Staff Involvement in Decision Making: / Staff- Community Relations: (GAC)

The Western Line School Board encourages employee participation in decision making for the school district.

The Board directs the superintendent to establish mechanisms which solicit regular input of community, students and staff regarding policies, procedures, programs and operations of local districts. Such input will be considered for incorporation in the district's educational plan, school board policies and district operational procedures. The board may request a summary of community input.

To ensure community involvement in the development and implementation of the academic, vocational and extracurricular programs of the schools, the Board believes it is the responsibility of the administration and professional staff to inform the citizens of the district about all aspects of the school program through the news media and presentations to local parent and civic groups.

The Board also believes the citizens of the district should aid in the development of the total program of the schools, provide financial and moral support to the schools, and participate in the activities of the schools in the district.

Participation in Community Activities: (GAH)

The staff shall be encouraged to take an active part in the affairs of the district. The teacher, as a citizen of the district, has a direct relationship with the degree of understanding and goodwill flowing from the community to the schools.

Political Activity of Staff Members (GAHB):

The Board recognizes the right of its employees, as citizens, to engage in political activity. The Board also recognizes that school property and school time should not be used for political purposes except as provided for in policies pertaining to the use of school buildings by civic and political organizations.

Nothing in this policy should be interpreted as prohibiting employees from conducting appropriate activities which encourage students to become involved in the political processes of the party of the student's choice or as independents, nor does it prohibit the use of political figures as resource persons in the classroom.

School Time

School time shall be defined as the time employees are required to be on school grounds during the school day and includes:

The board shall not require an employee seeking public office to resign or take a leave of absence.

General Guidelines

All employees shall be encouraged to exercise their constitutional rights as citizens, but they shall not involve their schools in political campaigns.

Customary community political activities may be expected on election days at schools when schools are used as polling places.

Employees shall not poll their pupils to determine how their parents are voting on any issue, and shall not attempt to indoctrinate pupils with personal political and social philosophy; however, employees are not prohibited from political activity after hours of official employment.

In the event the political activity is associated with the person seeking the office of county superintendent of education, violations of the policy shall be reported in writing to the president of the school board.

Violations of this policy shall be reported and discussed in a conference between the employee and the superintendent. In the event the political activity is associated with the superintendent of education, violations of the policy shall be reported in writing to the president of the school board.

If the superintendent finds the complaint to be factual, he shall issue a written reprimand to the employee(s) involved. This reprimand shall become a part of the employee's personnel file. Depending on the severity of the violation, the result may be non-renewal of an employee's contract or dismissal.

If the school board investigates a complaint against the superintendent of education and finds the complaint to be factual, it shall direct the school board president to issue a written reprimand to the employee(s) involved. This reprimand shall become a part of the employee's personnel file. Continuous violation of this policy may result in additional disciplinary action.

Staff Protection: (GAEA)

This school board directs the superintendent to develop programs, procedures, and guidelines to promote a safe environment for teaching and learning.

It shall be unlawful for any person to intimidate, threaten or coerce, or attempt to intimidate, threaten or coerce, whether by illegal force, threats of force or by the distribution of intimidating, threatening or coercive material, any person enrolled in any school for the purpose of interfering with the right of that person to attend school classes or of causing him not to attend such classes. In order to provide its employees with the opportunity for united participation in the financial support of the services performed by the humanitarian agencies of this community, and annual United Fund Drive among school personnel is approved.

No other fund raising drives are to be conducted among school personnel without approval from the Superintendent and Board of Trustees.

Gifts To Staff Members:

Many school patrons, in their sincere effort to express appreciation to school employees, at various times participate in money-raising campaigns among parents in order to purchase gifts for school employees. These activities are often misunderstood and frequently cause embarrassment to our personnel.

The Western Line School Board wishes to express itself as opposed to expensive gifts to school employees on the part of individual or to solicitation of funds from a group for this purpose and directs that the school board employees shall not accept gifts of more than nominal value from anyone doing business with the schools.

There shall be no fund raisers for gifts, or any gift-giving, or any exchange of gifts at school during school hours.

This does not in any way prohibit Christmas and other parties that are held in schools where students contribute food and refreshments. This policy is designed to stop solicitation of funds for gifts.

Staff Rights and Responsibilities: (GBEA)

Any person employed by the Board of Trustees who shall be guilty of a violation of any of the policies of the Board may be issued a written reprimand by the Superintendent and/or the employee's immediate supervisor and shall suffer such additional penalty as may be recommended to and approved by the Board. Such violation of policy may result in suspension, non-renewal, dismissal, or other adverse employment action.

It shall be the policy of the Western Line School District to require all employees to be subject to the yearly evaluations. All instructional staff shall be evaluated to affect continues

improvement in the quality of instruction and curriculum offered to the students in Western Line School District.

Supervision Procedures:

Stage I:

1. Involves training all certified employees on teaching strategies that are supported by research to be effective, efficient, and relevant.
2. Each certified employee will receive a copy of their job description and the appropriate evaluation instrument.
3. Each employee will be trained on job responsibilities, sound teaching methods and policies and procedures to be followed through-out the year.
4. Each employee will be trained on using curriculum documents, benchmarks and test blueprints to most effectively integrate them into the class

Stage II:

1. Administrators will observe teachers in the classroom and in other daily activities.
2. Evaluations will be developed to evaluate all other employees that do not teach such as: librarians, counselors, administrators, etc.
3. Evaluations will be developed for all non-certified employees.

All certified teachers will be trained in what is expected of them. Supervisory visits and conferences will be conducted by the building level administrators.

A formal conference to assess the supervision process of each certified employee will be conducted by the principal before March 1 of each year. During the conference, the principal and teacher will discuss the performance of the teacher, test scores, promotions/retentions, and other relevant assessment data to identify the improvement of the students. If improvement is necessary the principal and the teacher will define in writing any difficulties what should be addressed to help the teacher become more effective, efficient, and relevant. Student improvement will be used as a major tool for teacher assessment. By March 15th the principal will recommend to the Superintendent those certified employees for the next school year. If any certified employees are on probation, an improvement plan will be on file.

Progressive Growth System

What is a PGS?

The Mississippi State Department of Education Goal 4 of the strategic plan specifically addresses teacher and leader effectiveness by ensuring “every school has effective teachers and leaders.” The Mississippi Educator and Administrator Progressive Growth System was designed by a statewide team of teachers and leaders to ensure that teaches receive the high-quality feedback necessary to support the growth they must maintain.

Professional Growth System Goals:

- Provide a shared vision for high-quality teaching and learning and guide educators in improving their practices
- Encourage regular, evidence-based observation and feedback for all teachers
- Support teachers and school leaders in identifying priorities for strengthening practice
- Serve as a guide for teachers as they reflect upon their own practices.

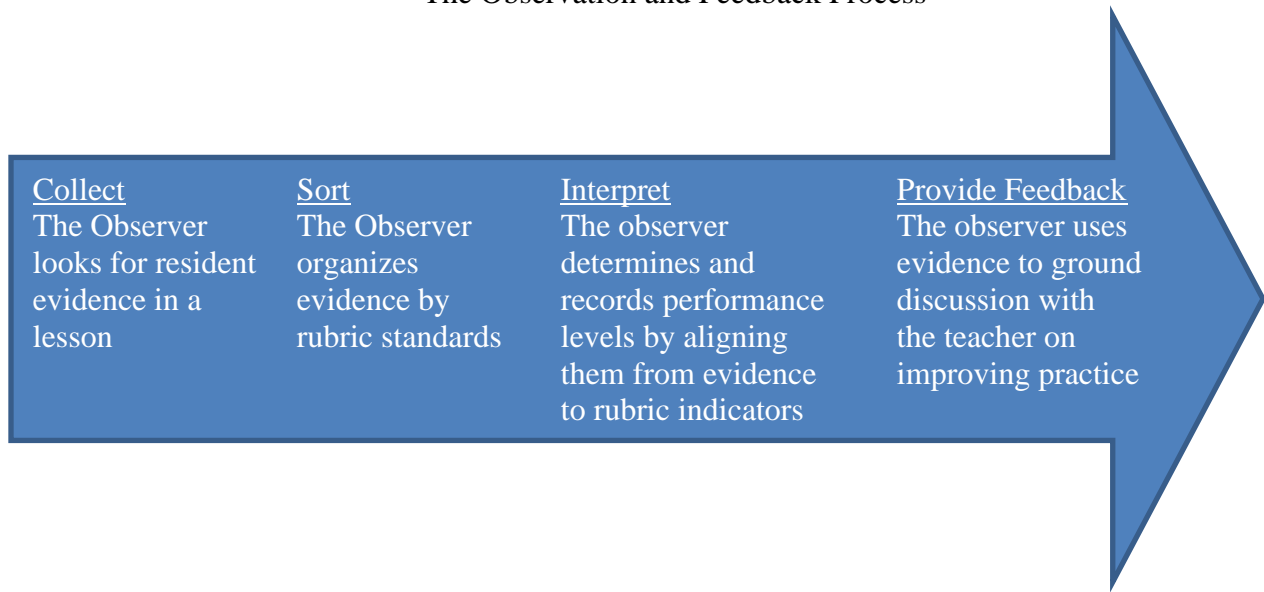

Teacher and Principal/Observer Responsibilities**Teacher Responsibilities:**

- Know and understand the Teacher Growth Rubric Domains, Students and indicators
- Understand the observation process
- Prepare for and fully participate in each component of the observation process
- Develop strategies to improve teaching practice in areas individually or collaboratively identified
- Implement strategies to improve teaching practice in areas individually or collaboratively identified.

