6th Period • 2:10–3:00

OUR GUIDING QUESTION FOR THE YEAR

"How does the study of the physical sciences help me understand my place in the world?"

OUR CLASSROOM RULES

R Be Responsible

No tardiness — come prepared and be in your seat at the bell.

R Be Respectful

No loud outbursts or disruptions; hands to yourself; no negative comments toward others.

R Be Resourceful

Check yourself for understanding, and contribute to the group in collaborative settings.

GRADING BREAKDOWN

IF A CLASSROOM RULE IS BROKEN

1

Verbal warning

Student-teacher conference

2

Break detention

+ ParentSquare notice

3

Break detention

+ ParentSquare notice (repeat)

4

Office referral

For repeated offenses

More severe offenses may skip steps. Follows the Autauga County Code of Conduct's Class A progression.

CELL PHONES & ELECTRONIC DEVICES — FOCUS ACT

Phones & devices must be powered off and stored away during the instructional day. I will not confiscate — a student with a phone out is directed to put it away and receives a referral. 1st offense (7th/8th grade) = 1 day ISS.

GOOD TO KNOW

Make-Up Work

Up to 1 week after an excused absence to make up work — contact me as soon as you're back. Unexcused absences may receive a zero, but I'll still work with you when I can.

Assignments & Resources

Lesson plans at www.marburymiddle.com.
Notes & assignments posted on Schoology.
Stay on top of due dates — it's your responsibility.

Lab Fee & Workbook

Optional \$10 lab contribution supports our lab equipment for the year. Every student gets a science workbook — keep up with it; we use it often.
