RIVERVIEW GARDENS

SCHOOL DISTRICT

April 24, 2023

Dear Parent/Guardian,

Your child has been identified to attend the Riverview Gardens Spring Forward Summer Reading and Math Program (Grades 6-8 for 2022-2023 SY) because he or she has received one or more failing grades in a core content area. Multiple assessment measures were used to identify students. This summer school reading and math intervention programs are in compliance with the state and District Board policy. There is no charge to you for this great learning opportunity for your child.

IKE: Promotion, Acceleration and Retention:

In accordance with policy, the district may require remediation as a condition of promotion to the next grade level for any student identified by the district as failing to master skills and competencies established for that particular grade level. Remediation may include, but shall not necessarily be limited to, a mandatory summer school program focused on the areas of deficiency or other such alternatives conducted by the district outside of the regular school day.

The Spring Forward Summer Reading and Math Program (Grades 6-8) will be held from June 13 - June 30, 2023. The program will operate daily, Monday through Friday from 8:15am. to 1:30pm. at Central and Westview Middle Schools. Breakfast will be provided from 8:15am to 8:30am. Also, lunch will be provided for all students enrolled in the program. In addition, transportation will be provided for your child to and from school. The Transportation Department will notify you by mail with your child's bus stop and times for pick up and drop off.

Students identified to attend will receive reading remediation in the areas of foundational reading skills. The focus is designed to help students to read to improve basic reading skills and interact with text. The goal is to improve students' reading comprehension and phonic skills. Teachers will model effective strategies through small group/guided reading instruction using leveled text aligned to students' reading ability. The program is designed to teach valuable reading skills that children may apply during the next school year. Also, students will receive math remediation in the areas of basic math skills. The focus is designed to help students improve basic math skills and problem solve. The goal is to improve students' math skills. Teachers will model effective math strategies through small group/guided math instruction that align with students' math ability. Both programs are designed to teach valuable reading and math skills that children may apply during the next school year.

This will offer your child an opportunity for students to "Spring Forward" during the summer so he/she may have greater academic success next year. It is imperative that your child attend summer school daily for consideration of promotion to the next grade level

Please complete the registration form and return it to your child's school front office no later than Friday, May 5, 2023. Please register early. There is no cost to you for this program. There is limited enrollment space in this program.

You may contact Diane Roche, the Administrative Assistant for the Curriculum and Instruction Department, if you have questions regarding the summer school program. She can be contacted by phone at 314-869-2505, Ext. 20121 or by email at droche@rgsd.k12.mo.us
We look forward to working with you and your child this summer.

Sincerely,

Stacey Nichols, Ed. D.

Assistant Superintendent of Curriculum and Instruction