Principal/Observer Responsibilities:

- Complete the MDE's Observer training to understand and implement the Teacher Growth Rubric with fidelity and consistency
- Know and understand the Teacher Growth Rubric domains, standards, and indicators
- Supervise the observation process and ensure that all steps are conducted according to the process
- Identify the teacher's strengths and areas for growth and provide specific, actionable feedback for improving practice
- Ensure that the Summative Observation Rating accurately reflects teaching practice

The Observation and Feedback Process

The four-step process for collecting evidence serves to support feedback conversations. These steps should be followed when observing teaching. This process represents best practice and is not intended to be a burdensome but provide observers with a clear process to make identifying high-quality feedback easier. As observers gain experience and expertise with the Teacher Growth Rubric, collecting and sorting evidence can be done simultaneously.

Classroom Observations and Feedback Conversations

Classroom Observations:

Classroom observations serve as a snapshot of practice captured through watching teaching and providing feedback on what is observed. Observations, both informal and formal, should be of sufficient length so that the observer can analyze the lesson and accurately collect evidence. Time between observations must be sufficient for teachers to improve their practice using the action steps identified during the feedback conversation. If the teacher needs support(s) to improve his/her teaching practice (i.e., coaching and professional learning opportunities), then the time between observations must be sufficient for the teacher to have had the opportunity to access appropriate supports.

Informal/Walk-through Observations:

Informal observations / walk-throughs are unannounced classroom observations that support the collection of evidence to provide high-quality feedback to teachers about specific lessons. The informal / walk-through observations should occur throughout the school year. Two informal observations are required. Beyond the required two, the frequency and length of time of the informal / walk-through observations are at the discretion of the school district. While two (2) is a minimum requirement, more frequent informal observations may be needed to strengthen a teacher's practice. A single informal observation does not need to assess every aspect of a teacher's practice, but observers should use the rubric to identify potential areas for feedback.

Formal Observations:

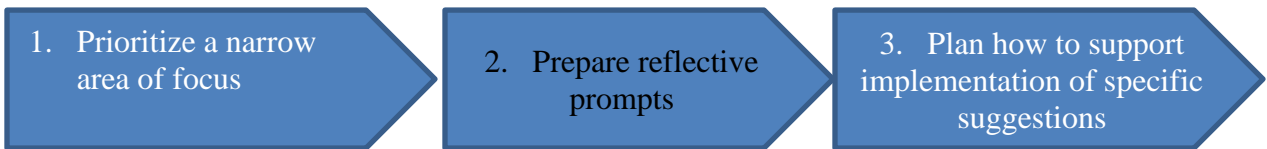

Formal observations should be announced. Each teacher should receive a minimum of one (1) formal observation per school year. Beyond the required one, the frequency and length of the formal observations are at the discretion of the school district.

Pre-observation Conferences:

Pre-observation conferences provide the opportunity for the teacher to describe the context and plans for the lesson prior to a formal classroom observation. The teachers would also discuss goals related to teaching practice. Pre-observation conferences are not required, but are useful in building shared trust with the observation process.

Feedback Conversations:

High quality feedback helps teachers improve by identifying strengths (practices they should continue) and areas for improvement (changes to their practice that should be prioritized). To be effective, feedback after a classroom observation should focus on foundational practices that will have a domino effect on the mastery of other practices, be clear and observable, and be bite-sized so it can be implemented quickly. Feedback should be provided to the teacher very soon after each classroom observation.

Observers should **prioritize a narrow area of focus** to discuss with the teacher. The area should focus on something that the observer and teacher can co-plan strategies for implementation that can quickly make a noticeable difference in the classroom.

Teachers should be meaningfully engaged in the feedback conversation and not just recipients of information from the observer. A two-way conversation allows a teacher to better understand the relationships between his/her teaching and student learning. Reflective prompts provide a structure for teachers to self-analyze their own teaching and what they might improve.

Feedback must include more than prompts crafted to promote self-reflection. The onus for identifying techniques to improve teaching should not rest only on the teacher. Observations need to bring something to the table. For instance, if the focus of feedback is on writing better lesson objectives, **the observer should come with a handful of very specific and practical techniques** for doing so. A teacher who leaves a post-observation conference with something of value is much more likely to view observation in positive light.

Teacher Growth Rubric Domains and Standards

Domain 1: Lesson Design

1. Lessons are aligned to standards and represent a coherent sequence of learning
2. Lessons have high levels of learning for all students

Domain II: Student Understanding

If such recommendations meet with the approval of the Superintendent, he/she shall recommend the employment of such teachers to the board. Unless good reason to the contrary exists, the Board shall elect the teachers so recommended. A list, including the names, length of employment and salary, shall be entered into the minutes.

If, for any reason, the Board shall decline to elect a teacher or teachers so recommended, additional recommendations for the places to be filled shall be made by the principal to the Superintendent and then by the Superintendent to the Board. A report of the Superintendent's decision regarding recommendations for continuation of employment shall be given to the teacher before April 15th of each year.

If, at the commencement of the scholastic year, any certificated employee shall present to the superintendent a certificate of a higher grade than that specified in such individual's contract, such individual may, if funds are available from minimum education program funds of the district, or from district funds, be paid from such funds the amount to which such higher grade certificate would have entitled the individual, had the certificate been held at the time the contract was executed.

Suspension/Dismissal of Professional Personnel: (GBK)

BREACH OF CONTRACT

If any licensed employee shall arbitrarily or willfully breach his or her contract and abandon his or her employment without being released therefrom as provided in Section 37-9-55, the contract of such licensed employee shall be null and void. In addition thereto the license of such licensed employee shall be suspended by the State Board of Education for a period of one (1) year as provided by law.

REASONS FOR DISMISSAL OR SUSPENSION

For incompetence, neglect of duty, immoral conduct, intemperance, brutal treatment of a pupil or other good cause the superintendent of this school district may dismiss or suspend any licensed employee. Before being so removed or suspended any licensed employee shall be notified of the charges against him/her and he shall be advised that he/she is entitled to a public hearing upon said charges.

IMMEDIATE RELEASE

In the event the continued presence of said employee on school premises poses a potential threat or danger to the health, safety or general welfare of the students, or in the discretion of the superintendent, may interfere with or cause a disruption of normal school operations, the superintendent may immediately release said employee of all duties pending a hearing if one is requested by the employee. In the event a licensed employee is arrested, indicted or otherwise charged with a felony by a recognized law enforcement official, the continued presence of the licensed employee on school premises shall be deemed to constitute a disruption of normal school operations.

HEARING

This school board, upon a request for a hearing by the person so suspended or removed shall set a date, time and place for such hearing which shall be not sooner than five (5) days nor later than thirty (30) days from the date of the request. The procedure for such hearing shall be as prescribed for hearings before this board or hearing officer in Section 37-9-111. From the decision made at said hearing, any licensed employee shall be allowed an appeal to the chancery court in the same manner as appeals are authorized in Section 37-9-113.

APPEAL

Any party aggrieved by action of the chancery court may appeal to the Mississippi Supreme Court as provided by law. In the event that a licensed employee is immediately relieved of duties pending a hearing, as provided in this section, said employee shall be entitled to compensation for a period up to and including the date that the initial hearing is set by this school board, in the event that there is a request for such a hearing by the employee.

In the event that an employee does not request a hearing within five (5) calendar days of the date of the notice of discharge or suspension, it shall constitute a waiver of all rights by said employee and such discharge or suspension shall be effective on the date set out in the notice to the employee. ' 37-9-59 (1997)

Insubordination is one of the "other good causes" for which one may be dismissed.

At a suspension or dismissal hearing before the school board, the burden rests upon the superintendent to prove by a preponderance of evidence that adequate grounds for dismissal exist.

Professional Personnel Separation / Nonrenewal: (GBN)

IMPORTANT NOTICE: This policy is applicable only to professional personnel covered under the Education Employment Procedures Law (EEPL) as defined in MS Code ' 37-9-103. Please refer to the **Education Employment Procedures Law Handbook**, published by MSBA.

It is recognized by this school district that it is necessary, from time to time, to release from future employment licensed personnel where their performance fails to meet the standards established by the State Department of Education and/or this board or where their services are no longer needed.

Notice of Nonrenewal

If a recommendation is made by the school district not to offer an employee a renewal contract for a successive year, written notice of the proposed non-reemployment stating the reasons for the proposed non-reemployment shall be given no later than the following:

- (a) written notice of the specific reasons for non-reemployment together with a summary of the factual basis therefor, a list of witnesses and a copy of documentary evidence substantiating the reasons intended to be presented at the hearing. The school district shall give this notice to the principal or other professional educator at least fourteen (14) calendar days prior to any hearing;
- (b) An opportunity for a hearing at which to present matters relevant to the reasons given for the proposed non-reemployment, including any reasons alleged by the employee to be the reason for non-reemployment; provided, however, that any school superintendent whose employment has been terminated by the school board under Section 37-9-59, or whose employment contract has not been renewed by the school board shall not have the right to request a hearing before the school board or a hearing officer;

If the employee does not request a hearing, the recommendation regarding the non-reemployment of the employee shall be final.

It is the intent of this school district to establish procedures for providing professional educators with notice of the reasons for not offering him/her a renewal of his/her contract and to provide an opportunity for principals and other professional educators to present matters relevant to the reasons given for the proposed non-reemployment determination and to the reasons the employee alleges to be the reasons for non-reemployment. The board is required to determine whether the recommendation of non-reemployment is a proper employment decision and not contrary to law and whether the nonrenewal decision is based upon valid educational reasons or noncompliance with school district personnel policies.

