A-5.030, Florida Administrative Code (F.A.C.). This template, Form IEST-2023, is incorporated by reference in Rule 6A-5.030, F.A.C., effective November 2023.

Instructions

Each of the sections within the evaluation system template provides specific directions, but does not limit the amount of space or information that can be added to fit the needs of the district. Where documentation or evidence is required, copies of the source documents (e.g., rubrics, policies and procedures, observation instruments) shall be provided at the end of the document as appendices in accordance with the Table of Contents.

Before submitting, ensure the document is titled and paginated.

Submission

Upon completion, the district shall email this form and any required supporting documentation as a Microsoft Word document for submission to DistrictEvalSysEQ@fldoe.org.

Modifications to an approved evaluation system may be made by the district at any time. Substantial revisions shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.

Table of Contents

Part I: Evaluation System Overview

In Part I, the district shall describe the purpose and provide a high-level summary of the instructional personnel evaluation system.

The purpose of the instructional personnel evaluation system is to improve district-wide professional competence, classroom performance, professional growth, and to serve as a basis for management decisions. The process uses valid, research-based procedures and instruments to identify effective teaching and provide feedback for ongoing professional development.

Part II: Evaluation System Requirements

In Part II, the district shall provide assurance that its instructional personnel evaluation system meets each requirement established in section 1012.34, F.S., below by checking the respective box. School districts should be prepared to provide evidence of these assurances upon request.

System Framework

☒The evaluation system framework is based on sound educational principles and contemporary research in effective educational practices.

☒The observation instrument(s) to be used for classroom teachers include indicators based on each of the Florida Educator Accomplished Practices (FEAP) adopted by the State Board of Education.

☒The observation instrument(s) to be used for non-classroom instructional personnel include indicators based on the FEAP, and may include specific job expectations related to student support.

Training

☒The district provides training programs and has processes that ensure

➢ Employees subject to an evaluation system are informed of the evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place; and
➢ Individuals with evaluation responsibilities and those who provide input toward evaluations understand the proper use of the evaluation criteria and procedures.

Data and Reporting

☒The district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes.

☒The district school superintendent annually reports accurate class rosters for the purpose of calculating district and statewide student performance, and the evaluation results of instructional personnel.

☒The district may provide opportunities for parents to provide input into performance evaluations, when the district determines such input is appropriate.

District Procedures

☒The district acknowledges that its established evaluation procedures set the standards of service to be offered to the public within the meaning of section 447.209, F.S., and are not subject to mandatory collective bargaining.

☒The district's system ensures all instructional personnel, classroom and non-classroom, are evaluated at least once a year.

☒The district's system ensures all newly hired classroom teachers are observed and evaluated at least twice in the first year of teaching in the district. Each evaluation must include indicators of student performance; instructional practice; and any other indicators of performance, if applicable.

☒The district acknowledges that the instructional practice evaluation procedures and criteria under section 1012.34, F.S., do not preclude a school administrator from visiting and observing classroom teachers throughout the school year for the purposes of providing mentorship, training, instructional feedback, or professional learning.

☒The district's system identifies teaching fields for which special evaluation procedures or criteria are necessary, if applicable.

☒The district's evaluation procedures comply with the following statutory requirements in accordance with section 1012.34, F.S.

  ➢ The evaluator must be the individual responsible for supervising the employee; the evaluator may consider input from other personnel trained on the evaluation system.
  ➢ The evaluator must provide timely feedback to the employee that supports the improvement of professional skills.
  ➢ The evaluator must submit a written report to the employee no later than 10 days after the evaluation takes place.
  ➢ The evaluator must discuss the written evaluation report with the employee.
  ➢ The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
  ➢ The evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
  ➢ The evaluator may amend an evaluation based upon assessment data from the current school year if the data becomes available within 90 days of the end of the school year.

Use of Results

☒The district has procedures for how evaluation results will be used to inform the

  ➢ Planning of professional learning; and
  ➢ Development of school and district improvement plans.

☒The district's system ensures instructional personnel who have been evaluated as less than effective are required to participate in specific professional learning programs, pursuant to section 1012.98(11), F.S.

Notifications

☒The district has procedures for the notification of unsatisfactory performance that comply with the requirements outlined in section 1012.34(4), F.S.

☒The district school superintendent shall annually notify the Department of Education of any instructional personnel who

- ➢ Receive two consecutive unsatisfactory evaluation ratings; or
- ➢ Are given written notice by the district of intent to terminate or not renew their employment, as outlined in section 1012.34(5), F.S.

District Self-Monitoring

☒The district has a process for monitoring implementation of its evaluation system that enables it to determine the following:

- ➢ Compliance with the requirements of section 1012.34, F.S., and Rule 6A-5.030, F.A.C.;
- ➢ Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability;
- ➢ Evaluators provide necessary and timely feedback to employees being evaluated;
- ➢ Evaluators follow district policies and procedures in the implementation of evaluation system(s);
- ➢ Use of evaluation data to identify individual professional learning; and,
- ➢ Use of evaluation data to inform school and district improvement plans.

Part III: Evaluation Procedures

In Part III, the district shall provide the following information regarding the observation and evaluation of instructional personnel. The following tables are provided for convenience and may be customized to accommodate local evaluation procedures.

1. Pursuant to section 1012.34(3)(b), F.S., all personnel must be fully informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process before the evaluation takes place. In the table below, describe when and how the following instructional personnel groups are informed of the criteria, data sources, methodologies, and procedures associated with the evaluation process: classroom teachers, non-classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

Instructional Personnel Group	When Personnel are Informed	Method(s) of Informing
Classroom and Non-Classroom Teachers	Within 30 days upon hire	All instructional personnel will receive a face-to-face orientation during pre-school professional development facilitated by the administrators via PowerPoint. The presentation will be available on Google Drive. A copy of the evaluation handbook will be provided.
Newly Hired Classroom Teachers	Within 30 days upon hire	All instructional personnel will receive a face-to-face orientation facilitated by the administrators via PowerPoint. The presentation will be available on Google Drive. A copy of the evaluation handbook will be provided.
Late Hires	Within 30 days upon hire	Small group and/or individual training facilitated by the administrators via PowerPoint. The presentation will be available on Google Drive. A copy of the evaluation handbook will be provided.

2. Pursuant to section 1012.34(3)(a), F.S., an observation must be conducted for each employee at least once a year, except that a classroom teacher who is newly hired by the district school board must be observed at least twice in the first year of teaching in the school district. In the table below, describe when and how many observations take place for the following instructional personnel groups: classroom teachers, non-classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

Gadsden County School District instructional personnel as defined in 1012.01(2)(a-d) excluding substitutes are placed into one of three categories as defined below:

• *Category 1, First Year Teachers –* Employees who are in their first or second years of employment or first year of employment with the District. Time starts on the employment contract date and does not include administrative and/or previous teaching time with the District or teaching time in other Counties/States/Countries as delineated in Article VI, Section B of the GCCTA Collective Bargaining Agreement.

