FOR IMMEDIATE RELEASE:

July 27, 2022

Stewart County School District Self-Reporting for COVID

LUMPKIN- Stewart County School District has developed a self-reporting form that you would complete for a positive Covid-19 test. If you have had a direct exposure and are fully vaccinated, with no symptoms, you would continue to work and **MUST** be appropriately masked at all times. In addition, you would need to monitor your symptoms for the next 14 days. If you are vaccinated, fully may work, monitor symptoms, and wear a mask. If you are not vaccinated fully or have symptoms would need quarantine and may test out early.

If you develop symptoms over a weekend or after school, please notify your direct supervisor that you will not be at work to be tested. They will forward the needed information to Nurse Patti to follow up with you.