Any and all hearings shall be conducted pursuant to the ARules of Procedure Under the Education Employment Procedures Law of 2001" (Policy GBN-R), adopted by this board. Professional Personnel (Reduction in Force): (GBKAR)

The Board of Trustees has the responsibility for providing and maintaining quality schools within the district. In order to carry out its responsibility, the board may: (1) abolish or combine job positions, (2) reduce the length of the work year with a concomitant reduction in salary (the same to be in no event less than 187 days per contract year), (3) reduce administrative supplements, or (4) reduce the number of employees. When reducing the number of licensed employees, the board will take into account the following reasons for such reduction in force:

1. Enrollment declines,
2. Financial decline/reduction
3. Educational program(s) elimination, and
4. Priority need for human, material and financial resources.

The primary objective of the board when reducing the work force will be the maintenance of a fair and balanced educational program consistent with the needs of the students and the functions and responsibilities of the school district. When deciding reduction in force, the board will consider the following factors, not necessarily in the order listed:

1. Criticality of the position to the mission, goals, and objectives of the school district

Professional Personnel Promotion: (GBJ)

Professional personnel shall be promoted on their own merit by the superintendent.

If, at the commencement of the scholastic year, any licensed employee shall present to the superintendent a license of a higher grade than that specified in such individual's contract, such individual may, if funds are available from minimum education program funds of the district, or from district funds, be paid from such funds the amount to which such higher license would have entitled the individual, had the license been held at the time the contract was executed. ' 37-9-17 (1) (1997)

The Board agrees to publish in each school, prior to the filling of such vacancies, the vacancies for promotion and positions which provide salary advancement. Current employment in the district shall be a factor to be considered in making promotions, assignments or transfers.

The rate of pay for substitute teachers is as approved by the Board each year and is available in the business office. If the time served by the substitute is less than a full day, the pay shall be computed on a full day as approved by the Board.

Fingerprint and background checks are required prior to employee receiving payment for any days worked. All paperwork should be completed through the ESSA office in a timely manner.

Teachers will be given time during the school year to determine strengths and weaknesses of each student in the class. This information should be used along with the curriculum frameworks, objectives for the subject/grade from the Mississippi State Department, blueprints for any grade-level or end-of-year test, and supplemental materials such as computer software or textbook to develop daily lesson plans.

The administrative staff along with the Board of Trustees of the District recognizes the importance of formal and informal planning meetings. Therefore the Board of Trustees directs

the Administrative staff to provide such meetings at least once per month during the school year. These meetings should involve discussion of curriculum, selection of materials and interventions for students who are not currently mastering the benchmarks/objectives needed to progress.

The focus of Professional Development will be to improve student achievement and training on the utilization of district programs.

Research:

The Board encourages involvement of teachers in the district in an effective curriculum research program that will be beneficial to its students.

The basic objectives of such research shall be:

1. To induce change in the curriculum and techniques under conditions which are conducive to the growth of the educational program;

In the area of reading, language/arts and math, this shall be done by reviewing the curriculum benchmarks for all grades above and below in a specific subject taught. Teachers will be introduced to the objectives students will need in later grades to begin a foundation for building a solid skill basis. Teachers will use staff meetings to begin to understand how skills taught in lower grades affect the development of skills in upper grades.

No basic course of study shall be eliminated or new courses added without approval of the WLSD Board or Trustees. Neither shall any sharp alteration or reduction of a course of study occur without Board Approval.

Course Outlines/Instructional Management:

3. When the plan is completed, it shall be presented to the Superintendent, who upon approval will recommend it to the Board for adoption.
4. The instructional management plan shall serve as a framework from which a teacher may develop units of study, individual lesson plans, and approaches to instruction to serve the pupil's particular needs at a particular time. The plan shall be a sketch map including basic concepts, content, objectives/benchmarks and the logical sequence of instruction.
5. In all subjects where skills will be assessed on the Mississippi Assessment System or where sequence is important teachers shall be expected to adhere to the plan.
6. In all cases, sufficient latitude shall be permitted to provide the teacher with time to teach the current, topical and incidental material which adds to motivation and meaning teaching and learning.

An atmosphere shall prevail in which healthy growth is fostered, in which ability is recognized and excellence encouraged, and in which a productive life is held before pupils as a model to emulate.

The various instructional programs shall be developed with the view toward maintaining balanced, integrated, and sequentially articulated curricula which will serve the educational needs of all school-ages children in the district. The elementary, junior and senior high school program shall include a minimum of 330 minutes of instruction per day in those courses as required by law as well those established by the Board following the recommendation of the Superintendent.

The Western Line School District continues to maintain an Advisory Committee of parents from all schools who meet for the purpose of assisting the district in the development and implementation of the Title Programs. The names of the committee members are available in the principal's office of each school.

Multi-Tier Support Systems (MTSS)

The Board of Western Line School District following the belief that all students can learn, will use the form of a Student Intervention Team to determine area of weaknesses and utilize intervention methods to improve these areas. When results of the MAAP test are returned,

teachers will be able to see specific objectives that students are weak in. The Student Intervention team will focus on the 3rd and 7th grade students as mandated by the State Department of Education. However the teams will not stop with just these grades. Emphasis on deficit skills in **all grades** will improve student's abilities in the targeted grades.

Student Intervention Teams will also be utilized in high school focusing on the areas tested by the Subject Areas Test required for graduation.

A Multi-Tier System of Supports shall be set up at each school to develop, implement, and monitor interventions of students who fall into one of the categories from MSIS as needing the interventions. The MTSS Teams shall work together to keep students progressing through the regular education program when possible. Time will be set aside during Professional Development Activities to review individual student test scores and to determine which students should be involved in the interventions.

Intervention Process / MTSS

The Western Line School District along with MDE shall require an instruction model designed to meet the needs of every student. The model shall consist of three tiers of instruction.

Tier 1: Quality classroom instruction based on MS Curriculum Frameworks

Tier 2: Focused supplemental instruction

Tier 3: Intensive interventions specifically designed to meet the individual needs of students

Teachers should use progress monitoring information to (a) determine if students are making adequate progress, (b) identify students as soon as they begin to fall behind, and (c) modify instruction early enough to ensure each and every student gains essential skills. Monitoring of student progress is an ongoing process that may be measured through information classroom assessment, benchmark assessment instruments and large-scale assessments.

If strategies at Tiers 1 & 2 are unsuccessful, students must be referred to the Teacher Support Team. The TST is the problem-solving unit responsible for interventions developed at Tier 3. Each school must have a Multi-Tier System of Supports (MTSS) implemented in accordance with the process developed by the Mississippi Department of Education. The chairperson of the TST shall be the school principal as the school's instructional leader or the principal's designee. The designee may not be an individual whose primary responsibility is special education. Interventions will be:

- Designed to address the deficit areas;
- Research based;
- Implemented as designed by the MTSS Team;
- Supported by data regarding the effectiveness of interventions.

After a referral is made, the MTSS Team must develop and begin implementation of an intervention(s) within two (2) weeks. No later than eight (8) weeks after implementation of the intervention(s) the MTSS team must conduct a documented review of the intervention(s) to determine success of the intervention. No later than sixteen (16) weeks after implementation of the intervention(s), a second review must be conducted to determine whether the intervention is successful. If the intervention(s) is determined to be unsuccessful, then the student will be referred for a comprehensive assessment.

In addition to failure to make adequate progress following Tiers 1 & 2, students will be referred to the TST for interventions as specified in guidelines developed by MDE if any of the following events occur.

- Grades 1 – 3 A student has failed one (1) grade
- Grades 4 – 12 A student has failed two (2) grades
- A student failed either of the preceding two grades and has been suspended or expelled for more than twenty (20) days in the current school year; OR
- ⊖ A student scores at the minimal level on any part of the Grade 3 or Grade 7 MAAP Test.

Referrals to the Multi-Tier System of Supports team must be made within the first twenty (20) school days of a school year if the student meets any of the criteria A – D stated above.

Guidance Program:

Guidance services shall be available for every student in the district. The program shall be supervised by a staff member designated by the Superintendent and shall include testing services, guidance services, counseling services, and in-service programs in guidance and other programs related to self-esteem, personal growth, and hygiene.

Guidance shall include aiding the student in discovering and measuring his/her capabilities; abilities and real interest in helping him/her obtain adequate and accurate information about schools, courses, occupations, and careers and in helping solve personal and academic problems.

Programs for Students with Disabilities:

The district will provide a free appropriate public education to student with disabilities consistent with the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act.

Homework:

Home study by each student is both desirable and necessary. Inordinate demands on a student's after-school time do not enhance his/her intellectual growth, his/her community life, or his/her attitude toward learning or the school as a place of learning.

Homework should fit into the total school program and should be purposeful.

Homework is not to be assigned on the weekends or holidays for students in grades Pre-K through six. Students in grades 7-12 may be given weekend assignments, but these should be limited to projects, make-up work, or other long-range assignments.

Use the following as a guide for assigning homework:

Grade K -2	Students should spend a minimum of 20 minutes each day reading or being read to. Homework time should be no more than 30 minutes total.
Grade 3	Should be assigned no more than 30-45 minutes total homework
Grades 4-8	Should be assigned no more than 1 to 1½ hours total homework
Grades 9-12	Should be assigned no more than 2 hours total homework.

Research papers are recommended in high school junior and senior level English/Language Arts Courses.

In keeping with the school philosophy of individualized instruction, homework should be assigned according to the needs of the students.

At the grade levels where students have more than one academic teacher, teachers should be aware of major assignments in other academic subjects so that assignment overloads may be avoided.

In order for homework to be meaningful, all assigned homework should be checked and feedback given to students.

Parents are urged to provide a quiet place for the student to work uninterrupted on assignments, making sure that homework assignments are completed and returned to school.

Dropout Prevention / Graduation Restructuring:

Refer to the Procedures outlines in the Graduation Restructuring Plan (JQH) found in the Appendix of this Handbook.

Library/Media Center:

An organized media center is an integral part of the instructional program through the acquisition, maintenance, and circulation of resources. Each School has a central library which shall meet the needs of students and staff.