• *Category 2, Annual Contract (AC) Teachers –* Employees as defined above who have third or more consecutive year of employment with the District. Time starts with the employment contract date and does not include administrative and/or previous teaching

time with the District or teaching time in other Counties/States/Countries as delineated in Article VI, Section B of the GCCTA Collective Bargaining Agreement.
• *Category 3, Professional Service Contract (PSC) or Continuing Contract (CC) Teachers* – Instructional personnel/employees as defined above who were employed by the district and held a professional contract prior to July 1, 2011 and has maintained consecutive years of employment with the District. Time starts on the employment contract date and does not include administrative and/or previous teaching time with the District or teaching time in other Counties/States/Countries as delineated in Article VIII, Section B of the CTA Collective Bargaining Agreement.

Instructional Personnel Group	Number of Observations	When Observations Occur	When Observation Results are Communicated to Personnel
Classroom and Non-Classroom Teachers (Category 2 and Category 3)			
Hired before the beginning of the school year	At least 1 Informal & 1 Formal Observation	At least 1 Informal and 1 Formal completed by the end of the evaluation period. The order is to be determined by the teacher but must meet the following guidelines: • 1 completed by 12/15 • 1 completed by 4/15	No later than 10 business days after the observation
Hired after the beginning of the school year. (after 11/1)	At least 1 Formal Observation	At least 1 Formal completed by 4/15.	No later than 10 business days after the observation
Newly Hired Classroom and Non-Classroom Teachers (Category 1)			
Hired before the beginning of the school year	At least 2 Informal & 2 Formal Observation	Mid-Year Evaluation • 1 Informal completed by 11/1 • 1 Formal completed by 12/15 Final Evaluation • 1 Informal completed by 2/28 • 1 Formal completed by 4/15	No later than 10 business days after the observation
Hired after the beginning of the school year. (after 11/1)	At least 1 Informal & 1 Formal Observation	• 1 Informal completed by 2/28 • 1 Formal completed by 4/15	No later than 10 business days after the observation

3. Pursuant to section 1012.34(3)(a), F.S, a performance evaluation must be conducted for each employee at least once a year, except that a classroom teacher who is newly hired by the district school board must be evaluated at least twice in the first year of teaching in the school district. In the table below, describe when and how many summative evaluations are conducted for the following instructional personnel groups: classroom teachers, non- classroom teachers, newly hired classroom teachers, and teachers hired after the beginning of the school year.

Instructional Personnel Group	Number of Evaluations	When Evaluations Occur	When Evaluation Results are Communicated to Personnel
Classroom and Non-Classroom Teachers (Category 2 and Category 3)			
Hired before the beginning of the school year	At least 1 Informal & 1 Formal Observation	At least 1 Informal and 1 Formal completed by the end of the evaluation period. The order is to be determined by the teacher but must meet the following guidelines: • 1 completed by 12/15 • 1 completed by 4/15	No later than 10 workdays after the observation
Hired after the beginning of the school year. (after 11/1)	At least 1 Formal Observation	At least 1 Formal completed by 4/15.	No later than 10 workdays after the observation
Newly Hired Classroom and Non-Classroom Teachers (Category 1)			
Hired before the beginning of the school year	At least 2 Informal & 2 Formal Observation	Mid-Year Evaluation • 1 Informal completed by 11/1 • 1 Formal completed by 12/15 Final Evaluation • 1 Informal completed by 2/28 • 1 Formal completed by 4/15	No later than 10 workdays after the observation
Hired after the beginning of the school year. (after 11/1)	At least 1 Informal & 1 Formal Observation	• 1 Informal completed by 2/28 • 1 Formal completed by 4/15	No later than 10 workdays after the observation

Part IV: Evaluation Criteria

A. Instructional Practice

In this section, the district shall provide the following information regarding the instructional practice data that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)2., F.S., at least one-third of the evaluation must be based upon instructional practice. In Gadsden County, instructional practice accounts for __45_% of the instructional personnel performance evaluation.

2. Description of the step-by-step calculation for determining the instructional practice rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

Florida Statute 1012.34 states "For the purpose of increasing student academic performance by improving the quality of instructional, administrative, and supervisory services in the public schools of the state, the district school superintendent shall establish procedures for evaluating the performance of duties and responsibilities of all instructional, administrative, and supervisory personnel employed by the school district. The procedures established by the district school superintendent set the standards of service to be offered to the public within the

meaning of s.447.209 and are not subject to collective bargaining."

Pursuant to sections 1012.34(1)(a) and 1012.34(3)(a)2, the district has elected the Marzano Focused Teacher and Focused Non-Classroom Instructional Support Personnel Evaluation Models.

Participants:

• *Category 1, First Year Teachers* – Employees who are in their first or second years of employment or first year of employment with the District. Time starts on the employment contract date and does not include administrative and/or previous teaching time with the District or teaching time in other Counties/States/Countries as delineated in Article VI, Section B of the GCCTA Collective Bargaining Agreement.

• *Category 2, Annual Contract (AC) Teachers* – Employees as defined above who have third or more consecutive year of employment with the District. Time starts with the employment contract date and does not include administrative and/or previous teaching time with the District or teaching time in other Counties/States/Countries as delineated in Article VI, Section B of the GCCTA Collective Bargaining Agreement.

• *Category 3, Professional Service Contract (PSC) or Continuing Contract (CC) Teachers* – Instructional personnel/employees as defined above who were employed by the district and held a professional contract prior to July 1, 2011 and has maintained consecutive years of employment with the District. Time starts on the employment contract date and does not include administrative and/or previous teaching time with the District or teaching time in other Counties/States/Countries as delineated in Article VIII, Section B of the CTA Collective Bargaining Agreement.

Classroom Teacher Evaluation Model

The Marzano Focused Teacher Evaluation Model streamlines current research and validation studies—zeroing in on 23 essential teacher competencies for improved clarity, efficiency, and effectiveness.

For each competency, the model incorporates a focus statement and desired effect, plus sample instructional techniques and strategies for evaluating student work. Look to these four clearly marked domains of expertise for effectiveness indicators.

Non-Classroom Instructional Support Personnel Evaluation Model

The Focused Non-Classroom Instructional Support Personnel Evaluation Model promotes the use of focused goals and specific behaviors. It serves as a valuable part of our comprehensive approach to evaluation. This model is best suited for staff members who support instruction at the school or district level, but who do not have day-to-day teaching schedules with specific groups of students.

The four domains contain 17 elements that define a knowledge base for educational support and a framework for the systematic development of expertise.

