

MANAGE YOUR CLASSROOM YOUR WAY

Monitor and manage all of the Chromebooks, PCs, Macs, and CloudReady devices in your classroom from a modern, intuitive solution delivered any way you want it

MAINTAIN STUDENT FOCUS

AristotleK12's intuitive interface allows you to maintain complete control over technology in your classroom. Real-time viewing of student screens, complete browser tab control, and the ability to lock-down student devices for testing and lecturing enable you to keep students on task and having fun with technology.

ANSWER QUESTIONS

Automated reporting features within AristotleK12 ensure you have answers to your most pressing questions. The system automatically sends attendance records after class, emails activity summaries to parents, and generates individual activity summary reports for every student allowing you to see how students choose to spend their free time in class.

INTERACT WITH STUDENTS

Ensure student success with the ability to help students discretely and easily. AristotleK12 allows you to chat with students 1on1 to answer questions and help with work, share your screen with the class on their devices, open web pages for students, or send messages to the class, effectively enabling you to help students succeed.

ENSURE STUDENT SAFETY

Maintain order and safety in the classroom with AristotleK12's robust filtering and alerting functionality. Change filter settings to block or allow websites needed for your class, get real-time alerts of dangerous or inappropriate activity, and automatically highlight off-task students on teacher screens to create teachable moments and promote strong digital citizenship.

ALL-IN-ONE K12 TECHNOLOGY MANAGEMENT
AS SIMPLE AS A LIGHT-SWITCH

Student Technology Has Changed, Shouldn't Your Classroom Management?

"It is important to remember that educational software, like textbooks, is only one tool in the learning process. Neither can be a substitute for well-trained teachers, leadership, and parental involvement."

- Keith Krueger, CEO CoSN

While student technology has continued to evolve, Classroom Management software has remained stagnant. Educators are expected to change their teaching style and lesson plans to fit the needs of management tools. Being as Simple as a Light Switch to use, AristotleK12 allows educators, school leaders, and parents to bring the latest K12 technology into children's education without negative impact on teaching styles, learning outcomes, or the network.