The library selection policy will ensure that materials for the collection are selected on the basis of their contribution to the total instructional program that input from teachers and support staff is solicited and utilized when selecting and purchasing materials (both print and non-print) and equipment. Each library program will make provisions for training students and staff in library uses and in appropriate use of library within instructional time.

Instructional Assistants:

The Western Line School District shall utilize instructional assistants as directed by the Mississippi State Department of Education. Each instructional assistant shall have met the requirements set forth in the District Board Policy (GDA) which is in accordance with the provisions of the Elementary and Secondary Education Act (ESEA).

The use of instructional assistants will permit the teachers more time to devote to instruction, more effective grouping for instructional purposes, and greater individualized attention for meeting pupil needs. Instructional assistants may not have direct responsibility for or supervision of student instruction or activities, but shall be under the supervision of a professional staff member.

Textbook Selection and Adoption:

The Board shall adopt textbooks for use in the district upon the recommendation of the Superintendent. The professional staff shall advise the Superintendent through a textbook selection committee. Membership of the school committee shall include representation of administrators, other appropriate staff and teachers who would use the text. Students and parents may also serve.

Evaluation of Instructional Programs:

Professional accountability for pupil performance and progress is the shared responsibility of teachers, administrators, and the Board. Accordingly, individual pupil progress and the instructional efforts of the school shall be evaluated systematically. The purposes of evaluation of instruction shall be:

1. To indicate instructional strengths and weaknesses;
2. To provide information needed for advance planning;
3. To provide data for public information;
4. To demonstrate the relationship between achievement and the school system's stated goals; and
5. To check the suitability of the instructional program in the terms of community requirements.

The professional staff shall provide continuous evaluation of the educational program and instructional processes. The Board may participate with the professional staff in such evaluation if the nature and the scope of the evaluation process so warrants.

The Board shall adopt a plan for a local accountability program designed to measure the adequacy and efficiency of educational program offered by the district in accordance with recommendations and criteria set forth by the State Department of Education.

Academic Achievement:

The Board believes that academic achievement is based on the premise that children have diverse capabilities and interests and individual patterns of growth and learning. The Board, therefore, feels that teachers must have knowledge of each student through tests and observation of students' intelligence, achievement, work habits, learning styles, skills, health, and home environment.

Achievement shall be judged:

1. In relation to a student's learning capacity.
2. In terms of his degree of mastery of the course work, as ascertained by the teacher.

Co-Curricular Activities:

The Board believes that student activities at school are a vital part of the total educational program and should be used as a means for developing wholesome attitudes and good human relations, as well as knowledge and skills. The following should serve as guidelines to the development of student activities:

1. The majority of activities should be an outgrowth of curriculum activities;
2. Groups may meet either during or outside of regular school hours;
3. All school-sponsored groups shall have a faculty adviser;
4. Student participation should be voluntary;
5. The students, with assistance from school administration, shall be responsible for the management of student funds.

Clubs, councils, and extracurricular activities serve a useful function in the school. Such activities should exist with supervision, and under no conditions should these activities involve trips, visitations, or other similar involvement without proper parental and sponsor consent which reflects administrative supervision.

Interscholastic Activities:

The Board believes individual students will grow physically and mentally through their experience in self-discipline and their contribution to team effort made possible through competitive interschool team and individual sports activities.

Participation in interscholastic activities shall be limited to students in grades 7 – 12.

Those teachers having directed responsibility for the conduct of the athletic program of the school are required to conform in all ways to the general education program as established by the Board and Administration, including such matters as schedules, financial expenditures, relationships with other schools, and health and safety regulations.

Community Participation:

The Board recognizes the importance of the involvement of the community in the education of the districts' youth, and further encourages the staff members of the district to strive to involve the community whenever possible.

Community Resource Persons:

The use of resource persons from the community in the classroom can be an invaluable educational instrument. The Board wishes the professional staff to be concerned with locating and contacting people in various areas of interest and expertise who might serve as resource persons in particular units of study. All requests to use such resources persons shall be cleared with the principal of the school.

School Volunteers:

The Board believes that volunteers can make many valuable contributions to our schools. The Board endorses a volunteer program in the schools subject to regulations and safeguards. Suitable recognition of volunteer services may be made annually.

Religion and Controversial Issues:

No doctrinal, sectarian, or denominational teaching shall be permitted in the schools of the district.

Controversial issues are defined as those problems, subjects, or questions about which there are major differences of opinion, for which there are no easy answers, and discussion of which generally creates strong feelings among people. Controversial issues, however, provide stimulation to learning by creating intellectual excitement and are thus an important part of the classroom environment. Free inquiry in a democratic society requires that controversial issues arising in the classroom be handled as a regular aspect of instruction and learning in such a way as to not inhibit the dignity, the personality, or the intellectual integrity of either the teacher or the students.

Class Size:

The Board is aware that class size has a bearing upon effective teaching. Therefore, the Board directs the Superintendent to work with principals in establishing a reasonable and equitable class enrollment for each teacher within the guidelines approved by the Board. Pupil-teacher ratio shall not exceed:

- Twenty-two (22) to one (1) in Kindergarten, except in instances where an instructional assistant is in the classroom. If an instructional assistant is employed, twenty-seven (27) pupils may be enrolled.
- Twenty-seven (27) to one (1) in self-contained classrooms serving grades 1 – 4
- Thirty (30) to one (1) in self-contained academic core classes serving grades 5 – 8
- Thirty-three (33) to one (1) in departmentalized classes serving grades 5 – 12.
- One hundred and fifty (150) students per day maximum student load for teachers of academic cores classes in grades 7 - 12

Exceptions to the rule may be granted by the State Department of Education for enrollment not to exceed thirty (30) students in any class in grades 1 – 4, by written request.

Instructional Time:

The Board shall provide instructional time and environment to provide students the opportunity to master specific learning objectives at all instructional levels through the following:

- The academic year shall consist of a minimum of 180 teaching days with no less than 330 minutes of academic instruction with the following exception: Two days in the academic year may be shortened in order to offer staff development activities or student examinations. Such days must offer at least 60% of the designated minutes of academic instruction contained in a regular teaching day.

Testing Programs:

In order to adequately make decisions for school improvement, valid test results must be guaranteed and obtained. We cannot assist children in academic improvement if assessment of progress is contaminated by false test results. **The Western Line School District has a District test Security Plan that is submitted to the Board of Trustees each year.** Each school has a copy of the District Test Security Plan with an additional section specific to the school detailing the testing process for that school. The purpose of the plan is to ensure that the requirements of the state law are followed during administration of the Mississippi Academic Assessment Program (MAAP) and its components.

The Mississippi Academic Assessment Program consists of MAAP Assessments in grades 3 – 8, with a 5th and 8th grade science component, the Subject Area Testing program (Algebra I, Biology I, U.S. History from 1877, and English II) and the MKAS (Pre-K and K assessments along with a summative assessment in grade 3). Provided there is funding, students in the 11th grade will take the ACT.

Additional assessments include the MAAP-A for students with an IEP who have a significant cognitive disability, a dyslexia screener for students in grades K and 1, language/speech screener for students prior to exiting 1st grade and a cursive component for students prior to exiting the 5th grade.

State law makes it unlawful to:

1. Give students access to tests prior to testing.
2. Copy or otherwise reproduce all or part of the test.
3. Coach students during testing.
4. Alter or interfere with students' responses on the tests.
5. Make answers available to students.
6. Fail to account for all test material before, during, or after testing.
7. Participate in, direct, aid, counsel, assist in, encourage or fail to report a violation to any or all of the above. Furthermore, state law provides that any person who violates any of the seven items listed above is guilty of a misdemeanor and upon conviction, shall be fined not more than \$1,000 or be imprisoned for not more than 90 days or both. The State Board of Education may also revoke the person's certificate.

It is the policy of the Western Line School District that any employee who violates the above law will be terminated in accordance with District policies and procedures. The Board further instructs the administration to provide copy of this policy to each employee and require each employee to sign a statement of acknowledgement indicating that he/she has received, read, and understands the law and the consequences of breach of test security.

Basic Skills and Literacy:

It shall be the policy of district that each student graduating from high school will have demonstrated the ability to apply basic skills successfully as evidenced completing the graduation requirements of the State Board of Education and the Western Line School Board.

Furthermore, students will have to demonstrate mastery on end-of-the-year test in the areas of Algebra I, Biology I, US History from 1877, and English II (with a writing component).

Standardized and Intelligence Tests:

The main objective of the district's testing program is to enable the schools to do a more effective job in planning for and educating the students in the district. Secondary objectives are:

1. to secure objectives evaluation criteria which are needed for the district's use
2. to provide teacher with back-up data for grades, reports and counseling.

The testing program, which includes all standardized group and curriculum based tests, shall be coordinated by the district test coordinator. The Psychometrists within the district shall administer all individual intelligence test and other specialized tests required to evaluate students under IDEA.

Assemblies:

Any person or group requesting participation in assembly type programs system-wide must first clear through the office of the Superintendent. If clearance is granted, the principal of the school will decide if the person or group will be invited.

After careful screening, the teachers working through the principal may invite persons or groups for class lectures or homeroom programs. This type of program does not require clearance from the Superintendent.

No assembly programs of a religious or evangelical nature shall be permitted.

School Sponsored Trips:

The Board recognizes that the learning experiences provided by field trips are most effective and worthwhile means of learning. It is the desire of the Board to encourage field trips as an integral part of the educational program of the school to the extent that funds, transportation equipment and staff are available.

The Board encourages various activities characteristic of its comprehensive curriculum and realized the necessity of school-sponsored trips. It is expected that adequate supervision be of utmost concern to those persons responsible for such activities.