Rule 6A-5.030, F.A.C. (Effective November 2023)   Form IEST-2023

Observation Process:

The Instructional Practice component of the evaluation system comprises both announced and unannounced observations. Observations must be conducted by school administrators. Following is a brief description of these processes:

Implementation Requirements		
Formal	• 30-55 minutes (or until completion of a lesson). • Must be scheduled between the teacher and the observer for a specific date and time. • Pre-conference must be a face-to-face meeting. • Pre-conference must be a face-to-face meeting.	• Specific written recommendations for improvement must be provided through the observations instrument in iObservation within 10 days (excluding weekends and holidays) of the observation occurring. • **Observations taking place immediately before or after Thanksgiving, Winter, or Spring Breaks are strongly discouraged.**
Informal	• 20-40 minutes. • May be announced or unannounced. • For announced observations, either party may request a Pre-conference meeting.	
Walkthrough	• Shall not be used for evaluation purposes but may warrant a subsequent formal observation.	
Data Mark	• All Elements are not required to be scored in one academic year. • Only dominant Elements should be scored during an observation. • At least 50% of the Elements must be scored for each of the 4 domains during the evaluation period		

Observation Schedule	
The observation schedule highlights the minimum observation requirements. Additional observations may be conducted throughout the evaluation period as the schedule permits.	
Category 1 Teachers	• 1 Informal completed by 11/1 • 1 Formal completed by 12/15 • 1 Informal completed by 2/28 • 1 Formal completed by 4/15
Category 2 & 3 Teachers	• At least 1 Informal and 1 Formal completed by the end of the evaluation period. • The order is to be determined by the teacher but must meet the following guidelines: • 1 completed by 12/15 • 1 completed by 4/15

Deliberate Practice Schedule	
Professional Growth Plan (PGP)	• Created in iObservation by 10/17 or within 30 days of hire. • All instructional/non-classroom instructional personnel will be required to take a self-assessment to establish a baseline for growth • Evidence added in iObservation by 3/30 • Finished by the administrators by 4/30

Evaluation Schedule	
Mid-Year Evaluations	• Category 1 Teachers only • A conference will be held between the principal and teacher by the last instructional day of September to discuss the student performance model (measure with PM2) that will determine the Student Performance Rating portion of the teacher's Mid-Year Evaluation. • Entered in iObservation by 1/15 • At least 50% of the Elements from each of the 4 Domains must be scored.
Final Evaluations	• Category 1, 2, 3 Teachers. • Entered in iObservation by 4/30 • At least 50% of the Elements from each of the 4 Domains must be scored. • All of the FEAPs must be observed or scored throughout all observations (informal and formal). If the FEAPs are not observed or scored during the informal observations, then the administrator must collect/teacher must present evidence of the missing FEAPs during the formal observation. This includes time during the required face-to-face planning conference, reflection conference, and classroom observation.

Instructional Practice Rating Score and Rubric:

Elements from all observations (informal and formal) are sorted to show how many times and the percentages for each scale score of Innovating (Level 4), Applying (Level 3), Developing (Level 2), Beginning (Level 1), and Not Using (Level 0) is observed. See Appendix B and Appendix C to see the performance scales for each of the elements.

The Instructional Practice Rating Score is calculated using a competency-based scoring system. With this system, each element is a competency that teachers are expected to master. At the end of the year, the iObservation system averages all the highest scores for each of the elements to achieve an overall proficiency score for the year.

Thus if, in the course of two observations during a year, a teacher scores a Developing (Level 2) and an Innovating (Level 4) in "Helping Students Examine Their Reasoning," the teacher would receive a score of 4 for that element, having achieved competency. The score of 4 would then be used for the average. The final instructional practice score is based on the Instructional Practice Rating Score rubric below.

Highly Effective (4)	**Effective (3)**	**Developing/ Needs Improvement (2)**	**Unsatisfactory (1)**
3.50 – 4.00	2.50 – 3.49	1.50 – 2.49	1.00 – 1.49

Note the Instructional Practice Rating Score is always presented on the Final Evaluation as the following:

Category 1 Teachers		Category 2 & 3 Teachers	
Value	Rating	Value	Rating
4.0	Highly Effective	4.0	Highly Effective
3.0	Effective	3.0	Effective
2.0	Developing	2.0	Needs Improvement
1.0	Unsatisfactory	1.0	Unsatisfactory

B. Other Indicators of Performance

In this section, the district shall provide the following information regarding any other indicators of performance that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)4., F.S., up to one-third of the evaluation may be based upon other indicators of performance. In Gadsden County, other indicators of performance account for **5** % of the instructional personnel performance evaluation.

2. Description of additional performance indicators, if applicable.

3. Description of the step-by-step calculation for determining the other indicators of performance rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

    The Evaluation System is made up of three scoring components, Instructional Practice (IP), Student Performance (SP) and Professional Practice (PP).

The Professional Practice component of the Evaluation System is based on Deliberate Practice. Deliberate practice is a way for teachers to grow their expertise through a series of planned action steps, reflections, and collaboration. Involved in the Deliberate Practice Plan are: setting goals, focused practice, focused feedback, observing and discussing teaching, and monitoring progress.

The Deliberate Practice process is completed by all teachers through the iObservation platform by means of an electronic document called the Professional Growth Plan (PGP). Teachers choose between two to five areas of focus (Target Elements) from the Marzano Focused Teacher Evaluation Model of Instruction for which they will work on professionally that year as follows:

- Category 1: 3 – 5 areas of focus (Target Elements)

- Category 2 & 3 Teachers: 2-5 areas of focus (Target Elements)

- All other Non-Classroom Instructions: 2 – 5 areas of focus (Target Elements)

Teachers also use iObservation to track their growth progress throughout the year. The teachers' supervisor(s) will begin observing the selected Target Element when they are in the teacher's classroom for observations.

The Deliberate Practice Rating Score is determined by the amount of observed growth that takes place during the evaluation period from their starting performance level to the highest observed score. The teacher sets a starting performance level for their Target Element based on the combination of the self-assessment date and the observation data from the previous year. The teacher is then observed on that Target Element at least once during the evaluation period. The highest score received on the Target Element from an observation during the evaluation period is what is used to determine the final score.

The Deliberate Practice Rating Score is based on the Deliberate Practice Rating Score rubric below.

Highly Effective (4)	Effective (3)	Developing/Needs Improvement (2)	Unsatisfactory (1)
Innovating	Applying	No Growth	Not Observed
OR Grows 2 Levels	Or Grows 1 Level		

The rating of Developing will apply to those teachers classified as Category 1. The rating of Needs Improvement will apply to those teachers classified as Category 2 & 3 teachers.

C. Performance of Students

In this section, the district shall provide the following information regarding the student performance data that will be included for instructional personnel evaluations.

