

REQUEST FOR PROPOSAL Q&A

Student Mental / Behavioral Health Services

1. What grades 6–12 enrollment figure should respondents use? Public NCES data shows about 299 for 2024–25.

FurLOW has approximately 297 students enrolled in grades 6th - 12th. Not all students will need the service.

2. Does GaDOE or FurLOW require a specific format or frequency for utilization reporting under this grant, such as monthly reports by MTSS tier?

Yes. GaDOE requires a mid-year report which will request information regarding the number of students served at Tiers 1, 2, and 3; specific funding allocated for contracted services, tele-health, and school district personnel; and additional types of services provided. FurLOW would like monthly reports of utilization and services provided.

3. What is the grant's period of performance, meaning the dates by which funds must be spent?

Funds must be spent by June 30, 2027. However, we aim to have funds expended no later than our last day of the current school year, which is May 21, 2027.

4. Would FurLOW welcome an optional, separately priced K–5 quote using non-grant funds, kept fully separate from the \$15,404 grant-funded proposal? If so, should it go in the proposal or as a separate document?

We are not considering other quotes at this time.