In the interest of proper communication between the home and school, official notification of and permission shall be gained, in writing, for the school-sponsored trip from the parents of participating pupils. Staff members shall contact the principal for specific guidelines and the appropriate administrative procedures. All trips, including day and over-night trips require proper supervision with administrative and school board approval.

Students who are players, participants, or performers in school sponsored activities shall be transported to all such activities in school district owned vehicles, and shall travel to and from school sponsored activities as a group, unless approved by the Superintendent or his designee.

In all instances of school-sponsored field trips, Students shall be transported to all such activities in school district buses.

Procedures for requesting a trip

1. Field trips involving students

- a. Teacher must complete the Travel Request Form (**See Appendix for copy**) in its entirety and submit it to the principal by Thursday morning the week before the board meeting.
- b. Principal shall submit all travel request forms for approval to the Superintendent by noon on Thursday of the week before the School Board meets.
- c. Upon approval by the Board, a copy of the **approved travel request form** will be forwarded to the principal who shall forward a copy to the teacher requesting the trip.

- f. Trip Tickets must be returned to the Superintendent's office **NO LATER THAN 3 DAYS** after return from the trip/activity.
- g. Tickets for cancelled trips should be marked as **VOID** and returned to the Superintendent's office.

Grading and Graduation:

The Board shall approve a method of evaluating and recording pupil progress to be devised by the administration and professional staff and expedited in a professional, consistent manner. The records and reports of individual pupils shall be kept in a form which will be meaningful and clearly understood by teachers, students and parents.

Teachers must record, for each student, at least ten (10) grades per nine (9) week period for each subject taught. Four (4) of the ten (10) should be test grades. While each teacher may grade as his/her work demands, the grade should be recorded as a numerical grade in the grade book (grade book in this instance refers to written and/or student database grade book). . (There may be exceptions – kindergarten, and first grades; compositions, etc., in junior high and high school.)

In transferring numerical grades to letter grades on the report cards, the following schedule is to be used, except in exceptional circumstances with the permission of the principal:

(a) Pre-Kindergarten: Checklist (S,N, and U)

(b) Grade K – 12

- | | |
|---|--------------|
| A | 90 - 100 |
| B | 80 - 89 |
| C | 70 - 79 |

| F | 64 and below |

Computing Grades for students in grades 3-12:

Computing Grades for students in grades 3 - 12:

1. Daily grades count 2/5
2. Test grades count 2/5
3. Nine-week test grade counts 1/5

Semester average and final grades are computed as follows:

- The average of the 1st nine-week grade and the 2nd nine-week grade shall be the 1st Semester Average
- The average of the 3rd nine-week grade and the 4th nine-week grade shall be the 2nd Semester Average.
- The final grade shall be determined by adding the first and second semester averages and dividing by two (2).

Conduct (citizenship) and academic grades shall be kept separately. Points shall not be deducted from academic grades for poor conduct.

Exemptions

In grades 7 - 12, students can be exempt from their final exams under the following conditions:

- Students who have an **“A” average** in any subject may be exempt from taking the final exam in that subject as long as they have no more than a total of 5 unexcused absences in that subject.
- Students who have **perfect attendance** will be exempt from taking the final exam in any class with an **80 average as long as they have no Out of School Suspensions.**

Reporting Progress

- A class record will be kept by each teacher for all subjects and filed in the office of the principal at the end of each semester. At the end of each semester, teachers and/or counselors will record the semester grades on the cumulative record forms.
- Progress reports shall be sent to parents at the mid-point of each nine-week term for all pupils. Supplementary reports shall be provided as needed. Report cards shall be issued for each nine (9) week period.
- Conferences with parents also may be used at the elementary level and secondary level as part of the reporting system.
- All teachers should be willing to justify any grade to any student. If a student wants to know why he/she made an “F,” the teacher should be able to tell him/her. Grades should be well defined in the grade book so that if the occasion arises, they can be explained to the student and/or his/her parents.

The following steps shall be followed in reporting poor academic progress (D or below in major subjects excluding spelling and writing):

Two parent teacher conferences are provided in the schedule each year, in addition to report cards sent home, the teacher should schedule appointments with parents of students who are not performing successfully in any class.

Graduation Requirements

Graduation requirements follow MDE requirements and are listed in the Student Handbook as approved each year.

In order to receive a diploma, all students will be required to pass academic end of course test. These tests will be given for Algebra I, Biology I, US History from 1877, and English II with a writing component.

Grading and Report of Progress Policy Regulations Regarding Reporting of Progress

Based on the IDEA '04 Federal Regulations (§300.347 (a)(7)), the IEP Committee must address the method of measuring as student's progress and informing the parent(s) of the child's progress. Federal regulations require the IEP Committee to determine the following:

- The method of measuring the student's progress toward the annual goals
- The method or regularly informing (through such means as periodic report cards) the student's parent(s) of their child's progress toward the annual goals as well as the extent to which that progress is sufficient to enable the student to achieve the goals by the end of the year.

Federal regulations also require that parent(s) be informed "at least as often as parents are informed of their non-disabled children's progress."

State policies and procedures require the IEP Committee to address student progress on the student's IEP as follows:

"A statement of how the child's progress toward the measurable annual goals, including benchmarks or objectives, will be measured and how parents will be regularly informed of:

- Their child's progress toward the yearly goals; and
- The extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year."

Notification to the parents must occur at least as often as parents are informed of their non-disabled children's progress by the public agency. Methods such as periodic report cards that reflect the agency's grading policies in meeting academic classroom requirements and/or performance results from curriculum-based assessments may be utilized. The IEP Committee must record the method(s) that will be utilized to inform the parent(s) of the child's progress in meeting the yearly goals.

The policy below allows a district to forward a progress report to the parents at the mid-term point of a grading period, if such reports are provided for regular education students. It also provides for a report card to be sent to the parent(s) informing them of their child's progress at

the end of each grading period. **The Special Education Service Goal sheet(s) of a student's IEP is forwarded to the parents at the end of each semester.** This method of informing parents of their child's progress toward meeting annual goals and objective/benchmarks addressed on the IEP meets the requirements and the intent of State and Federal regulations.

Documentation on IEP, Progress Reports and Report Cards

IEP Documentation:

The IEP Committee must document the method of informing the parent(s) of their child's progress on the IEP. When utilizing the policy below, the committee should indicate on the IEP that notification of progress towards meeting annual goals will be provided through the use of progress reports at the mid-term point of a grading period (if such reports are provided for regular education students), a report card (at the end of each grading period) and the Special Education Service Goals Sheet(s) (at the end of each semester).

Graduation Policy for Students with Disabilities Under the Individuals with Disabilities Act

Students with disabilities will be issued a Regular Education High School Diploma, or a Certificate of Life Skills Completion.

1. By age fourteen (13) or prior to a student entering the ninth grade, an Individual Education Plan (IEP) Committee will consider the exiting options from high school. The parent(s) and, if appropriate, the student will be informed of the requirements for each option and the various alternatives in post-school activities based on each exiting option. The IEP Committee will determine and document the option appropriate for each student.
2. Students pursuing a regular education diploma must meet the requirement set forth by the State Board of Education and the Western Line School District. Special Education and related services will be provided to assist a student to reach his goal based on the student's IEP.
3. For those students pursuing a certificate of life skills completion, a comprehensive curriculum of basic life skills will be utilized for instructional purposes. Transition services, including a functional vocational evaluation (if appropriate), will be provided based on each student's preferences and interests, his/her IEP and the planned outcomes for post-secondary activities specific to the student. As determined appropriate by the IEP Committee, transition services may include:
 - Instruction in functional academics;
 - Community experience;
 - Adult living;
 - Employment skills;
 - Related services; and
 - Daily living skills.
4. An IEP Committee will review the previous option decision for each student at least annually. The Committee, along with the parent(s) and if appropriate, the student, may change the original or previous decision regarding the student's exiting option.

5. Every student who completes an approved course of study by or before age 21 will receive a regular education high school diploma or a certificate of life skills completion and will be permitted to participate in graduation activities.

General Education Promotion and Retention:

It is the policy of this school that pupil promotion be considered individually and decision on promotion is contingent on what is considered best for that pupil. Retention, when enforced, shall occur only after careful consultation with teachers, principals, and parents. Promotion and retention shall be applied to pupils on an individual basis.

Promotion and retention shall be based upon the mastery of objectives.

1. The Western Line School District school board shall establish standards for graduation from its schools which shall include as a minimum:
 1. Mastery of minimum academic skills as measured by assessments developed and administered by the State Board of Education.
 2. Completion of a minimum number of academic credits, and all other applicable requirements prescribed by the district school board.
2. A student who meets all requirements prescribed in subsection (1) of this section shall be awarded a standard diploma in a form prescribed by the state board.
3. The State Board of Education may establish student proficiency standards for promotion to grade levels leading to graduation. ' 37-16-7 (~~1999~~)

It is the policy of the Western Line School District that pupil promotion be considered individually and decisions on promotion be contingent on what is best for that pupil. Retention, when enforced, shall occur only after careful consultation with teachers, administration, and parents.

All students in K - 6 should master, at a minimum, 65% of the state and district core objectives listed for that grade level in order to be promoted. Promotion or retention shall be based on student performance from scores on daily assignments and tests in each area.

Basic guidelines for promotion for grades K - 2 are as follows:

1. Passing grades in reading, math, and language arts (English).
2. Teacher/administrator judgement of overall classroom performance.

Basic guidelines for promotion for grades 3 – 6 are as follows:

1. Students must pass math, ELA (and reading if taught separately), and Science.
2. Students in grade 3 must also pass the Third Grade Summative Assessment administered by the Mississippi State Department of Education.