1. Pursuant to section 1012.34(3)(a)1., F.S., at least-one third of the performance evaluation must be based upon data and indicators of student performance, as determined by each school district. This portion of the evaluation must include growth or achievement data of the teacher's students over the course of at least three years. If less than three years of data are available, the years for which data are available must be used. Additionally, this proportion may be determined by instructional assignment. In <u>Gadsden</u> County, the performance of students accounts for **50**   % of the instructional personnel performance evaluation.
2. Description of the step-by-step calculation for determining the student performance rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.

    Mid-Year Evaluation: Student performance is an important component of the mid-year evaluation of employees in Gadsden County. The Student Performance component will be weighted as 50 % of the overall teacher mid-year evaluation. The evaluation rating for the Student Performance component will include Highly Effective (4.0), Effective (3.0), Needs Improvement/Developing (2.0), and Unsatisfactory (1.0).

    Final Evaluation: Student performance is an important component of the final evaluation of employees in Gadsden County. The Student Performance component will be weighted as **50 %** of the overall teacher evaluation. The evaluation rating for the Student Performance component will include Highly Effective (4.0), Effective (3.0), Needs Improvement/Developing (2.0), and Unsatisfactory (1.0).

Determining Teachers' Student Performance Rating

Teachers will be assigned a "Student Performance" rating based on their students' progress on PM2 and PM3 assessments. Highly effective is assigned a rating of four (4). Effective is assigned a rating of three (3). Developing/needs improvement is assigned a rating of two (2). Unsatisfactory is assigned a rating of one (1). Teachers not assigned to a progress-monitoring subject area will receive a Student Performance Rating based on the overall school Progress Monitoring (PM) rating for reading. Mid-year evaluations will be based on growth and/or student proficiency between PM1 and PM2. End-of-the-year evaluations will be based on growth and/or student proficiency between PM2 and PM3. The table below describes how student performance ratings are determined.

- PM1 = Baseline (September)
- PM2 = Mid-year (December)
- PM3 = End of Year (May)

Student Performance Rating Table

Highly Effective (4)	Effective (3)	Developing/Needs Improvement (2)	Unsatisfactory (1)
80% of students score proficient or higher at PM2 for mid-year assessment.	70% of students score proficient or higher at PM2 for mid-year assessment.	60% of students score proficient or higher at PM2 for mid-year assessment.	50% of students or less score proficient or higher at PM2 for mid-year assessment.
Or	Or	Or	Or
80% of students make learning gains* or score proficient or higher at PM3 end-of-year assessment.	70% of students make learning gains* or score proficient or higher at PM3 end-of-year assessment.	60% of students make learning gains* or score proficient or higher at PM3 end-of-year assessment.	50% of students or less make learning gains* or score proficient or higher at PM3 end-of-year assessment.

When available, three years of student growth or achievement data will be included in the student performance calculation.

For student growth, learning gains will be determined based on the guidelines set forth by the Florida Department of Education.

D. Summative Rating Calculation

In this section, the district shall provide the following information regarding the calculation of summative evaluation ratings for instructional personnel.

1. Description of the step-by-step calculation for determining the summative rating for classroom and non-classroom instructional personnel, including performance standards for differentiating performance.
2. Pursuant to section 1012.34(2)(e), F.S., the evaluation system for instructional personnel must differentiate across four levels of performance. Using the district's calculation methods and cut scores described above in sections A–C, illustrate how a second-grade teacher and a ninth-grade English language arts teacher can earn a highly effective and an unsatisfactory summative performance rating respectively.

Evaluation Requirements

The distribution of evaluations is as follows:

- Category 1 Teachers – Will be formally evaluated twice annually. The first evaluation will be provided to the employee mid-year. The second evaluation will occur at least 10 workdays prior to the employee's last duty day. Each employee shall receive their final Instructional Practice portion of their evaluation, at least ten (10) work days before the employee's last regular duty day of the school year. Category 1 teachers are teachers who have been teaching for 3 years or less and/or who have 4 or more years of experience but are new to the district.

- Category 2 & 3 Teachers – Will be formally evaluated once annually. Each employee shall receive their final Instructional Practice portion of their evaluation, at least ten (10) workdays before the employee's last regular duty day of the school year.

Evaluation System Components

The Evaluation System is made up of three scoring components: **45%** Instructional Practice (IP), **50%** Student Performance (SP), and **5%** Professional Practice (PP). The scoring system, along with the rating scale is depicted in the Teacher Evaluation Scoring Component Scale, which indicates the final evaluation rating possibilities for all teachers.

Summative Rating Score and Rubric

The Instructional Practice (IP), Student Performance (SP), and Professional Practice (PP) portions of the calculation are combined according to the following method to produce the summative evaluation rating and score. For all instructional personnel, the Instructional Practice score will be **45%** of the summative evaluation score. The Professional Practice portion of the instructional evaluation will be **5%.** The Student Learning Growth score will be **50%** of the summative evaluation score. This calculation will be used for both classroom teachers, classroom teachers newly hired by the district, and non-classroom teachers. The Instructional Practice (IP), Student Performance (SP), and Professional Practice (PP) portions of the evaluation will be expressed as a number between 1.0 and 4.0 with the following categories:

Rating	Score
Highly Effective	3.50 – 4.00
Effective	2.50 – 3.49
Developing/Needs Improvement	1.50 – 2.49
Unsatisfactory	1.00 – 1.49

To better understand the combined scores please refer to these sample possible scenarios:

Example #1: Second Grade Teacher
- 4.0 Highly Effective for the Instructional Practice (IP) Score (45%)
- 3.0 Effective for the Student Performance (SP) score (50%)
- 4.0 Highly Effective for the Professional Practice (PP) Deliberate Practice (5%)

Measure	Rating	Score (Rating x Category %)
Instructional Practice (IP)	4.0 – Highly Effective	1.80
Student Performance (SP)	3.0 – Effective	1.50
Professional Practice (PP)	4.0 – Highly Effective	0.20
		3.50

➤ Then the Summative Rating would be rounded up to two decimal places to become 3.50, according to the Teacher Evaluation Scoring Components Scale above, would fall into the Summative Rating of Highly Effective.

Example #2: Ninth Grade ELA Teacher

- 1.0 Unsatisfactory for the Instructional Practice (IP) Score (45%)
- 1.0 Unsatisfactory for the Student Performance (SP) Score (50%)
- 4.0 Highly Effective for the Professional Practice (PP) Score (5%)

Measure	Rating	Score (Rating x Category%)
Instructional Practice (IP)	1.0 – Unsatisfactory	0.45
Student Performance (SP)	1.0 – Unsatisfactory	0.50
Professional Practice (PP)	4.0 – Highly Effective	0.20
		1.15

➤ Then the Summative Rating would be rounded up to two decimal places to become 1.15, according to the Teacher Evaluation Scoring Components Scale above, would fall into the Summative Rating of Unsatisfactory.

