ACKNOWLEDGEMENTS

2022 MISSISSIPPI COLLEGE-AND-CAREER-READINESS STANDARDS FOR THE SOCIAL STUDIES REVIEW COMMITTEE

The Office of Secondary Education, through the Mississippi Department of Education (MDE), deeply appreciates the time and expertise given by the following individuals to the revision of the *Mississippi College- and Career-Readiness Standards (MS CCRS) for the Social Studies 2021* draft of the *Mississippi College-and-Career-Readiness Standards for Social Studies 2018*.

The 2022 Review Committee consisted of representatives from each of the four congressional districts with a total of 62 members on the Review Committee. The committee members were invited to solicit feedback from the field prior to a face-to-face work session, which was aided by 26 MDE employees serving in the role of facilitator or note-taker. During the revisions process, teachers, administrators, curriculum directors, and university professors had an opportunity to review the proposed 2021 draft of the MS CCRS for Social Studies along with the public comments. A total of 241 educators (Congressional District 1- 56, Congressional District 2-73, Congressional District 3- 58, Congressional District 4-54), as well as seven university professors, gave input into the revision of the standards.

INTRODUCTION

MISSION STATEMENT

The Mississippi Department of Education (MDE) is dedicated to student success, which includes improving student achievement in the social studies, equipping citizens to solve complex problems, and establishing fluent communication skills, while preparing students for college, career, and civic life. The Mississippi College- and Career-Readiness Standards (MS CCRS) provide a consistent, clear understanding of what students are expected to know and be able to do by the end of each grade level or course. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and allowing students to compete in the global economy.

PURPOSE

This document is designed to provide districts and K-12 social studies teachers with a basis for curriculum development. In order to prepare students for careers and college, it outlines what knowledge students should obtain, and the types of skills students must master upon successful completion of each grade level. The *2022 MS CCRS for the Social Studies* reflect national expectations while focusing on postsecondary success, but they are unique to Mississippi in addressing the needs of our students and teachers. The standards' content centers around four practices: conceptual understanding, fostering inquiry, collaboration and action, and integration of content skills. Instruction in these areas is designed for a greater balance between content and process. Teachers are encouraged to transfer more ownership of the learning process to students, who can then direct their own learning and develop a deeper understanding of the social studies and the problem-solving process. Doing so will produce students who will become more capable, independent, and literate adults.

IMPLEMENTATION

The 2022 MS CCRS for the Social Studies Revision will be implemented during the 2023 – 2024 academic year.

The **SOCIAL STUDIES**

STRANDS

The different content strands in social studies combine to give a clear picture of the past and present. Strands also give depth to the social studies curriculum, enabling students to grasp the complexity of events from the past and present and help them acquire critical thinking skills to make informed decisions in the future. The Mississippi College- and Career-Readiness Standards for the Social Studies 2022 is comprised of five (5) essential content strands: Civics, Civil Rights, Economics, Geography, and History. The five (5) strands remain integrated throughout each of the k-12 social studies courses.

HISTORY

The history strand asks students to examine historical events that significantly changed the way humans live through the study of primary and secondary sources. To gain an in-depth historical understanding, students investigate how the past shapes the present, how people and events have changed society through time, and how localized changes can impact the world power structure.

CIVICS

The civics strand provides students with a basic understanding of civic life, politics, and government. It allows them to comprehend the workings of their own and other political systems, as well as the relationship of the United States. It creates a foundation for competent and responsible participation in our constitutional democracy. The civics strand should be expanded through instruction by related learning experiences in the school and community that enable students to learn how to participate in their own governance.

ECONOMICS

The economic strand allows students to grasp economic concepts, as well as an understanding of markets, the U.S. economy in a global setting, and financial literacy to make informed financial decisions throughout their lives. The strand emphasizes economic reasoning through integration into each grade level and course.

CIVIL RIGHTS

Mississippi Code 37-13-193 requires the Mississippi Department of Education to work with the Mississippi Civil Rights Education Commission to incorporate civil rights education into the state's K-12 educational programs. Civil rights education, as understood by the writers of this framework, is defined as the mastery of content, skills and values that are learned from a focused and meaningful exploration of civil rights issues (both past and present), locally, nationally, and globally. This education should lead learners to understand and appreciate issues such as social justice, power relations, diversity, mutual respect, and civic engagement. Students should acquire a working knowledge of tactics engaged by civil rights activists to achieve social change. Among these are: demonstrations, resistance, organizing, and collective action/unity. The content was incorporated as a content strand throughout the entire K-12 framework at the recommendation of the Mississippi Civil Rights Commission.

GEOGRAPHY

The geography strand equips students with the knowledge, skills, and perspectives of world geography to engage in ethical action regarding self, other people, other species, and Earth's diverse cultures and natural environments. Students learn how to use geographic thinking and information to make well-reasoned decisions and to solve personal and community problems.