Basic guidelines for promotion in grades 7 – 8 are as follows:

1. Students must pass 5 of 7 classes, two of which must be English (Language Arts) and Math.
2. If a student fails Mississippi Studies, World Geography or Cyber Foundations II, they may be promoted if they pass the other required subjects, but they must retake the Carnegie Unit courses in 9th grade or through credit recovery.

MS Dept of Education deems specific classes eligible for Carnegie Unit Credit in the 7th and 8th Grade.

Promotion in grades 9 – 12:

- depends on the number of Carnegie Units the student has taken and passed. The basic guideline is as follows:

9 th / Freshman	0 – 5.5 Carnegie Units
10 th / Sophomore	6 – 11.5 Carnegie Units
11 th / Junior	12 – 16.5 Carnegie Units
12 th / Senior	17 or more Carnegie Units

Exceptions to Promotion/Retention: (Effective July 1, 2023 and thereafter)

The district may exempt a student from retention provided there is an abundance of evidence that the student’s test scores do not reflect his/her usual performance and/or other unusual or compelling circumstances exist. We will utilize the following process to determine whether a student should be promoted or retained.

- Students in grades K-2 who have failed more than once will be considered for promotion by the MTSS team.
- Students in grade 3 cannot be promoted if they fail to meet the requirements of the Literacy Promotion Act.
- Students in grade 4-6 who have failed more than once will be considered for promotion based upon the following:
 - MTSS Team and Teacher Recommendation
 - Counselor Referral
 - Review of past and current test scores as well as term grades
 - Administration of a grade equivalency exam
 - Review of attendance, behavior, and work ethic
- All recommendations for exceptions to promotion/retention will be made by the principal and final approval will be made by the Superintendent or his designee.

Graduation for high school in the Western Line School District is contingent upon meeting the requirements of the School Board Policy (IHE). Students must also meet the requirements on all required Mississippi Department of Education Subject Area Tests (Algebra I, Biology I, US History from 1877 and English II)

Parent Conferences:

The Board recognizes the importance of parent/teacher conferences. Two days in the school calendar have been designated for parent/teacher conferences. Parents may pick up the child's report card at this time and there should be a dialogue between the parent and the teacher concerning the student's progress. Teachers should present skills the parent can be working on at home, express concerns over the student's success, or make note of the student's strengths. In the event there are several parents at the same time, an appointment may be made at a later time to discuss issues in private during the teacher's conference period or some other pre-determined time.

Flag Displays:

The flag of the United States and the State of Mississippi shall be displayed in close proximity to the school building at all times during the hours of daylight when the school is in session when the weather will permit without damage to the flag. In the event the flag has a light shining on it, the flag may remain up.

SECTION VI

STUDENTS

Entrance Requirements:

Certificates of Compliance shall be issued by the local health officer or physician on forms specified by the Mississippi State Board of Health and the responsible school officials shall post or file the form with the student's record.

A Certificate of exemption for medical or religious reasons may be offered on behalf of the child and placed in the child's cumulative folder. Such certificates shall be based on the following:

1. A duly licensed physician, when in his/her opinion, such exemption will not cause undue risk to the child or community; and
2. An officer of their church stating that such vaccination is against said family's religious teachings and belief.

If a child shall offer to enroll at the school without having completed the required vaccinations, the local health officer may grant a period of time up to ninety (90) days for such completion when, in the opinion of the health officer, such delay will not cause undue risk to the child, the school, or the community. No child shall be enrolled without having had at least one (1) dose of each specified vaccine.

It shall be the responsibility of the person in charge of each school to enforce the requirements for immunization. Any child not in compliance at the end of the ninety (90) days from the opening fall term must be suspended until in compliance, unless the health officer shall attribute the delay to lack of supply of vaccine or some other such factor clearly making compliance impossible.

Failure to enforce provisions of this act shall constitute a misdemeanor and upon conviction be punishable by a fine or imprisonment or both.

Residence:

For the purpose of attending school, the residence of a child shall be in the zone where his/her parent(s) or legal guardian resides at the time of enrollment for said school year. Each year, students must be registered with current proofs of residence. The residency policy shall be printed in the student handbook each year and available in the office of each school.

School Admission:

The State of Mississippi provides for a uniform system of free public school consisting of grades one through twelve (1 – 12). Kindergarten became inclusive in 1986.

The Board encourages the admission of all eligible pupils into our schools. Verification of eligibility shall be the duty of the administration to protect out pupils from possible

overcrowding with all of its attendant disadvantages and to protest our taxpayers from unwarranted financial burden.

Students will be allowed to enter Western Line Schools without a waiting period as long as the student and parent(s) or guardian(s) are legal residents of the district.

Any student who is a legal resident of the school district and has been accepted or who has a clear release from another school will be allowed to enroll in Western Line School District. Any student who has been suspended or expelled from another school shall be handled in accordance with Board Policy JDDA.

All new students must provide the respective school with the following:

1. Birth Certificate (new students to the system)
2. Certificate of Compliance (blue or yellow health form)
3. Report card
4. Name and address of former school attended
5. Legal home address of student and parent(s) or guardian(s)

No non-resident pupils may be admitted to Western Line School District schools without approval from the board and written authorization from the Superintendent.

Certified employees of Western Line School District may enroll their children in the Western Line School of their choice. Non-certified employees may enroll their children only at the school which is their principal place of employment.

School Attendance Zones:

The Western Line School District is still under federal court orders in many areas of our operation. We must obey these orders. The Western Line School Board has set the attendance zones for O'Bannon and Riverside Schools. This office will adhere to the following procedure when students are enrolled in one of our schools.

1. Students will be accepted in the school in which they reside according to the address of their residence. Section 1-3-27 (1972) defines a minor as "...any person, male or female, under twenty-one years of age."

The residency of a minor is clearly that of the minor's parents. The law is unchallenged that the residency of a minor is that of his/her parents and remains so during the period of minority in spite of temporary absence.

2. If a complaint is received by any official of the WLS D stating that a student is not living in the zone in which the student attends, the parents will be notified by the school principal to show proof of the correct zone address. If the student is not living in the current zone, then that student must transfer to the correct school zone. The courts have ruled that a family must be residing in good faith at the address given to the school officials. The residence is the place where the family sleeps, eats, and lives.

3. When a principal receives a complaint that a student is out of the zone, the principal will investigate to verify that the student is out of zone, and will then notify the parent(s) or guardian(s) to withdraw the student from school. The parents will be informed that they may appeal the principal's action at the next school board meeting, or the president of the school board may call a special board meeting if the president deems it necessary.
4. Principals will enroll only students who are living in their school zone at the date of enrollment. However, for students who are new to the Western Line School District, the Superintendent may grant a period of not more than thirty (30) days for a student to move into the correct zone, provided proof of purchase of a house or rent is supplied to the Superintendent. If the student is not living in the correct zone at the end of thirty (30) days, the student will be dropped from the roll(s).
5. If a student is legally enrolled in a Western Line School at the start of the school year, and if during the school year the parents of a student must leave the district for "hardship" reasons, then the student may continue at that school for the remainder of the school year, but may not return the following year unless the parent/guardian moves back into the school zone. (Hardship is defined as family, economic, or other unforeseen problems.)
6. Students who are reported for being out of zone during the last nine weeks of school will be permitted to complete the school year, but will not be enrolled the following school year unless they have moved into the correct school zone.

The Western Line School Board has addressed this problem on a number of occasions, and Board Policy is clear and to the point. Simply stated, students must attend the school in the zone where their parent/guardian lives.

Verification of Residency:

As a result of the Residency Verification Procedure adopted as a policy of the Mississippi State Board of Education on April 20, 1990, each parent or legal guardian or other adult with whom a student lives must provide to the School Administration the following documents:

Documents provided to me by Parent/Guardian:

- Custodial agreement or Guardianship papers when the parent/guardian enrolling the child is not listed on the Birth Certificate.

Residency Documentation

- Group A: (one from this list)
- Filed Homestead Exemption Application Form
 - Mortgage Documents or Property Deed
 - Official Apartment or Home Lease (Current)

- Group B (one from this list)
- Current Automobile Registration
 - Current Utility Bill (Electric, Gas, Cable TV or Water)

Affidavits

If the student **and** parent/guardian live with a non-custodial adult, **the non-custodial adult must provide a notarized affidavit and required residency documents from Group A & Group B.**

In addition to the non-custodial documents, the custodial parent/guardian must provide one of the following with the in-district address on it.

- Automobile License Receipt / Registration
- Bank Statement / Work Check Stub / State or Federal Benefit Check
- IRS document, SNAP Verification or other Government Correspondence

Assignment to Schools:

Upon recommendations of the Superintendent, the Board shall establish attendance zones in compliance with applicable court orders. However, in some cases, the Superintendent may permit a child to attend school temporarily until a permanent assignment has been made.

Attendance, Tardiness, and Excuses

Attendance:

The Western Line School District commends those students who make an effort to attend school on a regular basis. Each student who has perfect attendance each year will be awarded with a certificate at the end-of-the-year award ceremonies.

STUDENT ATTENDANCE, REPORTING OF STUDENT ATTENDANCE, TARDINESS AND EXCUSES

The Western Line School Board of Trustees believes that good attendance, with a minimum of tardiness and absenteeism, is essential if students are to gain maximum benefit from the school district's instructional program. The school board thusly directs the superintendent to develop administrative regulations governing tardiness and absences (excused and non-excused).

The administrative regulations shall be based on all applicable state laws governing absenteeism and tardiness and shall include (but not limited to) the counting and reporting of students to the Mississippi Department of Education for attendance purposes, expectations for good student attendance, parent responsibility, excused and unexcused absences, and tardiness. Initial administrative regulations and any future changes to such administrative regulations shall be reviewed by the school board before implementation.