STANDARDS-BASED PLANNING	
Planning Standards-Based Lessons/Units: Using established content standards, the teacher plans rigorous units with learning targets embedded within a performance scale that demonstrates a progression of learning.	**A1a.** Aligns instruction with state-adopted standards taking into consideration varying aspects of rigor and complexity
	A1b. Sequences lessons and concepts to ensure coherence and required prior knowledge
	A1c. Designs instruction for students to achieve mastery
	A1d. Selects appropriate formative assessments to monitor learning
	A1g. Provides classroom instruction to students in prekindergarten through grade 12 that is age and developmentally appropriate and aligned to the state academic standards as outlined in Rule 6A-1.09401, F.A.C., and is consistent with s. 1001.42(8)(c)3., F.S.
	A3e. Relates and integrates the subject matter with other disciplines and life experiences
	A4b. Designs and aligns formative and summative assessments that match learning objectives and lead to mastery
Aligning Resources to Standard(s): Teacher plan includes traditional and/or digital resources for use in standards-based units and lessons.	**A2i.** Utilizes current and emerging assistive technologies that enable students to participate in high-quality communication interactions and achieve their educational goals
	A3g. Applies varied instructional strategies and resources, including appropriate technology, to provide comprehensible instruction, and to teach for student understanding
Planning to Close the Achievement Gap Using Data: Teacher uses data to identify and plan to meet the needs of each student in order to close the achievement gap.	**A1e.** Uses diagnostic student data to plan lessons
	A2h. Adapts the learning environment to accommodate the differing needs and diversity of students while ensuring that the learning environment is consistent with s. 1000.071, F.S.
	A3c. Identifies gaps in students' subject matter knowledge
	A3d. Modifies instruction to respond to preconceptions or misconceptions
	A3h. Differentiates instruction based on an assessment of student learning needs and recognition of individual differences in students
	A4a. Analyzes and applies data from multiple assessments and measures to diagnose students' learning needs, informs instruction based on those needs, and drives the learning process
	A4d. Modifies assessments and testing conditions to accommodate learning styles and varying levels of knowledge

Identifying Critical Content from the Standards: Teacher uses the progression of standards-based learning targets (embedded within a performance scale) to identify accurate critical content during a lesson or part of a lesson.	**A2e.** Models clear, acceptable oral and written communication skills
	A3a. Delivers engaging and challenging lessons
Previewing New Content: Teacher engages students in previewing activities that require students to access prior knowledge as it relates to the new content.	**A3a.** Delivers engaging and challenging lessons
Helping Students Process New Content: Teacher systematically engages student groups in processing and generating conclusions about new content.	**A3a.** Delivers engaging and challenging lessons
Using Questions to Help Students Elaborate on Content: Teacher uses a sequence of increasingly complex questions that require students to critically think about the content.	**A3f.** Employs questioning that promotes critical thinking
Reviewing Content: Teacher engages students in brief review of content that highlights the cumulative nature of the content.	**A3a.** Delivers engaging and challenging lessons
Helping Students Practice Skills, Strategies, and Processes: When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.	**A3a.** Delivers engaging and challenging lessons
Helping Students Examine Similarities and Differences: When presenting content, the teacher helps students deepen their knowledge of the critical content by examining similarities and differences.	**A3a.** Delivers engaging and challenging lessons
	A3b. Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter
	A3e. Relates and integrates the subject matter with other disciplines and life experiences
Helping Students Examine Their Reasoning: Teacher helps students produce and defend a claim (assertion of truth or factual statement) by examining their own reasoning or the logic of presented information, processes, and procedures.	**A3a.** Delivers engaging and challenging lessons
	A3b. Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter
	A3e. Relates and integrates the subject matter with other disciplines and life experiences
Helping Students Revise Knowledge: Teacher helps students revise previous knowledge by correcting errors and misconceptions as well as adding new information.	**A3a.** Delivers engaging and challenging lessons
Helping Students Engage in Cognitively Complex Tasks: Teacher coaches and supports students in complex tasks that require experimenting with the use of their knowledge by generating and testing a proposition, a theory, and/or a hypothesis.	**A3a.** Delivers engaging and challenging lessons
	A3b. Deepens and enriches students' understanding through content area literacy strategies, verbalization of thought, and application of the subject matter

Optional Evidence

Example Planning Evidence

- ☐ Plans exhibit a focus on the essential standards required at the appropriate age or grade level
- ☐ Plans include a scale or learning progression that builds a progression of knowledge from simple to complex
- ☐ Plans identify learning targets aligned to the rigor of required standards
- ☐ Plans identify specific instructional strategies appropriate for the learning target
- ☐ Planned instruction and student tasks are aligned to both the content and the level of cognitive complexity of the learning target
- ☐ Lessons are planned with teachable chunks of content
- ☐ When appropriate, learning targets and unit plans include district scope and sequence
- ☐ Plans illustrate how the needs of all students are addressed in the classroom
- ☐ When appropriate, plans illustrate how Individualized Education Plans (IEPs)/personal learning plans and EL strategies are addressed in the classroom

Example Implementation Evidence

- ☐ Completed student assignments/work demonstrate that lessons are aligned to grade level standards/targets at the appropriate taxonomy level
- ☐ Completed student assignments/work demonstrate development of applicable mathematical practices
- ☐ Completed student assignments/work demonstrate grounding in real-world application
- ☐ Completed student assignments/work demonstrate how the needs of all students have been addressed in the lesson/unit
- ☐ Completed student assignments/work demonstrate how Individualized Education Plans (IEPs)/personal learning plans and EL strategies have been addressed in the lesson/unit
- ☐ Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing lesson/unit plans aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

Optional Evidence

Example Planning Evidence

☐ Plans identify how to use traditional resources such as textbooks, manipulatives, primary source materials, etc. at the appropriate level of text complexity to implement the unit or lesson plan
☐ Plans integrate a variety of text types (structures) and both fiction and non-fiction text as appropriate
☐ Plans identify Standards for Mathematical Practice to be applied
☐ Plans identify how available digital resources will be used
  • Interactive whiteboards
  • Response systems
  • Voting technologies
  • Social networking sites, blogs, discussion boards
☐ When appropriate, plans identify how to use human resources, such as a co-teacher, paraprofessional, one-on-one tutor, mentor, etc. to implement the unit or lesson plan
☐ When appropriate, plans identify resources within the community that will be used to enhance students' understanding of the content (i.e. cultural and ethnic resources)

