“Non-school organizations” include all organizations that do not meet the definition of a “school-sponsored” or “school-support” organization as defined above, including for-profit and not-for-profit groups, regardless of whether their intended purpose is to provide a service or benefit to the District, its students, parents, or employees.

The following non-school organizations may have free use of school facilities for regular meetings being held on a school day when classes are not in session: Neighborhood associations, nonprofit community organizations, homeowner’s associations, crime watch groups, and governmental agencies. Sec. 5. Property Generally.

An interest in real estate or personal property acquired, improved, or maintained using state funds that were received by the School on or after September 1, 2001, is public property for all purposes under state law. The date on which the property was acquired, improved, or maintained is not determinative. An interest in real estate acquired, improved, or maintained using state funds that were received by the charter holder before September 1, 2001, is a public property only to the extent specified by 19 TAC § 100.1065 (relating to Property Acquired with State Funds Received Before September 1, 2001–Special Rules). Where the property is acquired with federal funds, federal law may preempt this policy and state law in whole or part.

Sec. 6. Fiduciary Responsibilities.

Public property is held by the School in trust for the benefit of the School’s students. With respect to the public property they manage, the Board and officers of the School are trustees under Texas law and the students enrolled in the School are beneficiaries of a trust. Each trustee shall be held to the standard of care and fiduciary duties that a trustee owes the beneficiary of a trust under Texas law.

Public property may be used only for a purpose for which a school district may use school district property, implementing a program described in the School’s open-enrollment charter, and only to implement a program that is described in the open-enrollment charter and is consistent with law and Commissioner’s Rules.

Notwithstanding the delegation of authority, the Board and officers of the School shall remain fully responsible to authorize all uses and applications of public property and to enforce this policy.