Attendance Reporting: In order for a student to be considered as having attended school for a full day, the school board specifies that each student must be present for 63% of his or her individual instructional day as fixed by the local school board for each individual school. For

purposes of reporting absenteeism, a student who has an absence that is more than thirty-seven percent (37%) of the student's instructional day, as fixed by the school board for the school at which the student is enrolled, shall be considered absent the entire school day.

The superintendent shall develop and submit for board adoption a policy which includes:

1. a definition of the instructional day for each individual school so that the 63% of the instructional day can be computed for each student within the school district's individual schools, and
2. a process for computing 63% of the instructional day for each student within the school district's individual schools.

Definitions

Full Day Attendance: When a student is present for 63% of his or her individual instructional day as fixed by the local school board for each individual school.

Unlawful Absence: An absence for an entire school day or during part of a school day when such absence is not due to a valid excuse.

Chronic Absenteeism: Defined as missing ten percent (10%) or more of a school year or approximately eighteen (18) days of the school year, which equals out to just two days every month.

Chronic Absenteeism Calculation

- Any student enrolled in a school for at least ten (10) days must be included in the calculation.
- Any student absent 10% or more of the time he/she was enrolled in any school.
- Any student who misses 50% or more of the school day is considered absent and must be included in the calculation.

Excused Absences

In the event that a student is absent from school, the parent must notify the school's office in writing or in person for the absence to be considered a parental excuse. **It shall be the policy of the Western Line School District that excuses written by parents shall not be accepted for an absence of more than three consecutive days, and for no more than 10 days during the school year. Any absence beyond that must come from a doctor, nurse practitioner or hospital.**

All other absences require medical or legal documentation to be submitted to the school attendance office. Documentation must be submitted within three (3) days of when the student returns to school for the absence to be considered excused.

If parental, legal, or medical documentation is not presented as required, the absence shall be

considered unexcused.

If a student is going to be absent for an extended period due to extenuating circumstances, the parent/guardian is required to notify the school in advance. Notification to the school does not ensure that the absences will be excused.

Absences that result from a school-sponsored activity will not be counted against the attendance requirement.

After five (5) unexcused absences, the school will follow the procedures of reporting the unexcused absences to the Compulsory Attendance Officer (MS Code 37-13-91).

Each of the following shall constitute a valid excuse for temporary nonattendance of a compulsory-school-age child enrolled in a public school, provided satisfactory evidence of the excuse is provided to the superintendent of the school district, or his designee:

1. An absence is excused when the absence results from illness or injury which prevents the compulsory-school-age child from being physically able to attend school.
2. An absence is excused when isolation of a compulsory-school-age child is ordered by the county health officer, by the State Board of Health or appropriate school official.
3. An absence is excused when it results from the death or serious illness of a member of the immediate family of a compulsory-school-age child. The immediate family members of a compulsory-school-age child shall include children, spouse, grandparents, parents, brothers and sisters, including stepbrothers and stepsisters.
4. An absence is excused when it results from a medical or dental appointment of a compulsory-school-age child.
5. An absence is excused when it results from the attendance of a compulsory-school-age child at the proceedings of a court or an administrative tribunal if the child is a party to the action or under subpoena as a witness.
6. An absence may be excused if the religion, to which the compulsory-school-age child or the child's parents adheres, requires or suggests the observance of a religious event. The approval of the absence is within the discretion of the superintendent of the school district, or his designee, but approval should be granted unless the religion's observance is of such duration as to interfere with the education of the child.
7. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that the purpose of the absence is to take advantage of a valid educational opportunity such as travel, including vacations or other family travel. Approval of the absence must be gained from the superintendent of the school district, or his designee, before the absence, but the approval shall not be unreasonably withheld.
8. An absence may be excused when it is demonstrated to the satisfaction of the superintendent of the school district, or his designee, that conditions are sufficient to warrant the compulsory-school-age child's nonattendance. However, no absences shall be excused by the school district superintendent, or his designee, when any

student suspensions or expulsions circumvent the intent and spirit of the compulsory attendance law.

Unexcused Absences

The Western Line School District follows the "Mississippi Compulsory School Attendance Law" in reporting unexcused absences to the Washington County Attendance Officer. An accumulation of unexcused absences may be one (1) factor in determining promotion/retention of a student.

After twelve (12) accumulated unexcused absences, the principal shall notify the Washington County Attendance Officer. The parent/guardian will then be notified that the student may be in violation of the "Mississippi Compulsory School Attendance Law". Parents may also be prosecuted if the absences cannot be justified under the established attendance policies.

ABSENCE FROM SCHOOL (Effective July 1, 2023 and thereafter):

Grades K - 6

A student should adhere to the following attendance policy to assist in the required instructional minutes during the week for promotion to the next grade for students in grades K - 6.

- Students cannot accrue more than twenty (20) unexcused absences for a course.
- Parents will be notified daily upon each absence. Upon the fifth (5th), twelfth (12th), and fifteenth (15th) unexcused absence, the principal or his/her designee will notify the parents of the school's concern of possible retention and the student will be referred to the school's MTSS Team for possible interventions.
- Upon the fifth (5th) and twelfth (12th) unexcused absence the principal or designee will notify the Washington County Attendance Officer.

If the principal determines retention is necessary based on attendance, the parent/guardian will have five (5) days to appeal the principal's decision. Appeal procedures will be reviewed annually. Students may attend Summer School/Extended Year Program to promote if the principal deems it acceptable.

Students who attend Summer School/Extended year Program to make up seat-time for classes may receive the original final grade earned in the class.

Grades 7 - 12

A student should adhere to the following attendance policy to assist in the earning of credit or promotion to the next grade for students who are attempting to earn Carnegie units in grades 7 - 12.

- Students cannot accrue more than six (6) unexcused absences in a semester course.
- Students cannot accrue more than twelve (12) unexcused absences in a full-year course.

- Parents will be notified daily upon each absence. Upon the third (3rd) and sixth (6th) unexcused absence of a semester course and fifth (5th), twelfth (12th), and fifteenth (15th) unexcused absence of a full-year course, the principal or his/her designee will notify the parents of the school's concern of possible course failure and the student will be referred to the school's MTSS Team for possible interventions.
- Upon the fifth (5th) and twelfth (12th) unexcused absence the principal or designee will notify the Washington County Attendance Officer.

If the principal determines retention is necessary based on attendance, the parent/guardian will have five (5) days to appeal the principal's decision. Appeal procedures will be reviewed annually. Students may attend Summer School/Extended Year Program to promote if the principal deems it acceptable.

Students who exceed this standard may not, pending appeal, receive a grade or Carnegie unit credit in the course. A notation of inadequate attendance (IA) will be recorded on the report card and on the transcript if the student is passing the course. Students may, pending appeal, be required to make up the class in credit recovery or by re-taking the Carnegie Unit Class.

If the student is failing the course, the actual failing grade will be posted on the report card and on the transcript.

If the principal determines that credit should be withheld based on attendance, the parent will have five (5) days to appeal the principal's decision. Appeal procedures will be reviewed annually. Students may attend Summer School/Extended Year Program to promote if the principal deems it acceptable.

Students who attend Summer School/Extended year Program to make up seat-time for classes may receive the original final grade earned in the class.

Student Absences and Graduation Ceremony (Effective July 1, 2023 and thereafter):

Any Western Line School District student eligible for graduation who accumulates more than 12 unexcused absences during the year of graduation will forfeit his/her privilege to participate in the graduation commencement ceremony. A mandatory meeting with the students and parent will be held after the 5th, 10th, and 12th unexcused absences.

The parent/guardian may appeal the decision to the district's assistant superintendent for a hearing before the district's attendance review committee.

Perfect Attendance

A perfect attendance award will be given only to those students who have not been absent, tardy, checked in or checked out from any class during the entire year.

Perfect attendance is defined as:

- The student is present each day of classes.
- The student has no tardies to school or classes.

- The student does not check in late to school.
- The students not check out early from school.

School Day Session

Buses and cars unload	7:20 - 7:30
Breakfast 3 - 12	7:25 - 7:45
Class begins 3 - 6	7:45
Tardy Bell for high school	7:49

Tardiness

All students are required to get to school and class on time. TARDINESS prevents student from achieving all that is academically possible. Parents are encouraged to make sure that their children are prompt. When a child is tardy to school, the parent shall come to the office to check the child(ren) in.

Students that check-in late to school or out early from school will be given a tardy by the office. Students that miss more than 1/2 of a particular class/block will be counted as absent for that period but will be allowed to enter the classroom for the remainder of the class. This policy is on a semester-by-semester basis. Students are to report to the appropriate class immediately upon checking in after receiving a tardy slip from the office.

Tardiness to School

- Students who drive to school and accumulate more than 3 tardies in a semester will not be allowed to drive the car to school for the remainder of the semester. A request can be made to the Principal beginning 2nd semester for reinstatement.
- Parents who bring their children to school and are late more than three (3) times in a semester will be required to attend a meeting at the central office with Central Office staff and may be required to provide additional proofs of residency.
- Absences or tardies days that cause a student to miss more than half of any period in any single Carnegie Unit class can cause the absence policy to kick in and the student will not be able to gain the Carnegie Unit for the subject without credit recovery or retaking the class.

Habitual Tardiness to a class (grades 7 - 12)

Students who are habitually tardy will be subject to the consequences outlined on the following discipline ladder:

1 st TARDY	Teacher records tardy.
2 nd TARDY	Teacher records tardy; student warned.
3 rd TARDY	One day In-School Suspension & In-School Suspension or After-School Detention for every tardy thereafter per semester.