Example Implementation Evidence

☐ Resources are implemented throughout the lesson as planned
☐ Planned traditional resources are utilized by students to engage in the lesson
☐ Traditional resources are appropriately aligned to grade level standards
  • Textbooks
  • Manipulatives
  • Primary source materials
☐ Planned digital resources are used by students to engage in the lesson
  • Interactive whiteboards
  • Response systems
  • Voting technologies
  • Social networking sites, blogs, discussion boards
☐ Planned resources include ones to which students can relate
☐ Artifacts demonstrate the teacher helps others by sharing evidence of planning and implementing supporting resources aligned to grade level standards (e.g. PLC notes, emails, blogs, sample units, discussion group)

Rule 6A-5.030, F.A.C. (Effective November 2023)   Form IEST-2023

Optional Evidence

Example Planning Evidence

☐ Plans are based on diagnostic data results
☐ Plans include potential instructional adjustments that will or could be made based on student evidence/data
☐ Plans show modifications made to assessments and accommodations used when testing based on students learning styles
☐ Plans include a process for how students will track their individual progress on learning targets
☐ A coherent record-keeping system is developed and maintained on student learning
☐ Plans take into consideration student needs (i.e. family resources for assisting with homework and/or providing other resources required for class)
☐ Plans take into consideration how to communicate with families with specific needs

Example Implementation Evidence

☐ Data collection is implemented as planned
☐ Planned student assignments/work reflect accommodations and/or adaptations used for individual or groups of students at the appropriate grade level targets
☐ Formative and summative measures indicate individual and class progress towards learning targets and modifications made as needed
☐ Completed student assignments/work reflect accommodations and/or adaptations for individual or groups of students at the appropriate grade level targets
☐ Completed student assignments/work show students track their individual progress on learning targets
☐ Communication about student progress is regularly sent home
☐ Artifacts demonstrate the teacher helps others by sharing evidence of how to use data to plan and implement lessons/units that result in closing the achievement gap (e.g. PLC notes, emails, blogs, sample units, discussion group)

Strategy **was called for but not exhibited.**	Strategy **was used incorrectly or with parts missing.**	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Uses the progression of standards-based learning targets embedded within a performance scale to identify accurate critical content during a lesson or part of a lesson. **The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.**	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Rule 6A-5.030, F.A.C. (Effective November 2023)   Form IEST-2023

Optional Evidence

Example Teacher Instructional Techniques ☐ Identify a learning target aligned to the grade level standard(s) ☐ Begin and end the lesson with focus on the learning target to indicate the critical content of the lesson ☐ Provide a learning target embedded in a scale or learning progression that specify critical content from the standard(s) ☐ Relate classroom activities to the target and/or scale throughout the lesson ☐ Identify and accurately teach critical content ☐ Use a scaffolding process to identify critical content for each 'chunk' of the learning progression ☐ Use verbal/visual cueing, storytelling, and other techniques to bring attention to the critical content ☐ Ensure text complexity aligns to the critical content
Example Teacher Techniques for Monitoring for Learning ☐ **Use a Group Activity** to monitor that students know what content is important ☐ **Use Student Work** (Recording and Representing) to monitor that students know what content is important ☐ **Use Response Methods** to monitor that students know what content is important ☐ **Use Questioning Sequences** to monitor that students know what content is important
Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students know what content is important. Student evidence is obtained as the teacher uses a monitoring technique.) ☐ Student conversation in groups focus on critical content ☐ Generate short written response (i.e. summary, entrance/exit ticket) ☐ Create nonlinguistic representations (i.e. diagram, model, scale) ☐ Student-generated notes focus on critical content ☐ Responses to questions focus on critical content ☐ Explain purpose and unique characteristics of key concepts/critical content ☐ Explain applicable mathematical practices in critical content ☐ When appropriate, responses involve explanatory content specific to their culture
Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning ☐ Reteach or use a new teacher technique ☐ Reorganize groups ☐ Utilize peer resources ☐ Modify the task ☐ Provide additional resources

Element: **Previewing New Content**

Focus Statement: Teacher engages students in previewing activities that require students to access prior knowledge as it relates to the new content.

Desired Effect: Evidence (formative data) demonstrates students make a link from what they know to what is about to be learned.

The focus statement and all required indicator(s) below must be verified to fulfill requirements of this element at the Developing level.		
Status × = Achieved	**Required Indicator(s)**	**Evidence/Feedback**
	Focus Statement	
	Use of this element contributes to delivering engaging and challenging lessons (A3a)	

Not Using (0)	Beginning (1)	Developing (2)	Applying (3)	Innovating (4)
Strategy **was called for but not exhibited.**	Strategy **was used incorrectly or with parts missing.**	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content, but less than the majority of students are displaying the desired effect in student evidence at the taxonomy level of the critical content.	Engages students in previewing activities that require students to access prior knowledge as it relates to the new content. **The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.**	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

☐ Facilitate identification of the basic relationship between prior ideas and new content (purpose for the new content)
☐ Use preview questions before instruction or a teacher-directed activity
☐ Use K-W-L strategy, anticipation guide, student brainstorming, preview questions or a variation
☐ Provide advanced organizer (e.g. outline, graphic organizer)
☐ Use motivational hook/launching activity (e.g. anecdote, short multimedia selection, simulation/demonstration, manipulatives)
☐ Use digital resources and/or other media to help students make linkages to new content
☐ Facilitate identification of previously seen mathematical patterns or structures

---

Example Teacher Techniques for Monitoring for Learning

☐ **Use a Group Activity** to monitor that students can make a link from prior learning to the new content
☐ **Use Student Work** (Recording and Representing) to monitor that students can make a link from prior learning to the new content
☐ **Use Response Methods** to monitor that students can make a link from prior learning to the new content
☐ **Use Questioning Sequences** to monitor that students can make a link from prior learning to the new content

---

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students can make a link from prior learning to the new content. Student evidence is obtained as the teacher uses a monitoring technique.)

☐ Identify basic relationship between prior content and new content
☐ Explain linkages with prior knowledge in individual or group work
☐ Make predictions about new content
☐ Summarize the purpose for new content
☐ Explain how prior standards or learning targets link to the new content
☐ Explain linkages between mathematical patterns and structure from previous grades/lessons and current content

---

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning

☐ Reteach or use a new teacher technique
☐ Reorganize groups
☐ Utilize peer resources
☐ Modify the task
☐ Provide additional resources

Systematically engages student groups in processing and generating conclusions about new content. **The desired effect is displayed in the majority of student evidence at the taxonomy level of the critical content.**	Based on student evidence, implements adaptations to achieve the desired effect in more than 90% of the student evidence at the taxonomy level of the critical content.

Optional Evidence

Example Teacher Instructional Techniques

☐ Break content into appropriate chunks
☐ Employ formal group processing strategies
    • Jigsaw
    • Reciprocal teaching
    • Concept attainment
☐ Use informal strategies to engage group members in active processing
    • Predictions
    • Associations
    • Paraphrasing
    • Verbal summarizing
☐ Facilitate group members in summarizing and/or generating conclusions
☐ Facilitate recording and representing new knowledge
☐ Facilitate quantitative and qualitative reasoning of key mathematical concepts
☐ Stop at strategic points to appropriately chunk content based on student evidence and feedback

Example Teacher Techniques for Monitoring for Learning
☐ **Use a Group Activity** to monitor that students can summarize and generate conclusions about the content ☐ **Use Student Work** (Recording and Representing) to monitor that students can summarize and generate conclusions about the content ☐ **Use Response Methods** to monitor that students can summarize and generate conclusions about the content ☐ **Use Questioning Sequences** to monitor that students can summarize and generate conclusions about the content
Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students can summarize and generate conclusions about the content. Student evidence is obtained as the teacher uses a monitoring technique.) ☐ Discuss, answer questions, and/or generate conclusions about the new content in groups ☐ Summarize or paraphrase the just learned content ☐ Record and represent new knowledge ☐ Make predictions about what they expect to learn next ☐ Summarize or draw conclusions from complex text and its academic language ☐ Use repeated reasoning and abstract, quantitative, or qualitative reasoning
Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning ☐ Reteach or use a new teacher technique ☐ Reorganize groups ☐ Utilize peer resources ☐ Modify task to appropriate chunk of content ☐ Provide additional resources

Optional Evidence

Example Teacher Instructional Techniques
☐ Use a sequence of increasingly complex questions (i.e. detail, category, elaboration- inferences, predictions, projections, definitions, generalizations) as it relates to the content (text) with appropriate wait time
☐ Ask students to provide evidence (i.e. prior knowledge, textual evidence) for their elaborations
☐ Present situations or problems that involve students analyzing how one idea relates to ideas that were not explicitly taught
☐ Model the process of using evidence to support elaboration
☐ Model processes and proficiencies to support mathematical elaboration
Example Teacher Techniques for Monitoring for Learning
☐ **Use a Group Activity** to monitor that students accurately elaborate on content
☐ **Use Student Work** (Recording and Representing) to monitor that students accurately elaborate on content
☐ **Use Response Methods** to monitor that students accurately elaborate on content
☐ **Use Questioning Sequences** to monitor that students accurately elaborate on content
Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect that students accurately elaborate on content. Student evidence is obtained as the teacher uses a monitoring technique.)
☐ Answer detail and category questions about the content
☐ Answer elaborative questions about the content and provide evidence to support elaborations
☐ Identify basic relationships between ideas and how one idea relates to another
☐ Discussions and student work demonstrate students can make well-supported elaborative inferences
☐ Discussions are grounded in evidence from text, both literary and informational
☐ Discussions and student work provide evidence of mathematical elaboration
Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning
☐ Rephrase questions/scaffold questions
☐ Modify task
☐ Provide additional resources

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Begin lesson with a brief review of previously taught content
- ☐ Use a scaffolding process to systematically show the cumulative nature of the content
- ☐ Use specific strategies to help students identify basic relationships between ideas and consciously analyze how one idea relates to another
  - Brief summary
  - Problem that must be solved using previous information
  - Questions that require a review of content
  - Warm-up or bell-ringer activity
- ☐ Ask students to demonstrate increased fluency and/or accuracy of previously taught processes

Example Teacher Techniques for Monitoring for Learning

Optional Evidence

Example Teacher Instructional Techniques

☐ Review and model how to execute the skill, strategy, or process
☐ Engage students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process
  • Guided practice if students cannot perform the skill, strategy, or process independently
  • Independent practice if students can perform the skill, strategy, or process independently
☐ Employ "worked examples" or exemplars
☐ Provide opportunity for practice immediately prior to assessing skills, strategies, and processes

Instructional Evaluation System

Example Teacher Instructional Techniques

☐ Use comparison, classifying, analogy, and/or metaphor activities to examine similarities and differences
☐ Use activities to identify basic relationships between ideas that deepen knowledge to examine similarities and differences
☐ Ask students to summarize what they have learned from the activity
☐ Ask students to linguistically and nonlinguistically represent similarities and differences
☐ Ask students to make conclusions after the examination of similarities and differences
☐ Ask students to look for and make use of mathematical structure to recognize similarities and differences
☐ Facilitate the use of digital and traditional resources to find credible and relevant information to support examination of similarities and differences

Example Teacher Techniques for Monitoring for Learning

☐ **Use a Group Activity** to monitor that student knowledge of content is deepened by examining similarities and differences

Rule 6A-5.030, F.A.C. (Effective November 2023) Form IEST-2023

Optional Evidence

Example Teacher Instructional Techniques
☐ Analyze errors to identify more efficient ways to execute processes or procedures
☐ Model the process of making and supporting a claim
☐ Model constructing viable arguments and critiquing the mathematical reasoning of others
☐ Ask students to examine logic of a response (e.g. group talk, peer revisions, debated, inferences)
☐ Use specific strategies (e.g. faulty logic, attacks, weak reference, misinformation) to help students examine and analyze information for errors in content or their own reasoning
☐ Ask students to examine and analyze the strength of support presented for a claim in content or in their own reasoning
• Statement of a clear claim
• Evidence for the claim presented
• Qualifiers presented showing exceptions to the claim
☐ Involve students in taking various perspectives by identifying the reasoning behind multiple perspectives

Example Teacher Techniques for Monitoring for Learning
☐ **Use a Group Activity** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
☐ **Use Student Work** (Recording and Representing) to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim
☐ **Use Questioning Sequences** to monitor that students identify and articulate errors in logic or reasoning and/or provide clear support for a claim

Example Student Evidence of Desired Effect (Percent of students who demonstrate achievement of the desired effect to identify and articulate errors in logic or reasoning and/or provide clear support for a claim. Student evidence is obtained as the teacher uses a monitoring technique.)
☐ Analyze errors or informal fallacies (i.e. in individual thinking, text, processing, procedures)
☐ Articulate support for a claim and/or errors in reasoning within group interactions
☐ Summarize new insights resulting from analysis
☐ Artifacts/student work indicate students can identify errors in reasoning or make and support a claim
☐ Artifacts/student work indicate students have used textual evidence to support their claim
☐ Mathematical arguments and critiques of reasoning are viable and valid
☐ Artifacts/student work indicate identification of common logical errors, how to support claims, use of resources, and/or how multiple ideas are related

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired learning
☐ Reorganize groups
☐ Utilize peer resources
☐ Modify task

Optional Evidence

Example Teacher Instructional Techniques
☐ Engage groups or the entire class in an examination of how deeper understanding changed perceptions of previous content
☐ Guide students to identify alternative ways to execute procedures
☐ Guide students to use repeated reasoning and make generalizations about patterns seen in the content
☐ Utilize reflection activities to cultivate a growth mindset
☐ Prompt students to summarize and defend how their understanding has changed based on new learning
☐ Prompt students to update previous entries in their notes or digital resources to correct errors after activities such as examining their reasoning or examining similarities and differences
☐ Guide students in a reflection process