Attorney General Opinion: According to a 1998 Attorney General Opinion, automatic fail provision of an absences policy may not apply against legal, excused absences. Such absences policies may not be applied against absences resulting from disciplinary suspension if absences policies are applied to truant students who are otherwise passing. The district must afford the student procedural due process. (Attorney General Opinion, Carter, 1-9-98) (#183) (97-0817)

Make-up Work

Make-up Assignments for Absences: The student will be allowed to make up missed work following an absence by communicating with his/her teachers on the first day back at school. **All work, including test and assignments, shall be completed within three days of the absence.** Each school shall establish procedural guidelines for making up tests and/or quizzes missed during an absence.

It is the student's responsibility to make up work due to an absence. Any student who is assigned to the in-school suspension program or suspended out of school will be expected to complete assignments during the ISS/OSS time. A grade of zero (0) will be given for missing assignments not completed during the ISS or OSS period.

Permission to Leave School:

Any student who wishes to leave school must check out through the principal's office. Permission must be obtained from the principal or assistant principal. If he/she is not available, the secretary or counselor may grant permission. No other school employee is authorized to allow a student to leave campus. The following procedure shall be used:

1. Parents may pick up the student at school.
2. Parents must send signed written permission with a phone number for verification to the office by 8:00 a.m. on the day that the student must leave school.
3. Any student leaving the school grounds during the school day for any reason must sign out in the office after receiving permission. If a student leaves the school grounds during the school day without signing out in the office, he/she will be subject to punishment. (Parents will be notified and student possibly suspended.)

Early school dismissal is highly discouraged. This policy is intended to prevent abuse of school policies and regulations of attendance.

School-Related Activities:

Participation and/or practice in school-related activities shall not be permitted the day that an absence occurs, whether excused or unexcused.

Truancy:

Unauthorized excessive absences will be considered truancy. When a student's unexcused absences reach a total of five (5), the school office shall report this to the County Attendance Officers. The teacher will continue to report the student's unexcused absences.

Student Involvement in Decision Making:

The Board believes that students, in keeping with their level of maturity, should be given a role in the development of procedures, rules and regulations that affect them. Their participation in decision making is part of the educational process.

The Board shall consider student opinions in established policies particularly in those areas affecting student programs, privileges and responsibilities.

Students are welcome at board meetings and will be granted privileges of speaking in line with such privileges extended the general public.

Appropriate to the age of the students, class or school organizations, including student councils, may be formed to offer practice in self-government and to serve as channels for the expression of student opinions.

Student Conduct/Discipline:

It should be kept in mind that the primary responsibility of conduct rests with the student and parent. However administrators and teachers shall hold students to strict account for disorderly conduct at school or any school function, to and from school, on the playground or any other place under school supervision. Teachers and administrators have the power to discipline any and all students in a reasonable and acceptable manner.

As a matter of School Board Policy, reasonable corporal punishment of a student is permitted as a disciplinary measure if deemed necessary by the school principal. The administration of corporal punishment shall be in accordance with the procedures set forth below.

Student Discipline Policy JDA

Use of this code is intended to ensure a stable learning environment in an atmosphere, which encourages academic excellence. It is expected that staff members, students and parents will work together to support and enforce the code of regulations with equity and consistency for all students.

A copy of this Code shall be distributed to each student and the parents, legal guardian or custodian of each student shall sign a statement verifying that they have been given notice of the Code.

The uniform Discipline Code of Western Line School District provides a uniform standard of conduct for all students. It describes inappropriate student behavior, ensures equal treatment for misconduct, and presets specific actions for remediating prohibited behaviors. The Code is based on the premise that rules must be enforced fairly, firmly and **consistently** and in a fashion equitable and just, while complying with state mandates and regulations. It recognizes that as students' progress in school and advance in age and maturity, they will assume greater responsibility for their actions, it is also recognized that differences in age and maturity required different types of disciplinary action.

In this Code, discipline is defined as the implementation of and adherence to behavioral rules and regulations, which will ensure an educational environment free of mental and physical hazards to students, teachers and staff. Such an environment is conducive to the practice of good citizenship and encourages learning. The enforcement of the code will help ensure a safe and orderly school climate for students and staff alike.

Specific provisions of the Code include:

1. A parent, guardian or custodian of a compulsory school-age child enrolled in the Western Line Schools shall be responsible financially for his or her minor child's destructive acts against school property or persons.
2. A parent, guardian or custodian of a compulsory school-age child enrolled in Western Line Schools may be requested to appear at school by the school attendance officer or the principal, for a conference regarding the destructive acts of their child, or any other discipline conference regarding the acts of the child.
3. A parent, guardian or custodian of a compulsory school-age child enrolled in Western Line Schools who refuses or willfully fails to attend such discipline conference in paragraph two (2) of this section may be summoned by proper notification by the superintendent of the schools and be required to attend such discipline conference.
4. A parent, guardian or custodian of a compulsory school-age child enrolled in Western Line Schools shall be responsible for any criminal fines brought against such student for unlawful activity occurring on school grounds or buses.
5. A parent, guardian or custodian of a compulsory school-age child who:

 Fails to attend a discipline conference to which such parent, guardian or custodian has been summoned under the provisions of this section, or
6. Refuses or willfully fails to perform any other duties imposed upon him or her under the law shall be guilty of a misdemeanor and, upon conviction shall be fined not to exceed an amount provided by the law.
7. Western Line Schools shall be entitled to recover damages in an amount not to exceed an amount as provided by law, plus necessary court costs, from the parents of any minor (5 – 17) who maliciously and willfully damages or destroys property belonging to this school district, However this section shall not apply to parents whose parental control of such child has been removed by court order or decree.
8. As an alternative to suspension, a student may remain in school by having the parent, guardian, or custodian, with the consent of the student's teacher or teachers, attend the class with the student for a period of time specifically agreed upon by the teacher and school principal. If the parent, guardian or custodian does not agree to attend class with the student, or fails to attend class with the student, the student shall be suspended in accordance with this Code.

3. Any corporal punishment shall be reasonable and moderate and may not be administered maliciously or for the purpose of revenge. Such factors as the size, age and condition of the student, the type of instrument to be used, and the amount of force to be used and the part of the body to be struck shall be considered before administering any corporal punishment.
4. Corporal punishment may be administered by the school principal, assistant principal, or a teacher.

No teacher, principal or assistant principal so acting shall be named as an individual defendant or be held liable in a suit for civil damages alleged to have been suffered by a student as a result of the administration of corporal punishment, unless the court determines that the teacher, principal or assistant principal acted in bad faith or with malicious purpose or in a manner exhibiting a wanton and willful disregard of human rights or safety.

"Corporal punishment" means the reasonable use of physical contact by a teacher, principal or assistant principal as may be necessary to maintain discipline, to enforce a school rule, for self-protection or for the protection of other students from disruptive students. Bomb Incidents:

1. Whoever receives the phone call needs to ascertain whether the caller has a definite knowledge/belief that an explosive/incendiary bomb has been or will be placed and whether he/she wants to minimize personal injury or property damage. It is important to remember that the caller could be either the person who placed the device or someone who has become aware of such information.
2. School officials need to determine whether the caller wants to create an atmosphere of anxiety and panic which will, in turn, result in disruption of the normal activities at the facility where the device is purportedly placed.
3. All personnel, especially those employees that answer the school telephone, should be instructed in what to do if a bomb threat is received.
4. More than one person should listen in on the call, if possible. A covert signaling system should be implemented, perhaps by using a coded buzzer signal, to an individual at a second telephone. In addition to using a buzzer, a prearranged hand signal, color coded card, and a "code word" could be used to alert other employees that a bomb threat call is in progress.
5. A calm response to the caller could result in obtaining additional information, especially if the caller wishes to avoid injuries or death. If told that the building is occupied or cannot be evacuated in time, the caller may be willing to be more specific information on the bomb's location, components, or method of initiation.
6. The bomb threat caller is the best source of information about the bomb. When a bomb threat is called in, the receiver of the call should:
 - a. Keep the caller on the line as long as possible. Ask him to repeat the message. Record every word spoken by the person.
 - b. If the caller does not indicate the location of the bomb or the time of possible detonation, ask him/her for this information.
 - c. Inform the caller that the building is occupied, and the detonation of a bomb could result in death or serious injury to many innocent children and adults.

- d. Pay particular attention to background noises, such as motors running, traffic noises, people talking, music playing, and any other noise that may give a clue as to the location of the caller.
 - e. Listen closely to the voice (male/female), voice quality (calm/excited), accents and speech impediments. Immediately after the caller hangs up, report the threat to the principal or designee.
 - f. Report the information immediately to law enforcement, fire department and other appropriate agencies and to the Superintendent's Office. The sequence of notification should be established in the School Safety Plan.
 - g. Remain available if law enforcement needs to interview you.
7. Written messages are usually associated with generalized threats and extortion attempts. A written warning of a specific device will occasionally be received. It should never be ignored. When a written threat is received, the receiver should follow these suggestions.
- a. Immediately notify the principal. The principal should then notify law enforcement officials and the Superintendent.
 - b. Save all materials, including envelope or container.
 - c. Once the message is recognized as a bomb threat, avoid further unnecessary handling.
 - d. Make every possible effort to retain evidence, such as fingerprints, handwriting or typewriting, paper, and postal marks. These will prove essential in tracing the threat and identifying the writer.

Strategies for Dealing with the Discovery of a Bomb:

1. Report the location and accurate description of the object to the principal or designee, who should report the incident to the Superintendent.
2. Principal is to evacuate the building. Use evacuation plan for fire from the School Safety Plan, but plan to move off campus if directed by fire officials or law enforcement personnel.
3. Designee should report the information immediately to law enforcement and to the fire department.
4. Law enforcement officials should be met by the principal or designee and escorted to the scene of the suspected bomb.
5. Cooperate with law enforcement and fire officials. Do not allow re-entry in the building until they have given the "all clear".