Example Teacher Techniques for Monitoring for Learning
☐ **Use a Group Activity** to monitor that students deepen understanding by revising their knowledge
☐ **Use Student Work** (Recording and Representing) to monitor that students deepen understanding by revising their knowledge
☐ **Use Response Methods** to monitor that students deepen understanding by revising their knowledge

☐ Based on the prior content and learning, model, coach, and support the process of generating and testing a proposition, proposed theory, or hypothesis
☐ Ask students to design how they will test and analyze the strength of support for their proposition, theory, or hypothesis
☐ Provide prompt(s) for students to experiment with their own thinking
☐ Observe, coach, and support productive student struggle and perseverance
☐ Coach students as they engage with an explicit decision-making, problem-solving, experimental inquiry, or investigation task that requires them to
• Generate conclusions
• Identify common logical errors
• Present and support propositions, theories, or hypotheses
• Navigate digital and traditional resources
Example Teacher Techniques for Monitoring for Learning

Rule 6A-5.030, F.A.C. (Effective November 2023)   Form IEST-2023

Optional Evidence

Example Teacher Instructional Techniques

☐ Help students track their individual progress toward the learning target (i.e. charts, graphs, data notebooks)
☐ Ask students to provide evidence of and explain their progress toward the learning target
☐ Facilitate individual conferences regarding use of data to track progress
☐ Use formative measures to chart individual and/or class progress toward learning targets using a performance scale
☐ Use formative assessment that reflects awareness of a variety of differences represented in the classroom
☐ Use technology to organize and review data
☐ Use a variety of assessments to determine students' progress toward the learning target and/or standard

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students identify their current level of performance. Student evidence is obtained during group activities and/or student work.)

☐ Systematically update their status on the learning targets using a chart, graph, or data notebook
☐ Describe their status relative to learning targets and unit standards (e.g. exit ticket, summary)
☐ Individual conferences document that students provide artifacts and data regarding their progress toward learning targets
☐ Demonstrate autonomy in providing evidence of progress on learning targets

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

☐ Utilize peer resources

Optional Evidence

Example Teacher Instructional Techniques
☐ Provide specific feedback to students regarding formative and/or summative data as it relates to learning targets
☐ Celebrate individual student progress when formative/summative data indicate gains in achieving learning targets
☐ Celebrate as groups make progress toward learning targets
☐ Implement a systematic, ongoing process to provide feedback
☐ Use a variety of ways to celebrate progress toward learning targets (not general praise)
• Show of hands
• Certificate of success
• Round of applause
• Academic praise
• Digital media
☐ Share assessment data with student and student's family
Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students continue learning and make progress towards learning targets. Student evidence is obtained during group activities and/or student work.)
☐ Use feedback to revise or update work to help meet their learning target
☐ Show signs of pride regarding their accomplishments in the class (e.g. body language, work production, quality of work)
☐ Show signs of pride regarding development of mathematical practices
☐ Initiate celebration of individual success, group success, and that of the whole class
☐ Surveys indicate students want to continue making progress
Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect
☐ Utilize new methods to celebrate success
☐ Provide additional opportunities to give feedback

Optional Evidence

Example Teacher Instructional Techniques
☐ Organize students into pre-planned or ad hoc groups during individual lessons
☐ Establish routines for student grouping and interaction for the expressed purpose of processing content
☐ Provide guidance regarding group interactions and critiquing the reasoning of others
☐ Provide guidance on one or more cognitive skills appropriate for the lesson
☐ Utilize assignments or tasks at the appropriate taxonomy level of content
☐ Provide guidance on one or more interpersonal skills, such as
• Taking various perspectives
• Interacting responsibly
• Handling controversy and conflict resolution
☐ Use various group processes and activities to reflect the taxonomy level of the learning targets

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students process content as a result of group organization. Student evidence is obtained during group activities and/or student work.)

☐ Work within groups with an organized purpose
☐ Interact responsibly and respectfully critique the reasoning of others
☐ Actively ask and answer questions about the content (i.e. assignments or tasks)
☐ Add their perspectives to discussions
☐ Explain individual student and/or group thinking about the content
☐ Take responsibility for the learning of peers and self

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

☐ Reorganize groups

Optional Evidence

Example Teacher Instructional Techniques

☐ Involve students in designing classroom routines and procedures to develop a student-centered classroom
☐ Use classroom meetings to review and process rules and procedures to ensure adherence
☐ Remind students of rules and procedures
☐ Ask students to restate or explain rules and procedures
☐ Provide cues or signals when a rule or procedure should be used
☐ Recognize potential sources of disruption and deal with them immediately
☐ Consistently exhibit "withitness" behaviors
☐ Recognize and/or acknowledge students or groups who follow rules and procedures
☐ Organize physical layout of the classroom to facilitate work in groups and easy access to materials

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students know and follow classroom rules and procedures. Student evidence is obtained during group activities and/or student work.)

☐ Follow clear routines during class
☐ Explain and/or model classroom rules and procedures
☐ Respond appropriately to teacher direction and/or guidance regarding rules and procedures
☐ Recognize and comply with cues and signals by the teacher
☐ Self-regulate behavior while working individually and in groups
☐ Describe the classroom as an orderly and safe environment
☐ Describe the teacher as fair and responsive to individual students
☐ Move purposefully about the classroom and efficiently access materials

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

☐ Modify rules and procedures
☐ Seek additional student input
☐ Reorganize physical layout of the classroom

Optional Evidence

Example Teacher Instructional Techniques

- ☐ Take action or use specific strategies to re-engage students
- ☐ Use academic games
- ☐ Manage response rates
- ☐ Use physical movement
- ☐ Maintain a lively pace
- ☐ Demonstrate intensity and enthusiasm for the content
- ☐ Use friendly controversy
- ☐ Provide opportunities for students to talk about themselves as it relates to the content
- ☐ Present unusual or intriguing information about the content

Example Student Evidence of Desired Effect (Percent of students that demonstrate achievement of the desired effect that students engage or re-engage as a result of teacher action. Student evidence is obtained during group activities and/or student work.)

- ☐ Behaviors show the engagement strategy increases engagement
- ☐ Student-centered tasks and processes produce high levels of engagement
- ☐ Engage in the critical content with enthusiasm
- ☐ Actions show students are motivated and/or inspired by the teacher's engagement strategies
- ☐ Multiple students or the entire class respond to questions posed by the teacher
- ☐ Artifacts/student work indicate students are engaged in the critical content

Example Adaptations a teacher can make after monitoring student evidence and determining how many students demonstrate the desired effect

- ☐ Vary engagement technique
- ☐ Reorganize groups
- ☐ Modify task
- ☐ Utilize peer resources
- ☐ Vary resources
